Sydney,

The audience will be entirely made up of executives and employees of the ICAC member companies, along with some AJW staff. The full list of member companies is available on the ICAC website: http://www.icac.com/?page=Members

These are the companies that manufacture and service the technologies that allow coal and gas combustion units to operate within requirements for meeting clean air standards.

Please let me know if you, or anyone else has further questions, and thank you again for all of your help.

Best,

Hessler

Hi all – Looping in a few more members of our press team. I noticed that our schedule is different from what's listed below. Here is the latest proposed line-by-line I have for the event:

- 11:10 AM EST Administrator Pruitt arrives
- 11:10 – 11:45 AM EST Discussion with coal miners in locker room and media availability, open press.
- 11:45 – 1:00 PM EST Private roundtable lunch with leadership, closed press.
- 1:00 - 1:45 PM EST Safety training and gear up, closed press.
- 1:45 – 3:45 PM EST Underground mine tour, closed press.
- 3:45 PM EST – Depart

Let me know if anyone has any changes to this.

Would an 11:00 EST call tomorrow work for everyone to go over press logistics?

Thank you,

Amy

Tommy—starting to tee up a memo for the Administrator on this visit. I have a few questions below:

Discussion with Coal Miner: Who will be the person to kick off the conversation? Could we have a short blurb about this person?

Roundtable Discussion: Do you have the names of the folks who will join the roundtable discussion, as well as a blurb about their role? Who will be the "MC" to help facilitate the conversation?

Underground Mine Tour: Who will be the lead on the tour? Could we also have a small blurb about this person?

Hi all – Looping in a few more members of our press team. I noticed that our schedule is different from what's listed below. Here is the latest proposed line-by-line I have for the event:

- 11:10 AM EST Administrator Pruitt arrives
- 11:10 – 11:45 AM EST Discussion with coal miners in locker room and media availability, open press.
- 11:45 – 1:00 PM EST Private roundtable lunch with leadership, closed press.
- 1:00 - 1:45 PM EST Safety training and gear up, closed press.
- 1:45 – 3:45 PM EST Underground mine tour, closed press.
- 3:45 PM EST – Depart

Let me know if anyone has any changes to this.

Would an 11:00 EST call tomorrow work for everyone to go over press logistics?

Thank you,

Amy

Adding Zach Smith and Brian Aiello to this communication. They will be helping plan and stage this visit.

Below is a proposed framework to further discuss. Let us know when we can revisit this talk to put a finer point on the plan.

Harvey Mine- Patterson Creek Portal

1100am- Arrival at portal

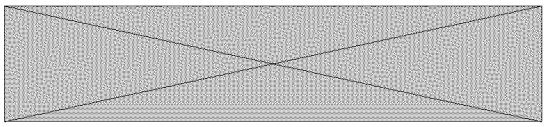
11:15am-1200pm- Private roundtable discussion and lunch

1200-12:30-Safety training and overview

12:30-12:45- Gear up

100pm-300pm- Underground

- Harvey- 25 minute man trip each way gives us about an hour underground at the longwall



300pm-330pm- Press conference and employee event at the portal

2017AgAmericaSpringWashingtonOverallAgenda040517.docx.pdf

Hi Lincoln!
Do you by chance have a short bio of Administrator Pruitt I could pass on to Commissioner Quarles? Please find our full agenda attached for your reference.

As far as direction for today, I discussed with our internal team that the attendee group would be most interested in hearing Administrator Pruitt's cast his vision of the department. Once that is shared, the conversation between the Administrator and Commissioner Quarles can begin, and questions from attendees will arise.

If there are any points you'd like to share that the Administrator would like to cover, I can pass on to Commissioner Quarles and get him up to speed.

If you need anything, please don't hesitate to reach out this morning! 512-773-4840.

Same to you, Millan!

Thank you!
Lynley

Subject: Introduction - Ag America talking points

Lynley,

It was wonderful to speak with you by phone this morning. Per our conversation, I am connecting you with Lincoln Ferguson who will help to develop talking points for the Administrator's participation on Wednesday.

Lincoln – upon chatting with Lynley, we agreed that a discussion format with Chairman Ryan Quarles would work very well. I'll leave it to you to make the final decision.

Please let me know if I can help further.

Subject: Schedule Request for Administrator Pruitt

Millan & Sydney—

Good afternoon! Ron Hays with the Radio Oklahoma Network in Oklahoma City shared your contact information with me.

The National Association of Farm Broadcasting will hold its annual Washington Watch event next month in our nation's capital. Farm broadcasters in attendance come from a diverse geography across the US, covering a variety of issues. These broadcast journalists connect with the nation's farmers and ranchers multiple times daily in their broadcasts and are responsible for communicating the developments of regulation and legislation with their listeners and viewers.

Our group of over 35 broadcasters will be at the US Department of Agriculture in the Williamsburg Room (Room 104-A of the Whitten Building) on the morning of Tuesday, May 2, and have invited the Secretary of Agriculture nominee, along with other members of the USDA team to meet with us for remarks and a question and answer session. A request has also been shared with Interior Secretary Zinke's office. I'm reaching out to you to request Administrator Pruitt also speak during our time at USDA. The session would include approximately 5-10 minutes of speaking time from the Administrator, followed by a question and answer session with farm broadcasters.

Please let me know what additional information I can provide and if there are additional contacts at EPA we should contact to include the Administrator in our program.

Thank you for your consideration. I'll look forward to hearing from you or one of the members of your team.

March 8, 2017

Administrator Scott Pruitt

Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

sent via email: dickerson.aaron@epa.gov

Dear Administrator Pruitt:

The Northwest's leading independent, free-market think tank, Washington Policy Center (WPC), would like to invite you to be the keynote speaker for our statewide 2017 Solutions Summit policy conference in Washington state. The event will be held on Tuesday, May 16, 2017 in Spokane. We hope this date will work with your schedule.

Washington Policy Center will be honored to host you and cover all first-class travel costs for you and a staff member or guest.

The statewide event encompasses two half-day conferences that are designed to provide insight and solutions for our region's top policy challenges. Each conference will feature panels on: the environment, agriculture, education, transportation, budget and taxes, health care, and business & labor reform issues. They will bring together prominent local and national speakers on each of these important issues to help shape the public debate by educating policymakers and informing citizens.

This is our state's largest policy event that will be attended by over 700 people including lawmakers, business and community leaders, media, and civic-minded citizens from across the state. We would be honored to have you join us as the keynote speaker at lunch for the event in Spokane.

Washington Policy Center is a non-profit think tank, similar to The Heritage Foundation and the American Enterprise Institute, and one of the largest and most impactful members of State Policy Network. Our research and education advance the public debate and develop innovative policy solutions.

Year-in and year-out, WPC's events are some of the best-attended in our state, and are a must-attend for some of the nation's top policy leaders including Defense Secretary Gen. Jim Mattis, Dr. Charles Krauthammer, Gov. Susana Martinez, former Defense Secretary Robert Gates, Dr. Ben Carson, Governor Scott Walker, Governor Bobby Jindal, and Governor Mitch Daniels.

Over the past few years, dozens of our ideas have been passed by voters and the legislature and signed into law. Citizens depend on our analysis to make decisions on our state's pressing public policy matters. Our work is featured in the media an average of over seven

times a day and has been covered by national media including *USA Today*, CBS News, Fox News, and *The Wall Street Journal*.

Thank you for your consideration of our request. I hope to hear from you at your earliest convenience so we can begin planning your visit.

Sincerely,

Dann Mead Smith

Hayley. Sorry I missed your call. Don't tend to answer if no name pops up. Will check the dates with my colleagues tomorrow and get back to you. Becky

Sent from my BlackBerry 10 smartphone.

[redacted]

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

Hi Liz,

As promised, I wanted to touch base with you about Administrator Pruitt's December 13 event at the Hoover in Washington, DC office. When we talked a month or so ago we settled on the following:

- December 13, 11am-Noon
- off-the-record with no live stream
- recorded for possible future Opening Arguments podcast if your office provides permission
- invite only with approximately 40 people

Just wanted to make sure this was still agreeable. If so, Erin will be working a draft invitation to share with you for approval. We will also provide you with a list of those we intend to invite. If there is anyone on your end you want to make sure gets an invitation please send us the name, email, and affiliation.

In the meantime, if you have any questions or concerns feel free to contact me. Me look forward to hosting the Administrator in December.

Best,

Paige

Hi Paige – I work for EPA Administrator Scott Pruitt and your email below was passed along by our scheduling team. I'm reaching out to see if you can share some more detail about the November Opening Arguments event. Can you tell us a about that event and the format? Would the Administrator be speaking alone at a podium, or would his remarks be part of a panel or a moderated conversation? Who will be in the

audience – and how many people would you expect? Is the event open press, or is it streamed live online? Would you plan to announce the Administrator's participation in advance of the event?

Any additional details you can share will be helpful to us as we determine what is possible in the Administrator's schedule.

Thank you,

Amy

Subject: RE: Invitation

Good morning! Or afternoon on the eastern seaboard…

Attached please find the day's official schedule – below is details for Mr. Pruitt of the morning.

9:00 – 10:15 am RM McGrew coffee roundtable with Mr. Pruitt -

16 friendly Industry leaders will be invited to attend they will arrive at 8:30 with the Administrator expected to arrive at 9:00 am. Jerry Howard, CEO of NAHB will welcome and introduce Mr. Pruitt. Mr. Pruitt will be left alone in that room to drink coffee and collect his thoughts.

Meanwhile in the very close room : Rm Rocky Mountain A&B

- 10:30am – 10:50 am registration and mingling will be taking place. (administrator is welcome prior to 11:00 if desired)
- 11:00 We will seat for lunch.
- 11:20am Program starts the Mayor of Colorado Springs, John Suthers, who is a personal friend of Mr. Pruitt, will introduce both Jerry Howard and Mr. Pruitt. The Mayor's introduction will be light and personal for Mr. Pruitt with no mention of current events in the Colorado Springs area.
- 11:30 am Mr. Pruitt will address the audience on topics of his choosing for 20 minutes – set the stage
- 11:50 -12:30pm Jerry Howard will moderate Q&A on Industry issues set forth in advance and possibly from the audience – who are all industry friendly and supportive of Mr. Pruitt and his efforts.

Event is planned to end at 12:30pm.

Lunch Details:

Attendance between 100-150

Stage will be set for two a fireside conversation between Mr. Howard and Mr. Pruitt, each will be wearing a Lavalier mic.

Please join us
for an exclusive construction industry conversation with

EPA Administrator Scott Pruitt

and

NAHB CEO Jerry Howard

This invitation-only special event is a rare opportunity to hear directly from the EPA administration as well as NAHB CEO Jerry Howard. Featuring opening remarks by Administrator Pruitt, a candid conversation between Administrator Pruitt and Jerry Howard about EPA Regulation as it relates to the industry, and a question and answer session moderated by Jerry Howard– this is our chance to make sure the concerns of our industry are being listened to by the new administration. This event will address construction-industry issues such as the EPA's impact on the Clean Water Act and Waters of the United States, as well as the EPA's plans for the future including administering the Clean Water Act and what it means for the industry.

Attendance is limited

Thursday, October 5th

9:00 AM — 10:00 AM – Coffee Roundtable (invitation-only)
10:30 AM — 11:00 AM — Check-in & reception
11:00 AM — 12:30 PM - Conversation with EPA, NAHB and lunch
1:00 PM – Broadmoor golf outing (optional)
The Broadmoor Hotel, 1 Lake Avenue, Colorado Springs, CO 80906

This event is by invitation-only. If you are interested in attending you must contact Kitt Smith at the Housing & Building Association of Colorado Springs at 719-592-1800 ext. 100 or kitt@cshba.com. All registrations will be vetted by CAHB, all attendees must be pre-registered to attend.

Tables must be reserved by Friday, September 29th. Attendee names must be submitted to Kitt Smith by Tuesday, October 3rd

Subject: Speaker Logistics for the Resource Bank Meeting

Dear Mr. Pruitt,

Thank you in advance for your participation as a speaker at the 2017 Resource Bank Meeting on May 10-12 in Colorado Springs.

Please see below for next steps to help facilitate your planning for Resource Bank 2017.

Speaker Registration
I have already registered you as one of our speakers. In order to complete your speaker profile, please feel free to send me your biography, photo, and any social media information you would like to share and I can take care of adding that as well.

If you have any staff who will be accompanying you to this event, please have them register here.

Session Details
Please note the confirmed details for the Robert H. Krieble Dinner on May 11 at 6:30 PM listed on the Resource Bank 2017 website.

Travel Arrangements
Heritage will pay for round-trip airfare for you to and from Colorado Springs.

•□□□□□□□ If you would like, please feel free to book your travel to Heritage's account through World Travel by calling 888-602-6655; tell the agent you are traveling for Heritage's Resource Bank Meeting.

•□□□□□□□ If you wish to book your own travel, please forward your itinerary by April 14 and retain receipts for reimbursement after the event.

Please schedule your travel to ensure that you **arrive no less than 2 hours prior to the start of your session**.

Hotel Accommodations
Heritage will reserve your room at The Broadmoor and pay for one night of accommodations before or after your session. **Please confirm that you only need the night of May 11 for hotel accommodations.**

Thank you again for your contribution to the Resource Bank Meeting. If I can assist in any way, please feel free to contact me.

Sincerely,

Jessica Larsen

Good afternoon!

I just wanted to follow up on a couple of things: I've attached an updated request form,

which reflects that Larry Mone (our President) will be introducing the Administrator next week.

I also wanted to check in to see if you all had any feedback on the 6/21 event invitation draft I sent a few days ago (reattached here). We'd like to send those out next week, so if we can have any feedback by Monday, that would be great.

Lastly, we just need an approved bio for Admin. Pruitt.

As always, feel free to reach out with any questions/concerns. I look forward to seeing you for the walk-through on Tuesday.

Have a great weekend!

Hi Millan!

As promised, I've attached the completed request form. The only thing I left blank is the name of the introducer, only because that hasn't yet been worked out. That said, it'll be one of three people: our President, Larry Mone; our Executive VP, Vanessa Mendoza; or our Board Chairman, Paul Singer. We should know by tomorrow, so I can resend this to you with that slot filled in if you like; but I thought you might want to have it asap.

Sydney-

Thanks to Congressman Scalise's office…I'm able to push the Administrator into that 2:15-2:45 pm slot!

Updated paperwork, speaker guidelines and program attached. In addition, belwo is a narrative bio we've written up based upon his long version on the website. Feel free to make changes or let me know if it's okay as is.

On February 17, 2017, the U.S. Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment. Most recently, he served as the Attorney General for Oklahoma. Mr. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. He has a proven track record of working with others, including industry, farmers, ranchers, landowners and small business owners, who want to do the right thing by the environment. He is recognized as a leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. After earning his Bachelor's Degree from Georgetown College and graduating from the University of Tulsa College of Law, Mr. Pruitt went into private legal practice, specializing in constitutional law. In addition to his life as a civil servant, Mr. Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped it become one of the minor league leaders in attendance and merchandise sales. Mr. Pruitt and his wife Marlyn proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Thanks so much,

Amy

Sorry all…I accidentally sent the attached docs before adding my message.

Sydney…here's the first confirmation document. Included is a speaker release form (last page). The Administrator does not need to sign this. However, if he chooses to do so, please also look at our Speaker Guidelines as well.

If he does not sign, we will record his remarks (audio and video) for archival purposes only, meaning that CNP will retain a copy for our historical records, and we will send your office a copy as well. But we will not share the presentation with our members.

Let me know if there are any questions about these documents. I look forward to hearing back from you and welcome any questions.

Best,

Amy

COUNCIL FOR NATIONAL POLICY

May 5, 2017

The Honorable E. Scott Pruitt
Administrator
U.S. Environmental Protection Agency
Office of the Administrator - 1101A
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt:

Thanks for accepting our invitation to speak at the May 18-20, 2017 Council for National Policy meeting at The Ritz-Carlton, Tysons Corner in McLean, Virginia.

This letter will establish the preliminary details of your presentation. **Please review and respond to the information on the following pages at your earliest convenience**.

Included in this document is a copy of our standard speaker release and guidelines form. Following meetings, we distribute recordings of speaker remarks to members and guests and occasionally post remarks to our website. However, we only do these things with your prior approval.

If you're willing to have your remarks recorded and released, please sign and return the form by email to amy@cfnp.org or by fax to (202) 207-0173. Otherwise, we will record for archival purposes only and will send you a copy.

Once again, we're grateful for your participation, and I look forward to working with you.

Warmest regards,

Amy Greene

Good morning Sydney,

Unfortunately, we are flying into DC the afternoon of March 28… please let me know, if the original March 29 proposal does or does NOT work for Administrator Pruitt, please! We are leaving DC the afternoon of March 31 and heading to Annapolis, Maryland until the evening of April 2… we are even open to the idea of possibly meeting with Administrator Pruitt in Annapolis on one of the later dates, if he is available! Please let me know, at your earliest

convenience!

Hi Tasha,

Hope you are doing well! Michelle forwarded on to me your request to meet with Administrator Pruitt on March 29th during your Congressional Action Tour. It is actually looking like we might be traveling on the 29th, leaving the afternoon of the 28th. Is there any possibility of you being able to meet on the morning of the 28th? Additionally, would you mind completing the attached meeting request form? Due to the large amount of scheduling requests coming in we are trying to streamline efforts a little bit. I am really hoping this meeting works out, we would love to see our Farm Bureau Friends!!

Best,

Sydney Hupp

Hi Jahan,

We would like to send out a "News Flash" about Administrator Pruitt opening our conference immediately after the session – once he has left the Westin. Something similar to the attached, but adjusted based on the actual conversation flow. It would go to our entire membership and trade press.

Would that be ok? We are trying to scoop the trade press that is in the room so our members who are not in attendance hear about his conversation from us first.

Please let me know your thoughts and have a super weekend.

Jahan,

Would it be ok if we handed out the postcards (attached again for your convenience) during our conference registration on Wednesday? Registration opens at noon and Administrator Pruitt speaks at 3PM that same day. It would be a nice "wow" factor for our attendees. They would receive a postcard as they pick up their conference badge – kind of a "you won't want to miss this session" message.

Millan is a good friend and I have gotten to know her and the Administrator over the last few years. They are doing some very important things at EPA and I think it would be great for you and the Administrator to meet. Scott is also from Kentucky - so I know that is always the best base for a friendship!

Warm Regards,

Matt

Subject: Follow-Up Items for Administrator Pruitt

Hello Millan,

Thank you so much for your time today on our call. Here are the follow-up items we discussed:

1. The program director is working on an overview of the talk he is giving now and I will pass it along to you as soon as I have it

2. As mentioned on the call, both the Administrator and Rep. Jim Jordan will be speaking during the dinner program

3. Our complete program agenda can be found here: https://www.rb2017.org/index/agenda

4. Mr. Meese will not be in attendance this year

5. We will send you the list of guests as his table as soon as we confirm them

The items you will send me once you have them available:

1. The names and hotel dates of the Administrator's staff

2. The confirmed date/time of the walk through with his advance team

3. Additional item: can you please have all staff attending Resource Bank with the Administrator register using this link by COB tomorrow: https://www.rb2017.org/index/begin?reg_type_id=9717

Let me know if you have any additional questions or concerns. Thank you!

Jessica

Subject: Ideas for Dinner on the 4th

Good afternoon Millan, as discussed there are a couple of ideas for small private dinner or

reception the evening of the 4th, if the Administrator is so inclined. Please remember, while I or my Executive team members have close relationships with the following, none have actually been contracted to attend. I thought best to clear this idea with you and your team first.

First idea is a dinner with owners and/or CEOs of companies effected by the EPA on a daily basis and who are supportive of the Administrator:

- Bill Hybl - President and CEO of El Pomar Foundation
- Phil Anschutz and/ or his son in law, who's name escapes me but is the CEO of oil and gas side of the Anschutz Corporation
- Larry Mizel - Chairmen and CEO MDC Holding
- George Solich - President and CEO FourPoint Energy
- Charlie McNeil - CEO of Nexgen Resources
- Jim Johnson - CEO & Chairman of GE Johnson

Another idea would be to meet with the CEO's of Industry Associations who are heavily impacted by the EPA;

- Colorado Mining Association
- Associated General Contractors of Colorado
- Colorado Oil and Gas Association
- Colorado Home Builders Association
- Western Energy Alliance

Our appreciation for Administrator Pruitt's commitment to remove or reduce barriers to business cannot be fully expressed. The idea of hosting a small private dinner or reception is only an effort to say thank you and maximize his trip to Colorado Springs. If Mr. Pruitt wishes to do something else Wednesday evening, I am here to help in any way.

Sincerely,

Renee Zentz

To: Hupp, Millan[hupp.millan@epa.gov]
From: Larsen, Jessica
Sent: Fri 5/5/2017 4:47:01 PM
Subject: Resource Bank Address Timeline
Thursday Dinner Timeline_as of 5.5.docx

Hi Millan,

Following up on our conversation earlier this week, attached is a detailed timeline of the dinner event Administrator Pruitt is speaking at next week. In addition, below is a detailed overview of the presentations:

Rep. Jordan should speak for 10 minutes (before dinner). Administrator Pruitt should speak for 10 minutes, and will speak after the main course. After Pruitt, John Malcolm will come up and Rep. Jordan will return to the stage for a moderated Q&A led by John Malcolm (the Heritage Foundation).

The topic: Why And How We Can Limit The Federal Government

Rep. Jordan should draw from his time as a leader in the Ohio State House as well as his work in the Congress to explain the need to limit the government, the frustrations in moving in this direction, and an idea of the way forward. The recent AHCA and Omnibus are good illustrations. And it might be good to let them know about a few upcoming issues. The audience is made up of leaders of think tanks, policy experts and donors. The theme of the conference is "Rise to the Challenge." He should definitely give the audience a stake in the fights ahead and some suggestions of what they can do to help turn the country around.

Administrator Pruitt's experience in the states as a leader among the attorneys general will also bring an added perspective to his comments. He should remind the audience of some of the fights he was engaged in with the Obama Administration (and just how bad it was). His selection as EPA Administrator (and maybe mention Sen. Sessions as AG and others now in the Administration who have fought hard to rollback and contain the power of the federal government) should give us hope. The Paris Climate Agreement is one area the

audience will be interested in hearing about. The Executive Orders and review of regulations are other ways the Administration is beginning to turn the corner.

Both can speak as allies who have looked at Washington as a problem. They have led in the states. They have taken the federal government to court. They inspire others to do the same.

John Malcolm's moderated Q&A will be more of a conversation to draw out some of these themes, point out the different roles the states and Congress have in these fights and tease out a few of the ideas of the way forward.

Question: can you confirm if the administrator prefers a lav or podium mic for his remarks?
Please let me know if you have any questions or concerns with this information.

Sincerely,

Jessica

As discussed, I think it would be great for Nate and the Administrator get together and Nate would be happy to come to Washington to meet. I have also cc'd Michael Allegretti, on Nate's team.

Nate,

Millan is a good friend and I have gotten to know her and the Administrator over the last few years. They are doing some very important things at EPA and I think it would be great for you and the Administrator to meet. Scott is also from Kentucky - so I know that is always the best base for a friendship!

Warm Regards,

Matt

Subject: NOTICE TO THE PRESS: World Water Day at State

U.S. DEPARTMENT OF STATE

Office of the Spokesperson

For Immediate Release

NOTICE TO THE PRESS

March 20, 2017

World Water Day at State

On March 22, World Water Day, the U.S. Water Partnership will host the 2017 U.S. Water Partnership All Partners Meeting in the Department of State's George C. Marshall Conference Center. The meeting will be open to the press from 9a.m. to 10:10 a.m.

The U.S. Water Partnership is a 120-member public-private partnership that was launched in 2012 to unite and mobilize U.S. knowledge, expertise, and resources to improve water security. This event will bring together members of the Partnership to discuss water innovation, security, infrastructure finance, and equity and affordability.

Keynote speakers will include U.S. Environmental Protection Agency Administrator Scott Pruitt and President and CEO of the National Geographic Society Gary E. Knell. Administrator Pruitt will speak about elevating America's water infrastructure as a national priority. Mr. Knell will announce National Geographic's first venture into the public policy space to convene nonpartisan, fact-based dialogues between National Geographic experts and important leaders in

Washington about water and other complex issues affecting the U.S. today.

To cover other events planned by the U.S. Water Partnership for World Water Day please review their media release.

The event is open to the press. Pre-set time for cameras is 8:15 am from the 21st Street entrance. Final access time for writers and stills is 8:45 am from the 21st Street entrance. The open press portion of the day will conclude at 10:10 am. Due to another event in the building, press must enter at 21st Street to cover this event.

Please R.S.V.P to Esther Bell at BellEF@State.gov by 5pm Monday, March 20, 2017, with your first and last name, date of birth, and passport or driver's license number.

Media representatives may attend this event upon presentation of one of the following: (1) a U.S. Government-issued photo media credential (e.g., Department of State, White House, Congress, Department of Defense or Foreign Press Center), or (2) an official photo identification card issued by their news organization, or (3) a letter from their employer on official letterhead verifying their current employment as a journalist.

Additionally, they must present an official government photo identification card (i.e., U.S. driver's license or passport).

For further information, please contact the Bureau of Oceans and International Environmental and Scientific Affairs (OES) at BellEF@state.gov or 202-647-1511 or follow @StateDeptOES.

Subject: RE: AZ Chamber Contact Info

Katie and Morgan,

It was such a pleasure to chat with you yesterday. We are very much looking forward to this visit on October 6 and look forward to further exploring a smaller meeting/roundtable with some of your execs as well. Also, just so you are aware, I am copying our Staff Advance lead, Forrest McMurray, and our Security Advance lead, Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F

Forrest – we have agreed upon a one-on-one discussion with their CEO with controlled Q&A. I have also alerted them that the Administrator has a 1:55PM flight to his next location and they have generously agreed to assist us in ensuring that he is on the road to the airport (9 miles, 12 minutes) by 1:00PM.

Katie and Morgan -- please also note that I am copying Amy Graham in our press shop. She will be able to answer your initial press related questions as well as offer direction on the invitation you have provided.

Amy – Katie and Morgan are hopeful to invite local press and to begin inviting/promoting to members. I asked that they kindly connect with you first before doing so.

Thank you so much. I look forward to working with you both.

Hi Millan,

Thanks again for talking with us today, we are so looking forward to having Administrator Pruitt at the event!

I have attached the flyer that we would like to push out to our list. The people on the list are general membership of about 4,000 people. We also want to be sure it is okay to promote this on our social media, which mentions both Administrator Pruitt and Sen. Jeff Flake will be at the lunch. Let me know if this is okay to send out.

You will also see that the flyer has our different sponsors for the event.

Please feel free to reach out by phone or email with any thoughts or concerns, thanks!

Best,

Hello Millan,

First of all I wanted to tell you how wonderful it was to work with you and your team at our convention this year in Nashville. I have never worked with anyone so professional, yet so polite and humble, what a great experience.

I have a question for you and I do apologize for taking up your time. The photographer that was with your group at our event at the Hilton Nashville Downtown Monday morning, October 23rd took pictures of the Administrator and Mr. Greseth and Charlie Polston on stage. He said he would forward me the photos. I either gave him the wrong email, deleted the email because I did not recognize his name or he has not sent them yet.

Any chance you can forward my request for the photos or send me his email address so I may contact him.

Thank you so much and the Best of Luck in all you do!

Sincerely,

Subject: NOTICE TO THE PRESS: World Water Day at State

U.S. DEPARTMENT OF STATE

Office of the Spokesperson

For Immediate Release

NOTICE TO THE PRESS

March 20, 2017

World Water Day at State

On March 22, World Water Day, the U.S. Water Partnership will host the 2017 U.S. Water Partnership All Partners Meeting in the Department of State's George C. Marshall Conference Center. The meeting will be open to the press from 9a.m. to 10:10 a.m.

The U.S. Water Partnership is a 120-member public-private partnership that was launched in 2012 to unite and mobilize U.S. knowledge, expertise, and resources to improve water security. This event will bring together members of the Partnership to discuss water innovation, security, infrastructure finance, and equity and affordability.

Keynote speakers will include U.S. Environmental Protection Agency Administrator Scott Pruitt and President and CEO of the National Geographic Society Gary E. Knell. Administrator Pruitt will speak about elevating America's water infrastructure as a national priority. Mr. Knell will announce National Geographic's first venture into the public policy space to convene nonpartisan, fact-based dialogues between National Geographic experts and important leaders in Washington about water and other complex issues affecting the U.S. today.

To cover other events planned by the U.S. Water Partnership for World Water Day please review their media release.

The event is open to the press. Pre-set time for cameras is 8:15 am from the 21st Street entrance. Final access time for writers and stills is 8:45 am from the 21st Street entrance. The open press portion of the day will conclude at 10:10 am. Due to another event in the building, press must enter at 21st Street to cover this event.

Please R.S.V.P to Esther Bell at BellEF@State.gov by 5pm Monday, March 20, 2017, with your first and last name, date of birth, and passport or driver's license number.

Media representatives may attend this event upon presentation of one of the following: (1) a U.S.

Government-issued photo media credential (e.g., Department of State, White House, Congress, Department of Defense or Foreign Press Center), or (2) an official photo identification card issued by their news organization, or (3) a letter from their employer on official letterhead verifying their current employment as a journalist.

Additionally, they must present an official government photo identification card (i.e., U.S. driver's license or passport).

For further information, please contact the Bureau of Oceans and International Environmental and Scientific Affairs (OES) at BellEF@state.gov or 202-647-1511 or follow @StateDeptOES.

Knowing the bookends of the Administrators visit will enable us to plan.

What I had hoped to do is strategize a plan with you or someone at EPA.

If this is possible. let me know.

Good afternoon!

I just wanted to follow up on a couple of things: I've attached an updated request form, which reflects that Larry Mone (our President) will be introducing the Administrator next week.

I also wanted to check in to see if you all had any feedback on the 6/21 event invitation draft I sent a few days ago (reattached here). We'd like to send those out next week, so if we can have any feedback by Monday, that would be great.

Lastly, we just need an approved bio for Admin. Pruitt.

As always, feel free to reach out with any questions/concerns. I look forward to seeing you for the walk-through on Tuesday.

Have a great weekend!

Subject: RE: Speaking Request Form

Hi Millan!

As promised, I've attached the completed request form. The only thing I left blank is the name of the introducer, only because that hasn't yet been worked out. That said, it'll be one of three people: our President, Larry Mone; our Executive VP, Vanessa Mendoza; or our Board Chairman, Paul Singer. We should know by tomorrow, so I can resend this to you with that slot filled in if you like; but I thought you might want to have it asap.

Taisha told me you two connected about the security walk-through for next Tuesday. I'll join you all as well. And Taisha will be sending you an updated RSVP list (if she hasn't already).

Let me know if you need anything else!

Sorry all…I accidentally sent the attached docs before adding my message.

Sydney…here's the first confirmation document. Included is a speaker release form (last page).

The Administrator does not need to sign this. However, if he chooses to do so, please also look at our Speaker Guidelines as well.

If he does not sign, we will record his remarks (audio and video) for archival purposes only, meaning that CNP will retain a copy for our historical records, and we will send your office a copy as well. But we will not share the presentation with our members.

Let me know if there are any questions about these documents. I look forward to hearing back from you and welcome any questions.

Best,

Amy

Hi Sydney-

On Friday, we have 1:45-2:15 pm and 2:15-2:45 pm available. After a brief introduction, the Administrator would have about 25 minutes total for his remarks and any questions he wants to take (if any). Let me know if either option works with his schedule.

Thanks!

Amy

Good morning,

I am assisting the scheduler to set up a briefing although the Administrator will be out of the office on travel. Can you give me a few topics the AAW would be interest in hearing. We have staff meeting on Monday until 2:00 pm, therefore we would need to 2:15-2:45 (processing and seated) 2:45-3:30 pm for briefers. How many attendee's this year? I would need to do the security passes which they are still processed through our security with a valid identification.

Good afternoon Cheryl,

I have been working with Ruth Jensen to schedule appointments for American Agri-Women (AAW) while we host our Fly-In in Washington DC. I appreciate your help in setting up our time at EPA! We can be at EPA in time to go through security at 1:15 p.m. and meet from 1:45-2:45 on Monday, June 5.

I have tried emailing my contact within the EPA Ryan Jackson, but haven't been successful yet in setting up a meeting time or space. I really appreciate your help. Please let me know if there's additional details I can provide to help with the scheduling.

Jessica,

Yes, I am so sorry! I am also copying our travel coordinator as she may want to work with you on this. Just as a reminder, the rate was $240/nt?

The rooms are as follows..

E. Scott Pruitt – March 11 - 12

Lincoln Ferguson – March 11 - 12

Pasquale Perrotta – March 11 – 12

Chris Smith – March 10 - 12

Brian Boats – March 10 - 12

Millan Hupp – March 10 – 12

Extra room – Marc 10 -12 : someone will be in this room, we just don't have the name yet

Could you also kindly send confirmation numbers once you have them?

Thank you so much,

Millan

Subject: Follow-Up Items for Administrator Pruitt

Hello Millan,

Thank you so much for your time today on our call. Here are the follow-up items we discussed:

1. The program director is working on an overview of the talk he is giving now and I will pass it along to you as soon as I have it

2. As mentioned on the call, both the Administrator and Rep. Jim Jordan will be speaking during the dinner program

3. Our complete program agenda can be found here: https://www.rb2017.org/index/agenda

4. Mr. Meese will not be in attendance this year

5. We will send you the list of guests as his table as soon as we confirm them

The items you will send me once you have them available:

1. The names and hotel dates of the Administrator's staff

2. The confirmed date/time of the walk through with his advance team

3. Additional item: can you please have all staff attending Resource Bank with the Administrator register using this link by COB tomorrow: https://www.rb2017.org/index/begin?reg_type_id=9717

Let me know if you have any additional questions or concerns. Thank you!

Mr. Martella,

Good afternoon to you. Yes, we have you held on the calendar for Wednesday, October 4. We currently have a commitment that morning in DC but expect to be able to get the Administrator into Cincinnati by 1130AM. Additionally, he must travel to Colorado Springs that evening on a 4:50PM flight. Kindly let me know if a timeframe of 1230PM – 330PM might work for what you are envisioning.

Thank you so much for your consideration and I look forward to hearing from you. I have copied Hayley Ford on this email as well as she is assisting us in Scheduling and is likely with whom you will be working.

Warm regards,

Hi Ryan and Samantha—Just wanted to check in to see whether October 4 works for EPA, or if you'd like to discuss a different date. Thanks again -- Roger

Subject: Follow up regarding Administrator Pruitt additive manufacturing site visit

Ryan and Samantha—I hope you are both well. I am following up on the brief discussion with Administrator Pruitt regarding additive manufacturing in the conversation regarding the ICAO aircraft standards.

Attached is an invitation for Administrator Pruitt and his team to visit GE's industry leading additive manufacturing facility in October. We are confident this will be a valuable educational opportunity and something that transforms the way manufacturing is thought about in the future.

This could be scheduled as a day trip to Cincinnati. We propose October 4 but will be flexible around the Administrator's preferences.

Please let me know if I can answer any questions. We look forward to seeing you then. Thank you -- Roger

Hi Juli,
Attached is the spreadsheet with information on all non-members. Hope this is helpful. Let me know if I can do anything else.

Thanks,

Joe

hupp.millan	**Office 365**	**tcomancho**
Action Required		Recipient

Unknown To address

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- **Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "To send this message again, click here." Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click Send.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: Fix email delivery issues for error code 5.1.1 in Office 365, and then send the message again. Retype the entire recipient address before selecting Send.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the More Info for Email Admins section below.

Was this helpful? *Send feedback to Microsoft.*

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see Fix email delivery issues for error code 550 5.1.1 in Office 365.

Jessica,

Yes, I am so sorry! I am also copying our travel coordinator as she may want to work with you on this. Just as a reminder, the rate was $240/nt?

The rooms are as follows..

E. Scott Pruitt – March 11 - 12

Lincoln Ferguson – March 11 - 12

Pasquale Perrotta – March 11 – 12

Chris Smith – March 10 - 12

Brian Boats – March 10 - 12

Millan Hupp – March 10 – 12

Extra room – Marc 10 -12 : someone will be in this room, we just don't have the name yet

Could you also kindly send confirmation numbers once you have them?

Thank you so much,

Millan

Subject: Follow-Up Items for Administrator Pruitt

Hello Millan,

Thank you so much for your time today on our call. Here are the follow-up items we discussed:

1. The program director is working on an overview of the talk he is giving now and I will pass it along to you as soon as I have it

2. As mentioned on the call, both the Administrator and Rep. Jim Jordan will be speaking during the dinner program

3. Our complete program agenda can be found here: https://www.rb2017.org/index/agenda

4. Mr. Meese will not be in attendance this year

5. We will send you the list of guests as his table as soon as we confirm them

The items you will send me once you have them available:

1. The names and hotel dates of the Administrator's staff

2. The confirmed date/time of the walk through with his advance team

3. Additional item: can you please have all staff attending Resource Bank with the Administrator register using this link by COB tomorrow: https://www.rb2017.org/index/begin?reg_type_id=9717

Let me know if you have any additional questions or concerns. Thank you!

Jessica

RE: Evansville Wet Weather Consent Decree
Case No. 3:09-cv-00128-WTL-MPB
Request for Meeting

Dear Mr. Pollins:

The City of Evansville and the Evansville Water & Sewer Utility (collectively, Evansville) would like to request a meeting to discuss significant challenges that have arisen during implementation of its wet weather consent decree.

Through a series of discussions among Evansville, the Indiana Department of Environmental Management (IDEM), the U.S. Environmental Protection Agency, and the U.S. Department of Justice, all parties agreed in late 2015 to revisions to Evansville's Integrated Overflow Control Plan (IOCP). That agreement anticipated an investment of approximately $727 million over 25 years to achieve zero to four combined sewer overflow (CSO) discharges in the typical year.

Evansville believed that the level of investment required would be challenging for the community, and presented evidence that it could fully meet its Clean Water Act obligations, including applicable water quality standards, if it achieved 12 overflows in the typical year. In addition, Evansville demonstrated that the knee-of-the-curve analysis of cost-effectiveness supported a 12-overflow level of control. However, Evansville ultimately agreed to a higher level of control in the interest of avoiding further litigation and the possible risk of incurring substantially greater costs over a shorter period of time.

Unfortunately, it now appears that the cost to fully implement the IOCP is rising dramatically. For projects that have been bid or awarded so far, Evansville is seeing costs between 30 and 70 percent higher than the estimates used as the basis of its agreement with the agencies. If this trend continues, the cost of IOCP implementation will rise to over $1 billion. This is simply unaffordable for the Evansville community. Evansville provides water and sewer services to a population of roughly180,000 people, most of whom live within the city limits. Approximately 21 percent of city residents and over 32 percent of its children live at or below the poverty level, and the city's median household income is $35,785, less than two-thirds of the national median.

Evansville is committed to providing a healthy, clean environment for its residents. This includes protection of water quality in the Ohio River and its tributaries. However, it must be allowed to meet its Clean Water Act obligations in the most cost-effective way possible. Because the IOCP currently requires a level of control greater than that necessary to achieve applicable water quality standards, Evansville believes that a more affordable level of control could be established that remains fully protective of water quality. In addition, incorporation of more flexible implementation requirements could allow Evansville to select more cost-effective control measures based on value engineering, new technologies, and green infrastructure, so long as the agreed level of control is achieved. Finally, revisions to the sanitary sewer requirements contained in the IOCP could allow Evansville to meet industry standards governing capacity, management, operation, and maintenance of its collection system without imposing additional economic hardships on the community.

We would appreciate your assistance in facilitating a meeting as soon as possible to discuss Evansville's concerns and possible modifications to the current decree and IOCP to address those concerns. We are available to meet in Washington, Chicago, or Evansville, and will be in touch shortly to discuss schedule. If you have questions or would like to discuss this request in the meantime, you can reach me directly at (812) 436-4962.

Thank you,

Lloyd Winnecke, Mayor
City of Evansville

Hi Hayley and Millan—I hope you are well. We are looking forward to working with you on the Administrator's visit and itinerary. We are working to propose a draft itinerary now for the visit but I just wanted to confirm that the time 12:30-3:30 still works for you. Also, we would be happy to provide lunch for the Administrator and his team, but just want to confirm that is acceptable to you. Thank you -- Roger

Mr. Martella,

Good afternoon to you. Yes, we have you held on the calendar for Wednesday, October 4. We currently have a commitment that morning in DC but expect to be able to get the Administrator into Cincinnati by 1130AM. Additionally, he must travel to Colorado Springs that evening on a 4:50PM flight. Kindly let me know if a timeframe of 1230PM – 330PM might work for what you are envisioning.

Thank you so much for your consideration and I look forward to hearing from you. I have copied Hayley Ford on this email as well as she is assisting us in Scheduling and is likely with whom you will be working.

Warm regards,

Millan Hupp

Ryan and Samantha—I hope you are both well. I am following up on the brief discussion with Administrator Pruitt regarding additive manufacturing in the conversation regarding the ICAO aircraft standards.

Attached is an invitation for Administrator Pruitt and his team to visit GE's industry leading additive manufacturing facility in October. We are confident this will be a valuable educational opportunity and something that transforms the way manufacturing is thought about in the future.

This could be scheduled as a day trip to Cincinnati. We propose October 4 but will be flexible around the Administrator's preferences.

Please let me know if I can answer any questions. We look forward to seeing you then. Thank you -- Roger

Good afternoon Cheryl,

I have been working with Ruth Jensen to schedule appointments for American Agri-Women (AAW) while we host our Fly-In in Washington DC. I appreciate your help in setting up our time at EPA! We can be at EPA in time to go through security at 1:15 p.m. and meet from 1:45-2:45 on Monday, June 5.

I have tried emailing my contact within the EPA Ryan Jackson, but haven't been successful

yet in setting up a meeting time or space. I really appreciate your help. Please let me know if there's additional details I can provide to help with the scheduling.

Sydney,

Attached is Administrator Pruitt's final speaker confirmation for the upcoming CNP meeting. Please review the details and let me know if you have any questions.

On the last page is a **speaker release form**. If the Administrator could sign and return it to me before the event, I'd appreciate it. It allows us to release the recording of his presentation to CNP members who request it. I've also included a copy of our speaker guidelines as well as the full program.

If he plans to use any audio-visual aides, such as a PowerPoint or video, please let me know in advance so we can arrange to test it with our Production Team.

I've been in touch with the Administrator's advance Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F so I think we're all set.

Thanks for all your help! Call or email if you need anything!

Hi Amy,

Absolutely 2:30 works, so great the Vice President will be there as well! No worries, if anyone is accustomed to calls from the White House changing your schedule, it is me. We actually have to be back over to the office for a meeting in the afternoon so would not be able to make the 3:00PM work. Thank you for working to get it set up though!

Best,

Sydney

Subject: RE: Administrator Pruitt's Participation in CNP

Hi Sydney-

I got a call from the Vice President's office yesterday asking to speak at the CNP meeting on Friday the 19th. We, of course, accommodated that request…but it's going to require me to push Administrator Pruitt's remarks back by 15 minutes. So instead of addressing our group from 2:15-2:45 pm, we have him on for 2:30-3:00 pm. Will you confirm that he can do that? Sorry for the last minute adjustment!

Also, I've been in touch with Tony Perkins' assistant Lindsay Hoefer, and she and I discussed the possibility of Administrator Pruitt meeting with Tony right after he speaks (say 3:00-3:30 pm)? I've got a meeting room on the 6th floor of the hotel that they could use. Let me know if that's a possibility.

Looking forward to hearing back from you.

Sorry all…I accidentally sent the attached docs before adding my message.

Sydney…here's the first confirmation document. Included is a speaker release form (last page). The Administrator does not need to sign this. However, if he chooses to do so, please also look at our Speaker Guidelines as well.

If he does not sign, we will record his remarks (audio and video) for archival purposes only, meaning that CNP will retain a copy for our historical records, and we will send your office a copy as well. But we will not share the presentation with our members.

Let me know if there are any questions about these documents. I look forward to hearing back from you and welcome any questions.

Best,

COUNCIL FOR NATIONAL POLICY

May 12, 2017

The Honorable E. Scott Pruitt
Administrator
U.S. Environmental Protection Agency
Office of the Administrator - 1101A
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt:

Thank you for speaking at the May 18-20, 2017 Council for National Policy meeting at The Ritz-Carlton, Tysons Corner in McLean, Virginia.

This letter confirms the final details of your participation. Please make sure everything is accurate.

I will serve as your point of contact at the event. **Call (703-217-9029) or email (Amy@cfnp.org)** any time.

CNP's Meeting Registration will open Friday morning, May 19 at 8:30 a.m. in The Ritz-Carlton Ballroom Foyer, Fifth Floor. When you check in there, a member of the CNP team will notify me of your arrival so I may greet you.

Included in this document is a copy of CNP's Speaker Release and Guidelines Form. We make program recordings available to CNP members and occasionally post remarks to our website. However, we only do this with your approval.

If you're willing to have your remarks recorded and released and agree to observe our speaker guidelines, **please sign and return the form by email (Amy@cfnp.org) or fax (202-207-0173)**. I will also have a copy on hand at the meeting.

See you soon!

Best regards,

Amy Greene

Amy D. Greene

Subject: Details for Iowa Visit
IAEC Annual Meeting Agenda_2017.pdf
Requested Tick Tock for Iowa Annual Meeting.docx

Good Morning Tate & Millan:

As we are just under 3 weeks out from the visit to Iowa, I was hoping that we could start nailing down some of the details and logistics regarding the Administrator's time here. I know you all have a million balls in the air while we only have one…but I just wanted to make sure that I'm doing everything I can on my end to be helpful.

Attached is the most recent draft of our annual meeting run-of-show. You will see that we have the Administrator (Placeholder is still Mr. Gulliford) slated to speak to the General Session from 9:15 to 10 am on 12/1. If there are other meetings/events that Mr. Pruitt is considering having while in Des Moines that would impact his ability to speak that morning, please let us know as we can be flexible on the time he addresses the attendees. We have tried hard to get our Governor to attend the annual meeting but understand that she is taping a public television program called "Iowa Press" that morning which is complicating her schedule at this time.

Also, while at the IAEC Annual Meeting, we would appreciate the opportunity to have some brief interactions with Administrator Pruitt with smaller groups of our membership. For example, while we know you'd prefer media not be in the General Session, we would appreciate the opportunity to have a small press gaggle of sorts after the Administrator speaks to the membership. Our own magazine editor would also appreciate a few minutes for an article that will run in our monthly magazine, Living with Energy. It would also be appreciated if the Administrator could spend 10-15 minutes with our Statewide Board of Directors at some point during his time at the annual meeting.

Finally, we have nearly 500 people registered for the annual meeting. With staff and vendors there will easily be over 600 people in attendance on Friday to hear from Administrator Pruitt. We are grateful that he will join us that day.

Please let me know if/when there would be a good time to jump on a conference call to discuss details and logistics.

Thank you,

Kevin

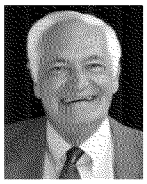
Iowa Association of Electric Cooperatives
A Touchstone Energy® Cooperative



IAEC Annual Meeting
75th Anniversary
Building Leaders
November 30 - December 1, 2017
Seaton West Des Moines

Thursday, November 30

7:30 a.m. ACRE/Iowa FORE breakfast: Jim Matheson, NRECA
Please join us in welcoming Jim Matheson, CEO of the National Rural Electric Cooperative Association at our ACRE/Iowa FORE breakfast.

8:00 a.m. **Coffee and Rolls**
9:00 a.m. **Opening session**
Invocation, Roger Solomonson, director, IAEC
Color Guard, West Des Moines EMS
National Anthem, Branden Barney, 2017 Youth Tour student,
Calhoun County Electric Cooperative Association
Pledge of Allegiance, Don Shonka, director IAEC
Welcome, Chuck Soderberg, IAEC
9:30 a.m. **NRECA National Update: Jim Matheson, NRECA**
10:15 a.m. **Break**
10:30 a.m. **Cooperation Among Cooperatives, and Beyond: Iowa REC's Take the Lead in Georgia and Puerto Rico Relief Efforts:**
Mark Schouten, Iowa Department of Homeland Security
11:00 a.m. **Iowa Secretary of Agriculture** *(invited)*
11:30 a.m. **Break for lunch**
11:45 a.m. **Iowa Venture Lunch**
1:30 p.m. **Perspective from Iowa's Youth Tour Representative: Carlyn Bretey, North West REC**
1:45 p.m. **The Relevance of Electric Cooperatives in the Next 50 Years: Dr. Lowell Catlett, Ph.D.**

Electric cooperatives improved the lives of millions of Americans in rural areas and made American agriculture the envy of the world during the last 80 years. The next 50 years will see electric cooperatives at the center of the world's greatest revolution-the movement from centralized fossil based power to distributed renewable power and to the world where the only energy is electricity. Advances in material science and cell-less biology drive new forms of alternative energy production and rapid advances in storage and speed transform the way people live and work. It's a world of autonomus transportation, droids and robots performing all physical work and 24/7 degree less education. What is rural and urban becomes blurred as humans for the first time in recorded history maximize their true potential in record numbers and electric cooperatives will be the major driver in this revolution.

2:45 p.m. **Break**
3:00 p.m. **The Future of Safety: Richard Hawk, Make Safety Fun**

During this insightful presentation, Richard Hawk shares what is on the horizon for the safety field and how you and your cooperative can take advantage of emerging trends. Richard's work with dozens of companies in a wide array of industries every year allows him to see firsthand what is new, what is developing and what isn't working with respect to safety. Don't get left behind! Find out everything you and your team need to know to keep your safety program on the leading edge.

4:00 p.m. **25-Year of Service Recognition/ NRECA Certification Recognition/RESAP**
4:30 p.m. **Honoring Iowa's Cooperatives: Chuck Soderberg, IAEC**
4:45 p.m. **Adjourn**
5:00-7:00 p.m. **Reception-entertainment provided by The Acoustic Electric Association /PAC Auction**

Iowa Association of Electric Cooperatives
A Touchstone Energy® Cooperative

IAEC ANNUAL MEETING
75TH ANNIVERSARY
BUILDING LEGACY LEADERS
NOVEMBER 30 - DECEMBER 1, 2017
SEATTLE WEST DES MOINES

Friday, December 1

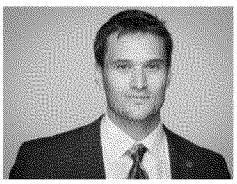
7:00 a.m. **Board Presidents' Breakfast**

7:30 a.m. **Coffee and Rolls**

7:30–9:00 a.m. **Spouses' Breakfast: Family, Food and Farming: Cristen Clark, Food and Swine**

Cristen is an Iowa farmer, raising corn, soybeans, pigs and cattle. With her love of cooking and writing, she has started a blog sharing contest winning recipes straight from her family cookbook and moments on our farm in Iowa. Memories made in the kitchen, are some of the most vivid memories she has and certainly the most treasured.

8:30 a.m. **Annual Business Meeting**



9:00 a.m. **Break**

9:15 a.m. **State of the EPA Address: Jim Gulliford, Director, Region 7 EPA**

10:00 a.m. **Break**

10:15 a.m. **Serve Our Co-ops, Serve Our Country: Charlie Dunn, Farmers Electric-Greenfield**

10:30 a.m. **The One and The Nine: Building of Teams & Organizations That Win: Jake Wood**

For every 100 people in a typical organization or on your team, there are 10 people who shouldn't even be there, 80 who at their best have a neutral impact, 9 who perform exceptionally, and one who is a true leader capable of taking command and creating a winning team or culture. This reality is forcing organizations to rethink what they know about leadership, change management and risk. Those that can adapt will thrive, while those that refuse change will flounder and fail. Jake gives organizations the framework for becoming a better leader and building more agile organizations. Using his own remarkable journey as an Athlete, Marine Scout Sniper, and co-founder of Team Rubicon, Jake shows how you can find and build the team needed to win life's battles and become the "one" others look to.

12:00 p.m. **Adjourn**

Proposed Schedule for Administrator Pruitt While at Annual Meeting

8:45 AM – Arrive at Sheraton West Des Moines

8:45 – 9 AM – Green room

9 AM – Meet Iowa Statewide Board of Directors

9:15 AM – Address Iowa Annual Meeting attendees

9:45 AM – Short Q&A on stage

10 AM – End General Session appearance and move to press gaggle

10 – 10:15 AM – Q&A from media present

10:15 – 10:25 AM – Private interview with LWE

EPA Administrator Pruitt Speaker Request Form (5-17-17).docx
PRUITT17 - MI Lunch Lecture on 6-21-17 - DRAFT (for approval).pdf

Good afternoon!

I just wanted to follow up on a couple of things: I've attached an updated request form, which reflects that Larry Mone (our President) will be introducing the Administrator next week.

I also wanted to check in to see if you all had any feedback on the 6/21 event invitation draft I sent a few days ago (reattached here). We'd like to send those out next week, so if we can have any feedback by Monday, that would be great.

Lastly, we just need an approved bio for Admin. Pruitt.

As always, feel free to reach out with any questions/concerns. I look forward to seeing you for the walk-through on Tuesday.

Have a great weekend!

Hi Millan!

As promised, I've attached the completed request form. The only thing I left blank is the name of the introducer, only because that hasn't yet been worked out. That said, it'll be one of three people: our President, Larry Mone; our Executive VP, Vanessa Mendoza; or our Board Chairman, Paul Singer. We should know by tomorrow, so I can resend this to you with that slot filled in if you like; but I thought you might want to have it asap.

Taisha told me you two connected about the security walk-through for next Tuesday. I'll join you all as well. And Taisha will be sending you an updated RSVP list (if she hasn't already).

Let me know if you need anything else!

Mr. Martella,

Good afternoon to you. Yes, we have you held on the calendar for Wednesday, October 4. We currently have a commitment that morning in DC but expect to be able to get the Administrator into Cincinnati by 1130AM. Additionally, he must travel to Colorado Springs that evening on a 4:50PM flight. Kindly let me know if a timeframe of 1230PM – 330PM might work for what you are envisioning.

Thank you so much for your consideration and I look forward to hearing from you. I have copied Hayley Ford on this email as well as she is assisting us in Scheduling and is likely with whom you will be working.

Warm regards,

Millan Hupp

Subject: Follow up regarding Administrator Pruitt additive manufacturing site visit

Ryan and Samantha—I hope you are both well. I am following up on the brief discussion with Administrator Pruitt regarding additive manufacturing in the conversation regarding the ICAO aircraft standards.

Attached is an invitation for Administrator Pruitt and his team to visit GE's industry leading additive manufacturing facility in October. We are confident this will be a valuable educational opportunity and something that transforms the way manufacturing is thought about in the future.

This could be scheduled as a day trip to Cincinnati. We propose October 4 but will be flexible around the Administrator's preferences.

Please let me know if I can answer any questions. We look forward to seeing you then. Thank you -- Roger

Hi Millan,

As we discussed, we have let press know that this event is off-the-record. I just received a call and email from someone who said she saw Mr. Pruitt' day OoM and thatbit said the event was open to the press. Please let me know if something has changed.

Also, the event is sold out, so there really is not room to add press at this point.

Thanks,

Juli

Subject: Re: March 31st Federalist Society Lunch

Hi Millan,

Sam is the manager who I work with at Tony Cheng's to coordinate logistics at the restaurant.

Leonard is attending; I have not heard back from Jonathan Bunch, so I am not sure he will attend.

We begin eating at 12:05 - 12:10, we will eat until about 12:35 - 12:40, which is when the address begins. Most of the eating is done by the time the address begins.

If he arrives at 12:30, the attendees will be eating, but most will be done when he begins speaking at about 12:40.

Can you please let me know what staff will be attending with Administrator Pruitt. We can usually accommodate 1 staff member at the head table with the speaker. It would also be very helpful to have the cell phone number of someone who will be traveling with Mr. Pruit, could you please send me a number. My cell phone number is Personal Phone/Ex. 6 Personal Phone/Ex. 6

Thanks,

Juli

Juli,

I have a couple questions regarding next week's lunch if you wouldn't mind answering at your convenience.

The restaurant contact you listed on the form is Sam. Who is this person please?

Will Leonard Leo or Jonathan Bunch be in attendance?

What is the format of the lunch? If he arrives at 12:30, will he sit down and then be introduced? Will you all be eating while he is speaking or after? I ask because he will be headed straight to the airport after and I want to ensure I have an understanding of the time frame.

Thank you!

Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address.
Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me; I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at Personal Phone/Ex. 6 which is my cell.

Best,

Juli

Hi Hayley –

It was great speaking with you, and we're excited that Administrator Pruitt will get to see and experience the vehicles. The plan we discussed for Tuesday, November 21 is as follows (these are estimated times…hopefully with a bit of cushion):

2:45 pm	Arrive at EPA, Lexus LC500 walk around/introduction (I'll probably arrive 5+ minutes early)
2:50 pm	Drive Lexus LC500 to the National Park Service H2 station on NY Ave
3:10 pm	Arrive at NPS H2 station, Toyota Mirai walk around/introduction
3:15 pm	See/experience refueling of the Toyota Mirai
3:20 pm	Drive the Toyota Mirai in the local area
3:30 pm	Depart NY Ave station and return to EPA in the Lexus LC500
3:50 pm	Arrive at EPA (flexible…no rush from our side)

Other details you requested are below:

Lexus LC500 license plate for EPA courtyard access: Personal Matters/Ex. 6

Driver arriving at EPA in the Lexus LC500: Joseph (Tom) Stricker

NPS H2 station address: NPS Brentwood Maintenance Facility, 515 New York Ave NE,

Washington, DC 20242

Toyota people who will be at the NY Ave location: Tom Stricker and Chris Santucci (if we add any others I will let you know by Monday)

Contact for security advance: Chris Santucci (cc'd above and 202-563-6856 or 202-651-1581)

I think that was everything…if not, please let me know. Also, if you have a map or description of the EPA courtyard access point, that would be great. Looking forward to doing this next week!

Hi Tom,

I work in Administrator Pruitt's office with Millan and Daisy and wanted to reach out to you on your below request. The Administrator appreciates the offer and would be interested in doing this. Would next week be too soon? With the Thanksgiving holiday, Monday afternoon or Tuesday would work for us. He is particularly interested in the Toyota Mirai you mentioned below. He would be interested in seeing this and test driving (although not sure if he can actually test drive this one or only the Lexus LC500).

Let us know what you think and if we could schedule a visit for one of those dates.

Thank you again for the offer!

Hi Millan –

I just wanted to let you know the offer still stands for Administrator Pruitt to take a drive in our new Lexus LC500 sports sedan. He saw one in Texas and seemed excited to take it for a spin – time permitting, of course. I'm happy to help make that happen here in DC (and maybe even show him our Hydrogen Fuel Cell vehicle…the Toyota Mirai).

No rush, just wanted to make sure you know the offer stands. Thanks!

Hi Tom – I apologize for the delay in getting back to you! I was actually just over at AAM this morning meeting with Mitch Bainwol to discuss EPA's sector strategies – it would be great to follow up with Toyota on the program in the coming weeks.

Mitch also mentioned the LC500 and the possibility the Administrator taking it for a spin. I've cc 'd Millan Hupp who is our Director of Scheduling at EPA so that we can see if there's a time that works to get the Administrator in for a lunchtime drive.

Thanks!

Hello Millan,

First of all I wanted to tell you how wonderful it was to work with you and your team at our convention this year in Nashville. I have never worked with anyone so professional, yet so polite and humble, what a great experience.

I have a question for you and I do apologize for taking up your time. The photographer that was with your group at our event at the Hilton Nashville Downtown Monday morning, October 23rd took pictures of the Administrator and Mr. Greseth and Charlie Polston on stage. He said he would forward me the photos. I either gave him the wrong email, deleted the email because I did not recognize his name or he has not sent them yet.

Any chance you can forward my request for the photos or send me his email address so I may contact him.

Thank you so much and the Best of Luck in all you do!

Sincerely,

Hello Millan,

It was very nice talking with you this afternoon, thank you so much for your time in answering our questions and going over the program with us. We are all very excited that the Administrator will be joining us for our 46th Annual Sales Convention.

The BG contacts for this program are:

Lisa Chamness – Event Manager

lchamness@bgprod.com

316-250-5686

Brian Shirley – Lead Developer / BG AV Team

bshirley@bgprod.com

316-290-9461

Peter Berlo – VP of Domestic Distributor Operations

pberlo@bgprod.com

401-864-4232

Charlie Polston

cpolston@bglsi.com

918-693-0164

If you need anything else from me or the team please don't hesitate to ask. I look forward to meeting you soon.

Safe travels and thank you!

Lisa Chamness

Thanks, Hayley. Liz, we're hoping to have the Administrator sit for an interview, on the record, for a short video for the Federalist Society's Regulatory Transparency Project (RTP). We could do this before or after his convention appearance on-site at the Mayflower. Here is a link to some other videos done by RTP: https://regproject.org/video/
I'm happy to discuss by telephone.

Best,

Dean

Hi Tom,

I work in Administrator Pruitt's office with Millan and Daisy and wanted to reach out to you on your below request. The Administrator appreciates the offer and would be interested in doing this. Would next week be too soon? With the Thanksgiving holiday, Monday afternoon or Tuesday would work for us. He is particularly interested in the Toyota Mirai you mentioned below. He would be interested in seeing this and test driving (although not sure if he can actually test drive this one or only the Lexus LC500).

Let us know what you think and if we could schedule a visit for one of those dates.

Thank you again for the offer!

Hi Millan –

I just wanted to let you know the offer still stands for Administrator Pruitt to take a drive in our new Lexus LC500 sports sedan. He saw one in Texas and seemed excited to take it for a spin – time permitting, of course. I'm happy to help make that happen here in DC (and maybe even show him our Hydrogen Fuel Cell vehicle…the Toyota Mirai).

No rush, just wanted to make sure you know the offer stands. Thanks!

Pruitt Press Release.docx

Hi Jahan,

We would like to send out a "News Flash" about Administrator Pruitt opening our conference immediately after the session – once he has left the Westin. Something similar to the attached, but adjusted based on the actual conversation flow. It would go to our entire membership and trade press.

Would that be ok? We are trying to scoop the trade press that is in the room so our members who are not in attendance hear about his conversation from us first.

Please let me know your thoughts and have a super weekend.

Jahan,

Would it be ok if we handed out the postcards (attached again for your convenience) during our conference registration on Wednesday? Registration opens at noon and Administrator Pruitt speaks at 3PM that same day. It would be a nice "wow" factor for our attendees. They would receive a postcard as they pick up their conference badge – kind of a "you won't want to miss this session" message.

Amy

SIGMA: America's Leading Fuel Marketers

703-375-0485

arider@sigma.org

EPA Administrator Scott Pruitt Opens SIGMA 2017 Annual Conference

SIGMA: America's Leading Fuel Marketers opened its 2017 Annual Conference in Chicago with a conversation between Scott Pruitt, Administrator of the U.S. Environmental Protection Agency (EPA), and SIGMA Vice Chairman and Legislative Committee Chair Brad Puryear, General Counsel, Mansfield Energy.

Mr. Puryear opened the conversation by thanking Administrator Pruitt on behalf of the fuel marketing industry and the American public for helming EPA's quick and decisive response to Hurricanes Harvey and Irma earlier this year. Pruitt's leadership "inspired the rapid action taken by the agency to issue countless waivers for our industry, ensuring the flow of product did not stop to the affected areas, keeping emergency services functioning and getting the affected states back on their feet much faster with a steady fuel supply to keep the recovery efforts moving," Puryear said.

Administrator Pruitt shared with SIGMA attendees what defines his position and what led him to serve in his current role, as well as his unique perspective of the EPA with his background as a private citizen and former Oklahoma attorney general. The biggest challenge facing EPA is _____ and its biggest opportunity is _____, Pruitt said.

In response to a question regarding whether he sees a future drive to homogenize transportation fuels to lessen seasonal and regional blends, Administrator Pruitt said _____. Mr. Puryear commented that such an effort would lower fuel costs and help in crisis situations by increasing the supply of compliant fuel available for sale.

ROOM FOR ONE PARA FROM CONFERENCE

"We are extremely honored to have Administrator Pruitt share his thoughts and experiences as head of EPA, one of the most influential federal agencies for the fuels industry, during the Opening General Session of the SIGMA 2017 Annual Conference," SIGMA President David Baker of Warrenton Oil Company said. "His background and knowledge of what it takes to be successful in industry in general, and as a fuel marketer in today's regulatory environment in particular, make him a valuable partner for SIGMA's members." "We thank him for taking time out of his exceedingly busy schedule to share his perspective with our members today."

It will be John and one staffer. Either myself or Elizabeth Preddy. John and Administrator Pruitt know each other pretty well, and I believe Administrator Pruitt had actually spoken to him about them meeting in the near future, so I'm not entirely sure what the topic is. If I need to push John on it, I can. Just let me know.

Scott and Ed,

Thank you both so much for all your help this morning. The Administrator really enjoyed being with the group.

I'm so sorry we had to duck out early but I think Lincoln is working to set up an interview with Cattleman's TV for this afternoon.

Also, there was a woman by the name of Jennifer that gave me a jar of salsa. Could I possible get her name and contact info? We would really like to thank her.

Hope the rest of the conference goes well!

Warm regards,

Millan

Hi Juli,

Thank you for reaching out! This is very timely, as I just sent in his RSVP to the Thursday evening dinner today. I sent it in as "The Honorable Scott Pruitt" and "Marlyn Pruitt" if you could make a note before you receive the formal RSVP.

I've copied Millan Hupp on this message. I believe I may have connected you previously, but she is the head of our Advance team and will coordinate logistics for the event. She can reach out if she hasn't already and make sure we're squared away.

Thank you!

Hayley,

Just checking in to see if there is anything you need from us in the run up to the Convention.

I am the person handling logistics for the Convention, so when the time comes to coordinate with any advance folks, please connect them with me. My office phone is 202-810-8652 and my cell phone is Personal Phone/Ex. 6

It would be helpful for you to fill out our Speaker Information Form. The form gives us a lot of important information and helps in your planning. Most importantly, the Annual Dinner at Union Station is filling up fast and looks as though it will sell out by Monday. If Administrator Pruitt would like to attend the dinner, please let us know. If he plans on bringing his guest, we'll need to know the guest's name as well.

Please let me know if you need anything further from me at this point.

All the best,

Juli

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Subject: Club for Growth Speaker Invitation

Dear Administrator Pruitt,

Hope you are well.

The Club for Growth would like to invite you speak at our annual economic retreat to discuss deregulation.

The conference will take place at The Breakers Hotel in Palm Beach (FL) and the dates are Thursday evening, March 1st through Saturday evening, March 3rd (2018).

Attached is the speaker invitation, we have also sent a hard copy to your office.

We would be honored to have you there. Thank you for your consideration.

Best,

Virginia Galligan

Hello Dianne,

Thank you for your message and for reaching out with your questions. Please do not include him on the website with other featured speakers or in any publications at this time. As I mentioned previously, he will most likely be able to participate in March but it's too early to definitively confirm.

I've copied Millan Hupp, Director of Scheduling/Advance and Tate Bennett, Associate Administrator for Public Engagement on this message. As the event approaches and we're able to confirm, they can set up a call with you to discuss the information below and overall logistics for the event.

Thank you!

Subject: CERAWeek 2018 Registration - Mr. Scott Pruitt

Dear Hayley,

I know we won't have confirmation until after the first of the year, but I wondered if we could get started confirming Mr. Pruitt's information below? Would it be okay to include him on the website with the other featured speakers, it would be easy to remove him if necessary.

Best regards,

Dianne

Dear Mr. Pruitt,

We are delighted you will be joining us for CERAWeek 2018. Please confirm that the information I have on file (shown below) is correct. Kindly respond to this email with any changes, updates, or missing information as soon as possible so I may confirm your speaking role and include you on our website with the other featured speakers.

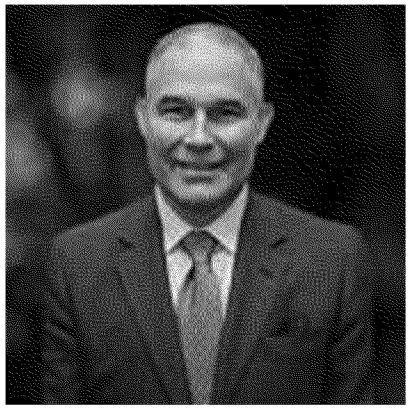
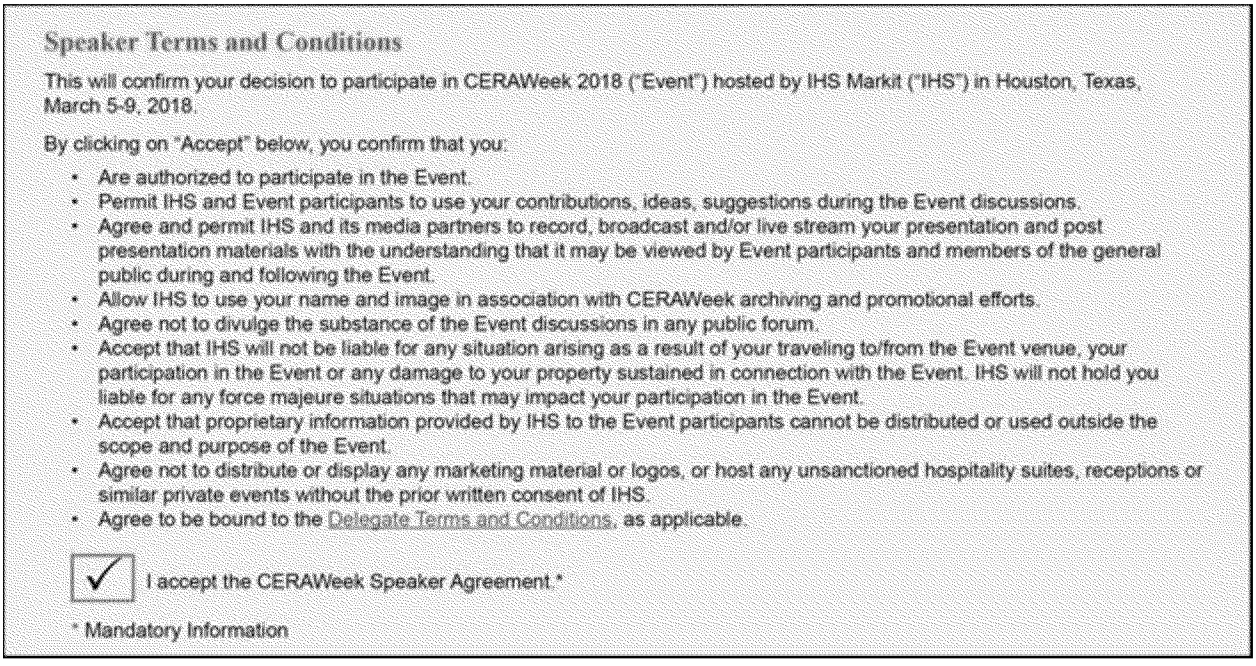
Bio: On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. Administrator Pruitt believes that promoting and protecting a strong and healthy environment is among the lifeblood priorities of the government, and that EPA is vital to that mission. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way so that our future generations inherit a better and healthier environment, as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws.

Most recently, Administrator Pruitt served as the Attorney General for Oklahoma. Almost immediately upon taking office, he worked with his Democratic counterpart in Arkansas to reach agreement to study the water quality of the Illinois River, which crosses the border between the two states and has been enjoyed by generations of Oklahomans. The Statement of Joint Principles provides for a best science study using EPA-approved methods, with both states agreeing, for the first time, to be bound by the outcome.



Also during his tenure as Oklahoma's Attorney General, Mr. Pruitt led an historic water rights settlement between Oklahoma, Oklahoma City and the Choctaw and Chickasaw Tribal Nations that preserved the ecosystems of scenic lakes and rivers on native lands. The agreement, which required Congressional approval, was enacted into Section 3608 of Public Law 114-322 and signed in December 2016. It provides a framework that fosters intergovernmental collaboration on significant water resource concerns with the settlement area, while at the same time protecting existing water rights and affirming the state's role in water rights permitting and administration.



Water settlement cases can be lengthy, costly, divisive and disruptive; however under Pruitt's forward-thinking leadership, the process was hailed by all parties as one of commitment, hard

work, perseverance and cooperation. Administrator Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. He has a proven track record of working with others – including industry, farmers, ranchers, landowners and small business owners – who want to do the right thing by the environment.

He has dedicated his career to creating policy that serves the people. He strongly believes that environmental law, policy and progress are all based on cooperation between the states, cooperation between the states and EPA, and cooperation between regulators and the public. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment.

He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government.

Speaker Terms and Conditions

This will confirm your decision to participate in CERAWeek 2018 ("Event") hosted by IHS Markit ("IHS") in Houston, Texas, March 5-9, 2018.

By clicking on "Accept" below, you confirm that you:

- Are authorized to participate in the Event.
- Permit IHS and Event participants to use your contributions, ideas, suggestions during the Event discussions.
- Agree and permit IHS and its media partners to record, broadcast and/or live stream your presentation and post presentation materials with the understanding that it may be viewed by Event participants and members of the general public during and following the Event.
- Allow IHS to use your name and image in association with CERAWeek archiving and promotional efforts.
- Agree not to divulge the substance of the Event discussions in any public forum.
- Accept that IHS will not be liable for any situation arising as a result of your traveling to/from the Event venue, your participation in the Event or any damage to your property sustained in connection with the Event. IHS will not hold you liable for any force majeure situations that may impact your participation in the Event.
- Accept that proprietary information provided by IHS to the Event participants cannot be distributed or used outside the scope and purpose of the Event.
- Agree not to distribute or display any marketing material or logos, or host any unsanctioned hospitality suites, receptions or similar private events without the prior written consent of IHS.
- Agree to be bound to the Delegate Terms and Conditions, as applicable.

☑ I accept the CERAWeek Speaker Agreement.*

* Mandatory Information

Additional conference information will be forthcoming. In the meantime, if you have any problems or concerns, feel free to contact me anytime.

Best regards,

Dianne

Subject: Re: EPA Pruitt Interview tomorrow

Hi Mike - I wanted to pass along some additional details for tomorrow's interview. Either Forrest or Milan, copied here, will need to meet you in the lobby of the Governor's office to escort you to the conference room, so please give us a shout when you arrive.

For topics, the following information is on background and embargoed until after the interview tomorrow. We will also make sure you receive the press release. Please let me know if there are any additional topics you would like to cover time permitting.

On background and embargoed:

EPA Administrator Pruitt and Governor Doug Ducey will announce that EPA is approving Arizona's Regional Haze State Implementation Plan for the Salt River Project Coronado Generating Station. Administrator Pruitt is ending EPA's one-size-fits-all approach to addressing state environmental problems, and instead is empowering states to make their own plans that address their individual environmental needs. That's exactly what the approval of this plan accomplishes.

Governor Ducey and the Arizona Department of Environmental Quality have delivered a thorough plan that aims to improve visibility and reduce emissions that cause regional haze. By approving the state's plan and removing the Federal Implementation Plan, EPA is helping Arizona avoid increased energy and manufacturing costs that are passed down to consumers.

This announcement coincides with President Trump signing a proclamation tomorrow declaring Oct. 6th "National Manufacturing Day." This will honor the men and women who create the products that power our communities, improve our lives, and defend our nation.

Hi Ryan,

I have a client, the National Truck and Equipment Association (NTEA, who would like to invite EPA Administrator Pruitt to speak at their national convention in March, 2018. NTEA's membership comprises small motor vehicle manufacturers that make vocational work trucks. The national convention will be held in Indianapolis, IN.

NTEA would like to find out if this is something that the EPA Administrator would be interested in. What advice should I provide them on how to proceed?

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

"The Arizona Manufacturers Council welcomes Administrator Pruitt and the Trump Administration to our state to celebrate 2017 Manufacturing Day. Today, we applaud the Administration for steadfastly working to provide a more positive and less cumbersome regulatory climate for Arizona manufacturers, all the while continuing to protect our environment.

Earlier today, Administrator Pruitt met with Governor Ducey and relayed that he has approved Arizona's State Implementation Plan (SIP) revision for visibility for SRP's Coronado Generating Station and withdrew the previous Administration's associated Federal Implementation Plan (FIP). We applaud the Administration for taking this action to enhance visibility while simultaneously saving Arizona manufactures and other energy consumers millions of dollars.

This is just one example of the Administration's renewed dedication to state-federal partnerships, which will ultimately result in an improved environment and business economy for our our state's manufacturing base."

Arizona Manufacturers Council Honors Best in Manufacturing, Welcomes EPA Administrator to Arizona

Celebrates Manufacturing Day with annual Summit and Awards Luncheon, remarks from congressional delegation members

PHOENIX (October 6, 2017) -- The Arizona Manufacturers Council (AMC) welcomes EPA Administrator Scott Pruitt to our state to celebrate 2017 Manufacturing Day. The AMC applauds the Administration for steadfastly working to provide a more positive and less cumbersome regulatory climate for Arizona manufacturers, all while continuing to protect our environment.

Administrator Pruitt earlier today met with Governor Doug Ducey and relayed that he has approved Arizona's State Implementation Plan (SIP) revision for visibility for SRP's Coronado Generating Station, and has withdrawn the previous Administration's associated Federal Implementation Plan (FIP). The AMC applauds the Administration for taking this action to enhance visibility while simultaneously saving Arizona manufacturers and other energy consumers millions of dollars. This is just one example of the Administration's renewed dedication to state-federal cooperation, which will ultimately result in an improved environment and economy for all Arizonans.

The AMC today also welcomed Senator Jeff Flake, Congressman Andy Biggs, Congresswoman Kyrsten Sinema and Congressman David Schweikert to its annual Manufacturing Summit and Awards Luncheon. We thank each of them for their leadership and for honoring our Manufacturer of the Year award winners with their presence.

We applaud our Arizona manufacturer winners, who are leaders in their fields and inspire us with their innovations, environmental sustainability, and commitment to providing great jobs in Arizona:

- Manufacturer of the Year (Large business category): Honeywell Aerospace
- Manufacturer of the Year (Small/medium-sized business category): Joy Cone
- Excellence in Innovation: Hydronalix
- Excellence in Sustainability: Zero Mass Water

May Arizona's manufacturing community and over 160,000 manufacturing employees continue to thrive and to make great products here in Arizona for export to the world.

Hello Robin,

I hope that you are doing well and looking forward to your visit to DC next month! I wanted to check in regarding the agenda that week and update you on the Administrator's schedule. He now needs to be out of town on Friday, Dec 8 and needs to fly out around the time of this breakfast. Would it be a possibility to have this be an early breakfast that Friday morning, perhaps with a 7:15AM start time? He could spend 7:15-7:45AM with the group and would then need to head to the airport.

Please let me know if that could work with your schedule. If it doesn't, we could discuss potential other options while you're in town, as I know he very much wants to see all of you.

Thank you for working with us and I appreciate your understanding!

Hello all,

The Administrator is very much looking forward to this event. In fact, he just mentioned all of you and wanted to make sure it was on his calendar! I have breakfast the morning of December

8 on the calendar, but wanted to check in regarding the other events. As you can understand, it's pretty far in advance at this point, but I'd like to put them on his calendar as an FYI in case he's able to attend. I believe you'll be here Dec 6-8 for the grand opening, but he did mention something in November as well. Perhaps he was mistaken.

Thank you and I look forward to hearing from you!

So, doubtless you know the Museum of the Bible's grand opening is coming up this fall. SALLT is hosting a special trip for that opening December 6 thru 8. We brought around 25 alumni to the topping out ceremony last fall. James Lankford met us and gave us a "prayer walk" Capitol tour.

I expect we'll have 25 - 50 SALLT alumni for this event Scott, and we are hoping to intersect with you while in DC like we did with James last time. Our first thought is to have you meet our group at our hotel for breakfast on Friday Dec 8, but if that isn't optimal for you, we'd work with you for other opportunities. The museum actually has a lot of neat stuff taking place for us - including the Broadway musical production of "Amazing Grace" in the museum theater on Thursday night. Heck, you might want to come with us!

Anyway, I'm tossing this out way in advance and will work with whomever you want. These are your people my friend and we would love to have you share your SALLTy heart & thoughts as you feel led. I've no doubt they would deeply appreciate you sharing with them.

Thanks Scott, please let me know your thoughts or send someone my way to work details.

God bless!

Wes

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

> > > The road access to the fields will limit the number of people we can take there. However, the Kendall family has a site at their farm where there's a small lodge and lake which will be great place to gather. The outside meeting place will work well for the group which could be 30-40 people. The road to the lodge, lake, and pastures will be accessible, even if the storm dumps a lot of rain on Mississippi the first of next week.
> > >
> > > If the Administrator wants to actually go to a field where they will be harvesting, we can still do that but we will have to limit the size of the group to under 15.

We recommend we meet at the lodge because it is accessible, can accommodate more people, and provide a back-up space should it rain. I also think the venue will be great for photographs.

Dear Administrator Pruitt,

Hope you are well.

The Club for Growth would like to invite you speak at our annual economic retreat to discuss deregulation.

The conference will take place at The Breakers Hotel in Palm Beach (FL) and the dates are Thursday evening, March 1st through Saturday evening, March 3rd (2018).

Attached is the speaker invitation, we have also sent a hard copy to your office.

We would be honored to have you there. Thank you for your consideration.

Dear Scott,

On behalf of the members of the Club for Growth, a 501 (c) (4) non-profit, and our Board of Directors, it is my pleasure to invite you to speak at the **2018 Club for Growth Annual Winter Economic Retreat** at The Breakers in Palm Beach, Florida. Our retreat will be held from Thursday evening, March 1st through Saturday evening, March 3rd.

We're looking forward to another successful retreat filled with compelling discourse on policy issues relating to economic freedom and prosperity. We believe that your invaluable experience and insights will be enlightening to our members.

Virginia Galligan, our Finance Director and Advisor, will be following up with your scheduler in the coming weeks to confirm your attendance. In the meantime, if you have any questions, please don't hesitate to contact her by phone at 646-499-1114 or email at vgalligan@clubforgrowth.org.

We sincerely hope that you will honor us by accepting our invitation to join us at our retreat.

Sincerely,

David McIntosh

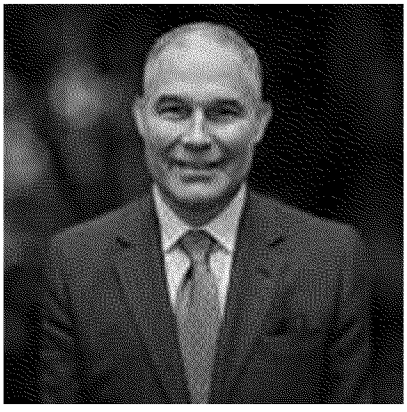
Bio: On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. Administrator Pruitt believes that promoting and protecting a strong and healthy environment is among the lifeblood priorities of the government, and that EPA is vital to that mission. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way so that our future generations inherit a better and healthier environment, as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws.

Most recently, Administrator Pruitt served as the Attorney General for Oklahoma. Almost immediately upon taking office, he worked with his Democratic counterpart in Arkansas to reach agreement to study the water quality of the Illinois River, which crosses the border between the two states and has been enjoyed by generations of Oklahomans. The Statement of Joint Principles provides for a best science study using EPA-approved methods, with both states agreeing, for the first time, to be bound by the outcome.



Also during his tenure as Oklahoma's Attorney General, Mr. Pruitt led an historic water rights settlement between Oklahoma, Oklahoma City and the Choctaw and Chickasaw Tribal Nations that preserved the ecosystems of scenic lakes and rivers on native lands. The agreement, which required Congressional approval, was enacted into Section 3608 of Public Law 114-322 and signed in December 2016. It provides a framework that fosters intergovernmental collaboration on significant water resource concerns with the settlement area, while at the same time protecting existing water rights and affirming the state's role in water rights permitting and administration.

Water settlement cases can be lengthy, costly, divisive and disruptive; however under Pruitt's forward-thinking leadership, the process was hailed by all parties as one of commitment, hard work, perseverance and cooperation. Administrator Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. He has a proven track record of working with others – including industry, farmers, ranchers, landowners and small business owners – who want to do the right thing by the environment.

He has dedicated his career to creating policy that serves the people. He strongly believes that environmental law, policy and progress are all based on cooperation between the states, cooperation between the states and EPA, and cooperation between regulators and the public. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment.

He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government.

Speaker Terms and Conditions

This will confirm your decision to participate in CERAWeek 2018 ("Event") hosted by IHS Markit ("IHS") in Houston, Texas, March 5-9, 2018.

By clicking on "Accept" below, you confirm that you:

- Are authorized to participate in the Event.
- Permit IHS and Event participants to use your contributions, ideas, suggestions during the Event discussions.
- Agree and permit IHS and its media partners to record, broadcast and/or live stream your presentation and post presentation materials with the understanding that it may be viewed by Event participants and members of the general public during and following the Event.
- Allow IHS to use your name and image in association with CERAWeek archiving and promotional efforts.
- Agree not to divulge the substance of the Event discussions in any public forum.
- Accept that IHS will not be liable for any situation arising as a result of your traveling to/from the Event venue, your participation in the Event or any damage to your property sustained in connection with the Event. IHS will not hold you liable for any force majeure situations that may impact your participation in the Event.
- Accept that proprietary information provided by IHS to the Event participants cannot be distributed or used outside the scope and purpose of the Event.
- Agree not to distribute or display any marketing material or logos, or host any unsanctioned hospitality suites, receptions or similar private events without the prior written consent of IHS.
- Agree to be bound to the Delegate Terms and Conditions, as applicable.

☑ I accept the CERAWeek Speaker Agreement.*

* Mandatory Information

Additional conference information will be forthcoming. In the meantime, if you have any problems or concerns, feel free to contact me anytime.

Best regards,

Dianne

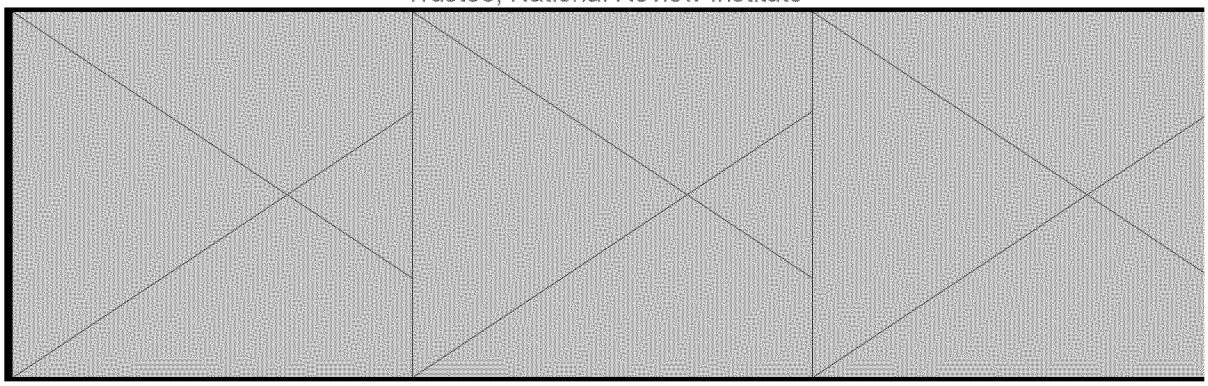
THE WILLIAM F. BUCKLEY JR. PRIZE DINNER

NEW YORK CITY • GOTHAM HALL
WEDNESDAY, OCTOBER 25



Dear Friend,

As a conservative, I place tremendous value on the National Review mission, which has guided the movement since Bill Buckley founded the magazine in 1955. I am pleased to serve as a trustee of National Review Institute, which is hosting its fourth annual Buckley Prize Dinner this fall honoring Bruce and Suzie Kovner and Tom Wolfe, meaningful leaders of the conservative movement. All funds raised go to support NRI, and I enthusiastically encourage you to join us for this remarkable evening.

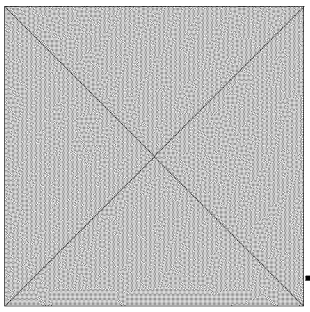
Sincerely,

Ambassador John Bolton

Trustee, National Review Institute

Please join us on Wednesday, October 25 for **NRI's fourth annual William F. Buckley Jr. Prize Dinner at Gotham Hall in New York City** honoring our close friends, **Tom Wolfe and Bruce and Suzie Kovner.**

The annual William F. Buckley Jr. Prize Dinner brings together an audience of conservative leaders, philanthropists, and friends of National Review Institute from around the country to celebrate the lasting legacy of William F. Buckley Jr and our esteemed honorees. The William F. Buckley Jr. Prize was created to honor those who advance the principles Buckley championed during his lifetime and foster the conservative movement that he helped launch.

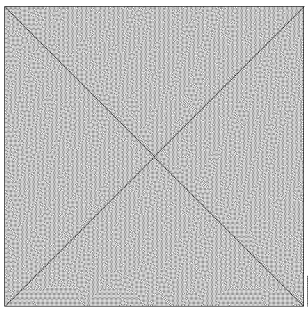


To honor WFB's achievement and inspire others, National Review Institute's Board of Trustees created the William F. Buckley Jr. Prizes for Leadership in Political Thought and Leadership in Supporting Liberty. We hope you will join us this year in New York City.

THIS YEAR'S HONOREES

RECOGNIZING ACCOMPLISHMENTS IN THE ARTS & LETTERS

RESERVE YOUR SEAT TODAY



Space is very limited, so we encourage you to RSVP at your earliest convenience. In addition to table sponsorship opportunities, we are offering individual tickets to the dinner starting at $1,000. Purchasing a ticket or sponsorship will also grant you membership into our 1955 Society.

TOM WOLFE

Introduced by Christopher Buckley

The Prize for Leadership in Political Thought will be awarded to Tom Wolfe, recognizing his acclaimed writing and his influence on American culture over five decades. Bill Buckley had a cherished friendship with Mr. Wolfe, and admired him as a unique man of letters. In 1970, on one of several *Firing Line* episodes with Mr. Wolfe, WFB described his guest as "probably the most skillful writer in America . . .he can do more things with words than anyone else."

BRUCE AND SUZIE KOVNER

Introduced by Arthur Brooks

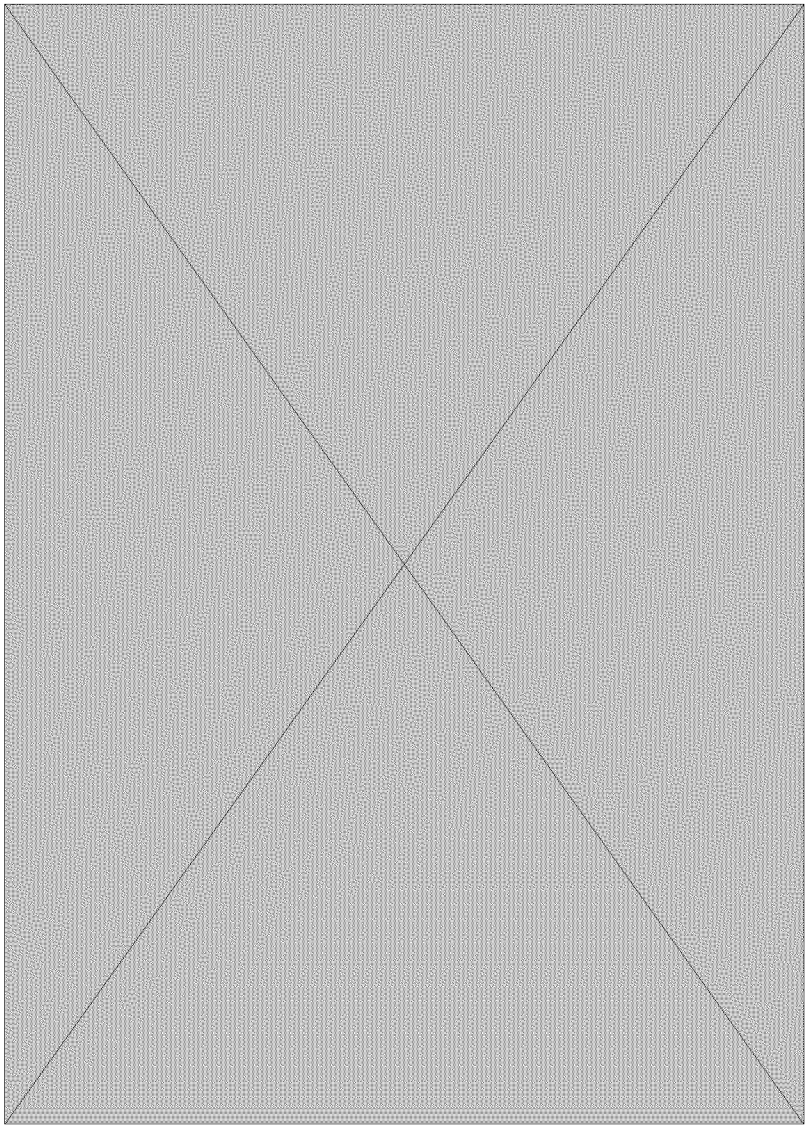
The Prize for Leadership in Supporting Liberty, which recognizes conservative philanthropy, will be awarded to Bruce and Suzie Kovner for their support and leadership of organizations that defend private enterprise, free markets and free trade, protect individual rights, and promote scholarly research that strengthens American democratic principles; for their support of education reform, particularly charter schools; and for their leadership of the major performing arts institutions of New York City. Bill Buckley loved free enterprise, classical liberalism, conservative policy reform, and the arts-especially music. Like Bill, Mr. Kovner plays the harpsichord. WFB also admired the kind of philanthropy in which the Kovners have engaged for many years.

SPECIAL PROGAM FEATURES

MUSICAL PERFORMANCES BY STUDENTS FROM THE JUILLIARD SCHOOL

A SALUTE TO RICHARD LOWRY'S 25 YEARS AT *NATIONAL REVIEW*

AND



JAMES ROSEN AS MASTER OF CEREMONIES

For all details and registration please visit our website: www.nrinstitute.org/wfbprize2017.

For out of town guests, NRI has secured rooms at The Knickerbocker, from where a shuttle to Gotham Hall will be provided. In addition, we have a few rooms at The Algonquin. P lease make sure to reserve a spot at your earliest convenience.

All flights to and from NYC airports from 10/15-11/5 are entitled to NRI's 10% discount on Delta Airlines. When booking your travel, enter "NMQNP" in the meeting code on Delta's homepage: https://www.delta.com.

We hope you will join our friends and supporters from around the country in New York City this fall!

Preserving and promoting the legacy of William F. Buckley Jr.

National Review Institute is a non-profit, 501(c)(3), journalistic think tank, established to advance

the conservative principles William F. Buckley Jr. championed, and complement the mission of the National Review *magazine by supporting and promoting* NR's *best talent. All contributions to it are deductible for income, gift, and estate tax purposes.* EIN# 13-3649537

Elizabeth,

Good morning and Happy Friday.

Ag America is holding its WDC Spring Conference on Wednesday, April 5. On behalf of Ag Commissioner and Ag America Chairman Ryan Quarles of Kentucky we invite Administrator Pruitt to address the Ag America Caucus and members at a time convenient for him. Approximately 40-45 attendees for the Conference.

If possible, we would like to request for the Administrator to speak at the Ag America Leadership Luncheon (12:15-1:15pm est) or during a time of the Ag America Caucus Policy and Issue Sessions (1:30-3:30pm est). Both functions will be taking place at the J.W. Marriott, 1331 Pennsylvania Avenue, NW. Attached is

current agenda for the Conference.

Please feel free to contact me directly at tim@ouragfuture.com or 571 243 6530.

Many thanks and appreciate the consideration.

Hi Hayley,

Thank you again for all of your help in making this happen! Apologies for the length of this email, but I have tried to put together some comprehensive information for you, as well as ask a few questions.

My first question is – who will be our main contact for the event? Will we work with you, an event coordinator, or his chief of staff possibly?

My second – what is your preferred communication protocol? Do you prefer me as your main contact or going through other SIGMA staff that will be overseeing various aspects? Listed here are key SIGMA staff that will be working on the event. (all are copied on this email)

Responsible for hotel details on site in Chicago – security, greenroom, reception details, and needs on stage

Responsible for general session address, production signage, and publications

Responsible for announcements,

Following I have listed out the various details and questions that we pulled together in order to make things run smoothly for the Administrator's time with us.

- Regarding announcement
  - ○ Can we get the Administrator's media kit? High resolution headshot, official bio, etc.
  - ○ For any announcements, publications, or signage, does the Administrator require approval beforehand and, if so, who do we contact for that approval?
  - ○ I have attached a draft email announcement with information taken from the official EPA website.
- Regarding onsite in Chicago
  - ○ Who will be the Administrator's main handler?
  - ○ What security details will we need to be aware of?
  - ○ Does the Administrator need a greenroom and, if so, what are the requirements?
- Regarding SIGMA and NATSO Boards
  - ○ I have attached the Board of Directors for both SIGMA and NATSO to this email.
  - ○ SIGMA and NATSO boards would like to host a small reception at ***2pm on Wednesday November 8th*** in order for the board members to meet and thank the Administrator. We can plan this to his preference either formal (with a podium for him to make remarks) or informal (no podium, less formal meet and greet, time with both boards in a quieter environment).
  - ○ If a staffer would like to speak with our CEO, Ryan McNutt, about the event, I am happy to schedule a phone call. His direct contact information is also above.
- Regarding the Administrator's remarks
  - ○ How much time would the Administrator like allotted for his address to the members?
  - ○ Our producer, JoAnna Miller, and I would like to schedule a call with the person who will be putting together the Administrator's event profile in order to go over the technical details for exactly what he can expect in the room the day of his address.
  - ○ Does the Administrator have an official/preferred introduction to be used for the address?
  - ○ Is the Administrator open to a few minutes of Q&A from the membership after his address?

If there is anything you are missing or need from me, please don't hesitate to ask – we are very excited that the Administrator will be able to join us in Chicago and want to make the event as

smooth as possible.

Thank you and I look forward to working with you!

Best,

Liz.

Hello Liz,

Yes, I was just about to reach out to you as we figured out his travel schedule this morning. We are able to confirm Wed, Nov 8 with an approximate presentation time of 3:20PM based on our previous conversation. If we built in conversations with the Boards, we could do that prior to his remarks. Would you mind sending along a few more details on the Board conversations, including attendees, topic, background, etc? We can then try to work in based on when he arrives to Chicago.

We really look forward to this event and thank you again for the invitation!

Hi Hayley,

A quick follow up – we also would like to extend the invitation to the Administrator's Chief of Staff Ryan Jackson if he is able to attend the Chicago SIGMA Conference along with the Administrator.

I am happy to extend that invite directly to Mr. Jackson or his assistant if you feel it's appropriate to send me their contact information.

Thank you again and have a great weekend!

Best,

Liz.

Subject: RE: SIGMA Invitation - Administrator Scott Pruitt

Hi Hayley,

Thanks so much for reaching out today! I just talked with Mike and he so happy that things seem to be working out to have the Administrator at our meeting in Chicago.

This is a bit of the information that we just chatted about this morning. Both dates do still work for us (the 8th and 10th), but we do have a preference to the 8th as it would be great to have

Administrator Pruitt open our Annual Conference. Also, the earlier date would coincide meetings for our Board of Directors as well as the Board of Directors for NATSO, the National Association of Truck Stop Owners, and I know that both boards would be privileged to meet the Administrator and be able to pass along their thanks for his efforts in keeping the fuel supply flowing with the waivers issued during Hurricanes Harvey and Irma.

If there is other information I can provide, please don't hesitate to ask. I am traveling for meetings next week, so the best way to reach me is on my cell at 314.616.3907. I'm happy to discuss any details or concerns and work out a way to have the Administrator at our event – I know our membership would be thrilled to hear him speak!

Thank you so much,

Best,

Liz.

Hello Liz and Mike,

I wanted to introduce myself as part of Administrator Pruitt's scheduling team. I understand that you had been in conversations with us regarding the Administrator speaking at the SIGMA Annual Conference in Chicago in November. We are trying to make this work with his schedule and wanted to touch base on the current agenda. Previously, you communicated that 11/8, 3-4:30PM and 11/10, 9AM-12PM were the available windows. Is that still the case?

Please let me know and we look forward to getting him to Chicago for this event!

our industry to respond and recover in the aftermath of Hurricanes Harvey and Irma.

Administrator Pruitt believes that promoting and protecting a strong and healthy environment is among the lifeblood priorities of the government, and that EPA is vital to that mission.

He is recognized as a national leader in the cause to restore the proper balance between the states and federal government. As Oklahoma Attorney General, he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government.

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado

Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Krieble Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event:	The Heritage Foundation's 40th Annual Resource Bank Meeting

Hello Robin,

I hope that you are doing well and looking forward to your visit to DC next month! I wanted to check in regarding the agenda that week and update you on the Administrator's schedule. He now needs to be out of town on Friday, Dec 8 and needs to fly out around the time of this breakfast. Would it be a possibility to have this be an early breakfast that Friday morning, perhaps with a 7:15AM start time? He could spend 7:15-7:45AM with the group and would then need to head to the airport.

Please let me know if that could work with your schedule. If it doesn't, we could discuss potential other options while you're in town, as I know he very much wants to see all of you.

Thank you for working with us and I appreciate your understanding!

Hello all,

The Administrator is very much looking forward to this event. In fact, he just mentioned all of you and wanted to make sure it was on his calendar! I have breakfast the morning of December 8 on the calendar, but wanted to check in regarding the other events. As you can understand, it's pretty far in advance at this point, but I'd like to put them on his calendar as an FYI in case he's able to attend. I believe you'll be here Dec 6-8 for the grand opening, but he did mention something in November as well. Perhaps he was mistaken.

Thank you and I look forward to hearing from you!

Hi Millan,

We are very much looking forward to the Administrator providing remarks as part of the TXOGA Lone Star Energy Forum program on Thursday, October 19th at 6:30pm at The Woodlands Resort. We're just two weeks away and I wanted to circle back to cover logistics. We have him on our agenda from 6:30pm to 7:00pm in the Grand Ballroom. All attendees will be seated at round tables and salads will be served immediately following his remarks.

I understand he will need to be out the door right at 7pm but what time will he arrive on the property? Will he have a security detail with him and do we need to provide any additional information leading up to the event? Please share a day-of contact and let me know if you have any questions. Happy to set up a call to discuss further if you would like.

Best Regards,

Neal Carlton

Hi Millan,

We have adjusted our program slightly to fit in the Administrator at 6pm on Thursday, October 19th at The Woodlands Resort and Conference Center. We have a reception starting at 5:30pm in the Grand Ballroom Foyer and our Distinguished Service Awards dinner (honoring Concho CEO Tim Leach) at 6:30pm in the Grand Ballroom. Regarding format, our preference is 15-20 minutes of remarks with 5-10 min of Q&A. Given the 6pm timing, his remarks would be via podium mic or handheld mic in the Foyer to the reception attendees. Depending on where his 8:40pm flight is departing, would it be possible to push the Administrator's remarks to 6:30pm so we can have everyone in the Grand Ballroom and seated and we'll have him out the door by 7pm? We'll certainly make 6pm work but I wanted to see if there is any flexibility so we can have everyone in

a more private setting.

Thank you,

Maddy and Millan,

I understand there's still a possibility the Administrator may be able to join us at our event on Friday, October 20th. Is this accurate?

As you likely know, Texas has worked very closely with the EPA during the ongoing storm and aftermath. The help of the EPA has been instrumental to many of our member companies and their operations. The timing of our event and the attendance of the Administrator would be a perfect time to express our appreciation.

As a reminder, we do still have some availability on our agenda during our dinner the evening of Thursday, October 19th but Friday, October 20th would be ideal.

Thank you,

Neal Carlton

Subject: FW: [External] Join us for the 2017 TXOGA Lone Star Energy Forum

Thank you, Jayme and Maddy.

I am forwarding the form to Neal Carlton, TXOGA's Director of Membership, and have cc'd Mari Ruckel, our VP for Government Affairs, and Kristen Fuchs. Neal will ensure the form is completed and returned today. We previously sent a letter with all the details and I suggest Neal attach with this document of yours.

TXOGA is the state's oldest and largest trade association representing every facet of oil and gas including upstream,

midstream and downstream. All sectors would benefit greatly from Administrator Pruitt being able to attend and are hopeful it aligns with his schedule. Our nation's largest operators will be in attendance along with smaller regional and Texas companies. It is really a good mix and is an important gathering worthy of the Administrator's time.

We are needing to finalize our agenda for printing purposes. Do you think it possible we could get a decision this week?

This is the largest of our annual events and really the best one to attend. Should the Administrator need a different venue, we can certainly arrange one to fit his schedule and build attendance associated with it but this one is the most prominent.

Thanks for your consideration.

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Krieble Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event:	The Heritage Foundation's 40th Annual Resource Bank Meeting
Theme:	"Rise to the Challenge"
Dates:	May 10-12, 2017
Location:	The Broadmoor Resort - Colorado Springs, CO

Hi, Jamie, well we are back on for Lawton-Fort Sill Chamber's Congressional Reception set for March 22. We believe it will be possible for him to drop by the reception for approximately 30 minutes and then head to make his speech. The Administrator's Advance staff will be with him as well. See you then!

Michelle

Good afternoon Cheryl,

I have been working with Ruth Jensen to schedule appointments for American Agri-Women (AAW) while we host our Fly-In in Washington DC. I appreciate your help in setting up our time at EPA! We can be at EPA in time to go through security at 1:15 p.m. and meet from 1:45-2:45 on Monday, June 5.

I have tried emailing my contact within the EPA Ryan Jackson, but haven't been successful yet in setting up a meeting time or space. I really appreciate your help. Please let me know if there's additional details I can provide to help with the scheduling.

Hi Millan,

Sam is the manager who I work with at Tony Cheng's to coordinate logistics at the restaurant.

Leonard is attending; I have not heard back from Jonathan Bunch, so I am not sure he will attend.

We begin eating at 12:05 - 12:10, we will eat until about 12:35 - 12:40, which is when the address begins. Most of the eating is done by the time the address begins.

If he arrives at 12:30, the attendees will be eating, but most will be done when he begins speaking at about 12:40.

Can you please let me know what staff will be attending with Administrator Pruitt. We can usually accommodate 1 staff member at the head table with the speaker. It would also be very helpful to have the cell phone number of someone who will be traveling with Mr. Pruit, could you please send me a number. My cell phone number is Personal Phone/Ex. 6

Juli,

I have a couple questions regarding next week's lunch if you wouldn't mind answering at your convenience.

The restaurant contact you listed on the form is Sam. Who is this person please?

Will Leonard Leo or Jonathan Bunch be in attendance?

What is the format of the lunch? If he arrives at 12:30, will he sit down and then be introduced? Will you all be eating while he is speaking or after? I ask because he will be headed straight to the airport after and I want to ensure I have an understanding of the time frame.

Thank you!

Subject: March 31st Federalist Society Lunch

Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address. Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me; I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at Personal Phone/Ex. 6 which is my cell.

Best,

Juli

> Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address. Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me. I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at Personal Phone/Ex. 6 which is my cell.

Best,

Juli

Good morning Tim,

Hope you're doing well! I have you all on the calendar for April 5. Attaching the event form that Ben initially filled out for us and looping in Millan who will handle advance for the event. If you would kindly let us know if anything on that form has changed so that Millan is aware, I would greatly appreciate it. We are looking forward to next week!

Thank you!

Elizabeth,

Good morning and Happy Friday.

Ag America is holding its WDC Spring Conference on Wednesday, April 5. On behalf of Ag Commissioner and Ag America Chairman Ryan Quarles of Kentucky we invite Administrator Pruitt to address the Ag America Caucus and members at a time convenient for him. Approximately 40-45 attendees for the Conference.

If possible, we would like to request for the Administrator to speak at the Ag America Leadership Luncheon (12:15-1:15pm est) or during a time of the Ag America Caucus Policy and Issue Sessions (1:30-3:30pm est). Both functions will be taking place at the J.W. Marriott, 1331 Pennsylvania Avenue, NW. Attached is current agenda for the Conference.

Please feel free to contact me directly at tim@ouragfuture.com or 571 243 6530.

Many thanks and appreciate the consideration.

Event Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group: Ag America

Name of Event: 2017 Ag America Washington, DC Spring Conference

Date of Event: 4/5/17

Type of Event (banquet, lecture, panel discussion, etc.): Luncheon, followed by afternoon policy and issue discussion sessions, concluding with evening reception and dinner

Role of the Administrator: The Administrator is invited to join the conference at any point during the agenda – we will flex the agenda around his schedule

Approximate time will the Administrator's Remarks Begin (example 9:00 am): Lunch begins at noon, Policy & Issue sessions run from 1:30pm – 4:30pm

Expected length of the Administrator's remarks: 15-20 minutes as appropriate

Will there be Q&A? If so, for how long and who from? Ex: press, attendees: At this point expected to be closed press event. Q&A would come from elected and appointed officials present plus private sector Ag America supporters

Event begins (example 9:00 am): 12pm

Event ends (example 9:00 am): 7:30pm

Event address (*please include room name or number if applicable*): Lunch and Policy & Issue Session: J.W. Marriott – Washington, Reception & Dinner: Occidental Grill – Washington, DC

Will there be a hold room for the Administrator? (please include room name and/or number): If needed - TBD

Please list the name and title of the individual who will introduce the Administrator: Ryan Quarles, Commissioner, KY Department of Agriculture – Ag America Chairman

Approximate size of the audience. Please also include a brief description of the makeup of the audience (*attorneys, business owners, veterans, students etc.*): 40-50 state government affairs representatives from ag related stakeholders, appointed & elected state commissioners, directors, and secretaries of agriculture, state legislative ag leaders

Please indicate your request for the topic of the Administrator's remarks, if applicable: Importance of EPA and the Administration's working cooperatively with the states

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend: Senator Pat Roberts (KS), Representative Mike Conaway (TX-11), Secretary Bill Northey (IA), Director Ted McKinney (IN), Commissioner Ryan Quarles (KY), Director Jamie Clover Adams (MI), Commissioner Cindy Hyde Smith (MS), Rep. Jonathan Shell (KY State Rep), Rep. James Tipton (KY State Rep), Rep. Bill Pigott (MS State Rep),

Please list any other speakers at this event: TBD

Is this event open to the media?: No

Please list a point of contact for the day of the event, including a cell phone number and e-mail address for the contact: Ben Cannatti 202-297-9121, ben@ouragfuture.com

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact: Ben Cannatti 202-297-9121, ben@ouragfuture.com, Tim Barnes 571-243-6530, tim@ouragfuture.com

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location: TBD

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (*Information may also be attached and submitted with this form.*) Event draft agenda attached

Please include a contact number for the event location: JW Marriott: 202-393-2000, Occidental Grill: 202-783-1475

Please indicate whether this event is held weekly, monthly or annually: Ag America DC Conferences are held twice a year in Washington, DC

Please indicate the attire for this event (*business, formal, casual, etc.*): Business

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event:

Please provide the security contact if contracted or head of security for event location: JW Marriott: 202-393-2000, Occidental Grill: 202-783-1475

Subject: Draft questions for Pruitt - NCBA Legislative Conference

Craig Uden (NCBA President) will introduce Administrator Pruitt and then moderate a short Q&A after his speech to the group. A few of the questions that might be asked during the Q&A include –

•□□□□□□□ Role of compliance assistance versus enforcement and need for EPA to provide compliance before enforcement so cattle producers understand the law and how to comply

•□□□□□□□ Value of partnership/collaborative efforts

•□□□□□□□ Cooperative federalism – states being in driver's seat of running their environmental programs

Draft questions for Cattlemen to Cattlemen interview after his speech to NCBA --

1) Cattle producers across the country supported your nomination to lead the EPA and they now look to your leadership to bring common sense back to the EPA, an agency many view as the embodiment of government regulation run amok. What are your guiding principles in leading this agency?

2) The President signed an Executive Order to rescind and replace the Obama Administration's WOTUS Rule, a regulation that cattle producers strongly opposed due to the regulatory overreach and ambiguity. So the EO was a very welcome action to producers. What can we expect to happen next, and what can we do to make sure the cattle industry's voice is heard on a replacement?

3) Administrator Pruitt, we appreciate your understanding that this country's cattle producers are the best stewards of their natural resources. What message would you share with them as environmental sustainability will continue to be a big issue?

4) Administrator Pruitt, the most important question for last: we heard that you might

be a big fan of beef. Can you confirm or deny, and if so, what's your favorite cut of steak?

To: Hupp, Millan
Subject: Re: Invitation to speak at MI

(Ralf, will move you to BCC)

Millian,

The video would be screened at our Hamilton Award Dinner on May 4; attendees would include the Manhattan Institute's board of trustees and other supporters, and high-level figures from media, government, and the non-profit sector. We would of course give your office final approval over his portion of the video. We also might seek to screen it publicly after that, on social media and our website, but would again only do so with your approval.

We are willing to be as flexible as possible to Administrator Pruitt's schedule, with the only constraint being that we'd need to do the filming before April 7 in order to have the video ready in time. We will have a film crew in DC on one of the following days: March 28, March 30, April 4, April 5, and April 7. If any of those dates works on your end, we would prefer to schedule it on those days. But as I said, we'll gladly accommodate whatever time within that range is ideal for you.

The questions we would ask are copied below. Of course, if there are any questions, for whatever reason, that he would prefer not to discuss, we can change this list.

1) How has MI changed American lives for the better?

2) In your opinion, what is the **single-most influential contribution** MI has made to foster greater economic choice and individual responsibility?

2b) And/or, what has been its most significant intellectual contribution? What is the "big idea" from MI that has mattered most?

3) What do you hope the "**next 40 years**" look like for MI?

3b) How might America (or its cities?) look different 40 years from now if MI's ideas are more broadly understood and implemented?

4) What is MI's unique contribution? What differentiates MI from others?

5) Who are your favorite fellow(s) and why?

6) Make any comment that you (the toaster) would like to make (you never know what you get from them)

7) Do you have any thoughts or comments about Larry Mone (MI's President) or Paul Singer (MI's Chairman)?

8) Do you remember your first interaction with MI, its scholars, or their ideas?

9) What wishes do you have for MI for the next 40 years?

10) Would you say that MI's scholars or their work have changed your thinking significantly, on a personal level? Why did you find these ideas compelling or how did they help you see policy/culture differently?

Thank you,

Dean

Hi Millan!

Just thought I'd check in to make sure everything was okay with the request form I submitted last week. As always, feel free to let me know if you need anything further on my part.

I also wanted to introduce my colleague Dean Ball (Cc'd), who is putting together a short 40th Anniversary video to be shown at our annual Hamilton Awards Dinner (to which the Administrator has also been invited). The video would feature interviews with several of our country's most prominent political and intellectual figures discussing their thoughts on MI's past, present, and future; and we'd be honored to include Administrator Pruitt. It would only require about 30 minutes of his time, and we would be more than happy to send someone down to his office to film. If that's something you guys are open to, please feel free to coordinate with Dean.

I look forward to hearing back from you soon.

Kind regards,

-Ralf

Hi Clint! We will get back to you first thing on Monday.

On Nov 10, 2017, at 12:35 PM, Clint Nesmith <cnesmith@texaspolicy.com> wrote:

Ladies and Gentlemen,

We have crafted eight potential questions that Brooke Rollins, TPPF President and CEO, would ask Administrator Pruitt during their 20-25 minute moderated conversation. Does your team have any edits to these questions or would you like to add any additional ones? Obviously, we would like to get any questions you may want him to answer during the conversation.

Thank you!

1. What areas of environmental protection are best left to states vs. the federal government?

2. What is your office and this administration doing to promote the concept of the advancement of the human condition through energy – and how that must be balanced with the important goal of maintaining a clean environment?

3. What is the best way to improve the environment throughout the world?

4. The EPA has recently proposed to repeal the Clean Power Plan based largely on the basis that Congress did not delegate to EPA the underlying regulatory authority. In addition to the repeal, what can the EPA do now to bind itself and protect against future Administrations claiming again the regulatory power in the Clean Power Plan?

5. Without Congressional power, what may the EPA do to transfer and delegate more autonomy and authority to states to regulate for a clean environment?

6. To what extent should authority be adjusted between the EPA and the Department of Energy in terms of regulatory authority over power plants and oil & gas operations?

7. Please discuss how your efforts to decrease the EPA staff have succeeded, why it has been your goal to decrease the size of the EPA, and whether this has yet resulted in measurable changes.

8. Without addressing the science, do you believe that EPA followed the law and procedural rules necessary to regulate CO2 under the Clean Air Act?

Subject: Moderated questions for Administrator Pruitt at Crossroads Summit

Ladies and Gentlemen,

We have crafted eight potential questions that Brooke Rollins, TPPF President and CEO, would ask Administrator Pruitt during their 20-25 minute moderated conversation. Does your team have any edits to these questions or would you like to add any additional ones? Obviously, we would like to get any questions you may want him to answer during the conversation.

Thank you!

1. What areas of environmental protection are best left to states vs. the federal government?

2. What is your office and this administration doing to promote the concept of the advancement of the human condition through energy – and how that must be balanced with the important goal of maintaining a clean environment?

3. What is the best way to improve the environment throughout the world?

4. The EPA has recently proposed to repeal the Clean Power Plan based largely on the basis that Congress did not delegate to EPA the underlying regulatory authority. In addition to the repeal, what can the EPA do now to bind itself and protect against future Administrations claiming again the regulatory power in the Clean Power Plan?

5. Without Congressional power, what may the EPA do to transfer and delegate more autonomy and authority to states to regulate for a clean environment?

6. To what extent should authority be adjusted between the EPA and the Department of Energy in terms of regulatory authority over power plants and oil & gas operations?

7. Please discuss how your efforts to decrease the EPA staff have succeeded, why it has been your goal to decrease the size of the EPA, and whether this has yet resulted in measurable changes.

8. Without addressing the science, do you believe that EPA followed the law and procedural rules necessary to regulate CO2 under the Clean Air Act?

Thank you so much, Dann. Thank you also for the generous invitation.

I want to apologize for my tardiness in responding to you. Four days is way too long.

We are hopeful to make a decision on this sometime this week. Our scheduling team consists of just Sydney, copied on this email, right now which makes it a little tough to knock the requests out as quickly as we would like. Promise we will get you an answer as soon as possible!

Aaron: Washington Policy Center (WPC), a non-partisan, state-based think tank in Washington state, would like to invite Administrator Pruitt to be the keynote speaker at our upcoming Solutions Summit policy conference on Tuesday, May 16th in Spokane.

Our official invitation is attached and below.

Please let me know if you have any questions. We appreciate his consideration of our invitation and we look forward to hearing back at your earliest convenience.

Thank you,

Dann

March 8, 2017

Administrator Scott Pruitt

Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

sent via email: dickerson.aaron@epa.gov

Dear Administrator Pruitt:

The Northwest's leading independent, free-market think tank, Washington Policy Center (WPC), would like to invite you to be the keynote speaker for our statewide 2017 Solutions Summit policy conference in Washington state. The event will be held on Tuesday, May 16, 2017 in Spokane. We hope this date will work with your schedule.

Washington Policy Center will be honored to host you and cover all first-class travel costs for you and a staff member or guest.

The statewide event encompasses two half-day conferences that are designed to provide insight and solutions for our region's top policy challenges. Each conference will feature panels on: the environment, agriculture, education, transportation, budget and taxes, health care, and business & labor reform issues. They will bring together prominent local and national speakers on each of these important issues to help shape the public debate by educating policymakers and informing citizens.

This is our state's largest policy event that will be attended by over 700 people including lawmakers, business and community leaders, media, and civic-minded citizens from across the state. We would be honored to have you join us as the keynote speaker at lunch for the event in Spokane.

Washington Policy Center is a non-profit think tank, similar to The Heritage Foundation and the American Enterprise Institute, and one of the largest and most impactful members of State Policy Network. Our research and education advance the public debate and develop innovative policy solutions.

Year-in and year-out, WPC's events are some of the best-attended in our state, and are a must-attend for some of the nation's top policy leaders including Defense Secretary Gen. Jim Mattis, Dr. Charles Krauthammer, Gov. Susana Martinez, former Defense Secretary Robert Gates, Dr. Ben Carson, Governor Scott Walker, Governor Bobby Jindal, and Governor Mitch Daniels.

Over the past few years, dozens of our ideas have been passed by voters and the legislature and signed into law. Citizens depend on our analysis to make decisions on our state's

pressing public policy matters. Our work is featured in the media an average of over seven times a day and has been covered by national media including *USA Today*, CBS News, Fox News, and *The Wall Street Journal*.

Thank you for your consideration of our request. I hope to hear from you at your earliest convenience so we can begin planning your visit.

Sincerely,

Dann Mead Smith

President

Washington Policy Center

Event Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group:

Domestic Energy Producers Alliance (DEPA)

Name of Event:

DEPA DC Fly-in Reception

Date of Event:

Monday, April 3, 2017

Type of Event (banquet, lecture, panel discussion, etc.):

Reception

Role of the Administrator:

Esteemed Guest

Approximate time will the Administrator's Remarks Begin (example 9:00 am):

6:00pm

Expected length of the Administrator's remarks:

15-20 minutes

Will there be Q&A? If so, for how long and who from? Ex: press, attendees:

yes, included in 'remarks' time frame

Event begins (example 9:00 am):

5:30pm

Event ends (example 9:00 am):

6:30pm

Event address (please include room name or number if applicable):

National Republican Club of Capitol Hill, 300 First St. SE, Washington, DC, 20003

Will there be a hold room for the Administrator? (please include room name and/or number):

Please list the name and title of the individual who will introduce the Administrator:

Harold Hamm, Founder & CEO, Continental Resources

Approximate size of the audience. Please also include a brief description of the makeup of the

audience (attorneys, business owners, veterans, students etc.):

18-20 guests, Oil & gas producers, trade association heads

Please indicate your request for the topic of the Administrator's remarks, if applicable:

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend:

N/A

Please list any other speakers at this event:

N/A

Is this event open to the media?:

No

Please list a point of contact for the day of the event, including a cell phone number and e-mail address for the contact:

Pete Regan
pregan@depausa.org
(918) 845-1553

Jamie Whitefield
jwhitefield@depausa.org
(580) 272-4096

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact:

Pete Regan
pregan@depausa.org, (918) 845-1553

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location:

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (Information may also be attached and submitted with this form.)

Please include a contact number for the event location:

Israel Canada
(202) 406-1230

Please indicate whether this event is held weekly, monthly or annually:

Please indicate the attire for this event (business, formal, casual, etc.):

Business

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event:

Domestic Energy Producers Alliance

Please provide the security contact if contracted or head of security for event location:

Juli,

Our team discussed, and since we know that Fed Soc does meticulous vetting of his registrants, we are ok with it staying up. What we don't want to happen is to have the session disrupted by those who see that the Administrator is attending and want to distract from the event. If your team can take extra care to prevent that, we would appreciate it.

Thank you and we look forward to it!

Hayley

Subject: Federalist Society convention

Hi Hayley,

I was wondering whether Administrator Pruitt would be willing to sit for an interview either before or after his Convention appearance? It should take about 30 minutes.

It would be on regulation generally, and deregulation as well.

Hi Allegra,

Actually, could we discuss how you advertise this? We would prefer not to have his bio and headshot up on your website or have you publicly advertise that he will be attending and speaking. This is due to security reasons and so as not to drawn unwanted attention to the event.

I am happy to speak yet today or on Monday for us to get on the same page and understand how we will move forward from here.

Does that work?

Hi Paige,

I work on Administrator Pruitt's team with Liz Bowman. She forwarded me your below message and I wanted to touch base regarding this event. We are very much looking forward to it, but we just recently had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. Therefore, I was hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Hi Liz,

As promised, I wanted to touch base with you about Administrator Pruitt's December 13 event at the Hoover in Washington, DC office. When we talked a month or so ago we settled on the following:

- December 13, 11am-Noon
- off-the-record with no live stream
- recorded for possible future Opening Arguments podcast if your office provides permission
- invite only with approximately 40 people

Just wanted to make sure this was still agreeable. If so, Erin will be working a draft invitation to share with you for approval. We will also provide you with a list of those we intend to invite. If there is anyone on your end you want to make sure gets an invitation please send us the name, email, and affiliation.

In the meantime, if you have any questions or concerns feel free to contact me. Me look forward to hosting the Administrator in December.

Best,

Paige

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Hi Liz,

As promised, I wanted to touch base with you about Administrator Pruitt's December 13 event at the Hoover in Washington, DC office. When we talked a month or so ago we settled on the following:

- December 13, 11am-Noon
- off-the-record with no live stream
- recorded for possible future Opening Arguments podcast if your office provides permission
- invite only with approximately 40 people

Just wanted to make sure this was still agreeable. If so, Erin will be working a draft invitation to share with you for approval. We will also provide you with a list of those we intend to invite. If there is anyone on your end you want to make sure gets an invitation please send us the name, email, and affiliation.

In the meantime, if you have any questions or concerns feel free to contact me. Me look forward to hosting the Administrator in December.

Best,

Paige

Hi Paige – I work for EPA Administrator Scott Pruitt and your email below was passed along by our scheduling team. I'm reaching out to see if you can share some more detail about the November Opening Arguments event. Can you tell us a about that event and the format? Would the Administrator be speaking alone at a podium, or would his remarks be part of a panel or a moderated conversation? Who will be in the

audience – and how many people would you expect? Is the event open press, or is it streamed live online? Would you plan to announce the Administrator's participation in advance of the event?

Any additional details you can share will be helpful to us as we determine what is possible in the Administrator's schedule.

Thank you,

Amy

EPA Administrator Pruitt Speaker Request Form.docx

Hello Bob,

Thank you for your message and invitation to the Administrator. I was hoping that you could complete the attached speaking request form for this event so that we could capture additional information. I also noticed that in your letter you mentioned that if we couldn't accommodate a trip to Seattle, perhaps we could do the address at a different time or location. Does your group do an annual DC fly-in or do you have any other events that would also be possibilities? In the chance that we can't make it to Seattle for this, we would be interested in exploring other opportunities to get the Administrator in front of your group.

Please let me know your thoughts. Thank you and we appreciate you reaching out!

No, we do not need to make it today. But probably by Monday. If I could offer other options, we could move the breakfast to Thursday morning, Dec 7, instead. He does need to be on the Hill by 9:45AM or so, but he could do an 8/8:30AM breakfast that morning instead.

Let me know if that would work better than doing very early on Friday.

Hello Robin,

I hope that you are doing well and looking forward to your visit to DC next month! I wanted to check in regarding the agenda that week and update you on the Administrator's schedule. He now needs to be out of town on Friday, Dec 8 and needs to fly out around the time of this breakfast. Would it be a possibility to have this be an early breakfast that Friday morning, perhaps with a 7:15AM start time? He could spend 7:15-7:45AM with the group and would then need to head to the airport.

Please let me know if that could work with your schedule. If it doesn't, we could discuss potential other options while you're in town, as I know he very much wants to see all of you.

Thank you for working with us and I appreciate your understanding!

Hello Wes,

I hope you're having a good start to your week. I wanted to reach out and introduce myself as your primary contact for the below event and any future scheduling requests for the Administrator. We are confirmed for the morning of December 8th and look forward to it. If you have any questions, feel free to reach out to me. As we get closer, I will likely reach out for additional details.

Thank you!

EPA Administrator Pruitt Speaker Request Form.docx

Hi Virginia,

Thank you for reaching out and extending the invitation to the Administrator. We'd be happy to look at his schedule to see if we can accommodate this event. To start, would you mind completing the attached speaker request form? This will help us understand more about the event, the audience, requested speaking topic, etc. Once you complete and send back, we will be in touch if we need additional information.

Thank you!

Dear Administrator Pruitt,

Hope you are well.

The Club for Growth would like to invite you speak at our annual economic retreat to discuss deregulation.

The conference will take place at The Breakers Hotel in Palm Beach (FL) and the dates are Thursday evening, March 1st through Saturday evening, March 3rd (2018).

Attached is the speaker invitation, we have also sent a hard copy to your office.

We would be honored to have you there. Thank you for your consideration.

Best,

Virginia Galligan

Hi Paige,

I work on Administrator Pruitt's team with Liz Bowman. She forwarded me your below message and I wanted to touch base regarding this event. We are very much looking forward to it, but we just recently had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. Therefore, I was hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Hi Liz,

As promised, I wanted to touch base with you about Administrator Pruitt's December 13 event at the Hoover in Washington, DC office. When we talked a month or so ago we settled on the following:

- December 13, 11am-Noon
- off-the-record with no live stream
- recorded for possible future Opening Arguments podcast if your office provides permission
- invite only with approximately 40 people

Just wanted to make sure this was still agreeable. If so, Erin will be working a draft invitation to share with you for approval. We will also provide you with a list of those we intend to invite. If there is anyone on your end you want to make sure gets an invitation please send us the name, email, and affiliation.

In the meantime, if you have any questions or concerns feel free to contact me. Me look forward to hosting the Administrator in December.

Best,

Paige

Hi Paige – I work for EPA Administrator Scott Pruitt and your email below was passed along by our scheduling team. I'm reaching out to see if you can share some more detail about the November Opening Arguments event. Can you tell us a about that event and the format? Would the Administrator be speaking alone at a podium, or would his remarks be part of a panel or a moderated conversation? Who will be in the audience – and how many people would you expect? Is the event open press, or is it streamed live online? Would you plan to announce the Administrator's participation in advance of the event?

Any additional details you can share will be helpful to us as we determine what is possible in the Administrator's schedule.

Thank you,

Amy

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and

productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

Dear Hayley,

First of all, I want to thank you for all you are doing with Rick Shelby to facilitate Administrator Pruitt's participation in our upcoming Salon. Please find attached an

updated description of the evening. We also just heard that an expert on environmental policy from the Heritage Foundation will be with us.

Second, please do not hesitate to contact Rick or me if you have any questions or suggestions for the evening.

Kind regards,

Hello Robin,

I hope that you are doing well and looking forward to your visit to DC next month! I wanted to check in regarding the agenda that week and update you on the Administrator's schedule. He now needs to be out of town on Friday, Dec 8 and needs to fly out around the time of this breakfast. Would it be a possibility to have this be an early breakfast that Friday morning, perhaps with a 7:15AM start time? He could spend 7:15-7:45AM with the group and would then need to head to the airport.

Please let me know if that could work with your schedule. If it doesn't, we could discuss potential other options while you're in town, as I know he very much wants to see all of you.

Thank you for working with us and I appreciate your understanding!

Hello all,

The Administrator is very much looking forward to this event. In fact, he just mentioned all of you and wanted to make sure it was on his calendar! I have breakfast the morning of December 8 on the calendar, but wanted to check in regarding the other events. As you can understand, it's pretty far in advance at this point, but I'd like to put them on his calendar as an FYI in case he's able to attend. I believe you'll be here Dec 6-8 for the grand opening, but he did mention something in November as well. Perhaps he was mistaken.

Thank you and I look forward to hearing from you!

> >
> > I expect we'll have 25 - 50 SALLT alumni for this event Scott, and we are hoping to intersect with you while in DC like we did with James last time. Our first thought is to have you meet our group at our hotel for breakfast on Friday Dec 8, but if that isn't optimal for you, we'd work with you for other opportunities. The museum actually has a lot of neat stuff taking place for us - including the Broadway musical production of "Amazing Grace" in the museum theater on Thursday night. Heck, you might want to come with us!

Anyway, I'm tossing this out way in advance and will work with whomever you want. These are your people my friend and we would love to have you share your SALLTy heart & thoughts as you feel led. I've no doubt they would deeply appreciate you sharing with them.

Thanks Scott, please let me know your thoughts or send someone my way to work details.

God bless!

Wes

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Subject: RE: Meeting with conservative free market environmental leaders

Hello Becky,

I work on Administrator Pruitt's scheduling team and Liz sent me your below email. Thank you for the invitation. We have a scheduling meeting on Thursday and I will be in touch following

that meeting. Please let me know if you have any questions in the meantime.

Thank you!

Subject: Meeting with conservative free market environmental leaders

Liz…would be very pleased to host a half-day meeting and discussion for Administrator Pruitt with 25-30 key leaders from around the country at Heritage before the end of the year. If you can arrange some dates that might be possible, I will proceed with locking down meeting details and sending invitations. Becky

Hayley. Sorry I missed your call. Don't tend to answer if no name pops up. Will check the dates with my colleagues tomorrow and get back to you. Becky

Sent from my BlackBerry 10 smartphone.

[redacted]

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Ok, I will hold 2-3PM on Tues, Dec 12 for him to be at Heritage. As we get closer, we can identify staff that may be able to join as well and perhaps stay for a longer portion of the meeting. Let me know if you need anything as the date approaches.

Thank you!

I think Dec 12 would be better. I trust he can come to Heritage. Our goal will be about 40

leaders. Perhaps he can bring some of his top people who can stay longer. I need to reserve the room so will set that in motion. Thanks, Becky Norton Dunlop

Hello Becky,

I wanted to follow up on this. I'd be happy to schedule an hour-long session for you with Administrator Pruitt. How would Nov 7 work? 3-4PM would be a good time for us that day. Alternately, we could do Dec 12 in the afternoon.

Let me know which works best and I will hold that time.

Thank you!

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

Dear Hayley,

First of all, I want to thank you for all you are doing with Rick Shelby to facilitate Administrator Pruitt's participation in our upcoming Salon. Please find attached an updated description of the evening. We also just heard that an expert on environmental policy from the Heritage Foundation will be with us.

Second, please do not hesitate to contact Rick or me if you have any questions or suggestions for the evening.

Kind regards,

Hello Mark and Rick,

I wanted to touch base regarding this event. We are very much looking forward to it, but we just recently had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. Therefore, I was hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes, as I know you've already begun to reach out, but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could still do Wednesday, Dec. 6th. Is the Florida House still available that day?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding.

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

Subject: RE: Requesting a meeting with Administrator Pruitt

Good morning! Just wanted to follow up on this request to see if there's any possibility for a meeting this month or next with Administrator Pruitt. My original request was for next week, but obviously we will attend at the Administrator's convenience. Just to remind, I am making the ask on behalf of our Tulsa-based Midstream Commercial Vice President, Larry Huddleston and two of our Vice Presidents for Environment, Safety and Health, Dirk Cockrum and Tom Hutchins. The topics for discussion on our side would be the NSPS OOOOa rule-making, Superfund cleanup sediment policy, the American Burying Beetle/ESA issue and its impact on the oil and gas sector, and EPA participation in FERC-led natural gas project permitting NEPA analyses. As one of the largest energy infrastructure companies in North America, we would also be happy to discuss anything on the Administrator's mind. Thank you for your consideration and I look forward to hearing from you.

Best wishes, Dave

Mark,

Thank you very much for the additional information and we look forward to this event. I've reached out to our team and will get back to you soon if we have any suggestions on attendees.

I've also copied Millan Hupp, Director of Scheduling/Advance, and Tate Bennett, Associate Administrator for Public Engagement, on this message. As the event approaches, they will reach out to set up a call to discuss in greater detail.

Thank you!

Dear Hayley,

Thanks for your kind reply. We want to do all possible to make this an enjoyable and productive evening for Mr. Pruitt; thus, we very much welcome your questions and any suggestions. We are seeking some 40 participants three slots for Mr. Pruitt and staff, five for Members of Congress, five for media (in the attachment you will see we have filled four slots) , two "experts," to include a commitment from the Heritage Foundation, and 27 business folks. (As an example, Bruce Thompson, the president of AXPC, whose board Mr. Pruitt visited earlier this year, will be with us.) I send personal emails to the invites with the attachment as background on the evening. Most of the invitations have gone out . If you would like to suggest any invitations for Members of Congress, the media, experts, corporate or association executives, or whoever, I would be delighted to do so . Or, if you have any questions whatsoever for the evening, please do not hesitate to let me know

It will be an honor to have Administrator Pruitt with us. I thank you very much for helping make it possible.

Kind regards,

Mark

Hello Robin,

I hope that you are doing well and looking forward to your visit to DC next month! I wanted to check in regarding the agenda that week and update you on the Administrator's schedule. He now needs to be out of town on Friday, Dec 8 and needs to fly out around the time of this breakfast. Would it be a possibility to have this be an early breakfast that Friday morning, perhaps with a 7:15AM start time? He could spend 7:15-7:45AM with the group and would then need to head to the airport.

Please let me know if that could work with your schedule. If it doesn't, we could discuss potential other options while you're in town, as I know he very much wants to see all of you.

Thank you for working with us and I appreciate your understanding!

Hello all,

The Administrator is very much looking forward to this event. In fact, he just mentioned all of you and wanted to make sure it was on his calendar! I have breakfast the morning of December 8 on the calendar, but wanted to check in regarding the other events. As you can understand, it's pretty far in advance at this point, but I'd like to put them on his calendar as an FYI in case he's able to attend. I believe you'll be here Dec 6-8 for the grand opening, but he did mention something in November as well. Perhaps he was mistaken.

Thank you and I look forward to hearing from you!

Hello Robin,

I've put on the calendar for 8:30AM – 10AM. As we get closer, let's discuss the window of time. We may need to shorten a bit based on what else is going on that day, but I know that he'll want to spend as much time as he can with you that morning.

Thank you and we'll be in touch. Let me know if I can answer anything else!

Hello Wes,

I hope you're having a good start to your week. I wanted to reach out and introduce myself as your primary contact for the below event and any future scheduling requests for the Administrator. We are confirmed for the morning of December 8th and look forward to it. If you have any questions, feel free to reach out to me. As we get closer, I will likely reach out for additional details.

Thank you!

Hi Scott,

You're in my prayers my brother! I'm proud of you. Keep draining... :)

So, doubtless you know the Museum of the Bible's grand opening is coming up this fall. SALLT is hosting a special trip for that opening December 6 thru 8. We brought around 25 alumni to the topping out ceremony last fall. James Lankford met us and gave us a "prayer walk" Capitol tour.

I expect we'll have 25 - 50 SALLT alumni for this event Scott, and we are hoping to intersect with you while in DC like we did with James last time. Our first thought is to have you meet our group at our hotel for breakfast on Friday Dec 8, but if that isn't optimal for you, we'd work with you for other opportunities. The museum actually has a lot of neat stuff taking place for us - including the Broadway musical production of "Amazing Grace" in the museum theater on Thursday night. Heck, you might want to come with us!

Anyway, I'm tossing this out way in advance and will work with whomever you want. These are your people my friend and we would love to have you share your SALLTy heart & thoughts as you feel led. I've no doubt they would deeply appreciate you sharing with them.

Thanks Scott, please let me know your thoughts or send someone my way to work details.

God bless!

Wes

Correct! It's exact wording is "Oklahoma Farm Bureau 2016 Champion – Attorney General Scott Pruitt"

Sydney,

Sure thing – understandable! It is actually an award for his service last year here in Oklahoma as Attorney General! It's called a Champion Award, and a handful of them are given from Oklahoma Farm Bureau every year… does this sound like something he would be able to accept? Please let me know, at your convenience!

Thank you,

Tate / Millan,

Thank you both for everything you did to make this such a memorable day. Our members really appreciated the Administrator's comments. Our employees enjoyed getting to show the pride they have in Thomas Hill. And we really appreciated you making sure we had time for the sitdown at the end. That issue is very important to us and we were truly excited by the Administrator's response.

Thank you both for all of your help. If I can do anything for you in the future, please let me know.

Please pass my thanks along to the rest of your team.

Joe

Millan,
The agenda looks great. Thanks for all the direction and advice today.

Give me a call when you get to the plant tomorrow. Weather forecast looks spotty, but that won't stop us from having a great event.

Joe

We trimmed down the Administrator's bio. Can we use the version below on our website? Thank you!

On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders

in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Good afternoon, Michelle!

My name is Ralf Mangual, and I manage legal policy projects here at the Manhattan Institute. I just got off the phone with Millan Hupp who kindly returned my call in regards to an invite our President would like to extend to Administrator Pruitt. She asked me to send an e-copy of the letter (see attached) your way. We're thinking late May but are very flexible in terms of timing.

Please don't hesitate to reach out to me at any time if you have any questions or need more information. Thanks in advance for your time, and I hope we'll have the pleasure of hosting Administrator Pruitt again soon.

Kind regards,

-Ralf

Hi Mr. Konkus,

We're looking forward to hosting the Administrator at our Ideas Summit on Friday morning.

We're reaching out to see how we can coordinate on the media push for his appearance at the conference. I've looped in Anna Walsh from Pace Public Relations on this email. She is handling media at the conference and will be able to help coordinate.

Please let me know how I can be helpful.

Thank you,

Charlotte

> On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations

inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Hi Mr. Konkus,

We're thrilled to have the Administrator participate in our Ideas Summit next week. I wanted to circle back and confirm that he can indeed participate at 9:45am on Friday, March 17th in a conversation with Kevin D.

Williamson? Also, if this is confirmed, can we formally announce him? We know he's a huge draw for our audience.

Please let me know if you have any questions.

Thank you,

Charlotte

Subject: Invitation to speak at MI

Good afternoon, Michelle!

My name is Ralf Mangual, and I manage legal policy projects here at the Manhattan Institute. I just got off the phone with Millan Hupp who kindly returned my call in regards to an invite our President would like to extend to Administrator Pruitt. She asked me to send an e-copy of the letter (see attached) your way. We're thinking late May but are very flexible in terms of timing.

Please don't hesitate to reach out to me at any time if you have any questions or need more information. Thanks in advance for your time, and I hope we'll have the pleasure of hosting Administrator Pruitt again soon.

Kind regards,

-Ralf

Lawrence Mone
President

March 7, 2017

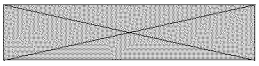
Hon. Scott Pruitt
Environmental Protection Agency
Office of the Administrator
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt,

I hope this letter finds you well, and that you are settling nicely in to your new role with the Administration. Let me begin by saying that I was personally very pleased when I first heard that you had been nominated to lead the EPA. When you addressed the Institute's audience in December of 2015, our members and scholars were particularly encouraged by your commitment to the principles of federalism, and the efforts you led as Oklahoma Attorney General to enforce the limits on the powers of the agency you now lead. As such, it is my personal honor to invite you back to the Institute to discuss your vision for the EPA moving forward, and how your commitments to Federalism and the Rule of Law will carry over into your work as EPA Administrator.

What we envision is an evening discussion event in mid / late May between you and one of our Senior Fellows, Mr. Oren Cass, whose work focuses on environmental policy. However, we would also be open to the idea of you giving a standalone speech if you prefer it. As I'm sure your schedule is incredibly busy, we are quite flexible with respect to timing, and would be willing to work with you in any way that we can to accommodate your schedule in order to bring what I'm sure would be a fantastic event to fruition.

As you know, the Institute prides itself on being able to expose our audience to the most thoughtful takes on matters of public policy, delivered by the most notable thought leaders and holders of public office. With that in mind, I am personally quite proud that we can count you among the public leaders the Institute has had the privilege of featuring—a group which includes sitting Supreme Court Justices Alito and Thomas, House Speaker Paul Ryan, several sitting and former state governors, and prominent CEOs, including Rupert Murdoch and Hank Greenberg.



Thank you in advance for your time and consideration. I sincerely hope you will be able to accept this invitation, and that we can have the honor of hosting you once again in the near future. Should you or your team have any questions, please don't hesitate to reach out to me directly, or to Rafael Mangual who can be reached via email at rmangual@manhattan-institute.org or by phone at (646) 839-3358. I look forward to hearing from you soon.

Kind Regards,

Lawrence Mone

EPA Event Request Form - YPO May 9th

Your message to mhicks@hicksholding.com couldn't be delivered.

Security or policy settings at hicksholding.com have rejected your message.

hupp.millan	**Office 365**	**hicksholding.com**
Sender		**Action Required**
		Security or policy violation

How to Fix It

The recipient's email server won't accept your message because it appears to violate their security or policy settings. Check the Reported error below to see if you can determine why it was blocked. Then try one or more of the following:

- **If the error mentions SPF, DKIM, or DMARC issues, forward this message to your email admin for assistance.**
- **The recipient's email server might suspect that your message is spam. Follow the guidance in this article: E-mailing Best Practices for Senders. Then resend your message.**
- **If the error suggests your message is too large, try to reduce the size of your attachment. If that isn't possible, place the file on a publicly accessible cloud storage location, like OneDrive. Then add a link to the file in your message, and resend the message.**
- **Contact the recipient (by phone, for example) and tell them to ask their email admin to add you or your email domain to their allowed senders list.**

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the More Info for Email Admins section below.

Was this helpful? *Send feedback to Microsoft.*

More Info for Email Admins

Status code: 550 5.7.1

This error occurs when the recipient's domain has security or policy settings that reject the sender's message. However, we were unable to determine the specific setting that's causing this rejection. Usually the error is reported by an email server outside of Office 365. Common issues include the following: the receiving server suspects the message is malicious or spam; the Sender Policy Framework (SPF) record for epa.gov is incorrectly configured or doesn't exist; or the message includes an attachment larger than the receiving server will accept. Try one or more of the following:

Review the reported error - Check the **Reported error** shown below to help determine what the issue might be. For example, if the issue is related to an SPF failure, the reported error will usually include the acronym "SPF" or the phrase "Sender Policy Framework."

Correctly configure your SPF records - If you're the sender's email admin, make sure your domain's SPF records at your domain registrar are properly configured. Office 365 supports only one SPF record (a TXT record that defines SPF) for your domain. Include the following domain name: **spf.protection.outlook.com**. If you have a hybrid configuration (some mailboxes in the cloud and some mailboxes on premises) or if you're an Exchange Online Protection standalone customer, add the outbound IP address of your on-premises servers to the TXT record. To learn how, see Customize an SPF record to validate outbound email sent from your domain and External Domain Name System records for Office 365.

Unable to relay - If the **Reported error** indicates a problem with relaying (e.g. "unable to relay"), then the email server that reported the error likely isn't set up correctly to receive and relay messages from the sender's domain. This server will usually be one of your on-premises servers in a hybrid environment, a smart host email service that you're trying to route messages through, or possibly even an email hosting service you used in the past yet still have mail flow settings pointing to (e.g. your MX record at your domain registrar still points to your previous email service provider). Check **Error reported by** shown below to determine what domain, service, or server is reporting the error. The email server needs to be configured to either accept messages from anonymous users or to include the sending domain or IP in its list of authenticated senders. On an Exchange server, you can set this up in the server's receive connector. If it's a smart host managed by another service or partner, contact the service or partner to configure their servers to accept and relay messages from your senders. Also, work with your domain registrar to make sure your MX records are properly configured.

Contact the recipient's email admin - For some scenarios, you can fix the issue by contacting the email admin at the recipient domain to ask them to add the sender's email address or your domain to their allowed senders list, or to relax the setting that's causing the rejection.

For more information and tips for fixing this issue, see Fix email delivery issues for error code 5.7.1 in Office 365.

Subject: EPA Event Request Form - YPO May 9th
EPA Event Request Form.pdf

Mack,

It was such a pleasure to connect with you this afternoon. Thank you so much for the time and the details you shared regarding the YPO event in May. Per our conversation, I have attached the Event Request Form for you to complete and return to me . Once we have this form, we will get you an answer asap on whether the Administrator will be able to attend.

I believe there was also mention of meetings in addition to the speaking engagement. If you could also please include those on this form, that would be excellent.

Thank you so much for the invitation and I look forward to hopefully working with you.

Warm regards,

Millan Hupp

Event Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group:

Name of Event:

Date of Event:

Type of Event (banquet, lecture, panel discussion, etc.):

Role of the Administrator:

Approximate time will the Administrator's Remarks Begin (example 9:00 am):

Expected length of the Administrator's remarks:

Will there be Q&A? If so, for how long and who from? Ex: press, attendees:

Event begins (example 9:00 am):

Event ends (example 9:00 am):

Event address (please include room name or number if applicable):

Will there be a hold room for the Administrator? (please include room name and/or number):

Please list the name and title of the individual who will introduce the Administrator:

Approximate size of the audience. Please also include a brief description of the makeup of the

audience (attorneys, business owners, veterans, students etc.):

Please indicate your request for the topic of the Administrator's remarks, if applicable:

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend:

Please list any other speakers at this event:

Is this event open to the media?:

Please list a point of contact for the day of the event, including a cell phone number and e-mail address for the contact:

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact:

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location:

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (Information may also be attached and submitted with this form.)

Please include a contact number for the event location:

Please indicate whether this event is held weekly, monthly or annually:

Please indicate the attire for this event (business, formal, casual, etc.):

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event:

Please provide the security contact if contracted or head of security for event location:

Thanks you!

Two more questions:

1.) Who should I connect with in the Administrator's office regarding logistics?

2.) May I connect you with Ericka Andersen who runs *NR*'s social media? She would like to coordinate social media promotion with you.

Hi Mr. Konkus,

We're looking forward to hosting the Administrator at our Ideas Summit on Friday morning.

We're reaching out to see how we can coordinate on the media push for his appearance at the conference. I've looped in Anna Walsh from Pace Public Relations on this email. She is handling media at the conference and will be able to help coordinate.

Please let me know how I can be helpful.

Thank you,

Charlotte

>
> On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the

states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

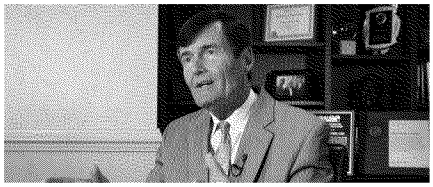
NICHOLAS K. AKINS

Chairman, President and Chief Executive Officer *American Electric Power*

Nick Akins is chairman, president and chief executive officer of American Electric Power. He is AEP's 11th chairman, 10th president and sixth CEO in the company's more than 100-year history. He is a member of AEP's board of directors and is the only management representative on the board.

Akins rose through the ranks at both AEP and the former Central and South West Corp. (CSW), which merged with AEP in 2000. Akins began his career in 1982 as an electrical engineer before moving up to positions of increasing responsibility. Prior to being elected president of AEP in December 2010, he served as executive vice president - Generation from 2006 through 2010 with responsibility for all generation activities of AEP's approximately 38,000 MW of generation resources.

Previously, he served as president and chief operating officer for Southwestern Electric Power Company, and held other leadership roles in Energy Marketing Services, Transmission, External Affairs and Industry Restructuring.



A native of Louisiana, Akins received his bachelor's degree in 1982 in electric engineering from Louisiana Tech University in Ruston and a master's degree in electrical engineering in 1986 from Louisiana Tech. Additional training includes executive management programs at Louisiana State University, the University of Idaho and the Reactor Technology Course for Utility Executives at the Massachusetts Institute of Technology. He is a registered professional engineer in Texas.

Akins is a former chairman of the Board of Directors of both the Edison Electric Institute (EEI) and the Electric Power Research Institute (EPRI), and currently serves on both boards. He is a member of the Executive Committee of the Business Roundtable (BRT) and was appointed chair of the BRT's Energy and Environment Committee. Additionally, he is a member of the boards of the Nuclear Energy Institute (NEI), Global Sustainable Electricity Partnership (GSEP), The Columbus Partnership, Columbus Downtown Development Corporation, Nuclear Electric Insurance Limited (NEIL), Fifth Third Bancorp, OhioHealth and the Rock and Roll Hall of Fame and Museum.

Akins and his wife, Donna, live in Dublin, Ohio. They have two adult sons.

THOMAS R. KUHN

President, *Edison Electric Institute*

President, *Edison Electric Institute*

Tom Kuhn is President of the Edison Electric Institute, the association that represents all U.S. investor-owned electric companies. EEI's members provide electricity for 220 million Americans, operate in all 50 states and the District of Columbia, and directly employ more than 500,000 workers. In addition, EEI has 70 international electric companies as International Members, and 270 industry suppliers and related organizations as Associate Members. Mr. Kuhn joined the Institute in 1985 as executive vice president, was named chief operating officer in 1988, and elected president in 1990.

Prior to joining EEI, Mr. Kuhn was president of the American Nuclear Energy Council, which subsequently merged with the Nuclear Energy Institute. The Council represented virtually all of the companies in the commercial nuclear power industry. He joined the Council in 1975 as vice president, government affairs, and became president in 1983.

From 1972 to 1975, Mr. Kuhn headed the energy section of the investment banking firm, Alex Brown and Sons. Prior to that, from 1970 to 1972, he was White House Liaison Officer to the Secretary of the Navy.

Mr. Kuhn received a BA in Economics in 1968 from Yale University, served as a Naval Officer following his graduation, and received an MBA in 1972 from George Washington University. He completed the Stanford University Graduate School of Business Senior Executive Program in 1989.

Mr. Kuhn served on the Secretary of Energy's Advisory Board and the Board of the U.S. Chamber of Commerce. He currently serves on the Boards of the Alliance to Save Energy, the United States Energy Association, the Electric Drive Transportation Association, and the American Council for Capital Formation. He is Chairman-Emeritus of the Committee of 100 of the U.S. Chamber of Commerce, Chairman-Emeritus of the American Society of Association Executives (ASAE), and past-chairman of the Alliance to Save Energy, the ASAE/Key Industry Association Committee, and the Trade Association Liaison Council.

Mr. Kuhn is Chairman-Emeritus of the National Multiple Sclerosis Society as well as the National Capital Chapter. He currently serves on the Board of the U.S. Navy Memorial Foundation. From 2006 to 2008, Mr. Kuhn served on the Board of the National Park Foundation. Mr. Kuhn was awarded the Bess Goodman Humanitarian Award in 2000. He served as 1992 and 1997 chairman of the Associations Division, United Way Campaign, and chairman of the 1996 through 1998 National Alliance to End Homelessness Awards dinners.

Mr. Kuhn was chosen as Association Executive of the Year 2000 by Association TRENDS magazine. He was the recipient of The Energy Daily's 2000 Public Policy Leadership Award. He received the Alliance to Save Energy's 2004 Chairman's Award. Mr. Kuhn also received the 2009 ASAE/Center for Association Leadership's Key Award. He is the recipient of the Fund for American Studies (TFAS) 2014 Congressional Scholarship Award. In September 2015, Mr. Kuhn was honored as the 2015 Trade Association CEO of the Year. Presented by CEO Update, the award recognizes excellence in trade associations and professional societies.

Subject: Scott Pruitt Luncheon at NLC 3-14

Crystal,

This is Craig Thurmond I am the Mayor of Broken Arrow, OK, I am also on the Board of the NLC. Administrator Pruitt is supposed to speak at the Luncheon tomorrow at the NLC Conference in DC. I have been asked to introduce him to a small group before the Luncheon . The group will consist of the President, First Vice President and Second Vice President of the NLC and the Chairman and two Vice Chairmans of their Energy and Environment Committee and me. I will be the only Republican in the room. We are suppose to have a meeting before to discuss what they want to talk about, all I know right now is Climate Change. The NLC's Environmental Committee believe that we need more environmental regulations.
I did not want Scott to be caught off guard when he got here. I told them that he is a very principled man and they would not change his views, but he would listen to them. If I get a chance I will sent him the list of the three items they want to discuss.

Craig Thurmond

Edison Electric Institute

Tuesday, 3/13 @ 9:30am

Mandarin Oriental Hotel – Grand Ballroom

Exact Speaking Time: 9:45am-10:15am
***Arrive at 9:30am*

Length: 15 min.; 10 min. Q&A

Introduction: Sean Trauschke, OGE

Audience: 250 energy executives

VIPs: Sean Trauschke, OGE
Nicholas Akins, American Electric Power

Contact:

Media: Closed

Opening: Whoever said you can't have your cake and eat it too, doesn't know what to do with cake.

Why wouldn't you want both pro-energy and pro-environment?

Bridge: We can have both pro – look at what we've accomplished. No one does it as good as the U.S…

Celebrate Progress
Since 80's – 65% reduction in six criteria pollutants under NAAQs program

- Industry's carbon dioxide emissions down 21 %
- Nitrogen oxides cut by nearly 80% since 1990 and sulfur dioxide down by 86%.
- All while electricity use grew by 36%
- Thanks to technology: clean coal, shale

Opportunity Knocks

- Clean Power Plan
- Coal Ash Implementation
- Approve SIPS

Opportunity is knocking and new leadership in the White House and at EPA will answer…

EPA WILL ANSWER

- Restore trust, respect
- Abuse of process leads to bad outcomes
- Follow the rule of law…CO2 regulations always stayed, Tailoring struck down
- Stop practice of sue and settle
- Obama 54 FIPS, 10x the number of last three presidents combined

Cooperative Federalism: attitude and leadership; appoint regional officials who view states as partner, not advisories

Bridge: *Less than a month on the job and already: WOTUS, methane ICR notice, CAFÉ, CPP coming…*

Closing: Baseball…Yogi Berra: "The future

ain't what it used to be."

National League of Cities

Tuesday, 3/13 @ 12:30pm

Marriot Wardman – Capitol Board Room

Exact Speaking Time: 12:55pm-1:05pm
***Meet and Greet at 12:30pm*

Length: 10 min.; NO Q&A

Introduction: Mayor Karen Freeman-Wilson, Gary, Indiana

Media: Open to the press

Opening: "I'm old enough to remember when the air over American cities was a lot dirtier

than it is now." – P.J. O'Rourke

All good humor has some truth to it…

Bridge: The truth is, America's air ***is*** a lot cleaner…

Celebrate Progress
Since 80's – 65% reduction in six criteria pollutants under NAAQs program

- Reduction in nitrogen dioxide **concentrations**: Atlanta – 33%, Denver 9%, NYC 22%
- Thanks to technology: clean coal, natural gas

Civility/Partnership
Cities across the country have an important, but difficult responsibility

- Balancing jobs and the environment can be difficult
- Divisive issues: zoning, roads, bridges

Superfund/Brownfields are key infrastructure programs

- Only 40% achieved attainment
- EPA will work with you to achieve air quality standards attainment
- Water infrastructure
- Funding via grants, receiving funds, WIFA

Honoring the President's Commitments

- POTUS said last week infrastructure programs are going to happen

- I'm a member of the President's infrastructure principals team – met with him last week on the issue

Bridge: *Cities are where we raise our families and our children – leaders of our cities want clean air and water more than anyone.*

Closing: John Muir: "Everyone needs beauty as well as bread, places to play in and pray in." – That's what cities are supposed to be.

Administrator Conversation Outline 2017 11 08.docx

Hi Millan and Forrest,

This email is a bit long, so apologies in advance. I tried to get as much information in one place as possible.

First, I have attached a few things to this email (5 documents):

1. A speaker sheet for the administrator which has a room diagram and reflects many of the details that Millan and I spoke about with our producer, JoAnna, in our production call
2. A schedule of events for the Administrator
3. Two lists of attendees for the reception (titled SIGMA Board and Guests and NATSO Board)
4. The outline of the conversation with Brad Puryear for your review – please feel free to edit/craft the topics as the Administrator prefers. (it is likely longer than we have time for, but includes topics that will be brought up if time allows)

**this also includes the introduction we have mocked up for the Administrator – please edit as you see fit*

You'd asked about some bullet points on SIGMA. I've put a few here, but have also put, below my email signature, a brief "About SIGMA" for you that profiles our association and membership.

- Founded in 1958 (next year is our 60th Anniversary!)
- Approximately 260 corporate members
- Membership in both the US and Canada

- Those members control more than 50% of the petroleum retail market
- They sell approximately 80 billion gallons of motor fuel each year
- SIGMA represents the most successful, progressive, and innovative fuel marketers and chain retailers in the United States

Question for your team:

1. Brad would like to match the dress code that the Administrator prefers when he speaks – I assume the Administrator almost always appears in a jacket and tie?

Regarding the question from your ethics office, the per person dollar amount for food & beverage during the Administrator's time with SIGMA is $6/person.

On site, I will serve as your main SIGMA contact for the meeting. Security concerns or questions can be addressed directly with the hotel contacts, as they will be much better equipped to answer your questions that I! My cell number is Personal Phone/Ex. 6 – you're welcome to call or text me as needed for the event. I will be on site in Chicago by Monday afternoon the 6th.

Forrest and I have a walkthrough scheduled for Tuesday at 1pm and will meet at Erie on the 2nd level of the hotel. We'll go through the details and can address anything on site that might come up.

If you are missing any information or have questions, please don't hesitate to reach out. Thank you so much and we're very excited about the event!

Best,
Liz.

About SIGMA

Founded in 1958 as the Society of Independent Gasoline Marketers of America (SIGMA), SIGMA has become a fixture in the motor fuel marketing industry. After nearly sixty years of leadership, SIGMA is the national trade association representing the most successful, progressive, and innovative fuel marketers and chain retailers in the United States. From the outset, the association has served to further the interests of both the branded and unbranded segment of the industry while providing information and services to members.

SIGMA's approximately 260 corporate members command more than 50 percent of the petroleum retail market, selling approximately 80 billion gallons of motor fuel each year. These member companies operate throughout the United States and Canada.

Regular membership in SIGMA is available to companies involved in motor fuel retailing or wholesaling that are not owned by a refiner. In addition, Associate membership is available to fuel supplier companies and to companies that offer financial services, fuel transport services, and fleet card services. SIGMA member companies have long been recognized, both within and outside the industry, as the most aggressive, innovative, and price competitive segment of petroleum marketers.

BRAD PURYEAR

(ends self-introductions)

…and I'm Brad Puryear, Mansfield Energy, Gainesville, GA.

Today we are thrilled to have with us a very special guest – the 14th Administrator for the Environmental Protection Agency, Scott Pruitt. Confirmed to the position on February 17th of this year, he is recognized as a national leader in the cause to restore the proper balance between the states and federal government.

Administrator Pruitt has a long career as a civil servant, serving eight years in the Oklahoma State Senate before being elected Attorney General for the State of Oklahoma, establishing the state's first federalism unit to combat unwarranted regulation and overreach by the federal government.

I would be remiss if I didn't take this opportunity to give our thanks and appreciation on behalf of our industry and the American public to the Administrator for helming the EPA's quick and decisive response to Hurricanes Harvey and Irma earlier this year. His leadership inspired the rapid action taken by the agency to issue countless waivers for our industry, ensuring the flow of product did not stop to the affected areas, keeping emergency services functioning and getting the affected states back on their feet much faster with a steady fuel supply to keep the recovery efforts moving.

SIGMA is proud to welcome to the stage Administrator for the EPA, Scott Pruitt.

General Starting Information

- We all have in our minds what we *think* the EPA does and what your role is as Administrator, but what really defines your position?
- What is the full scope of the EPA?
    - Air and water quality, various specific environmental issues
    - Regulation/deregulation
    - Policy making and ensuring fair and effective enforcement of existing federal laws
    - All forms of energy (petroleum, renewable, nuclear, etc)
    - Human health (protect from significant risk)
- What led you to decide to serve in the role?
- You have a unique perspective of the EPA, as a private citizen, a state official and now as the leader of the agency– What have you found most surprising about the role/function of the EPA?
- What is the most common misconception that the public has about the agency?
- Regarding laws and regulations (two different things)
    - First discuss the difference of federal law vs. regulation (where does each originate, who enforces, easier process vs. harder process)
    - Once a law is on the books, it's usually a broad scope – how does something like that work when it moves to the agency level? Who is responsible for the interpretation of that law into agency policy?
    - What do you see as EPA's role? Is the Agency a resource for industry, one that guides and facilitates compliance with environmental regulation? Or is the primary role to enforce environmental laws and policies?
- With each administration, different philosophies come into play at the various agencies – how much oversight does an administration have at an agency like the EPA? And do you see the courts adapting to different EPA philosophies?
- What strikes you as the biggest challenge facing the EPA? And the biggest opportunity?

Renewables

- How sensitive is the EPA to the blend wall and how does the agency measure it?
- Biodiesel, bio-gas, other bio fuels
    - Do you see a future to drive homogenization of transport fuels to lessen regional and seasonal blends? (it would lower costs and help in crises situations)
- Does the EPA have a stance on natural gas as a transport fuel? Is there thought to helping spur that into adoption as an abundant resource?
- Renewable energy
- EPA perspective on the electric vehicle
- As we draw closer to 2022, in what ways do you plan to improve the RFS program?

Agency Interaction

- State interactions
    - How does the EPA work with individual state organizations?
        - Example: How does the EPA interact with organizations like the California Air Resources Board, the Oklahoma Water Board, Texas Water Development Board, or the Virginia Air Pollution Control Board?
    - What is the historical relationship that the EPA has had with states? Do you foresee more/less latitude with those relationships under your tenure?
    - Are there other ways in which the EPA and State Agencies work collaboratively?
    - When it comes to enforcement philosophies, do you see a partnership with state agencies/policies that could relieve a bit of the process?
        - Example: New York has both federal and state inspectors for the same tanks – is there a way to make those dual inspections less of a frustration for companies?
- International
    - Global issues seem to be more top of mind in recent years – do you as EPA Administrator work with your contemporaries from other countries on issues?

Wrap Up

- The EPA will be around long after this and many more administrations – what kind of institutional knowledge would you like to leave for those future administrations?
- How can we as an industry be of assistance to the goals of the EPA?

Millan:

No worries! Thanks for trying to get the Administrator here!

Attached is an updated agenda. We have 9:15 – 10 AM on Friday, Dec 1st as the time slot for the Administrator. On the agenda we have EPA Regional Administrator Jim Gulliford as the "placeholder" per Tate's request to keep things quiet at this point. If possible, we would appreciate the Administrator spending some time with our Statewide Board of Directors (10 people) before or after his comments to the General Assembly.

As I've mentioned to Tate, the event is at the West Des Moines Sheraton. Will Administrator Pruitt and staff require rooms at that hotel or will you be securing accommodations elsewhere?

Please let me know what additional information you require from me.

Thank you,

Kevin

Subject: For review: IAEC Annual Meeting-Revised

Iowa Association of Electric Cooperatives 75th Annual Meeting,
"*Building Legacy through Leadership*"
Friday, December 1, 2017

Time: 9:15-10:00 a.m. General Session keynote (full agenda is attached)

Location: Sheraton West Des Moines, Ballroom 1800 50th Street, West Des Moines, IA 50266

Airport: DSM Airport approximately 20 min drive to conference hotel

Hotel rooms: We are happy to accommodate and book rooms for your staff or a room block is available at the Sheraton West Des Moines. We have a negotiated room rate of $106 plus taxes per night for the nights of Monday, 11/27-Thursday, 11/30. Please contact Annie Schlink, Group Rooms Coordinator, (515) 457-2127, annie.schlink@sheratonwestdesmoines.com

Audience: Approximately 600, CEOs/General Managers, Board of Directors and key staff of the association members from 35 distribution co-ops and 7 generation and transmission co-ops.

About us: Owned by the members they serve, Iowa's not-for-profit electric cooperatives power the lives of 650,000 Iowans throughout all 99 counties and are committed to delivering power that is safe, reliable, affordable and environmentally responsible. The Iowa Association of Electric Cooperatives exists solely to support the interests of member-owned electric cooperatives, including 35 distribution co-ops and 7 generation and transmission co-ops. Formed in 1942, IAEC provides many vital functions for its members including legislative representation, regulatory oversight, training and education services, safety programs, and communications support.

One thing of note, it is our 75th Anniversary of our association this year and this conference serves as a celebration of those accomplishments our cooperatives have faced in the past 75 years and looking towards our future.

We appreciate the time to address our membership!

Katrina Davis, CMP

Director of Education and Training

IAEC ANNUAL MEETING
75TH ANNIVERSARY
BUILDING LEADERS
NOVEMBER 30 - DECEMBER 1, 2017
SEATTLE WEST DES MOINES

Thursday, November 30

7:30 a.m. ACRE/Iowa FORE breakfast: Jim Matheson, NRECA
Please join us in welcoming Jim Matheson, CEO of the National Rural Electric Cooperative Association at our ACRE/Iowa FORE breakfast.

8:00 a.m. **Coffee and Rolls**
9:00 a.m. **Opening session**
Invocation
Color Guard
National Anthem
Pledge of Allegiance
Welcome, Chuck Soderberg, IAEC
9:30 a.m. **NRECA National Update: Jim Matheson, NRECA**
10:15 a.m. **Break**
10:30 a.m. **Cooperation Among Cooperatives, and Beyond: Iowa REC's Take the Lead in Georgia and Puerto Rico Relief Efforts:**
Mark Schouten, Iowa Department of Homeland Security *(invited)*
11:00 a.m. **Iowa Secretary of Agriculture** *(invited)*
11:30 a.m. **Break for lunch**
11:45 a.m. **Iowa Venture Lunch**
1:30 p.m. **Perspective from Iowa's Youth Tour Representative: Carlyn Bretey, North West REC**
1:45 p.m. **The Relevance of Electric Cooperatives in the Next 50 Years: Dr. Lowell Catlett, Ph.D.**

Electric cooperatives improved the lives of millions of Americans in rural areas and made American agriculture the envy of the world during the last 80 years. The next 50 years will see electric cooperatives at the center of the world's greatest revolution-the movement from centralized fossil based power to distributed renewable power and to the world where the only energy is electricity. Advances in material science and cell-less biology drive new forms of alternative energy production and rapid advances in storage and speed transform the way people live and work. It's a world of autonomus transportation, droids and robots performing all physical work and 24/7 degree less education. What is rural and urban becomes blurred as humans for the first time in recorded history maximize their true potential in record numbers and electric cooperatives will be the major driver in this revolution.

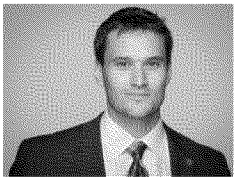
2:45 p.m. **Break**
3:00 p.m. **The Future of Safety: Richard Hawk, Make Safety Fun**

During this insightful presentation, Richard Hawk shares what is on the horizon for the safety field and how you and your cooperative can take advantage of emerging trends. Richard's work with dozens of companies in a wide array of industries every year allows him to see firsthand what is new, what is developing and what isn't working with respect to safety. Don't get left behind! Find out everything you and your team need to know to keep your safety program on the leading edge.

4:00 p.m. **25-Year of Service Recognition/ NRECA Certification Recognition/RESAP**
4:30 p.m. **Honoring Iowa's Cooperatives: Chuck Soderberg, IAEC**
4:45 p.m. **Adjourn**
5:00-7:00 p.m. **Reception/Political Action Committee Auction**

Iowa Association of Electric Cooperatives
A Touchstone Energy® Cooperative

IAEC Annual Meeting
75th Anniversary
Building Leaders
November 30 - December 1, 2017
Seaton West Des Moines



Friday, December 1

7:00 a.m. **Board Presidents' Breakfast**
7:30 a.m. **Coffee and Rolls**
7:30–9:00 a.m. **Spouses' Breakfast: Family, Food and Farming: Cristen Clark, Food and Swine**

Cristen is an Iowa farmer, raising corn, soybeans, pigs and cattle. With her love of cooking and writing, she has started a blog sharing contest winning recipes straight from her family cookbook and moments on our farm in Iowa. Memories made in the kitchen, are some of the most vivid memories she has and certainly the most treasured.

8:30 a.m. **Annual Business Meeting**
9:00 a.m. **Break**
9:15 a.m. **State of the EPA Address: Jim Gulliford, Director, Region 7 EPA**
10:00 a.m. **Break**
10:15 a.m. **Serve Our Co-ops, Serve Our Country: Charlie Dunn, Farmers Electric-Greenfield**
10:20 a.m. **The One and The Nine: Building of Teams & Organizations That Win: Jake Wood**

For every 100 people in a typical organization or on your team, there are 10 people who shouldn't even be there, 80 who at their best have a neutral impact, 9 who perform exceptionally, and one who is a true leader capable of taking command and creating a winning team or culture. This reality is forcing organizations to rethink what they know about leadership, change management and risk. Those that can adapt will thrive, while those that refuse change will flounder and fail. Jake gives organizations the framework for becoming a better leader and building more agile organizations. Using his own remarkable journey as an Athlete, Marine Scout Sniper, and co-founder of Team Rubicon, Jake shows how you can find and build the team needed to win life's battles and become the "one" others look to.

11:50 a.m. **Book Signing/Adjourn**

Hi Holly,

Yes, the security contact at The Sanctuary is still Yvonne Johnstone. I am happy to meet with the security for Pruitt at 2:30 on Wednesday. Please note, because of our other meetings taking place on Wednesday the room won't be set as it will be Thursday morning. In fact the wall dividers will be up between all of the rooms. If that still works I will put 2:30 on the calendar. If the rooms need to be open, we will start setting for dinner at 4:30ish. Please let me know what works best.

Hello Millan. I'm going to put you in touch with Edie Fleming, Managing Director of our meetings department. She'll be able to schedule the walk-through.

Edie, Millan would like to arrange a walk-through of the board meeting were SA Pruitt will speak. Is this something you can arrange? He'd also like a contact for resort security. Is the contact still Yvonne Johnstone, KIGR, Director of Safety & Security, Phone: 843-768-2797, Yvonne_johnstone@kiawahresort.com? Please us know.

Thank you.

Best,

Holly,

Good evening to you. Along with SA Pruitt and SA Thomas, I will be traveling into Kiawah Island on Wednesday November 7th to advance Administrator Pruitt's visit. Could we please arrange for a walk-through of the location where the board meeting with be taking place? Maybe at 2:30pM?

Additionally, could you kindly put us in contact with resort security and/or if you have contracted security, that person as well.

Warm regards,

Millan Hupp

Introduction

Your message to cnesmith@texaspolicy.org couldn't be delivered.

cnesmith wasn't found at texaspolicy.org.

hupp.millan	**Office 365**	**cnesmith**
Action Required		Recipient

Unknown To address

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- **Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "To send this message again, click here." Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click Send.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: Fix email delivery issues for error code 5.1.1 in Office 365, and then send the message again. Retype the entire recipient address before selecting Send.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the More Info for Email Admins section below.

Was this helpful? *Send feedback to Microsoft.*

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see Fix email delivery issues for error code 550 5.1.1 in Office 365.

Subject: Requesting a meeting with Administrator Pruitt

Hello Ryan, I apologize for bothering you with this, but am unsure who the right person to contact is. We wish to request a meeting with Administrator Pruitt during the week of November 13, if possible, on behalf of our Tulsa-based Midstream Commercial Vice President, Larry Huddleston, our Vice President for Environment, Safety and Health, Tom Hutchins, and myself. The topics for discussion on our side would be the NSPS OOOOa rule-making, Superfund cleanup sediment policy, the American Burying Beetle/ESA issue and its impact on the oil and gas sector, and EPA participation in FERC-led natural gas project permitting NEPA analyses. As one of the largest midstream companies in North America, we would also be happy to discuss anything on the Administrator's mind. I know you know KMI, but for the scheduling office, below is a brief description. Thank you for your consideration of this request. Best wishes, Dave

Kinder Morgan, Inc., owns an interest in or operates approximately 84,000 miles of pipelines and 155 terminals. KMI's pipelines transport natural gas, refined petroleum products, crude oil, condensate, CO2 and other products, and its terminals transload and store petroleum products, ethanol and chemicals, and handle such products as steel, coal and petroleum coke. It is also a leading producer of CO2 that we and others use for enhanced oil recovery projects primarily in the Permian basin. For more information please visit www.kindermorgan.com.

Subject: Re: Meeting with Administrator Pruitt and John Adams

All,

I really apologize for the inconvenience, but John's schedule has changed and he will be leaving northern Virginia/DC very early in the morning on Wednesday, as we are up against a fundraising deadline on Friday and have had something come up in Richmond. Can we look at rescheduling sometime down the road perhaps?

On Thu, Mar 23, 2017 at 4:33 PM, Nick Collette <nick@johnadamsforva.com> wrote:

Thank you for the additional information. I believe John will prefer to meet with Administrator Pruitt alone, but if Administrator Pruitt needs staff with him that's obviously completely fine on our end. Please let me know if you need anything else.

On Thu, Mar 23, 2017 at 4:28 PM, Woodward, Cheryl <Woodward.Cheryl@epa.gov> wrote:

Hi Nick,

I am the point of contact for logistic of your meeting. I have whom attending, day and time. Here are the directions/instruction to your meeting:

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process

Sent: Friday, March 24, 2017 11:07:16 AM
To: Hupp, Millan
Subject: Re: Invitation to speak at MI

(Ralf, will move you to BCC)

Millian,

The video would be screened at our Hamilton Award Dinner on May 4; attendees would include the Manhattan Institute's board of trustees and other supporters, and high-level figures from media, government, and the non-profit sector. We would of course give your office final approval over his portion of the video. We also might seek to screen it publicly after that, on social media and our website, but would again only do so with your approval.

We are willing to be as flexible as possible to Administrator Pruitt's schedule, with the only constraint being that we'd need to do the filming before April 7 in order to have the video ready in time. We will have a film crew in DC on one of the following days: March 28, March 30, April 4, April 5, and April 7. If any of those dates works on your end, we would prefer to schedule it on those days. But as I said, we'll gladly accommodate whatever time within that range is ideal for you.

The questions we would ask are copied below. Of course, if there are any questions, for whatever reason, that he would prefer not to discuss, we can change this list.

1) How has MI changed American lives for the better?

2) In your opinion, what is the **single-most influential contribution** MI has made to foster greater economic choice and individual responsibility?

2b) And/or, what has been its most significant intellectual contribution? What is the "big idea" from MI that has mattered most?

3) What do you hope the "**next 40 years**" look like for MI?

3b) How might America (or its cities?) look different 40 years from now if MI's ideas are more broadly understood and implemented?

4) What is MI's unique contribution? What differentiates MI from others?

5) Who are your favorite fellow(s) and why?

6) Make any comment that you (the toaster) would like to make (you never know what you get from them)

7) Do you have any thoughts or comments about Larry Mone (MI's President) or Paul Singer (MI's Chairman)?

8) Do you remember your first interaction with MI, its scholars, or their ideas?

9) What wishes do you have for MI for the next 40 years?

10) Would you say that MI's scholars or their work have changed your thinking significantly, on a personal level? Why did you find these ideas compelling or how did they help you see policy/culture differently?

Thank you,

Dean

Hi Millan!

Just thought I'd check in to make sure everything was okay with the request form I submitted last week. As always, feel free to let me know if you need anything further on my part.

I also wanted to introduce my colleague Dean Ball (Cc'd), who is putting together a short 40th Anniversary video to be shown at our annual Hamilton Awards Dinner (to which the Administrator has also been invited). The video would feature interviews with several of our country's most prominent political and intellectual figures discussing their thoughts on MI's past, present, and future; and we'd be honored to include Administrator Pruitt. It would only require about 30 minutes of his time, and we would be more than happy to send someone down to his office to film. If that's something you guys are open to, please feel free to coordinate with Dean.

I look forward to hearing back from you soon.

Kind regards,

-Ralf

Aaron: Washington Policy Center (WPC), a non-partisan, state-based think tank in Washington state, would like to invite Administrator Pruitt to be the keynote speaker at our upcoming Solutions Summit policy conference on Tuesday, May 16th in Spokane.

Our official invitation is attached and below.

Please let me know if you have any questions. We appreciate his consideration of our invitation and we look forward to hearing back at your earliest convenience.

Thank you,

Dann

Dann Mead Smith, President

Washington Policy Center

P.O. Box 3643 - Seattle, WA 98124

www.washingtonpolicy.org

March 8, 2017

Administrator Scott Pruitt

Environmental Protection Agency

1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

sent via email: dickerson.aaron@epa.gov

Dear Administrator Pruitt:

The Northwest's leading independent, free-market think tank, Washington Policy Center (WPC), would like to invite you to be the keynote speaker for our statewide 2017 Solutions Summit policy conference in Washington state. The event will be held on Tuesday, May 16, 2017 in Spokane. We hope this date will work with your schedule.

Washington Policy Center will be honored to host you and cover all first-class travel costs for you and a staff member or guest.

The statewide event encompasses two half-day conferences that are designed to provide insight and solutions for our region's top policy challenges. Each conference will feature panels on: the environment, agriculture, education, transportation, budget and taxes, health care, and business & labor reform issues. They will bring together prominent local and national speakers on each of these important issues to help shape the public debate by educating policymakers and informing citizens.

This is our state's largest policy event that will be attended by over 700 people including lawmakers, business and community leaders, media, and civic-minded citizens from across the state. We would be honored to have you join us as the keynote speaker at lunch for the event in Spokane.

Washington Policy Center is a non-profit think tank, similar to The Heritage Foundation and the American Enterprise Institute, and one of the largest and most impactful members of State Policy Network. Our research and education advance the public debate and develop innovative policy solutions.

Year-in and year-out, WPC's events are some of the best-attended in our state, and are a must-attend for some of the nation's top policy leaders including Defense Secretary Gen. Jim Mattis, Dr. Charles Krauthammer, Gov. Susana Martinez, former Defense Secretary Robert Gates, Dr. Ben Carson, Governor Scott Walker, Governor Bobby Jindal, and Governor Mitch Daniels.

Over the past few years, dozens of our ideas have been passed by voters and the legislature and signed into law. Citizens depend on our analysis to make decisions on our state's pressing public policy matters. Our work is featured in the media an average of over seven times a day and has been covered by national media including *USA Today*, CBS News, Fox News, and *The Wall Street Journal*.

Thank you for your consideration of our request. I hope to hear from you at your earliest convenience so we can begin planning your visit.

Sincerely,

Dann Mead Smith

President

Washington Policy Center

Subject: Re: March 31st Federalist Society Lunch

Hi Millan,
Sam is the manager who I work with at Tony Cheng's to coordinate logistics at the restaurant.

Leonard is attending; I have not heard back from Jonathan Bunch, so I am not sure he will attend.

We begin eating at 12:05 - 12:10, we will eat until about 12:35 - 12:40, which is when the address begins. Most of the eating is done by the time the address begins.

If he arrives at 12:30, the attendees will be eating, but most will be done when he begins speaking at about 12:40.

Can you please let me know what staff will be attending with Administrator Pruitt. We can usually accommodate 1 staff member at the head table with the speaker. It would also be very helpful to have the cell phone number of someone who will be traveling with Mr. Pruit, could you please send me a number. My cell phone number is Personal Phone/Ex. 6

Thanks,

Juli

The restaurant contact you listed on the form is Sam. Who is this person please?

Will Leonard Leo or Jonathan Bunch be in attendance?

What is the format of the lunch? If he arrives at 12:30, will he sit down and then be introduced? Will you all be eating while he is speaking or after? I ask because he will be headed straight to the airport after and I want to ensure I have an understanding of the time frame.

Thank you!

Millan

Subject: March 31st Federalist Society Lunch

Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address. Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me; I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at Personal Phone/Ex. 6 which is my cell.

Best,

Juli

Event Request Form for
Administrator E. Scott Pruitt
U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group: National Cattlemen's Beef Association (NCBA) and Public Lands Council (PLC)
Name of Event: 2017 Legislative Conference
Date of Event: March 28-30, 2017 (Administrator Pruitt's presentation will be on March 30th).

Type of Event (banquet, lecture, panel discussion, etc.):
Regulatory Agency Visits - EPA Update (Throughout the day, attendees will have the opportunity to receive updates from senators, the USTR, ambassadors, the USDA, and FDA)

Role of the Administrator: Provide an agency update to cattle producers, answer questions Short (5 minute) interview with Cattlemen to Cattlemen following the presentation

Approximate time will the Administrator's Remarks Begin (example 9:00 am): 10:10 am

Expected length of the Administrator's remarks:
Administrator Pruitt's timeslot is one hour. However, we expect for questions to take up some time. Plan on 30-45 minutes.

Will there be Q&A? If so, for how long and who from? Ex: press, attendees:
Cattlemen will be allowed to ask questions. Press will attend, but will not be permitted to ask questions. Following the presentation, Cattlemen to Cattlemen is interested in a quick interview.

Event begins (example 9:00 am): 10:00 am

Event ends (example 9:00 am): 11:10 am

Event address (*please include room name or number if applicable*):
The Liaison Capitol Hill Hotel
Metropolitan Room
415 New Jersey Ave NW

Washington, DC 20001

Approximate size of the audience. Please also include a brief description of the makeup of the audience (attorneys, business owners, veterans, students etc.):

Approximately 200 Cattle Producers and limited press

Will there be a hold room for the Administrator?: Yes, speakers will wait in the Connect Room

Please list the name and title of the individual who will introduce the Administrator:
Craig Uden, NCBA President

Please indicate your request for the topic of the Administrator's remarks, if applicable:

Producers are very interested in a WOTUS update, as this rule most significantly impacts their everyday business. Please address any other issues that you believe impact the cattle industry. Role of federal v state in implementing environmental programs.

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend:

While we do not anticipate any other special guests at the Administrator's presentation, throughout the day Cattlemen will receive updates from Senator Barrasso, Sharon Bomer from USTR, Ambassador Ahn Ho-Young, Jack Shere from APHIS, and Steve Soloman from FDA.

Please list any other speakers at this event: See above

Is this event open to the media?: The Administrator's presentation will be open to limited media.
(Washington Post, Politico, AgriPulse, Bloomberg, E&E, RFDTV, Cattlemen to Cattlemen)

Please list a point of contact for the day of the event:
Scott Yager, Environmental Counsel
syager@beef.org
202-640-9481 (cell)

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact:

Scott Yager (information above)

Mary-Thomas Hart
Semester Law Clerk
mhart@beef.org
386-688-0142

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location: N/A

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (*Information may also be attached and submitted with this form.*)

Please include a contact number for the event location: 202-638-1616

Please indicate whether this event is held weekly, monthly or annually: Annually

Please indicate the attire for this event (*business, formal, casual, etc.*): Business

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event: NCBA Legislative Conference sponsored by Elanco Animal Health

Please provide the security contact if contracted or head of security for event location:
Ben German
Security, Liaison Capitol Hill Hotel

To: Jackson, Ryan <jackson.ryan@epa.gov>
Subject: Nov. 10 VIP Event - Commissioning Newest Chemical Facility (Chevron Phillips)

Hey Ryan!

Hope you are doing well! We're interested in inviting Administrator Pruitt to attend a VIP event we're holding on Nov. 10 at our Sweeny/Old Ocean, TX facility. The celebration is to mark our full downstream plastics operation and brand new unit as up and running. This is an excellent event to message TSCA implementation, the industry voluntarily taking initiative to lower emissions (the new unit as the most up to date technology with all the bells and whistles), energy jobs, the growing energy sector, the importance of worker safety (as Chevron Phillips boasts an impressive worker safety record), and of course – resilience of the industry to bounce back from Hurricane Harvey.

The event will begin at 10 am CT and a VIP tour of the new facility will be offered to a select group at 9:00 am CT. We'd love for Administrator Pruitt to give remarks for five to seven minutes (length of time is subject to change – may be longer) as 300 Chevron Phillips employees will be filling the audience. We'll serve light food/beverages for attendees. The entire event will be done by 11:00 CT. There will be a short time between the conclusion

of the tour at 9:45 am CT and the beginning of the event for meet and greet time with senior executives of Chevron Phillips Chemical, Chevron Corporation, and Phillips 66.

We'll have a step and repeat in a holding area for photos and any media interviews Pruitt would like to do. Of course, the opportunity for a gaggle is available before and after the event.

Other VIPs we are inviting are: Secretary Rick Perry (DoE), Secretary Alexander Acosta (DoL), Sen. John Cornyn, Sen. Ted Cruz, Chairman Kevin Brady, Rep. Brian Babin, Rep. Randy Weber, and Gov. Greg Abbott.

Do you think Pruitt would be able to attend?

Thanks, and let me know if you need anything else from me! We'll have a more formal invitation to follow.

Best,

Kristina

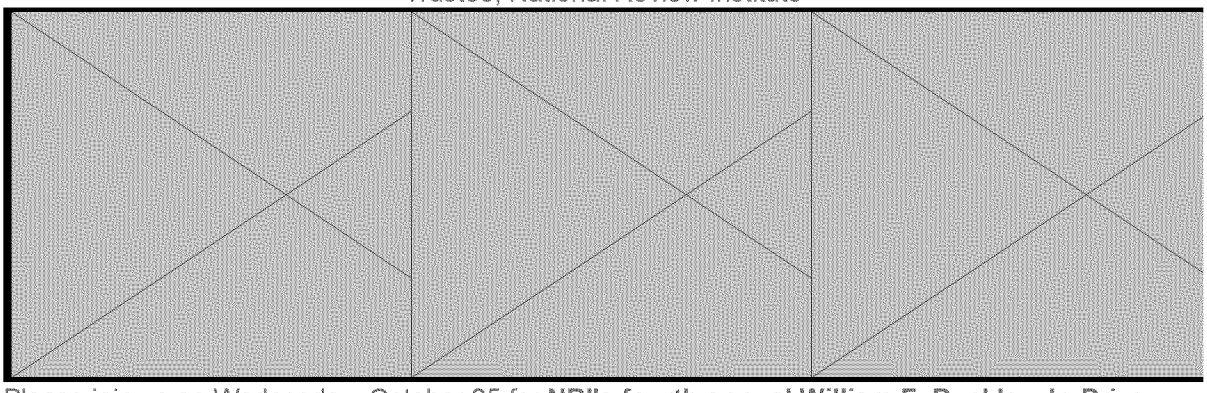
THE WILLIAM F. BUCKLEY JR. PRIZE DINNER

[redacted]



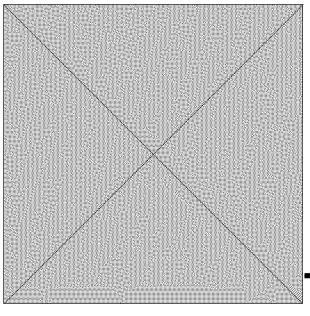
Dear Friend,

As a conservative, I place tremendous value on the National Review mission, which has guided the movement since Bill Buckley founded the magazine in 1955. I am pleased to serve as a trustee of National Review Institute, which is hosting its fourth annual Buckley Prize Dinner this fall honoring Bruce and Suzie Kovner and Tom Wolfe, meaningful leaders of the conservative movement. All funds raised go to support NRI, and I enthusiastically encourage you to join us for this remarkable evening.

Sincerely,

Ambassador John Bolton

Trustee, National Review Institute



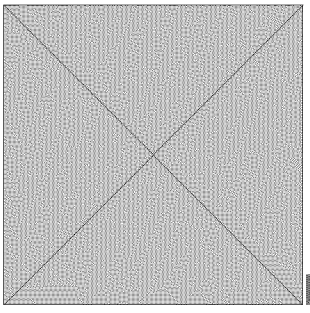
Please join us on Wednesday, October 25 for **NRI's fourth annual William F. Buckley Jr. Prize Dinner at Gotham Hall in New York City** honoring our close friends, **Tom Wolfe and Bruce and Suzie Kovner.**

The annual William F. Buckley Jr. Prize Dinner brings together an audience of conservative leaders, philanthropists, and friends of National Review Institute from around the country to celebrate the lasting legacy of William F. Buckley Jr and our esteemed honorees. The William F. Buckley Jr. Prize was created to honor those who advance the principles Buckley championed during his lifetime and foster the conservative movement that he helped launch.

To honor WFB's achievement and inspire others, National Review Institute's Board of Trustees created the William F. Buckley Jr. Prizes for Leadership in Political Thought and Leadership in Supporting Liberty. We hope you will join us this year in New York City.

THIS YEAR'S HONOREES

RECOGNIZING ACCOMPLISHMENTS IN THE ARTS & LETTERS



TOM WOLFE

Introduced by Christopher Buckley

RESERVE YOUR SEAT TODAY

The Prize for Leadership in Political Thought will be awarded to Tom Wolfe, recognizing his acclaimed writing and his influence on American culture over five decades. Bill Buckley had a cherished friendship with Mr. Wolfe, and admired him as a unique man of letters. In 1970, on one of several *Firing Line* episodes with Mr. Wolfe, WFB described his guest as "probably the most skillful writer in America . . .he can do more things with words than anyone else."

BRUCE AND SUZIE KOVNER

Introduced by Arthur Brooks

The Prize for Leadership in Supporting Liberty, which recognizes conservative philanthropy, will be awarded to Bruce and Suzie Kovner for their support and leadership of organizations that defend private enterprise, free markets and free trade, protect individual rights, and promote scholarly research that strengthens American democratic principles; for their support of education reform, particularly charter schools; and for their leadership of the major performing arts institutions of New York City. Bill Buckley loved free enterprise, classical liberalism, conservative policy reform, and the arts-especially music. Like Bill, Mr. Kovner plays the harpsichord. WFB also admired the kind of philanthropy in which the Kovners have engaged for many years.

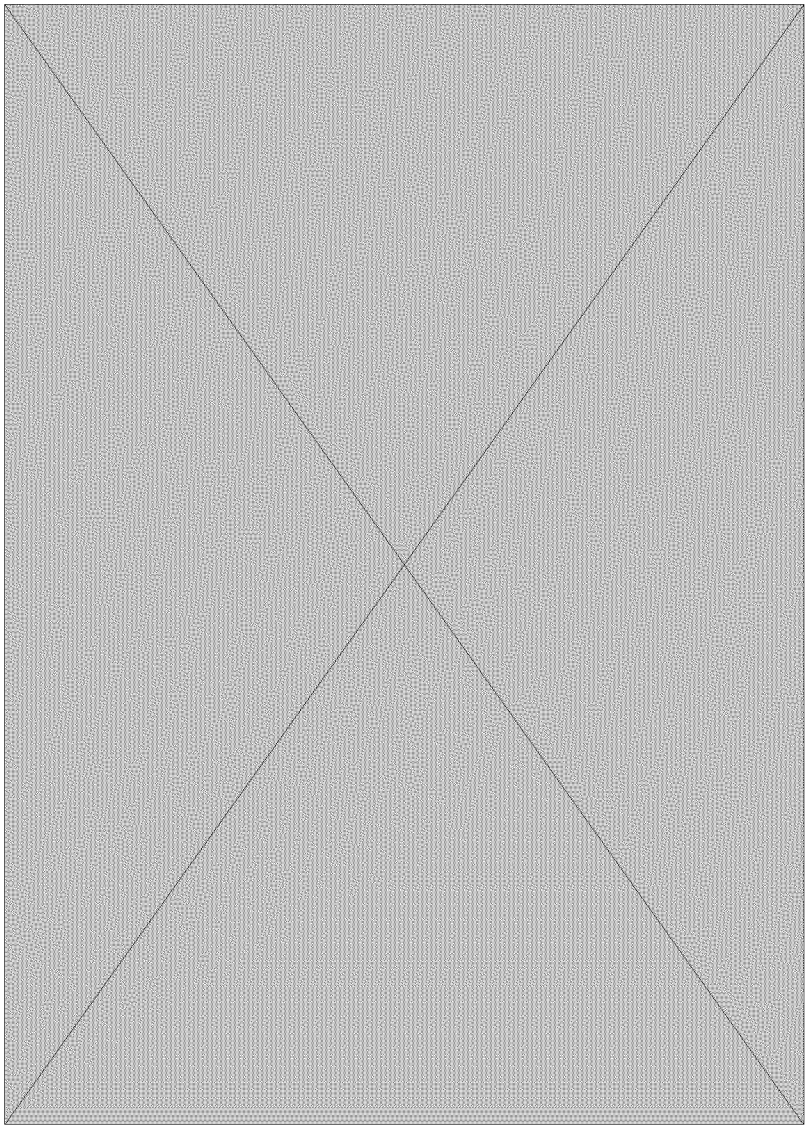
SPECIAL PROGAM FEATURES

MUSICAL PERFORMANCES BY STUDENTS FROM THE JUILLIARD SCHOOL

A SALUTE TO RICHARD LOWRY'S 25 YEARS AT *NATIONAL REVIEW*

AND

JAMES ROSEN AS MASTER OF CEREMONIES



Space is very limited, so we encourage you to RSVP at your earliest convenience. In addition to table sponsorship opportunities, we are offering individual tickets to the dinner starting at $1,000. Purchasing a ticket or sponsorship will also grant you membership into our 1955 Society.

For all details and registration please visit our website: www.nrinstitute.org/wfbprize2017.

For out of town guests, NRI has secured rooms at The Knickerbocker, from where a shuttle to Gotham Hall will be provided. In addition, we have a few rooms at The Algonquin. P lease make sure to reserve a spot at your earliest convenience.

All flights to and from NYC airports from 10/15-11/5 are entitled to NRI's 10% discount on Delta Airlines. When booking your travel, enter "NMQNP" in the meeting code on Delta's homepage: https://www.delta.com.

We hope you will join our friends and supporters from around the country in New York City this fall!

Hello Liz,

Yes, I was just about to reach out to you as we figured out his travel schedule this morning. We are able to confirm Wed, Nov 8 with an approximate presentation time of 3:20PM based on our previous conversation. If we built in conversations with the Boards, we could do that prior to his remarks. Would you mind sending along a few more details on the Board conversations, including attendees, topic, background, etc? We can then try to work in based on when he arrives to Chicago.

We really look forward to this event and thank you again for the invitation!

Subject: RE: SIGMA Invitation - Administrator Scott Pruitt

Hi Hayley,

Thanks so much for reaching out today! I just talked with Mike and he so happy that things seem to be working out to have the Administrator at our meeting in Chicago.

This is a bit of the information that we just chatted about this morning. Both dates do still work for us (the 8th and 10th), but we do have a preference to the 8th as it would be great to have A dministrator Pruitt open our Annual Conference. Also, the earlier date would coincide meetings for our Board of Directors as well as the Board of Directors for NATSO, the National A ssociation of Truck Stop Owners, and I know that both boards would be privileged to meet the A dministrator and be able to pass along their thanks for his efforts in keeping the fuel supply flowing with the waivers issued during Hurricanes Harvey and Irma.

If there is other information I can provide, please don't hesitate to ask. I am traveling for meetings next week, so the best way to reach me is on my cell at Personal Phone/Ex. 6 I'm happy to discuss any details or concerns and work out a way to have the Administrator at our event – I know our membership would be thrilled to hear him speak!

Thank you so much,

Best,

Liz.

Hello Liz and Mike,

I wanted to introduce myself as part of Administrator Pruitt's scheduling team. I understand that you had been in conversations with us regarding the Administrator speaking at the SIGMA A nnual Conference in Chicago in November. We are trying to make this work with his schedule and wanted to touch base on the current agenda. Previously, you communicated that 11/8, 3-4:30PM and 11/10, 9AM-12PM were the available windows. Is that still the case?

Please let me know and we look forward to getting him to Chicago for this event!

Thanks for getting back, Hayley.

Lunch is a Governors-only affair, with any special guests such as the Administrator. The keynote is the opening session of the meeting, which will be attended by the Governors and our attendees (300+ is a typical crowd). So the opening session is where remarks would be delivered.

Keep shooting questions this way.

Subject: RE: Administrator Pruitt at WGA Winter Meeting

Hi Joe,

Thank you for that information and for moving things around to accommodate us. I just wanted to confirm a little more detail around the below. Are the audiences the same at the lunch you mentioned below prior to the "official" start of the meeting and the keynote starting at 2/2:15PM? Aside from the settings being slightly different, is there any other difference to consider between both? I'm just hoping to have a full understanding before bringing to our team, as we look at timing to accommodate his schedule. For example, if it's the same audience at both, could he make his remarks at the lunch rather than during the keynote slot? The keynote slot may still work, but just want to have all the information before looking at flights.

Thank you so much and I appreciate it!

Hayley: Thanks for your patience while we examined our agenda in relation to your request.

We are glad to move the Administrator's remarks to the start of our Friday agenda, which we will also begin earlier. The revision means a 2pm meeting start, with the Administrator speaking at 2:15pm. As before, we have allotted 30 minutes for a mixture of the Administrator's remarks and then a short Q&A onstage with the Governors.

As already noted, the Administrator may schedule one on ones with the Governors that morning and is invited to join them at lunch from 11:45 a.m. to 1:15 p.m. prior to the opening of the meeting.

Let me know your questions.

Subject: RE: Speaker request form for Administrator Pruitt from WGA

Hello Joe,

I'm happy to let you know that Administrator Pruitt would like to accept your invitation to speak at the Western Governor's Association Winter Meeting. In looking at the agenda, I had a few questions regarding the best time for him to speak. I see that the keynote is 3:30-4PM on that Friday. Ideally, we would like to get him on a flight mid-afternoon that day for his next event. Could you provide a little more information about the agenda and the possibility of him delivering his remarks at potentially the breakfast or lunch that day instead? We understand and want his address to be a "keynote" setting, but just need a little more information on if there is flexibility and what you would recommend.

He will also absolutely want to take advantage of the private meeting time with Governors as well. I will have our Intergovernmental group reach out to the POC to set those up once we determine his speaking time.

Thank you and I look forwarding to hearing from you!

Subject: Speaker request form for Administrator Pruitt from WGA

Hayley: Greetings from the Western Governors' Association. I manage communications for WGA and handle agenda development for our meetings.

Thank you for considering our request to have Administrator Pruitt deliver a keynote at the 2017 WGA Winter Meeting, Dec. 1-2 at the Arizona Biltmore. As noted in the attached Speaker Request form, we would welcome the Administrator's participation on either day. The attached agenda shows the public meeting schedule and also notes when the Governors are available for private sidebar meetings with the Administrator, should he seek one-on-ones.

The nonpartisan, collegial spirit of WGA meetings has consistently provided an opportunity for collaborative and productive discussions between Cabinet members and Governors on Western policy issues. It would be our honor to continue that tradition with Administrator Pruitt.

Please let me know what other information you need or questions that you have.

Subject: RE: Latest Roundtable RSVPs for Friday

Hi Millan,

Here are the RSVPs for APS. It looks like the reason APS wants both Flake and Pruitt to be at the same table is because that is where their top execs are and they would like to interact with the both of them. It also looks like their second table is still iffy on how will attend, hence why they don't want to put a VIP there. The list is as follows:

APS Table #1

1-Don Brandt - Chairman, President & Chief Executive Officer, APS

2-Scott Pruitt

3-Jeff Guldner - Executive Vice President, Public Policy and General Counsel, APS

4-Jessica Pacheco - Vice President, State and Local Affairs, APS

5-Jim Wilde - Director of Procurement, APS

6-Senator Jeff Flake

7-Michael Vargas - Senator Flake State Director

8-Megan Schmitz - Chief of Staff to the Chairman, APS

9-Chad Guzman - State & Local Affairs, APS

10-Katie Prendergast - State & Local Affairs, APS

APS Table #2

1-Jesus Borboa - Supply Chain Program Manager, APS

2-Lorena Valencia - President/CEO, Reliance Wire & Cable

3- Michelle Lehman - Supply Chain Project Consultant, APS

4- Pete Van Bogaert - Owner, PVB Fabrications, Inc.

5-Shawn Reeder - Project Coordinator, PVB Fabrications, Inc.

6-APS TBD

7-APS TBD

8-APS TBD

9-APS TBD

10-APS TBD

Let me know your thoughts, I will also call, thanks!

Hi Millan,

Quick question: Would the Administrator be okay with Senator Flake sitting at the same table as him at the Awards Luncheon? APS will be hosting the two and was wondering if they could be at the same table so their other table could be for their manufacturing clients. If that is not okay, I am sure they will understand and I will put Senator Flake at their table. Just let me know, thanks!

Thank you Tate,

Good afternoon all – it is wonderful to make your acquaintance via email and I look forward to meeting you next week. I will be on the ground, along with a member of the Administrator's security detail, on the evening of the 10th and would love to schedule walk-throughs with you for the afternoon of the 10th and morning of the 11th.

Please let me know when you all might be available those days.

Alice – is there a good time today or maybe tomorrow that I might give you a call to walk through the agenda for the 12th?

Thank you so much,

Millan Hupp

Director of Scheduling and Advance

Hi Katherine,

Good news! I was actually just about to email you an update. The Administrator's plans have altered and we are now looking at the morning of the 12th INSTEAD of the 13th. Would that still be an option for Governor Bryant? The topic is WOTUS mostly, among others. I'd be happy to chat on the phone if that is easier. 202-329-3948. Give me a shout when you can.

Best.

We would be delighted to explore times on the Administrator's calendar for an introductory meeting. I am going to loop in the Administrator's Senior Advisor, Lincoln Ferguson, as well as he typically sits in on the Administrator's meetings.

Kindly let us know some time that might work for you or if you'd prefer we offer a few.

Thank you so much,

Millan Hupp

NAHB - General Session OPTION 1.pdf

Good Morning,

Please find attached the final diagram of the luncheon room. I will forward a copy of the name badge later this morning.

I do have a question that I thought of based on attending a luncheon last year with President Bush as the speaker. Are we going to allow backpacks and briefcases into the room? The luncheon I attended did not so I wanted to double check. If we are not we will send an email letting the attendees know to leave them in the car or be prepared to forfeit at the door to be stored at the registration table.

Thank you,

Rhonda Scurek

Hi Millan, I am not here on Sat. I will be here Sunday. The meeting room will be set Sunday Morning and it's located on the 2nd floor. That is our only meeting space on the 2nd floor with the exception of The Freemont room which Is located on the 3rd floor .

Thanks

Christopher Perry

Annette - could you please confirm that this is a closed press event?

Chris – may I come by this weekend to get eyes on the hotel and the space where the meeting will be held?

Thank you so much,

Millan

Unfortunately, the hotel does not have a head of security. But the sales and catering manager is copied to this email if you need further confirmation.

Additionally, the final agenda is attached.

Christopher, please review email below from Administrator Pruitt's office, he's planned to be in attendance on Monday 20th.

Thanks!

From: Juli Nix
Sent: Fri 3/17/2017 4:02:45 PM
Subject: March 31st Federalist Society Lunch
EPA Event Request Form.docx

Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address. Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me; I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at 571-217-7094, which is my cell.

Best,

Juli

Event Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group: The Federalist Society

Name of Event: D.C. Luncheon

Date of Event: Friday, March 31st, 2017

Type of Event (banquet, lecture, panel discussion, etc.): Luncheon with stand-alone speaker

Role of the Administrator: Speaker

Approximate time will the Administrator's Remarks Begin (example 9:00 am): 12:45 pm

Expected length of the Administrator's remarks: 15-20 minutes

Will there be Q&A? If so, for how long and who from? Ex: press, attendees: approx.. 20 minutes Q&A with audience, Mr. Pruitt will call on audience from the podium and they will ask questions from their seats. Press will only be allowed to attend the lunch if Mr. Pruitt wants them to attend.

Event begins (example 9:00 am): 12:00 noon

Event ends (example 9:00 am): 1:30 p.m.

Event address (*please include room name or number if applicable*): Tony Cheng's, 619 H Street, 3rd Floor

Will there be a hold room for the Administrator? (please include room name and/or number): No

Please list the name and title of the individual who will introduce the Administrator:

Douglas Cox, Partner, Gibson Dunn and Crutcher and President, D.C. Chapter, The Federalist Society

Approximate size of the audience. Please also include a brief description of the makeup of the audience (*attorneys, business owners, veterans, students etc.*): Usually 100 – 120 attendees, room can accommodate more. The audience will be made up mostly of lawyers.

Please indicate your request for the topic of the Administrator's remarks, if applicable:
recap of President's top priorities in the environmental area

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend: N/A

Please list any other speakers at this event: None, other than intro by Doug Cox

Is this event open to the media?: That is up to Mr. Pruitt. Usually the event is not open to press, but if you would like us to allow press, we can. Please let us know.

Please list a point of contact for the day of the event, including a cell phone number and e-mail address for the contact: Juli Nix, (c) 571-217-7094, juli.nix@fedsoc.org

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact: Juli Nix, (c) 571-217-7094, juli.nix@fedsoc.org, Dean Reuter, (c) 703-597-4638, dean.reuter@fedsoc.org

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location: Please arrive at Tony Cheng's at 619 H. Street, come in glass double doors. There are stairs on the right side of the lobby which lead up to the third floor; there is no elevator at the restaurant. Please come up to the third floor and let the registration desk know you are there, Mr. Pruitt will be directed to the head table.

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (*Information may also be attached and submitted with this form.*)

Please include a contact number for the event location: 202-371-8669, Sam

Please indicate whether this event is held weekly, monthly or annually: This is a monthly event

Please indicate the attire for this event (*business, formal, casual, etc.*): Business

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event: There are no co-sponsors for this event

Please provide the security contact if contracted or head of security for event location: There is no head of security for the venue

12:00 PM

Closing Remarks & Meeting Adjourns

The following post meeting sessions are by invite only.
Please contact ACWA staff for more information.

1:00 - 5:00 PM

ACWA, ASDWA and GWPC Clean Water Act /Safe Drinking Water Act Coordination Workshop
Noma Ballroom

The purpose of the workshop is to discuss where states are making progress at CWA/SDWA and other program coordination and collaboration, identify challenges/ barriers that impede progress on collaboration and to brainstorm next steps to continue to make progress on CWA/SDWA collaboration to further action to better protect sources of drinking water (both groundwater and surface water) and improve water quality. If you are interested in participating, please contact Julia Anastasio.

1:00 - 5:00 PM

NPDES Updates Rule Discussion
Freemont Room

The purpose of this workshop is to provide further discussion between the state technical workgroup and EPA regarding options provided in the proposed NPDES Updates Rule provisions. In particular, EPA is interested in getting feedback from the state technical workgroup on how EPA could address state concerns. This workshop is the culmination of a series of conference calls that EPA has held with states to listen to states' concerns on the proposed rule. Please note, this session is now at full capacity. For more information please contact Sean Rolland.

Hi Nick,

Hope this email finds you well! Millan forwarded over to me the request for a meeting with Admin. Pruitt on DC. We are having a scheduling meeting today but as it sits now both the 20th and the 29th may not be available. I will get back with you as soon as I know a little more.

Thank you!

Sydney

Hi Sydney – thanks for the call back. I'm trying your email one more time, fingers crossed!

Thanks for speaking with me regarding setting up a meeting March 30th at 2PM with POET, CEO Jeff Broin, and Administrator Pruitt. Attached is our formal request with all the information regarding talking points.

On our end, POET is delighted about a meeting with Administrator Pruitt and can confirm that 2PM 3/30 works for them.

I will confirm the list of attendees as soon as I can.

Thank you,

Meghan E. Smith

Subject: POET Meeting Request for Administrator Scott Pruitt

Good morning Michelle,

I had sent the request below to Administrator Pruitt but wanted to share it with you directly as I'm sure he receives an abundance of emails. Attached is a formal request from Robert Walther, Vice President at POET LLC, to request a meeting on behalf of POET CEO and founder Jeff Broin for March 29, 2017 or the afternoon of March 30, 2017, at the availability of Administrator Pruitt.

Thank you for your consideration on this request.

Meghan E. Smith

Subject: POET Meeting Request for Administrator Scott Pruitt

Dear Administrator Pruitt,

Attached is a formal request from Robert Walther, Vice President at POET LLC, to request a meeting on behalf of POET CEO and founder Jeff Broin for March 29, 2017 or the afternoon of March 30, 2017, at your convenience.

Jeff Broin is the Chairman and CEO of POET, the largest producer of biofuels worldwide. Mr. Broin has been heavily involved in biofuels advocacy and promotion on both the federal and state levels for more than 25 years. The purpose of this meeting request is to discuss Midwestern rural economic development issues including the Renewable Fuel Standard (RFS) and proposals that have been submitted to the EPA and the Administration to modify that program.

Please let me know if you need additional information or have questions.

Thank you for your consideration of this request.

Event Request Form.docx

Hi Rick,

Great to see your name in my email! Michelle forwarded on to me the ACYPL invite (I am handling scheduling for Administrator Pruitt these days). This definitely looks like something we would want to get on the schedule. Would you mind sending the attached event form on to be filled out so that I can discuss with our scheduling team next week? We are trying to steamline the scheduling process a little bit since we are getting so many requests. Thank you so much in advance!

Best,

Sydney Hupp

Event Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group:

March 14, 2017

The Honorable Scott Pruitt
Administrator
Environmental Protection Agency

Dear Administrator Pruitt:

On behalf of the American Council of Young Political Leaders (ACYPL), I am writing to formally request the pleasure of honoring you at the 2017 Honors Evening, which will take place on Wednesday, September 13, 2017 from 6-8pm in Washington, DC. ACYPL Board President Rick Smotkin mentioned that he has spoken to you regarding this invitation and that you are supportive.

As an alumnus and supporter of our programs, you know first-hand the important role that ACYPL serves in promoting mutual understanding, respect, and friendship and cultivating long lasting relationships among young people poised to become tomorrow's leaders. At a time when our national and international conversations have become more polarized, ACYPL's ability to create opportunities for open, respectful dialogue among young Democrats, Republicans, and Independents from across the United States and their peers around the world has never been more valuable.

The Honors Evening will be an occasion to recognize the important role you have played in supporting ACYPL's mission and I hope you will join ACYPL trustees and fellow alumni, members of Congress, our corporate and labor partners, and members of the Diplomatic corps in allowing us the honor of publicly recognizing your contributions to ACYPL and the country.

Thank you for your consideration.

Sincerely,

Libby Rosenbaum
CEO, ACYPL

Two more questions:

1.) Who should I connect with in the Administrator's office regarding logistics?

2.) May I connect you with Ericka Andersen who runs *NR*'s social media? She would like to coordinate social media promotion with you.

> We trimmed down the Administrator's bio. Can we use the version below on our website? Thank you!
>
> On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted

their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

HI Millan and thanks for the note. It was a pleasure meeting you too, and I hope our paths cross again soon. Knowing that the EPA slot is a fairly new one for you, I never would have guessed such otherwise; you handled all of the pre-meeting and on-site details smoothly and efficiently. The Administrator is lucky to have you on his team. Cheers, Quin

p.s. Very unique and cool name!

Quinn,

It was wonderful to meet you yesterday. I just wanted to provide my contact information and thank you for your help yesterday. It was a pleasure to spend time with your group and I know the Administrator really enjoyed the opportunity.

I look forward to the next time our paths cross.

Warm regards,

Millan Hupp

Millan—You are one efficient advance girl!! So great to already hear from you. Rest of the dinner was great—too bad you and the boss had to speak and run! Let me know as soon as you come up for air—I'm copying Dwight so he helps make sure we don't overlook a note from you. Put something loud or goofy in the subject line so we can't miss it! Take care and good to meet you. pmr

Patricia,

It was a pleasure to meet you this evening at the API dinner. You were so thoughtful and inquisitive during our conversation which I truly appreciated. I would love to grab coffee in the near future. It is pretty busy here for the next few weeks but I'm looking forward to getting together soon.

Hopefully the rest of the dinner went well. Thank you for including us.

Warm regards,

Millan Hupp

Event Request Form for Admin. Pruitt (Manhattan Institute).pdf

Hi Millan!

Glad to see you're finally set up with an official email ☺

Attached is the completed form per your request. Given how early on in the planning stages we are, the answers to some of these questions will depend in large part on the Administrator's schedule, preferences, etc. In addition to what's on there, I just wanted to put a couple of additional things on your radar:

1. It is standard procedure for our events to be photographed and videotaped. The event videos are usually made public on our website and YouTube channel; but we can refrain from posting the video if the Administrator prefers not to make it public.

2. In addition to the actual event, I wanted to let you know that it is customary for us to invite some of our featured speakers to attend a post-event dinner with a select group of our leadership and trustees. Once we get something on the books, let me know if this is something Administrator Pruitt would be interested in.

As always, please don't hesitate to reach out with any additional questions/concerns. I look forward to working with you again.

Best,

Ralf

Good afternoon, Michelle!

My name is Ralf Mangual, and I manage legal policy projects here at the Manhattan Institute. I just got off the phone with Millan Hupp who kindly returned my call in regards to an invite our President would like to extend to Administrator Pruitt. She asked me to send an e-copy of the letter (see attached) your way. We're thinking late May but are very flexible in terms of timing.

Please don't hesitate to reach out to me at any time if you have any questions or need more information. Thanks in advance for your time, and I hope we'll have the pleasure of hosting Administrator Pruitt again soon.

Kind regards,

-Ralf

Event Request Form for Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group: Manhattan Institute for Policy Research

Name of Event: An EPA that Works: Making Good Environmental Policy Compatible with Economic Growth and Federalism ← *This is a working title that can/will change depending on what topics the Administrator would prefer to discuss.*

Date of Event: TBD. *Based on preliminary conversations, we propose the following dates in June: 6/6, 6/7, 6/8, 6/20, 6/21, 6/22.*

Type of Event (banquet, lecture, panel discussion, etc.): TBD. *There are two options, which we will leave up to the preference of the Administrator.*

Option 1: A one-on-one discussion on stage (like Administrator Pruitt's last appearance at MI), which would likely be conducted either by Howard Husock (the Institute's Vice President for Research & Publications) or by Troy Senik (the Institute's Vice President of Policy & Programs)

Option 2: A standalone speech delivered by Administrator Pruitt

Role of the Administrator: Administrator Pruitt would be the event headliner.

Approximate time the Administrator's Remarks Begin (example 9:00 am): TBD. *This will again depend on the scheduling preferences of the Administrator. There are three options.*

Option 1 (evening event): Evening events begin at 6:00PM, with remarks beginning at 6:30PM

Option 2 (luncheon event): Luncheon events begin at 12:00PM, with remarks beginning at 1:00PM

Option 3 (breakfast event): Breakfast events begin at 8:30AM, with remarks beginning at 9:00AM

Expected length of the Administrator's remarks: TBD. *This will depend on the type of event the Administrator prefers. Normally, discussion events include a 30-40 minute exchange, followed by 15 or so minutes of audience Q&A. Standalone speeches, however, are typically 15-20 minutes in length, followed by about 5-10 minutes of audience Q&A.*

Will there be Q&A? If so, for how long and who from? Ex: press, attendees: *Our events normally include brief Q&A sessions (as was the case for Administrator Pruitt's last MI event). Those questions are asked by members/friends of the Institute, which include mostly donors, but also some members of the press.*

Event begins (example 9:00 am): TBD. *This will again depend on the scheduling preferences of the Administrator. There are three options.*

Option 1 (evening event): Evening events begin at 6:00PM

Option 2 (luncheon event): Luncheon events begin at 12:00PM

Option 3 (breakfast event): Breakfast events begin at 8:30AM

Event ends (example 9:00 am): TBD. *This will again depend on the scheduling preferences of the Administrator. There are three options.*

Option 1 (evening event): Evening events end between 7:30-45 PM

Option 2 (luncheon event): Luncheon events end at 1:45PM

Option 3 (breakfast event): Breakfast events begin at 10:15AM

**** These end times may vary depending on the format of the event (e.g., an evening event featuring a standalone speech will end around 7:15PM)*

Event address (please include room name or number if applicable): TBD. *The location of the event will depend on the date we settle on. That said, our hope is to secure event space at the Harvard Club of New York City (35 W 44th St, New York, NY 10036).*

Will there be a hold room for the Administrator? (please include room name and/or number): Yes. *Details will depend on the venue we secure, which will depend on the date we settle on.*

Please list the name and title of the individual who will introduce the Administrator: *Unless Administrator Pruitt has a specific preference, he will likely be introduced by Lawrence Mone, the Institute's President.*

Approximate size of the audience. Please also include a brief description of the makeup of the audience (attorneys, business owners, veterans, students etc.): *Depending on the time of the event, we would expect to have between 100-120 people in the room. Audience members will consist of Manhattan Institute members, trustees (and their guests). This groups consists of attorneys, finance professionals, business executives, philanthropists, non-profit leaders, academics, and media professionals. We will also likely invite a select group of academics, and energy industry professionals.*

Please indicate your request for the topic of the Administrator's remarks, if applicable: *While we are very flexible with respect to this, we are thinking that the Administrator might focus his remarks on how to protect the environment without hurting economic growth or transgressing the legal limits on the agency's powers.*

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend: *Once the details of the event are worked out, and an invitation is sent out, we will keep your team posted as to notable audience members. That said, past events have been attended by high-*

profile public officials, including sitting federal judges, and a former U.S. Attorney General (Michael Mukasey, who often attends the Institute's events).

Please list any other speakers at this event: None.

Is this event open to the media?: *As mentioned above, there are a few members of the media who are friends of the Institute who regularly receive invitations to our events. Examples include, James Taranto (Editorial Features Editor, Wall Street Journal) and John Stossel (who was present for the Administrator's last appearance at the Institute). These media members, while technically free to cover our events, usually attend out of intellectual interest and do not cover the event for their respective outlets.*

We will defer to your team to advise us as to whether you would be comfortable with our communications folks pitching additional members of the media to cover the Administrator's remarks.

Please list a point of contact for the day of the event, including a cell phone number and e-mail address for the contact:

Primary: Rafael "Ralf" Mangual (516-384-8103 | rmangual@manhattan-institute.org)

Secondary: Taisha Camacho (917-549-2631 | tcamacho@manhattan-institute.org)

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact:

Rafael "Ralf" Mangual (516-384-8103 | rmangual@manhattan-institute.org)

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location: N/A *Will advise if things change.*

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (Information may also be attached and submitted with this form.)

Please include a contact number for the event location: TBD

Please indicate whether this event is held weekly, monthly or annually: *This is not a recurring event, though we do feature prominent government officials throughout the year.*

Please indicate the attire for this event (business, formal, casual, etc.): *Business attire.*

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event: N/A

Please provide the security contact if contracted or head of security for event location: TBD. *Once we have settled on a date, we will put your team in touch with the venue's head of security, as well as with any private security professionals contracted for the event.*

To: Nguyen, Quyen <Quyen.Nguyen@bhpbilliton.com>
Subject: RE: 2:15 Meeting with Administrator Pruitt

Thank you for your quick response. Here are the direction/instruction for your meeting:

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building

entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call me at 564-1430 for Cheryl Woodward 564-1274 or a meeting that you are having with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Hi Cheryl,

One of our meetings is running later than expected. Does Administrator Pruitt have flexibility in meeting at 2:30?

Thank you,

Quyen

Subject: RE: 2:15 Meeting with Administrator Pruitt

Thank you for your quick response. Here are the direction/instruction for your meeting:

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call me at 564-1430 for Cheryl Woodward 564-1274 or a meeting that you are having with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Subject: Meeting w/Administrator Pruitt

Millan,
I hope this email finds you well. Katherine Neal forwarded me your email regarding a time for John and Administrator Pruitt to sit down and meet soon. I would like to work on setting this up. John is going to actually be in DC next Monday, March 20th, and has some availability that morning between 9:00 AM and noon. He will also be back on Wednesday, March 29th and is available any time after 9:30 AM through the end of the day.

If neither of these times work, please give me some dates and times that work on Administrator Pruitt's end and I'll do everything I can to make them work on ours. Thanks for your help.

RECEIVED
2017 MAR 20 PM 1:49
OFFICE OF THE
EXECUTIVE SECRETARIAT

The Honorable Scott Pruitt
Administrator, U.S. Environmental Protection Agency
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

RE: **Docket ID: EPA-HQ-OPPT-2016-0736**

Dear Mr. Pruitt:

On November 29, 2016 the Environmental Protection Agency (EPA) announced the first ten chemicals to be evaluated under the federal Toxic Substances Control Act (TSCA) as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act. Among these chemicals was asbestos. At the time, assistant administrator of the Office of Chemical Safety and Pollution Prevention Jim Jones stated "Under the new law, we now have the power to require safety reviews of all chemicals in the marketplace. We can ensure the public that we will deliver on the promise to better protect public health and the environment." We the Public expect the EPA to live up to that promise.

I am a professor at Harvard Medical School and have been a practicing physician for more than 35 years. I am a Fellow of the Collegium Ramazzini and a member of the Scientific Advisory Board of the Asbestos Disease Awareness Organization (ADAO). For more than 35 years I have taught and practiced in the area of occupational and environmental medicine. A principal focus of my clinical practice and my research activities has been occupational and environmental lung disease generally and asbestos-related disease specifically. During the course of my career I have witnessed first-hand the ravaging effects of asbestos on the health of exposed individuals and their families.

In order to carry out a proper review in this case, EPA must understand fully the adverse health effects of occupational and para-occupational, residential, and incidental exposure to asbestos and take that information into account in making judgments about legislative action. For decades asbestos has been a well-recognized cause of asbestosis, a potentially fatal interstitial lung disease. Thankfully as permissible exposure limits established by the Occupational Safety and Health Administration (OSHA) have been lowered (from 5 f/cm3 in 1972 to 0.1 f/cm3 today), the prevalence of asbestosis has decreased. The same is not true for malignant mesothelioma and other asbestos-related malignancies. Data cited by the CDC earlier this month revealed 2,785 deaths from malignant mesothelioma in the United States in 2015, increased from 2,483 in 1999. Deaths are occurring not only in older populations of workers with exposures decades ago but also in younger individuals ages 35-55. Asbestos-related malignancies have

long latency periods, up to and greater than 45 years for malignant mesothelioma. Thus deaths in these younger age groups provide evidence of adverse health effects of more recent and lower level asbestos exposure.

Malignant mesothelioma remains a virtually-universally fatal tumor. It arises from the mesothelial-cell lining of the thoracic cavity (pleura), the abdominal cavity (peritoneum), and the testes (tunica vaginalis). In addition to malignant mesothelioma, asbestos causes lung cancer, cancer of the larynx, and cancer of the ovary. The latter two were added to the list of recognized asbestos-related cancers by the International Agency for Research on Cancer (IARC) in 2009 and published in its Monograph 100C in 2012. Other cancers for which there is substantial scientific literature indicating causal associations include gastrointestinal and kidney cancers.

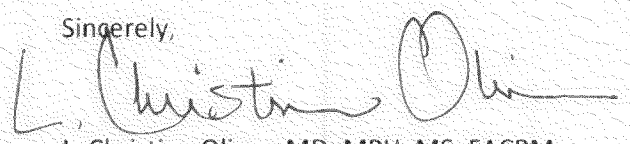
Two major fiber types of asbestos have been in commercial use in the United States. These are serpentine fibers (chrysotile) and amphibole fibers (amosite and crocidolite). There are data to suggest that chrysotile may be less potent than amphibole fibers in inducing malignant mesothelioma; but the published scientific literature leaves no doubt that chrysotile asbestos causes malignant mesothelioma. There is no evidence that fiber type plays a role in any of the other asbestos-related malignancies or diseases. OSHA has regulated all fiber types in the same manner, stating in its 1994 asbestos standard "The evidence submitted in support of the claim that chrysotile asbestos is less toxic than other asbestos fiber types is related primarily to mesothelioma. This evidence is unpersuasive, and it provides an insufficient basis upon which to regulate that fiber type less stringently."

It is necessary to point out that although asbestos-related diseases are dose-related – i.e., the higher the cumulative dose the greater the risk on a population basis – there is no known safe level of exposure to asbestos, a fact well-known to occupational and public health professionals and reiterated in the NIOSH Current Intelligence Bulletin 62 published in 2011. Because it is the cumulative dose that matters, short-term low-level exposures count because they add to the cumulative dose.

For malignant mesothelioma, exposure to asbestos for periods as short as one to several days have been associated with increased risk for disease. For lung cancer, the dose-response relationship between occupational exposure to asbestos and risk for disease has been shown to be linear by a number of scientific investigators in this country and elsewhere. There is no evidence of a threshold, a level of exposure below which there is no risk for related malignancy.

Given the level of medical and scientific knowledge about dose-response relationships between asbestos and malignant mesothelioma and lung cancer, the best-studied of the asbestos-related malignancies, the EPA, a government agency charged with protecting the Public Health, must be diligent in its efforts to prevent even low level exposures in all settings – the home, the workplace, and the general environment. In my opinion, the only way that this goal can be obtained is by banning the importation and use of asbestos in the United States. The Collegium Ramazzini, an international organization of respected occupational health professionals, has called on a number of occasions for the banning of asbestos world-wide, most recently in 2015.

The only current use of imported asbestos in the United States is in the chlor-alkali industry. As written testimony submitted by my colleague Dr. Barry Castleman demonstrates, the asbestos is chrysotile and its use is in diaphragm cells in chlor-alkali plants. But the public is unwittingly exposed to asbestos in a number of other settings. These include asbestos in asbestos-containing materials (ACM) "in place" in



buildings, meaning previously installed in the form of insulation and other construction materials, never removed, and now in poor condition; asbestiform fibers in Zonolite used for home insulation and gardening; brakes and clutches in older vehicles; and stone obtained from asbestos-contaminated quarries, crushed, and used for road resurfacing. Residential proximity to an asbestos source has resulted in environmental exposures.

More than 50 countries have banned the production, exportation, importation, and use of asbestos. Sadly, the United States is not among them. In December, 2016 Canada, once a major producer and exporter of asbestos, announced that it would ban asbestos by 2018. That our country continues to import and use asbestos commercially is an embarrassment.

On behalf of the hundreds of thousands in this country who have died as a result of asbestos-related disease and the tens of thousands more who remain at risk, I urge you to uphold the promise of the recently-enacted TSCA reform legislation to protect the public health and the environment and ban the further importation and use of asbestos in the United States.

Thank you for your attention to this life and death matter.

Sincerely,

L. Christine Oliver, MD, MPH, MS, FACPM

BCA Environmental Consultants, LLC
AIR ☐ WATER ☐ SOLID WASTE ☐ BROWNFIELDS ☐ REMEDIATION SERVICES

USEPA Headquarters
William Jefferson Clinton Building
1200 Pennsylvania Avenue, N. W.
Mail Code: 1101A
Washington, DC 20460

Dear Administrator Pruitt:

I am a small business owner in Indiana and woul d like to share my thoughts on the EPA Brownfields Grant Program. Specifically, how it benefits my company and communities throughout Indiana that my firm is privileged to serve as an environmental consultant. This funding has triggered many millions of dollars in economic development, and the elimination of the program will drastically inhibit private investment in properties hindered by environmental impacts. I understand that President Trump's budget proposal may eliminate this funding, and I urge you to advocate that it be kept in place.

First, let me share some basic information about my business. BCA Environmental Consultants was started in 1988 in Elkhart, Indiana, and has grown steadily over the past 30 years. We currently employ 14 people in two locations, Indianapolis and South Bend, with an average salary of nearly $68,000 per year. These are valuable, high-wage jobs making a real financial impact in the communities within which our employees live and work. One of our firm's areas of expertise is helping municipal clients address brownfield sites blighting their communities. These sites are vacant or underutilized properties that are known or believed to be contaminated.

The EPA Brownfield program provides the initial, up -front capital that often triggers private investment and redevelopment. The initial due diligence investment in a real estate transaction is often the most at risk capital in the transaction. The EPA Brownfields program provides this investment, reducing the risk and stimulating redevelopment. This results in job creation and increased tax revenues for our local communities.

This program is a very effective economic development tool. In the past five years alone, our client communities in Indiana have leveraged more than $48M in investment on just over $2M in EPA Brownfields Assessment Funding. This represents a 24:1 leveraging ratio in just the communities my firm serves, with many millions more expected on projects not yet announced. Below are a few examples of redevelopment projects that would not have happened without the initial investment of EPA Grant funding to stimulate growth and private investment:

City of Bloomington, Indiana

Bloomington has a history of successfully leveraging investment in projects throughout the community. The City was awarded a $200K EPA Brownfields Assessment Grant for FY13. 100% of the funds were strategically expended approximately 20 months after the award. , To date, they have leveraged $31.1M in additional investment on the six properties investigated. This includes a mixed-use commercial/residential development called "Moving Forward" with a committed

www.bcaconsultants.com

investment of $10M. Each of the six sites is expected to be fully redeveloped within the next five years, creating an estimated 200 -300 j obs and $50M in additional leveraged investment. Bloomington has also begun a $30M redevelopment of a former railroad switchyard into a world class park, with project completion expected in 2020. In all, the City has leveraged tens of millions of dollars to improve streets, sidewalks, greenways, and other infrastructure projects over the past five years to help revitalize the community. Future EPA Brownfields Grant Program funding will add to this leveraging effort to further revitalize the community.

City of Logansport, Indiana

Logansport, after forging a strategic partnership with the nearby local governments of Fulton County and the City of Rochester (collectively the Coalition), was awarded a $686.5K EPA Brownfields Assessment Grant for FY12. 100% of the funds were strategically expended, and to date, they have leveraged $5.77M in additional investment and nearly 100 jobs have been created. For example, $28,754 in EPA Brownfields Grant funding was invested in a vacant, former fiberglass product manufacturing facility. As a result, the property was purchased, and $3.9M was invested in the redevelopment and improvement of the site, creating 39 permanent jobs. More investment in the Coalition area is planned. Exide (adjoins downtown Logansport) is investing $960K to demolish their former factory, and Fulton County has committed $300K to the demolition of a dilapidated former opera house. Both sites have had environmental investigations completed and will be available for redevelopment when demolit ion is complete. An estimated $925K has been invested in the assessment and demolition of 34 other blighted properties in Logansport. In total, the Coalition has leveraged tens of millions of dollars in grant funding to improve streets, sidewalks, greenways, and other infrastructure projects over the past five years to help revitalize the community. These projects are indicative of how we are able to use non -local funds to stimulate redevelopment. Logansport received a FY12 EPA Brownfields Assessment Grant which was used to stimulate redevelopment of the L&M Stamping site, where $120K in private investment was leveraged and 10 jobs were created.

The Town of Bourbon, Indiana

Located in north central Indiana in Marshall County, the small town of Bourbon has suffered from several blighted properties, including a former glass -cutting and vinyl window assembly plant which closed in the early 2000's. Significant concerns about the unclear environmental conditions on the site had hindered redevelopment, and using $19,354 in EPA Brownfields Grant funds, these environmental conditions were clarified. This triggered an interest from a regional business owner who was seeking a facility on which to expand his company. Ultimately, $1.11M in private investment was made to modernize and equip the property and 25 jobs were created with plans to add many more over the next two years.

City of Jeffersonville, Indiana

Jeffersonville received a $400K in EPA Brownfields Grant funding in FY15, which they are currently investing in high priority redevelopment targets in their community. One such site is a former factory and adjoining auto body shop. With an investment of$45,500 in brownfields grant funding, they successfully leveraged a $10M development that includes low income senior

housing, as well as commercial property, making a modern, highly needed mixed-use development that will serve as a catalyst for future development in the community.

As is shown above, the EPA Brownfields Grant program is a vital tool for communities throughout the United States to trigger private investment, and has a proven record of success. Often, in large cities such as Indianapolis, the private real estate market takes care of the average 0.25 -5.0 acre brownfield properties because land in these communities is valuable. The risk associated with purchasing a site with unknown environmental cost is offset by the potential of revenue realized by the development. However, in smaller communities, this is not the case. Brownfields frequently remain vacant, with redevelopment stalled, often due to the lack of knowledge about the environmental conditions of the site, and the higher level of risk associated with investing in a property with unknown environmental hazards. Similarly, large manufacturing sites with unknown environmental conditions in urban areas such as Indianapolis are often too risky for even the most sophisticated investors and developers. Using the EPA's Brownfield Grant Program funding to clarify the environmental conditions on a property is often the only thing needed to stimulate interest and ultimately, investment in an otherwise overlooked property.

As a small business owner, my staff and I have worked hard to position ourselves in the environmental consulting market. We specialize in helping our municipal clients find funding to stimulate investment in their communities, and EPA Brownfields Grants play a vital role in our strategy. It is my understanding that President Trump's proposed budget may cut this program. As a leading expert in brownfield redevelopment, I urge you to keep this program in place. I have only shared a few of the many examples of how this program stimulates economic development, a goal you undoubtedly share with me as a fellow Hoosier. I would like the opportunity to discuss the benefits of the EPA Brownfields Grant Program with you. It would be my honor and pleasure to elaborate on the impact this program has on my firm, as well as the communities we serve, and I look forward to the opportunity to do so.

Sincerely,

Joel B. Markland, President

17cv01906 Sierra Club v. EPA ED_001523B_00002718-00009

CITY OF JEFFERSONVILLE

OFFICE OF REDEVELOPMENT

812-285-6406 OFFICE

CITY HALL
500 QUARTERMASTER COURT, ROOM 257
JEFFERSONVILLE, INDIANA 47130

March 21, 2017

Dear Administrator Pruitt:

As member of the local government administration in Jeffersonville, Indiana, I am writing today to urge you to preserve the EPA Brownfields Grant Program. The EPA Brownfields program funds provide the initial environmental investment in a real estate transition, reducing the risk and stimulating redevelopment. This results in job creation and increased tax revenues for our local community.

We have benefited from investment of EPA Grant funding in our community. Jeffersonville received $400K in EPA Brownfields Grant funding in FY15, which we are currently investing in high priority redevelopment targets in our community. One such site is a former factory and adjoining auto body shop. With an investment of $45,500 in brownfields grant funding, we have successfully leveraged a $10M development that includes low income senior housing, as well as commercial property, making a modern, highly needed mixed-use development that will serve as a catalyst for future development in the community.

As is shown above, the EPA Brownfields Grant program has been pivotal in triggering private investment in our community and has proven to be successful. Often, in large cities, the private real estate market takes care of brownfield properties because land is valuable. The risk associated with purchasing a site with unknown environmental cost is offset by the potential of revenue realized by the development. However, in smaller communities such as ours, this is not the case. Brownfields frequently remain vacant, with redevelopment stalled, often due to the lack of knowledge about the environmental conditions of the site, and the higher level of risk associated with investing in a property with unknown environmental hazards. Using the EPA's Brownfield Grant Program funding to clarify the environmental conditions on a property is often the only thing needed to stimulate interest and investment in an otherwise overlooked property.
I understand that cuts to this program are being considered. As a representative of a community where EPA Brownfields Funding has worked, I urge you to do your part to see that this program continues.

Respectfully,

DeLynn Rutherford
Grants Administrator

Washington, DC 20460

Dear Administrator Pruitt:

Congratulations on your appointment as the new Administrator of U.S. EPA. As the Executive Officer of the South Coast Air Quality Management District (SCAQMD), I am writing on behalf of the nearly 17 million people in Southern California to urge you to protect the critical grant programs necessary to achieve clean air and protect public health.

As you may know, the South Coast Air Basin has the worst air quality in the nation, and suffers from the greatest population-weighted health risk as a result of high particulate and air toxics emissions. Heavy-duty diesel trucks produce significant amounts of NOx, PM2.5, and toxic emissions, with truck emissions expected to increase significantly with projected population and trade growth. Emissions from heavy-duty trucks must be significantly reduced to meet air quality standards. That is why we urge your support to protect critical programs including, but not limited to, the Diesel Emission Reduction Act (DERA), Clean Air Act Section 103 & Section 105 funding programs, the Targeted Air Shed Grant program, and programs supporting environmental justice.

DERA

The Diesel Emission Reduction Act National Grant, Rebate and Loan Program (Section 792 of Title VII, Subtitle G of the Energy Policy Act of 2005) (DERA) expired at the end of 2016 without being reauthorized by Congress. This program has been extremely successful in providing cost-effective public health and environmental benefits to areas across the nation. Diesel-powered vehicles and equipment play an important role in the nation's economy and are getting cleaner every day. DERA, originally enacted in 2005, and then re-enacted in 2010 with overwhelming bipartisan support, was designed to reduce emissions from the 20 million existing diesel engines in use today by as much as 90 percent.

The DERA program continues to be needed because of the long-lived nature of diesel vehicles. We estimate that nearly 60% of the diesel trucks and buses on the road today are

more than ten years old and emit much higher levels of pollution than the vehicles using today's technology. Without a program like DERA, these older vehicles will stay on the road until they wear out, emitting pollutants that could be significantly reduced if replaced with newer technology. In fact, a Report to Congress on the first year of the DERA program, U.S. EPA estimated that for every dollar spent on the DERA program, an average of more than $20 in health benefits is generated. Each state in the nation now has a diesel retrofit program and benefits from DERA funding.

We respectfully request your support to both reauthorize and fully fund the DERA program.

Clean Air Act Sections 103 and 105 Grants
Federal grants under Sections 103 and Section 105 of the Clean Air Act also help state and local air pollution control agencies across the nation improve air quality. The Section 103 grants are typically used for specialized air monitoring programs and the Section 105 funds are used to implement programs to prevent and control air pollution and address primary and secondary ambient air quality standards.

South Coast AQMD has been a recipient of both of these grant programs. Section 103 grant funds have been used to monitor PM 2.5 in order to determine reductions in air emission levels. These funds also enable SCAQMD to monitor the ambient concentration of air toxics compounds and provided support to monitor pollution near some of SCAQMD's most heavily trafficked roadways. SCAQMD has used Section 105 funds to provide continuing support for a variety of important activities including the criteria pollutant air monitoring network, Photochemical Assessment Monitoring Stations (PAMS), strategic planning and evaluation, compliance assistance, developing the state implementation plan (SIP), rulemaking, issuing operating permits to regulated entities, and other program related activities. We have also used these funds to obtain equipment to monitor lead pollution and help fund the installation of air filtration systems at schools in areas with some of the worst air quality in the nation.

Both of these programs help clean air agencies with many critical needs, and gutting these programs would hinder the ability of local and state agencies across the nation to improve air quality for their residents. We therefore respectfully request your support for continued funding for Clean Air Act Section 103 and Section 105 funds.

Targeted Air Shed Grant Program
The Targeted Air Shed Grant Program provides grant funding to assist local agencies in planning, demonstrations and projects to reduce air pollution in non-attainment areas with the highest levels of ozone and fine particulate matter (PM2.5) ambient air concentrations. These grants are targeted for the nation's top five non-attainment areas under the 2008 ozone standard, the 2012 PM2.5 annual standard, and the 2006 PM2.5 24-hour standard. Eligible recipients include such diverse areas as Fairbanks, Alaska; Logan, Utah; West Silver Valley, Idaho; and Provo, Utah; as well as the South Coast basin of California.

We respectfully request you support continued funding for this program targeting the most polluted areas of the country.

Environmental Justice Programs
SCAQMD has been committed to achieving environmental justice (EJ) since we adopted our original ten EJ initiatives two decades ago. Since then, environmental justice has been interwoven into many actions we have taken to help the nearly 17 million people in our region breathe cleaner air.

Still, too many people are living in neighborhoods disproportionately impacted by air pollution. Their homes, schools and parks are surrounded by industries, freeways, and traffic congestion. Despite all of the efforts we have made to improve air quality in our region, air pollution is still a hazard to the health of individuals of all ages – children, adults and seniors.

EPA has also made a commitment to empower, educate and ensure equal treatment for people in affected communities to better understand environmental and public health issues and identify ways to address them. This commitment to those who often face disproportionate impacts from local pollution sources is pivotal in building strong relationships with local communities, and ensuring everyone has a healthy environment in which to live, learn, and work.

We respectfully request your support for continuing funding for environmental justice programs.

Economic Benefits
The Clean Air Act in 1990 requires EPA to study the cumulative health and societal benefits resulting from improvements in air quality. In 2011, it released its Second Prospective Study on the current and projected benefits from the Clean Air Act Amendments of 1990. That study found that emissions control programs that reduce air pollution from smokestacks and tailpipes provide enormous air quality and health benefits, which will grow over time as programs take their full effect. There are also significant pollution-related health care savings by governments, private insurers, individuals, and families.

Based on the health benefits estimated in the EPA study, the analysis determined that between 2000 and 2020, the rules adopted pursuant to the Clean Air Act Amendments will save over $612 billion combined in direct pollution-related health care expenditures, including $313.5 billion from Medicare, Medicaid, and other federal health programs and $54.6 billion in out-of-pocket medical expenses for American families.

Not only are these cost savings significant, but the **Clean Air Act Amendments of 1990 were projected by EPA to prevent over 160,000 early deaths in 2010 rising to over 230,000 prevented deaths by 2020.** Most of the economic benefits (about 85 percent) are attributable to reductions in premature death due to reductions in air pollution (particularly

ambient particulate matter). And the study estimated that benefits exceed costs by a factor of more than 30 to one.

These results show that investing more dollars in programs to improve air quality will achieve tremendous benefits for individuals, families, local and state governments and the economy.

Conclusion

In his address to a joint session of Congress, President Trump said "My administration wants to work with members in both parties to…promote clean air and clear water..." In addition, you stated in your remarks to Congress that "the States" must serve as "our nation's frontline environmental implementers and enforcers. If we truly want to advance and achieve cleaner air and water the States must be partners and not mere passive instruments of federal will." We agree that this is important.

However, while State and local air agencies across the nation are on the front lines working to accomplish the enormous task of cleaning the air, we are doing so with regard to the mandates imposed upon us by the federal Clean Air Act and U.S. EPA. We are doing our very best to make sure that we achieve clean air and improve the public health of our population. But we cannot accomplish this without adequate funding. These grant programs have been critically important to doing our job. But to meet the federal standards by the upcoming federal deadlines, it will take more federal support – not less – to accomplish our task.

We urge you to support, maintain and fully fund the DERA, Sections 103 and 105 grants, Targeted Air Shed Grant, and environmental justice programs, so that we can make clean air for all a reality soon.

Sincerely,

Wayne Nastri
Executive Officer

U.S. Environmental Protection Agency
William Jefferson Clinton Building
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt:

I am writing to introduce you to the South Coast Air Quality Management District and invite you to visit us in Southern California to see for yourself the work we are doing to clean the air for the people who live in the most polluted region of the country.

The South Coast Air Quality Management District (AQMD) is the regional clean air agency for much of Southern California. Our region of 10,743 square miles covers four major Southern California counties: all of Orange County and the non-desert portions of Los Angeles, San Bernardino and Riverside Counties. With a population of nearly 16.7 million people, we have a larger population than all but four states. The South Coast region alone constitutes 5% of total U.S. employment (2007 data) and 5.75% of total GDP (2008 data).

Southern California's historic battles with poor air quality are well documented. Since the mid-20th century, the Greater Los Angeles region has been at the forefront of air pollution science, low-emissions technology development, and innovative air quality regulation. As long-time residents of the South Coast Air Basin can attest, these efforts have led to substantial and noticeable improvements in air quality and public health, all during a period of dramatic increases in population, economic activity, jobs, vehicles, and vehicle miles traveled. These improvements in air quality over the years are primarily due to technological advances in pollution controls, pollution prevention, clean fuels, alternative energy, combustion processes, and air quality control programs at the local, state and federal levels.

South Coast AQMD was created in 1977 by combining four county agencies including the Los Angeles County Air Pollution Control District, which was the first agency in the nation dedicated to cleaning up air pollution when it was formed in 1947. This year is not only the 40th anniversary of the South Coast AQMD's existence, but it is also the 70th anniversary of the fight against air pollution in the U.S. As such, we invite you to join us in Southern California at a mutually convenient time to highlight the seven decades of work that have

brought us to where we are today. We wish to show you a sampling of the clean air technologies being developed in our region, to tour our world-renowned laboratory, and meet with community and business leaders committed to achieving clean air.

As a former Regional Administrator for USEPA under the Bush Administration, I know you have many demands on your time and schedule. We will accommodate whatever works with your schedule and look forward to meeting you both in Washington, D.C. and in Southern California. Please feel free to have your staff contact me should you have any questions or Derrick Alatorre, Deputy Executive Officer for Legislative, Public Affairs and Media at (909) 396-3122 to schedule any meetings. Thanks for your consideration and we look forward to seeing you soon.

Sincerely,

Wayne Nastri
Executive Officer

PETITION OF THE NAAQS IMPLEMENTATION COALITION TO THE ADMINISTRATOR OF THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY FOR ADMINISTRATIVE RECONSIDERATION OF PORTIONS OF THE FINAL RULE ENTITLED "REVISIONS TO THE GUIDELINE ON AIR QUALITY MODELS: ENHANCEMENTS TO THE AERMOD DISPERSION MODELING SYSTEM AND INCORPORATION OF APPROACHES TO ADDRESS OZONE AND FINE PARTICULATE MATTER"

82 Fed. Reg. 5182 (Jan. 17, 2017)
EPA–HQ–OAR–2015–0310

Administrator Pruitt:

Enclosed, pleased find from the National Ambient Air Quality Standards ("NAAQS") Implementation Coalition a Petition for Reconsideration of portions of the final rule of the United States Environmental Protection Agency entitled "Revisions to the Guideline on Air Quality Models: Enhancements to the AERMOD Dispersion Modeling System and Incorporation of Approaches to Address Ozone and Fine Particulate Matter," 82 Fed. Reg. 5182 (Jan. 17, 2017). A copy of this petition has also been electronically mailed to the Air and Radiation Docket for filing in EPA docket number EPA–HQ–OAR–2015–0310.

Please contact me if you have any questions regarding this petition.

BEFORE THE ADMINISTRATOR OF THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

Revisions to the Guideline on Air Quality Models: Enhancements to the AERMOD Dispersion Modeling System and Incorporation of Approaches to Address Ozone and Fine Particulate Matter; Final Rule. 82 Fed. Reg. 5182 (Jan. 17, 2017)	Docket No. EPA-HQ-OAR-2015-0310

PETITION OF THE NAAQS IMPLEMENTATION COALITION FOR RECONSIDERATION OF PORTIONS OF THE FINAL RULE

The National Ambient Air Quality Standards ("NAAQS") Implementation Coalition[1] hereby petitions the Administrator of the United States Environmental Protection Agency (the "Administrator," "EPA" or the "Agency") to reconsider portions of the final rule referenced above.[2] That rule – the "Final Appendix W Rule" – was published in the *Federal Register* on January 17, 2017, 82 Fed. Reg. 5182, with an effective date of May 22, 2017.

The Final Appendix W Rule promulgates revisions to the *Guideline on Air Quality Models*, 40 C.F.R. part 51, appendix W ("Appendix W"), which lists EPA's preferred models and recommended modeling techniques and serves as guidance for the use of air quality modeling in estimating ambient concentrations of air pollutants. Many parts of the Final Appendix W Rule provide needed improvements to EPA-preferred models, and we strongly support such improvements.

We are concerned, however, with specific provisions of the Final Rule, some of which appeared for the first time in the Final Appendix W Rule, and, thus were not previously available for comment. The remainder of this petition provides an overview of our concerns, which are of central relevance to the Final Appendix W Rule. We intend to file a more-detailed supplement to this petition at a later date that will expound further on our concerns.

[1] The NAAQS Implementation Coalition includes trade associations, companies, and other entities that confront challenges in permitting and operating facilities under increasingly-stringent NAAQS, including those for ozone and $PM_{2.5}$. It is our experience that addressing these challenges is critical to fostering economic expansion, creating jobs in manufacturing and other economic sectors, and generating needed tax revenue for local communities throughout the country.

[2] This petition is filed pursuant to section 4(d) of the Administrative Procedure Act, 5 U.S.C. § 553(e), and, to the extent it may be applicable and relevant, section 307(d)(7)(B) of the Clean Air Act, 42 U.S.C. § 7607(d)(7)(B).

17cv01906 Sierra Club v. EPA ED_001523B_00002718-00021

OBJECTIONS

Single-Source Photochemical Grid Modeling for Ozone and $PM_{2.5}$ Precursors

The Final Appendix W Rule establishes a new requirement that, in the absence of a screening analysis that results in a source being exempt from conducting and reporting the results of air quality modeling, applicants seeking prevention of significant deterioration ("PSD") permits must model impacts on ambient air quality of their emissions of precursors to ozone and $PM_{2.5}$ using a "chemical transport model" such as a photochemical grid model or a suitable Lagrangian model.[3] EPA does not, however, specify a preferred model for this purpose.[4] We believe that the current state of modeling technology does not support this requirement.

Although the Clean Air Act requires applicants for PSD permits to provide "an analysis of air quality,[5] and that the Administrator "specify with reasonable particularity each air quality model or models to be used" for this analysis,[6] EPA long recognized that "it was not technically sound to designate with particularity specific models to be used to assess the impacts of a single source of ozone" or $PM_{2.5}$ and, instead, allowed a permit applicant, working with the permitting authority, to choose a "method" to conduct the required air quality analysis.[7] Despite evaluation, as requested by the Sierra Club, of whether "to designate air quality models for ozone and fine particles ($PM_{2.5}$) for use by all major sources applying for a prevention of significant deterioration (PSD) permit,"[8] EPA concluded that it could not make such designations.[9] EPA should, therefore, have retained the existing requirements applicable to sources emitting precursors of ozone and $PM_{2.5}$.

Although photochemical grid modeling may often be capable of characterizing "[t]he complex chemistry of ozone and secondary formation of $PM_{2.5}$,"[10] EPA recognizes that it remains the case that no single model will be most appropriate for "the diversity in chemical and physical environments across the United States."[11] Selection, justification, and use of a chemical transport model for a specific PSD permit application will be both time-consuming and expensive. Indeed, it could be cost-prohibitive, particularly for smaller sources.[12]

What EPA has done, however, is to effectively eliminate the alternative that previously existed of exploring other methods for analyzing the impact of a proposed source on air quality. Although few alternatives may exist, a permit applicant should be free to explore them, as they have in the past.

This is important because, as noted in 2015 by the Interagency Workgroup on Air Quality Modeling Phase 3 ("IWAQM 3"), "at this time, it is not clear that a robust reduced form model exists for either O_3 or secondary $PM_{2.5}$ for the purpose of assessing single source downwind impacts of these pollutants."[13] There have been no significant technical advances in ozone and $PM_{2.5}$ precursor modeling since that 2015 report. Nevertheless, EPA announced in its Response to Comments for the Final Appendix W Rule that it was revising IWAQM 3 to note the existence of screening tools like Model Emission Rates for Precursors ("MERPs").[14] Draft guidance on development of MERPs for ozone and $PM_{2.5}$ was not available, however, until after the Final Appendix W Rule was published. In any case, we do not find MERPs to be "robust," as that screening method still requires further development. The draft guidance outlining MERPs does not, at this point, provide justification for the new approach to air quality analysis of sources of precursors to ozone and $PM_{2.5}$ included in the Final Appendix W Rule.

Therefore, EPA should return to its long-standing prior approach to air quality analysis to support PSD application for sources that emit precursors to these pollutants. At a minimum, the Agency should adopt a moratorium on single-source precursor modeling of at least three years to further develop cost-effective models and screening techniques. EPA can reevaluate the state of technology at the close of that period to determine whether the moratorium should continue.

Low-Wind Speed Over-Prediction

The prior regulatory-default versions of AERMOD and the associated AERMET meteorological model significantly over-predict short-term ambient pollution levels at low wind speeds, as shown by peer-reviewed model evaluation studies.[15] We appreciate that EPA has recognized and sought to address this deficiency in its preferred AERMOD modeling

system.[16] However, the revision that EPA has adopted has not been the subject of public comment. Indeed, we have concerns that the Final Appendix W Rule insufficiently addresses AERMOD's acknowledged excessively high predictions.

LOWWIND

EPA had proposed to incorporate an AERMOD option called LOWWIND3 to address excessively high predicted pollutant concentrations under low wind speed conditions.[17] According to EPA, "[t]he majority of commenters supported the EPA's proposal to incorporate the LOWWIND3 option into the regulatory version of AERMOD because they believed it would provide a more realistic treatment of low wind situations and reduce the potential for overprediction of the current regulatory version of AERMOD for such conditions."[18] However, "one commenter indicated that the proposed LOWWIND3 option in AERMOD will 'reduce model accuracy' . . . ."[19] Citing modeling from this lone commenter, EPA did not include LOWWIND3, or its industry-supported predecessors, LOWWIND1 and LOWWIND2, as options in the revised regulatory default version of AERMOD.[20] This modeling could not have been addressed during the comment period. Other modeling, however, continues to demonstrate the suitability of the LOWWIND options.[21] EPA should promptly make LOWWIND3 an approved Guideline option for AERMOD through the Model Clearinghouse and work to specify through an Appendix W rulemaking when its use would be appropriate.

ADJ_U*

The Final Appendix W Rule asserts that "EPA is adopting the proposed ADJ_U* option in AERMET as a regulatory option."[22] We appreciate that EPA has done so. However, EPA has effectively confirmed that it has, in fact, adopted a revised, more conservative, version of ADJ_U* in AERMET than had been proposed.[23]

17cv01906 Sierra Club v. EPA ED_001523B_00002718-00024

Since the Final Appendix W Rule's release, EPA has made additional changes to ADJ_U*.[24] Commenters clearly were unable to comment on all changes to ADJ_U* made since its proposal. Furthermore, the proposed version of ADJ_U* appears to have undergone more testing than the version(s) that EPA has subsequently adopted. That testing showed that it performed well. EPA should reconsider adopting the proposed version of ADJ_U* as regulatory-default.

Overloading of Model Clearinghouse

The Final Appendix W Rule finalizes requirements for formal consultation with the Modeling Clearinghouse and documentation of that consultation whenever an alternative model is used.[25] This requirement will encumber applicants seeking PSD permits. Revisions to Appendix W will increase the number of instances in which the Model Clearinghouse would be required to concur.

For example, EPA has ended the designation of CALPUFF as the regulatory default model for long-range transport, but has not replaced it. As a result, written Model Clearinghouse approval will be required each and every time modeling of long-range transport is performed.[26] As we have previously noted, this can be a time-consuming process.[27]

Although EPA says that the average response time by the Model Clearinghouse to requests it received during the pendency of the Appendix W Rule was 28 days,[28] that figure is misleading. It does not take into account the time that precedes a formal request for Model Clearinghouse approval, which can be considerable. Nor is this process even certain. Notably, two projects went all the way through the alternative model process, obtaining approval from EPA Regional Offices and concurrence from the Model Clearinghouse to use ADJ_U* version 15181, only to have EPA recently announce in a "clarification memo" that such modeling results "would be unreliable."[29]

---

[24] *Id.*

[25] *Id.* at 5197 (to be codified at 40 C.F.R. Part 51, Appendix W 3.2.1(b)).

[26] However, we recognize that CALPUFF can be used as a screening model without Model Clearinghouse approval. 82 Fed. Reg. 5195 (to be codified at 40 C.F.R. Part 51, Appendix W 4.2.1).

[27] NAAQS IMPLEMENTATION COAL., COMMENTS ON EPA'S "REVISION TO THE GUIDELINE ON AIR QUALITY MODELS: ENHANCEMENTS TO THE AERMOD DISPERSION MODELING SYSTEM AND INCORPORATION OF APPROACHES TO ADDRESS OZONE AND FINE PARTICULATE MATTER: PROPOSED RULE" 8, EPA Docket No. EPA-HQ-OAR-2015-0310-0142, Oct. 27, 2015 (citing EPA, MODEL CLEARINGHOUSE: OPERATIONAL PLAN 20 (revised May 1998)) ("Given that written responses from the Model Clearinghouse could take up to four weeks or longer, we would expect that the concurrence memorandum for alternative models proposed in the Appendix W Revision Proposal will require more documentation and take more time than is presently the case.").

[28] Final Appendix W Rule Response to Comments at 87.

[29] Letter from Richard A. Wayland, Div. Dir., Air Quality Assessment Div., EPA, to Reg'l. Air Div. Dir's. 1-10, Clarification on the AERMOD Modeling System Version for Use in SO_2 Implementation Efforts and Other Regulatory Actions 2-3 (Mar. 8, 2017).

EPA should make the approval process more efficient, rather than add additional red tape to the process. One way to achieve this would be to allow permitting agencies – frequently individual states – to determine which model should be used in instances where EPA has been unable to specify a preferred one. This would promote creative thinking about new modeling approaches and enhance the partnership between states and the federal government in implementing the Act.

NO_2 Tier 2 Ambient Ratio Method

The version of the NO_2 Tier 2 Ambient Ratio Method ("ARM2") adopted in the Final Appendix W Rule was modified from the original tool in a way that makes ARM2 unnecessarily conservative.[30] While even the revised ARM2 tool represents an improved Tier 2 screening method to model NO_2, EPA should approve use of the original ARM2.

Probabilistic Modeling

Because tighter margins between background pollutant concentrations and increasingly-stringent NAAQS make it increasingly difficult to demonstrate compliance using overly-conservative modeling assumptions that are increasingly obsolete, EPA should adopt more probabilistic approaches to modeling. For example, modeling should be allowed to take into account the variability of both background air quality and emission rates for modelled sources. While commenters suggested this approach to EPA during consideration of the Final Appendix W Rule,[31] EPA declined to take such action.[32]

CONCLUSION

Because these objections address matters of central relevance to the Final Appendix W Rule, we request that the Administrator partially reconsider it, and revise it in light of the new information herein as well as that to be included in our supplement to this petition. We appreciate your attention to this matter and hope to foster an effective dialogue with EPA as the regulated community continues to face implementation challenges under increasingly more-stringent NAAQS. To that end, we look forward to working with EPA to identify improvements to the Final Appendix W Rule that accomplish efficient NAAQS implementation.

Subject: API Board Meeting - Speaker Dinner Entrance

Hello Khary,

Attached is a copy of the floor plan for the Trump Hotel. The 12th Street entrance can be used for the VIP speaking at the dinner. The dinner will be held in Lincoln Library. Since the 12th street entrance is a private entrance arrangements can be coordinated with the hotel security:

- Director of Security: Ernest Wojcieh, Cell is Personal Phone/Ex. 6
- Assistant Director of Security: George George, Cell is Personal Phone/Ex. 6

Please let me know if you need additional information.

Best,

Ashley Parkins

Sharing with everyone the current press list for the event tomorrow. Looks like we should have two cameras (C-SPAN and NatGeo) as well as a few print reporters. If you forwarded this to any press contacts who are not on the list, please send them my way ASAP. I would like to get an updated list to Diplomatic Security by noon. Please let me know if you have any questions.

Subject: NOTICE TO THE PRESS: World Water Day at State

U.S. DEPARTMENT OF STATE

Office of the Spokesperson

For Immediate Release

NOTICE TO THE PRESS

March 20, 2017

World Water Day at State

On March 22, World Water Day, the U.S. Water Partnership will host the 2017 U.S. Water Partnership All Partners Meeting in the Department of State's George C. Marshall Conference Center. The meeting will be open to the press from 9a.m. to 10:10 a.m.

The U.S. Water Partnership is a 120-member public-private partnership that was launched in 2012 to unite and mobilize U.S. knowledge, expertise, and resources to improve water security. This event will bring together members of the Partnership to discuss water innovation, security, infrastructure finance, and equity and affordability.

Keynote speakers will include U.S. Environmental Protection Agency Administrator Scott Pruitt and President and CEO of the National Geographic Society Gary E. Knell. Administrator Pruitt will speak about elevating America's water infrastructure as a national priority. Mr. Knell will announce National Geographic's first venture into the public policy space to convene nonpartisan, fact-based dialogues between National Geographic experts and important leaders in Washington about water and other complex issues affecting the U.S. today.

To cover other events planned by the U.S. Water Partnership for World Water Day please review their media release.

The event is open to the press. Pre-set time for cameras is 8:15 am from the 21st Street entrance. Final access time for writers and stills is 8:45 am from the 21st Street entrance. The open press portion of the day will conclude at 10:10 am. Due to another event in the building, press must enter at 21st Street to cover this event.

Please R.S.V.P to Esther Bell at BellEF@State.gov by 5pm Monday, March 20, 2017, with your first and last name, date of birth, and passport or driver's license number.

Media representatives may attend this event upon presentation of one of the following: (1) a U.S. Government-issued photo media credential (e.g., Department of State, White House, Congress, Department of Defense or Foreign Press Center), or (2) an official photo identification card issued by their news organization, or (3) a letter from their employer on official letterhead verifying their current employment as a journalist.

Additionally, they must present an official government photo identification card (i.e., U.S. driver's license or passport).

For further information, please contact the Bureau of Oceans and International Environmental and Scientific Affairs (OES) at BellEF@state.gov or 202-647-1511 or follow @StateDeptOES.

Subject: Meeting with Administrator Pruitt

Hi Tasha,

Hope you are doing well! Michelle forwarded on to me your request to meet with Administrator

Pruitt on March 29th during your Congressional Action Tour. It is actually looking like we might be traveling on the 29th, leaving the afternoon of the 28th. Is there any possibility of you being able to meet on the morning of the 28th? Additionally, would you mind completing the attached meeting request form? Due to the large amount of scheduling requests coming in we are trying to streamline efforts a little bit. I am really hoping this meeting works out, we would love to see our Farm Bureau Friends!!

Best,

Sydney Hupp

Subject: confirming.

Hi Millan and and Maddy - Just confirming these 3 items so can make travel bookings. Thank you very much and Millan hope the travel back from Australia went smoothly.

September 12 – Meeting with Gary Knell (CEO of National Geographic http://press.nationalgeographic.com/biographies/gary-e-knell/) & Jessica Garrison, 2pm, EPA office.

Sept 14 – 6:30pm Meet and Greet dinner with Jessica Garrison & Eileen Stuart (VP of Mosaic), also invited - Tate Bennett, Marlyn Pruitt, anyone else Admin Pruitt would like to join. Just let us know so we can update reservations. Have reservations on hold at Metier, Plume, Capital Grille, and Piccolo

Sept 14 - National Geographic Salon Dinner **postponed** to Q1 of 2018 so that the board of directors can attend. Here is a link to nat geo's board: https://www.nationalgeographic.org/leadership/board-advisors/ . I just noticed that Brendan Bechtel is a member. Administrator Pruitt knows the Bechtel family from vists to their San Francisco office while was AG. Brendan's grandfather Stephen Bechtel jr. was chief executive over Hoover Dam project while also President of Bechtel. Amazing 119 year old famliy business . Also Jean Case is chairman. She is a former exec at AOL and her husband Steve Case was a co-foudner of AOL. Very good board.

Daisy,

I hope you have gotten a little break this summer. We invited the Administrator to our 20th anniversary celebration event in Alabama on September 21st. In addition to celebrating the success of the past, we are also announcing a significant expansion to include EVs. Would love to have him down there and would appreciate any assistance you could lend in getting a response. Thank you.

Jake

Cheryl and Sydney,

I hope you both are doing well. As you may remember, the Administrator was not able to attend this meeting with Gary Heminger on June 20 and despite your great effort to find a replacement date we could not get the Administrators or Gary's schedule to line up. We recently learned that Mr. Heminger will be in Washington, DC on September 19 and 20. Would the Administrator be available on September 19 for a 4pm or later meeting? If that does not work, Mr. Heminger also has some availability on 20th, but preferably in the afternoon.

Thank you in advanced for your consideration and please let me know if you need additional information.

Mike

Subject: RE: [EXTERNAL] Admin. Meeting Request for MPC

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, June 20th at 5 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Sydney,

Hope you are well. I just wanted to circle back with you on this request. Actually, on June 6, BRT is holding their meeting and there will be a lot of CEO's in town for the meeting. We have been speaking with Chevron and wanted to see if the Administrator would potentially be interested in doing a joint meeting with Mr. Heminger, as well as Chevron's CEO, John Watson.

Please let me know if you think we can make a time on June 6 work for a meeting with both of our companies. Thanks!

Hi Sydney,

Marathon Petroleum Corp.'s CEO, Gary Heminger, will be in town June 20-21 and is looking to meet with the Administrator. I've cc'd Mike Birsic who is a good friend and is the point person for setting this up. Mr. Heminger would like to talk about RFS and air regulations, among other things.

Mike, fill in any missing details.

Sydney, let me know if you need anything else from my end in the interim.

Best,

Mandy

Hi there. See below. Really awesome stuff. Do you want to set a call?

Date: Friday, September 1, 2017 at 8:53 AM
To: Jessica Garrison <Jessica@mdm27.com>
Subject: Pruitt visit

If a potential Pruitt visit seems real, it may be best for us to get on an initial call with eileen, Pruitt's scheduler/advance team and one of Mosaic's key on-the-ground staffers to walk through all the potential permutations we can offer them:

- Mine/dragline tour – a tour of our mining operations. We don't generally allow this, but we could probably get him on to the actual dragline as it is operating. Pretty cool experience.

- Manufacturing/concentrates tour – a driving tour through one of our manufacturing facilities (basically a large, complex chemical plant)

- Reclaimed land tour – either driving or potentially a helicopter tour of our reclaimed lands; heli is the best way to get a sense of the vastness of our landholdings

- Vendor/industry roundtable – We could easily arrange a sit-down with 10-15 of our most key vendors and they could discuss the critical significance of the phosphate industry to jobs, the local/regional economy and the important role they play in that

- Streamsong visit/stay – prime example of innovative reclamation and the economic viability of post-mined land

EPA Administrator Pruitt Speaker Request Form - NMA spring board meeting....docx

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is 202-731-1110.

I look forward to working with both of you.

Best regards,

Moya

Subject: Administrator Pruitt Visit

Hi again Moya,

Thank you for your time on the phone earlier. I am attaching an event request form with some basic questions that will help us out in the planning of this trip. Would you mind filling it out for us please? Also copying Millan Hupp on this email (my sister) who handles the advance work for Administrator Pruitt. She will likely be making the trip down there as well.

We look forward to Florida!

Thank you!

Sydney Hupp

ADMINISTRATOR PRUITT SPEAKER REQUEST FORM
U.S. Environmental Protection Agency

Deadline for Acceptance:	[Publication or otherwise; please see details below]
Event Title:	National Mining Association Spring Board of Director Meeting
Speech Date:	Monday, April 24, 2017
Is the Above Date Flexible:	Confirmed by Sydney Hupp
Speech Time & Duration:	Discussed lunch remarks. Provided a window of Monday, April 24 11:30 a.m. – 2 p.m. To be finalized once travel confirmed
Speaker Requested:	Administrator Scott Pruitt
Would You Consider a Surrogate:	N/A
Event Location:	Ritz Carlton Golf Resort 2600 Tiburon Drive, Naples, FL 34109 239-593-2000 Tiburon 3
Open Press/Closed Press:	Closed – No press at meeting
Is Event Webcast/Recorded/Transcribed:	No Webcast/Recorded/Transcribed
Purpose of the Event:	National Mining Association Spring Board of Directors Meeting – Board members comprised of CEOs from the major coal, metal and minerals, as well as manufacturers of mining equipment and technology.
Speech Topic:	At the front end of America's supply chain – providing the raw materials and affordable energy required for a vibrant manufacturing sector – NMA's members would be very interested to hear the administration's plans to move an agenda that will address excessive regulations and incentivize job creation in the U.S.
Requested Presentation Format:	Luncheon Speaker
Dress Code:	Business
Speech/Presentation Duration:	20 – 25 minutes, followed by 10-15 minutes of Q&A
Teleprompter Available:	No
Microphone / Room Setup:	Room set with rounds, podium on low rider with podium microphone. If prefer lavalier mic or other speaking set-up, please advise.
Event Sponsor:	National Mining Association Board Meeting – Coeur Mining is luncheon sponsor
Relationship to the EPA:	None

17cv01906 Sierra Club v. EPA ED_001523B_00002760-00001

ADMINISTRATOR PRUITT SPEAKER REQUEST FORM
U.S. Environmental Protection Agency

Event Agenda/Program:	Board Meeting Luncheon – 11:30 a.m. – 2 p.m. Time will be confirmed once travel is confirmed for Administrator Pruitt
Honorable Guests Attending:	N/A
Notable Federal, State or Local Appointed or Elected officials attending:	N/A
Individual Introducing Administrator:	To be determined
Person to contact for speechwriting purposes:	Rich Nolan, Senior Vice President Government Affairs rnolan@nma.org (202) 463-3241 [Cell Number]
Person to contact for media purposes:	There will be no press. Please advise if contact is needed. [Name/Title] [Email] [Office Number] [Cell Number]
Origin of Invitation:	Hal Quinn, President & CEO, National Mining Association hquinn@nma.org 202-2652 [Cell Number]
Day of Event Point of Contact:	Moya Phelleps, Senior Vice President, Member Services mphelleps@nma.org 202-463-2639 202-731-1110
Security Contact:	[Name/Title] [Email] [Office Number] [Cell Number]
Is the organization or host of the event a registered 501(c)(3), (4), or has a 527 Political Action Committee (PAC):	NMA has two Federal PACs organized under Section 527 of the IRS Code. NMA PACS are not Super PACs.
Will there be a presentation of a "gift" to the Administrator?	**No**
If so, what is the US currency value of the gift?	
Will a meal be provided, if so what is the US currency value?	

Please return this form completed to scheduling@epa.gov and Sydney Hupp (hupp.sydney@epa.gov).

Millan:
Greetings from Marrakech. Sorry for the delay in followup. I am still collecting inputs from friends but wanted to give you some additional thoughts on scheduling.

I think it is important to play both offense and defense. Offense to move forward the Agenda from the Administrator and defense in terms of a 'risk mitigation' strategy to address in a proactive manner critics from whatever perspective. That is why I urge consideration of some type of deliverable - a Comminique, Statement of Principles, Memorandum of Understanding - something that codifies the goals and objectives of the trip but also the larger issues. This will blunt any criticism in the future and allows the Administrator for focus on the positive outcomes.

The trip will undoubtedly turn to issues where the Administration differs from the current Aus government - climate change is but one issue, but there is no reason not to have an informed and thoughtful discussion. It allows both parties to address critics, and to move on. With a document that can be readied - several paragraphs only - it would frame the meetings and the agenda that is being put together. That would, by definition, make some meetings more important and others less. For example, State of Victoria meetings might be more important if part of a Communique talked about future discussions on Federal vs State environment issues/deregulation etc. and the Administrator wanted to have a parallel dialogue between EPA and the States in the US.

You also asked about the initial days. Here is an update

Arrival Friday.

-- Since you will arrive around 6:30 am you will either need to get an early check in or have the booked the rooms the previous evening so that they are available. The Embassy will handle but just wanted you to be aware. Walking around Sydney Harbor, the Rocks (where the early boats came in with British prisoners arrived) is fascinating. You will need some down time, too. In the afternoon you might consider taking the ferry from Circular Quay to either the Zoo (15 min). There is a great Chinese/Asian rest, WOO about 7 min walk from the hotel. In fact, Circular Quay, Rocks etc are all within 3 blocks of the hotel so easy logistics. The best single book to understand the foundation and history of Aus is The Fatal Shores which gives the context of how and why the British would round up undesireables and send them to Aus for being petty criminals etc (and no London police force then)

-- Saturday : A morning water taxi ride from Circular Quay to The Boathouse for breakfast would be great. It is owned by the (former) Minister of Trade Andrew Robb, a good friend, and the breakfast food is special. With good weather you can sit outside at picnic tables with

umbrellas and enjoy Saturday morning with locals. Also, you can take a15 minute ride to Bondi Beach from Circular Quay and walk as long as you want on a long and winding paved walking trail along the sea at a high level with runners, surfers etc and watch the surfers. I can send some photos if useful to visualize. Definitely a memorable experience. Dinner? Could be at a traditional German place in The Rock, if the Administrator likes German but I'll come up with other options. There are several along on the pier at Woogamalloo - steak, Indian, Chinese - first rate which is about a 7 min drive from the hotel.

-- Sunday: It would be nice to see if part of the schedule tied to Sydney Harbor clean up that is being proposed for Monday might be shifted even though it may be inconvenient for some. Otherwise, we might think of one or two individual meetings, and then a small CEO roundtable in the hotel in the afternoon. Maybe a visit from the US Consul General to give an overview. I am getting specific suggestions on invitees etc.

I think it may be useful to meet someone in the Labor Party opposition, but will get informal guidance from Josh's office. Again, so the Administrator can say that he heard all sides on environmental issues.

I've received an updated/more detailed draft schedule from the Embassy but reminded them that I'm simply providing input to you and that all the normal decision-making processes and communications need to remain in place, and that my only role is to provide informal input and suggestions to decision-makers.

Would be pleased to discuss the concept of any Communique if appropriate.

Off to Lisbon now but will followup with additional inputs.

Thanks Rick for putting the call together. Look forward to continuing the dialogue.

One initial step would be to get a better sense of the current US Australian environmental agreements that are currently in place and whether they should be changed or updated or canceled and replaced with others. It would also be relatively easy to put together a joint advisory task force on environmental issues thus creating a new mechanism for ongoing discussions.

I spoke with my friends at US Pacific Fleet Command and they have numerous environmental and maritime issues they would be interested in furthering.

M: Change of plans. We were deplaned from Lisbon and now on the flight tomor, Sunday, getting in late in the evening. Thanks to United Airlines.
Let's aim to connect on Monday. Can be available at your convenience. FYI the Outback place has a town called Alice Springs, that is associated with Uluru. I can try to come up with another Outback experience that is closer, but this is the iconic one.

Millan:

Great call yesterday. I'm wheels up now but anytime this weekend at 5pm Saturday would be good to followup.

A few items we discussed.

1. A trip to the Outback. The classic is Ayers Rock, locally called Uluru. It will require 24 hours - maybe the weekend eg Sunday works but that would conflict with the visit to the LNG plant. You can google it - www.uluru-australia.com and see. Flights from Sydney are easiest. Usually in the morning, and then stay over one night and take the next morning flight back. Sunset and sunrise are just amazing. In a 100,000 acre national park. Quite an experience. It might change Monday a bit but that would also work out since it seems that the Monday events can be truncated if required and wouldn't impact Canberra or the rest of the schedule.

2. Meetings in Canberra:
Foreign Minister Julie Bishop
Trade and Investment Minister Steven Chiobo
Minister of Resources Matt Canavan
Prime Minister Malcomb Turnbull
Senator and Minister for Agriculture and Water Barnaby Joyce
Senator and Minister for Innovation Industry and Science Arthur Sinodinos

3. Would like to get a formal invitation from the American Australian Council, the dominant US-based NGO to cohost with other NGOs in Aus - like Institute for Public Affairs to discuss deregulation. Can get from Embassy the contact point for IPA if you don't have one with the organization. But would be good to get a US organization extending invitations along with other NGOs, in addition to the formal Aus government invitation.

4. Messaging:

I believe that having a thematic approach would be most beneficial in the future. Innovation Deregulation and Federal/State relations would be the talking points in each meeting, and in any pre- or post-press that is sought. I would identify something EPA is currently doing or will likely be doing to address the issue of innovation as it impacts smaller staffing, budgets etc. This doesn't lessen the commitment to protecting the environment just an implicit notion that the USG has, in the past, been taking more and more authority and through innovation (agility, speed new public/private partnerships using technology) EPA can meet and further it's core mission.

Innovation can also be related to private sector business (to highlight what they are doing.) Deregulation would be focused on the how foreign governments and partners are untying regulations in order to foster economic

growth and job creation. Federal/State relations would be to better understand how others approach the appropriate balance between federal responsibilities and those left to the States. In the end it could be a statement issued by EPA alone, or, ideally, with Minister Frydenberg. We can discuss this idea now and get some closure on a joint statement that can be pre-cooked. If the Adm meets with the PM it will certainly need to be done so both sides have something that they can reference is building a stronger Aus-US partners (see AUSMIN comminque that outlines our overall relationship with US).

dfat.gov.au/geo/united-states-of-america/ausmin

https://www.state.gov/r/pa/prs/ps/2017/06/271560.htm

1.

Each of these three areas allow for a positive dialogue, and followup on a quarterly basis. It may require identifying some things EPA is currently doing now in each of these areas that could contribute to a dialogue, not just in Aus but other countries as well.

You should also seek a State/DOD brief on the destruction of coral reefs by the Chinese, more destruction in the past two years than in the history of man-which is also a good talking point when the Great Barrier Reef protection comes up Aus officials.

Matthew

Millan:
Wanted to followup my previous communication.

1. Having thought thru various ideas I like the idea of going to

Melbourne and meeting with the Labor Government of the Victorian Government. It allows the Administrator to say that he met both sides, and discussed issues. And they are doing very creative things and the Vic government is 'open for business' so many US companies in the high tech arena are making Melbourne their new corporate HQ home. Maybe we can identify a few of them to connect with the EPA Administrator.

While climate change will not be on the agenda expect it come up and we need to be able to say that we 'agree to disagree' as good friends. I suggested to the Embassy that the Victorian Minister for Innovation and Trade (Philip Dalidakis) be included on their side since having him at the table would be good.

2. Had a long conversation with James Shea, the Embassy lead. He, Cosi (Minister Frydenberg office) and your Advance lead in the International Affairs office will be speaking Tuesday morning to coordinate. The Embassy was not aware of some of the potential requests for meetings so this next call (which is weekly between the parties) should clarify that you, indeed, want to move forward with a formal request to see the Foreign Minister, Minister of Trade and Investment (Steven Chiobo), Prime Minister, and others.

3. The trip might have a theme related to environmental cooperation focused on the topic of innovation - one that both sides can rally around - since both countries are focused on innovation at a national level. And doing more with less requires being smarter and more strategic. Hence, it is useful for the EPA Adm and the Aus counterparts to learn about how each country thinks about protecting the environment in the context of smaller staffs and budgets. The US press has made it sound like less money equals less commitment so changing the dynamic would be useful. Using innovation is a bridge in this regard, and having several EPA activities in this area to put on the table would be useful. Some of the past EPA/NASA activities might qualify but my information is a little dated.

4. Great Barrier Reef and Tasmania I would agree at this point is a bridge too far for this visit.

Rick and I will attend and will be present but will not be listed as members of the delegation. Also, I will make all arrangements for us; we do not want to utilize any USG assets for our involvement. Friday/Sat/Sun when we arrive will be easy, but we will not likely participate in the official meetings.

On Jul 6, 2017, at 9:49 AM, Matthew Freedman wrote:

Millan:
Greetings from Marrakech. Sorry for the delay in followup. I am still collecting inputs from friends but wanted to give you some additional thoughts on scheduling.

I think it is important to play both offense and defense. Offense to move forward the Agenda from the Administrator and defense in terms of a 'risk mitigation' strategy to address in a proactive manner critics from whatever perspective. That is why I urge consideration of some type of deliverable - a Comminique, Statement of Principles, Memorandum of Understanding - something that codifies the goals and objectives of the trip but also the larger issues. This will blunt any criticism in the future and allows the Administrator for focus on the positive outcomes.

The trip will undoubtedly turn to issues where the Administration differs from the current Aus government - climate change is but one issue, but there is no reason not to have an informed and thoughtful discussion. It allows both parties to address critics, and to move on. With a document that can be readied - several paragraphs only - it would frame the meetings and the agenda that is being put together. That would, by definition, make some meetings more important and others less. For example, State of Victoria meetings might be more important if part of a Communique talked about future discussions on Federal vs State environment issues/deregulation etc. and the Administrator wanted to have a parallel dialogue between EPA and the States in the US.

You also asked about the initial days. Here is an update

Arrival Friday.

-- Since you will arrive around 6:30 am you will either need to get an early check in or have the booked the rooms the previous evening so that they are available. The Embassy will handle but just wanted you to be aware. Walking around

Sydney Harbor, the Rocks (where the early boats came in with British prisoners arrived) is fascinating. You will need some down time, too. In the afternoon you might consider taking the ferry from Circular Quay to either the Zoo (15 min). There is a great Chinese/Asian rest, WOO about 7 min walk from the hotel. In fact, Circular Quay, Rocks etc are all within 3 blocks of the hotel so easy logistics. The best single book to understand the foundation and history of Aus is The Fatal Shores which gives the context of how and why the British would round up undesireables and send them to Aus for being petty criminals etc (and no London police force then)

-- Saturday : A morning water taxi ride from Circular Quay to The Boathouse for breakfast would be great. It is owned by the (former) Minister of Trade Andrew Robb, a good friend, and the breakfast food is special. With good weather you can sit outside at picnic tables with umbrellas and enjoy Saturday morning with locals. Also, you can take a15 minute ride to Bondi Beach from Circular Quay and walk as long as you want on a long and winding paved walking trail along the sea at a high level with runners, surfers etc and watch the surfers. I can send some photos if useful to visualize. Definitely a memorable experience. Dinner? Could be at a traditional German place in The Rock, if the Administrator likes German but I'll come up with other options. There are several along on the pier at Woogamalloo - steak, Indian, Chinese - first rate which is about a 7 min drive from the hotel.

-- Sunday: It would be nice to see if part of the schedule tied to Sydney Harbor clean up that is being proposed for Monday might be shifted even though it may be inconvenient for some. Otherwise, we might think of one or two individual meetings, and then a small CEO roundtable in the hotel in the afternoon. Maybe a visit from the US Consul General to give an overview. I am getting specific suggestions on invitees etc.

I think it may be useful to meet someone in the Labor Party opposition, but will get informal guidance from Josh's office. Again, so the Administrator can say that he heard all sides on environmental issues.

I've received an updated/more detailed draft schedule from the Embassy but reminded them that I'm simply providing input to you and that all the normal decision-making processes and communications need to remain in place, and

that my only role is to provide informal input and suggestions to decision-makers.

Would be pleased

Millan:
A few additional thoughts.

I think that the trip will be more hostile than what the Administrator may be expecting. While we have discussed the differences in policies between the Turnbull Administration and the Trump Administration the outright hostility may come to the surface more frequently than you might expect. He needs to be prepared for a more confused and angry group of Aussies.

I also think that having one single meeting with the Victorian Government may be useful politically, but the outcome may be no different than if the Administrator met with Bernie Sanders. That is, the Victorian Government will be hostile to any Trump appointee and when you mix in climate change issues and the Paris Accord - I think the Administrator will not find the local government meeting particularly useful or insightful for him. So if a Vic meeting is important (not to me, tho) I would limit it to one single meeting, check the box, and move on.

I have been in contact with the ExDir of the Institute for Public Affairs, the conservative/dereg think tank, and I believe that they can provide very useful discussions related to the topics of the science of climate change (something that the Aussies are also looking into) and other issues given the work they have done. They are aligned with the Trump vision on various issues, including coal, the challenge to businesses given the environmental approvals required, the unprecedented gov???t control related to gas exploration/development, gas/fracking challenges. These are the inputs/meetings that he should be focused on.

In the next few days I???ll have developed a list of some additional events or people that he should meet, through the IPA vehicle. They also can do an event in Sydney, Canberra and/or Melb - so we are not limited to the Melb.

There are also a few right-leaning Labor Party leaders that it might be worth the Administrator to meet, and I???ll pass along those names as well. I???m also thinking about having him meet privately with the Labor Party Leader, who is likely to become the next Prime Minister, Bill Shorten, who is also a good friend.

Would be interested in the latest outcomes from your call with the Embassy.

> > >
> > > 1. A trip to the Outback. The classic is Ayers Rock, locally called Uluru. It will require 24 hours - maybe the weekend eg Sunday works but that would conflict with the visit to the LNG plant. You can google it - www.uluru-australia.com and see. Flights from Sydney are easiest. Usually in the morning, and then stay over one night and take the next morning flight back. Sunset and sunrise are just amazing. In a 100,000 acre national park. Quite an experience. It might change Monday a bit but that would also work out

since it seems that the Monday events can be truncated if required and wouldn't impact Canberra or the rest of the schedule.

2. Meetings in Canberra:
Foreign Minister Julie Bishop
Trade and Investment Minister Steven Chiobo
Minister of Resources Matt Canavan
Prime Minister Malcomb Turnbull
Senator and Minister for Agriculture and Water Barnaby Joyce
Senator and Minister for Innovation Industry and Science Arthur Sinodinos

3. Would like to get a formal invitation from the American Australian Council, the dominant US-based NGO to cohost with other NGOs in Aus - like Institute for Public Affairs to discuss deregulation. Can get from Embassy the contact point for IPA if you don't have one with the organization. But would be good to get a US organization extending invitations along with other NGOs, in addition to the formal Aus government invitation.

4. Messaging:

I believe that having a thematic approach would be most beneficial in the future. Innovation Deregulation and Federal/State relations would be the talking points in each meeting, and in any pre- or post-press that is sought. I would identify something EPA is currently doing or will likely be doing to address the issue of innovation as it impacts smaller staffing, budgets etc. This doesn't lessen the commitment to protecting the environment just an implicit notion that the USG has, in the past, been taking more and more authority and through innovation (agility, speed new public/private partnerships using technology) EPA can meet and further it's core mission.

Innovation can also be related to private sector business (to highlight what they are doing.) Deregulation would be focused on the how foreign governments and partners are untying regulations in order to foster economic growth and job creation. Federal/State relations would be to better understand how others approach the appropriate balance between federal responsibilities and those left to the States. In the end it could be a statement issued by EPA alone, or, ideally, with Minister Frydenberg. We can discuss this idea now and get some closure on a joint statement that can be pre-cooked. If the Adm meets with the PM it will certainly need to be done so both sides have something that they can reference is building a stronger Aus-US partners (see AUSMIN comminque that outlines our overall relationship with US).
dfat.gov.au/geo/united-states-of-america/ausmin
https://www.state.gov/r/pa/prs/ps/2017/06/271560.htm

Each of these three areas allow for a positive dialogue, and followup on a quarterly basis. It may require identifying some things EPA is currently doing now in each of these areas that could contribute to a dialogue, not just in Aus but other countries as well.

You should also seek a State/DOD brief on the destruction of coral reefs by the Chinese, more destruction in the past two years than in the history of man- which is also a good talking point when the Great Barrier Reef protection comes up Aus officials.

Millan:
Wanted to followup my previous communication.

1. Having thought thru various ideas I like the idea of going to Melbourne and meeting with the Labor Government of the Victorian Government. It allows the Administrator to say that he met both sides, and discussed issues. And they are doing very creative things and the Vic government is 'open for business' so many US companies in the high tech arena are making Melbourne their new corporate HQ home. Maybe we can identify a few of them to connect with the EPA Administrator.

While climate change will not be on the agenda expect it come up and we need to be able to say that we 'agree to disagree' as good friends. I suggested to the Embassy that the Victorian Minister for Innovation and Trade (Philip Dalidakis) be included on their side

since having him at the table would be good.

2. Had a long conversation with James Shea, the Embassy lead. He, Cosi (Minister Frydenberg office) and your Advance lead in the International Affairs office will be speaking Tuesday morning to coordinate. The Embassy was not aware of some of the potential requests for meetings so this next call (which is weekly between the parties) should clarify that you, indeed, want to move forward with a formal request to see the Foreign Minister, Minister of Trade and Investment (Steven Chiobo), Prime Minister, and others.

3. The trip might have a theme related to environmental cooperation focused on the topic of innovation - one that both sides can rally around - since both countries are focused on innovation at a national level. And doing more with less requires being smarter and more strategic. Hence, it is useful for the EPA Adm and the Aus counterparts to learn about how each country thinks about protecting the environment in the context of smaller staffs and budgets. The US press has made it sound like less money equals less commitment so changing the dynamic would be useful. Using innovation is a bridge in this regard, and having several EPA activities in this area to put on the table would be useful. Some of the past EPA/NASA activities might qualify but my information is a little dated.

4. Great Barrier Reef and Tasmania I would agree at this point is a bridge too far for this visit.

Rick and I will attend and will be present but will not be listed as members of the delegation. Also, I will make all arrangements for us; we do not want to utilize any USG assets for our involvement. Friday/Sat/Sun when we arrive will be easy, but we will not likely participate in the official meetings.

Matthew

On Jul 6, 2017, at 9:49 AM, Matthew Freedman wrote:

Millan:
Greetings from Marrakech. Sorry for the delay in followup. I am still collecting inputs from friends but wanted to give you some additional thoughts on scheduling.

I think it is important to play both offense and defense. Offense to move forward the Agenda from the Administrator and defense in terms of a 'risk mitigation' strategy to address in a proactive manner critics from whatever perspective. That is why I urge consideration of some type of deliverable - a Comminique, Statement of Principles, Memorandum of Understanding - something that codifies the goals and objectives of the trip but also the larger issues. This will blunt any criticism in the future and allows the Administrator for focus on the positive outcomes.

The trip will undoubtedly turn to issues where the Administration differs from the current Aus government - climate change is but one issue, but there is no reason not to have an informed and thoughtful discussion. It allows both parties to address critics, and to move on. With a document that can be readied - several paragraphs only - it would frame the meetings and the agenda that is being put together. That would, by definition, make some meetings more important and others less. For example, State of Victoria meetings might be more important if part of a Communique talked about future discussions on Federal vs State environment issues/deregulation etc. and the Administrator wanted to have a parallel dialogue between EPA and the States in the US.

You also asked about the initial days. Here is an update

Arrival Friday.

-- Since you will arrive around 6:30 am you will either need to get an early check in or have the booked the rooms the previous evening so that they are available. The Embassy will handle but just wanted you to be aware. Walking around Sydney Harbor, the Rocks (where the early boats came in with British prisoners arrived) is fascinating. You will need some down time, too. In the afternoon you might consider taking the ferry from Circular Quay to either the Zoo (15 min). There is a great Chinese/Asian rest, WOO about 7 min walk from the hotel. In fact, Circular Quay, Rocks etc are all within 3 blocks of the hotel so easy logistics. The best single book to understand the foundation and history of Aus is The Fatal Shores which gives the context of how and why the British would round up undesireables and send them to Aus for being petty criminals etc (and no London police force then)

-- Saturday : A morning water taxi ride from Circular Quay to The Boathouse for breakfast would be great. It is owned by the (former) Minister of Trade Andrew Robb, a good friend, and the breakfast food is special. With good weather you can sit outside at picnic tables with umbrellas and enjoy Saturday morning with locals. Also, you can take a15 minute ride to Bondi Beach from Circular Quay and walk as long as you want on a long and winding paved walking trail along the sea at a high level with runners, surfers etc and watch the surfers. I can send some photos if useful to visualize. Definitely a memorable experience. Dinner? Could be at a traditional German place in The Rock, if the Administrator likes German but I'll come up with other options. There are several along on the pier at Woogamalloo - steak, Indian, Chinese - first rate which is about a 7 min drive from the hotel.

-- Sunday: It would be nice to see if part of the schedule tied to Sydney Harbor clean up that is being proposed for Monday might be shifted even though it may be inconvenient for some. Otherwise, we might think of one or two individual meetings, and then a small CEO roundtable in the hotel in the afternoon. Maybe a visit from the US Consul General to give an overview. I am getting specific suggestions on invitees etc.

I think it may be useful to meet someone in the Labor Party opposition, but will get informal guidance from Josh's office. Again, so the Administrator can say that he heard all sides on environmental issues.

I've received an updated/more detailed draft schedule from the Embassy but reminded them that I'm simply providing input to you and that all the normal decision-making processes and communications need to remain in place, and that my only role is to provide informal input and suggestions to decision-makers.

Would be pleased

Here is some language. This is potentially a turf issue; State Dept may not want him to meet people outside his environmental jurisdiction which would be a mistake. I know that the FM would like to have a meeting. FYI.

Matthew

"The purpose of the meeting with the Foreign Minister is to engage in an open dialogue on issues that impact US and Australian relations. Environmental and energy issues are important areas for discussion and impact investment - innovation, deregulation and the appropriate balance between federal and state processes. Also, gas, fracking and overall environmental cooperation are important topics of mutual concern. Given the importance of the bilateral relationship, this is an opportunity to directly engage seniors Australian officials such as the Foreign Minister, that will allow an on-going discussion on issues where both parties can learn from past experiences. The Trump Administration strongly supports and values the current partnership between the two countries, and an initial discussion will allow additional exchanges in the future, and contribute in the future to overall AUSMIN goals and objectives. The Foreign Minister and other senior officials have already met with key members of the Trump Cabinet, including The President, Vice President Pence, Secretary Tillerson and others. This is an opportunity to introduce the EPA Administrator to the Foreign Minister, and other senior Cabinet officials in Australia and to build a personal relationship."

Subject: ETA Application for Australia [CLIENT-IN-CONFIDENCE] (PROD)

Thank you for your application for an Electronic Travel Authority (ETA) for Australia.

We can confirm that your application has been successful and that you now have a valid ETA.

Your credit card payment for **AUD$20.00** has been received. It will appear on your credit card statement against the business name iVISA SERVICES, NORTH SYDNEY.

If you would like to check the details of your ETA, please click on the Check an ETA button on the ETA website - www.eta.immi.gov.au. To make the enquiry, you will need your Internet ETA Reference Number which is Ex. 6 - Personal Privacy

An ETA is automatically linked to your passport. The customs authorities and airline check-in staff have access to this information, using your passport details, so there is no need for any further documentation or reference numbers to be presented.

Conditions of an ETA are:

- It is your responsibility to know what your visa allows you to do while in Australia.
- Once your ETA is granted you are able to enter and leave Australia as many times as you need to during a 12 month period, from the date the ETA is granted or until the expiry date of your passport, whichever is earlier.
- You can stay in Australia for a maximum of three months on each visit.
- You must not study for more than three months.
- You must be free from tuberculosis.
- You must not have any criminal convictions for which you have been sentenced for a total combined period of 12 months or more, whether or not you served the sentence/s.
- It is illegal to work on an ETA. Whilst on an ETA you have no right to work in Australia. You may only undertake business visitor activities such as the undertaking of business enquiries and contractual negotiations or attending conferences.

We hope you have a wonderful stay in Australia.

Kind Regards,
Internet ETAS Support.

AMERICAN
AUSTRALIAN
COUNCIL

July 19, 2017

The Honorable Scott Pruitt
US Environmental Protection Agency
Washington, DC

Dear Administrator Pruitt:

On behalf of the American Australian Council, we would like to host you during your visit to Australia August 31 – September 8, 2017, and arrange meetings with US private sector companies. The objective is to provide you with inputs from US companies operating in Australia related to energy, environmental innovation, and deregulation.

US companies in the energy and environmental areas have been doing business in Australia for many years, and we believe that these companies can provide you with important insights into the Australian energy and environmental marketplace and the challenges and opportunities facing these companies.

The American Australian Council is a bipartisan, nonprofit 501(c)(3) foundation governed by a volunteer board of directors composed of former members of Congress; senior political appointees from both major political parties; top government relations and public policy leaders; and business enterprise entrepreneurs.

Our mission is to promote the special relationship between the United States and Australia. We work together with our members to enhance longstanding special channels of trust that deepens existing traditional bilateral communications and activities. In the past, we have hosted numerous senior Australian officials including the Minister for Energy and the Environment Josh Frydenberg.

We promote productive and timely bilateral exchanges among leaders in government, business, national security, technology, academic, media, and cultural arenas. Sharing viewpoints, policy positions and strategies elevates our mutual defense and security and promotes economic growth, trade and investment.

We are prepared to make arrangements for briefings from key US private sector company leaders and to work with other not-for-profit institutions if useful to furthering your core mission.

Sincerely,

Matthew C Freedman
Executive Board Member

Sounds good, I can be flexible. I've been talking to the governor's deputy chief of staff, Danny Lopez, dalopez@gov.in.gov, 317-753-0200. (And, of course, I'm happy to do a walkthrough at Wrigley Field with you, too.)

Jeff,

This is great and thanks for facilitating this. I have not yet reached out to the governor's office but that will be next on my list. I don't get into O'Hare until 10:40am Tuesday, and after getting a rental, I can imagine trying to set up a walkthrough/briefing at the site sometime between noon and early afternoon maybe 2pm at the latest. I'm also juggling and waiting to hear back from Wriggly Field so not sure which will come first yet. Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F

Personal Security Details/Ex. 7C/Ex. 7E/Ex. 7F and Millan, EPA's command post for the site is at the former Carrie Gosch elementary school (455 E 148th St, East Chicago, Ind.). The rest of the site is to the east of the school … there's a map on our website at https://www.epa.gov/sites/production/files/2016-09/zones_cropped.jpg. As part of the site tour we'll be able to see work underway in zone 2 of the site, although I don't have the addresses yet.

Either I or someone from my staff can do a walkthrough with you Tuesday, and I'll make sure the right people from our Superfund division are onsite to answer questions.

Personal Security Details/Ex. 7C/Ex. 7E/Ex. 7F have you been in touch with the governor's office, yet? I know they'll want to get you in touch with his security detail.

Margaret,

It was nice speaking with you on the phone. Per our discussion, I along with Millan Hupp will be flying up Tuesday the 18th to do site advances for the EPA Administrator's trip to Chicago. We would like to schedule a walk through at the superfund site and go over security and logistics. Please advise who would be the appropriate POC for this and provide the address/location of the site as I understand it is NW of Gary Indiana. Thank you and look forward to hearing back. -

Subject: Request walk through Tuesday April 19

Good morning Cheryl Morley,
Thank you for receiving my email and your efforts in helping us during such a busy time. I am an advance agent for EPA's protection detail for the EPA Administrator. The Administrator plans to attend the Cubs game on Wednesday afternoon April 19. It is our request that we meet with someone from security, preferably Tuesday afternoon, to do a walk-through and go over security logistics for your stadium as well as how to proceed in obtaining any special LEO passes. Myself, SA Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F and SA Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F n are advancing the game and SA Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F will be arriving with the Administrator on Wednesday. Please advise who to call or if someone could call my cell phone at Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F and let me know what other information you need from me.
Thank you -

Thanks again for the facilitation Danny.

Good Morning Superintendent Carter,

As Danny mentioned, I'm the advance agent for the EPA Administrator. I arrive Tuesday late-morning and was hoping to do a walk through at the school sometime early afternoon as well as go over any pertinent intel for the area. Sounds like the ball is already rolling in terms of having marked units for Wednesday and possibly a lead car for the motorcade, all of which would be much appreciated and helpful. I am in the office today and around on the weekend and Monday to talk over the phone. In the meantime, just thought I'd introduce myself. Thank you! -

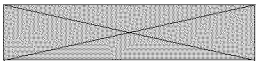
Subject: e-introduction: EPA security, Indiana State Police

Thanks again for the chat, Jennifer. I'm connecting you hear to Superintendent Doug Carter, who heads up the Indiana State Police for the Governor. Doug and his team are outstanding, and just this morning we have begun preliminary conversations about what security and logistics will look like for the visit.



Doug.. [redacted] is heading up the security effort for the EA for this visit, and she is looking to lock in details as well as coordinate a more formal walkthrough of the site and the area. I told her we will be as hands-on as needed and take as much of their plate as they want, including picking the Administrator up at the airport and transporting/staffing him throughout the day.

As I noted to [redacted] there are only two access points to the front of the school… two gates along a chain-link fence that can be easily secured. We can use the main gate entrance as a check point and ask everyone to park outside the fence along the access road between the neighborhood and the school, and then folks can walk through the check point. That can all be resolved this weekend and Monday, and obviously much will depend on the nature of the meetings once they are finalized, but my point is that I think the site should be fairly easy to keep secured.

I'll leave it to you to initially connect, and then we can stay in contact throughout the weekend and in the days leading up to the event. Thanks very much!

Danny

RE: still waiting to hear back

Your message to helton@young.senate.gov couldn't be delivered.

helton wasn't found at young.senate.gov.

hupp.millan	**Office 365**	**helton**
Action Required		Recipient

Unknown To address

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- **Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "To send this message again, click here." Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click Send.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: Fix email delivery issues for error code 5.1.1 in Office 365, and then send the message again. Retype the entire recipient address before selecting Send.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the More Info for Email Admins section below.

Was this helpful? *Send feedback to Microsoft.*

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see Fix email delivery issues for error code 550 5.1.1 in Office 365.

EPA Administrator Pruitt Speaker Request Form.docx

Millan,

Attached is the requested form. There will be approx. 300. There will be other speakers. The others are being worked out but I know AG Mike Hunter, Representative Henke and Senator Smalley will be on the agenda. We are doing lunch from 11:30 – 12:30 then the program at 12:30 followed by a reception at 1:30 pm.

Please let me know if you have additional questions.

Please join us for

2017 Oklahoma's Promise Day at the State Capitol

To show our appreciation to Governor Fallin and the Legislature for 25 years of state support of the Oklahoma's Promise program and encourage elected officials to continue keeping the promise to our students

Tuesday, April 18, 2017

Oklahoma State Capitol
Lunch: 1st floor rotunda at 11:30 a.m.
Rally: 1st floor rotunda at 12:30 p.m.
Reception: 4th floor rotunda at 1:30 p.m.

Presented by the Oklahoma State Regents for Higher Education and sponsored by the Council of Presidents, the Oklahoma Business Roundtable, Dippin' Dots, and Buttersweet Cupcakes

Email Todd Pauley at tpauley@osrhe.edu to confirm you will join us for lunch

OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION

Improving our future by degrees

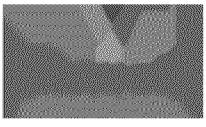
April 10, 2017

The Honorable Scott Pruitt
Environmental Protection Agency
Office of the Administrator
1200 Pennsylvania Avenue, N.W., 1101A
Washington, DC 20460

Dear Administrator Pruitt: Scott:

Re: Invitation to Speak – Oklahoma's Promise Day at the State Capitol

On behalf of the State Regents and the Council of College and University Presidents, I would like to invite you to attend and make remarks at our 2017 Oklahoma's Promise Day at the State Capitol rally, which is scheduled for Tuesday, April 18, 2017. This year marks the 25th anniversary of the Oklahoma's Promise program, which was signed into law in 1992. The Oklahoma's Promise Day program will be held in the first floor Rotunda of the State Capitol and is scheduled to begin at 12:30 p.m.



At your earliest convenience, please contact Todd Pauley at tpauley@osrhe.edu or (405) 824-5896 to let him know if your schedule would permit your to attend and provide remarks at our 2017 Oklahoma's Promise Day at the State Capitol rally.

I look forward to seeing you on Tuesday, April 18.

Sincerely,

Glen D. Johnson
Chancellor
GDJ/ks

Importance: High

Troy,

We are looking forward to Administrator Pruitt's visit to Gully Branch Tree Farm, Friday, July 7th. To ensure Adm. Pruitt meets his objectives for the visit Earl and I would like to schedule a call to discuss:

- **Time Frame**: we discussed a farm tour/discussion, lunch, small group discussion

- **Topic**: ee360 Grants GA received in partnership with EPA Education and Outreach/AFF Project Learning Tree. Implementation of education and outreach programs at Gully Branch Tree Farm and throughout GA

- **Topic:** Effectively making the connection for clean air, clean water and sustainable working forests; Developing partnerships for the work

- **Topic:** Forestry Issues, markets, value of forestry in GA and US, challenges we could address with EPA as a partner

- **Guest List:** Sec. of Ag, Sonny Perdue, Others?

Please provide a time we could discuss the above. We are available today, Tuesday, June 13th (9:30-12:00) and Thursday, June 15th (9:30-2:00).

Thank you for working with us to make this a meaningful event for Adm. Pruitt and your team.

Subject: Administrator Pruitt's visit Gully Branch Tree Farm, Cochran, GA, Friday, July 7th, 2017
Importance: High

Troy,

We are looking forward to Administrator Pruitt's visit to Gully Branch Tree Farm, Friday, July 7th. To ensure Adm. Pruitt meets his objectives for the visit Earl and I would like to schedule a call to discuss:

- **Time Frame**: we discussed a farm tour/discussion, lunch, small group discussion

- **Topic**: ee360 Grants GA received in partnership with EPA Education and Outreach/AFF Project Learning Tree. Implementation of education and outreach programs at Gully Branch Tree Farm and throughout GA

- **Topic:** Effectively making the connection for clean air, clean water and sustainable working forests; Developing partnerships for the work

- **Topic:** Forestry Issues, markets, value of forestry in GA and US, challenges we could address with EPA as a partner

- **Guest List:** Sec. of Ag, Sonny Perdue, Others?

Please provide a time we could discuss the above. We are available today, Tuesday, June 13th (9:30-12:00) and Thursday, June 15th (9:30-2:00).

Thank you for working with us to make this a meaningful event for Adm. Pruitt and your team.

Regards,

Wanda Barrs 478.697.3500

Importance: High

Team,

See invitation attached for both the small group and large group to follow on July 7th. Also attached is the invitee list. Still waiting to know who to invite from Gov. office.

Please see my thoughts on run of show and advise. **Your immediate advisement is needed so we can push invitations out in the morning.**

11:00 a.m. Arrive Gully Branch

Earl and Wanda tour farm with Sec. Perdue and Adm. Pruitt

Hosts will be stationed at pavilion to greet small group guests as they arrive.

11:30 a.m. Small Group discussion/round table. (see list with small group noted "SG") . Upon closure will allow a few minutes for leaders to disassemble and team will break down tables to allow room for large group to assemble.

Will work with group to ensure we do not overlap with discussion and allow time for plenty of time for Sec. Perdue and Adm. Pruitt to interact

Large Group will be checking in at barn and ready to move to pavilion when small group ends. We plan to bring FFA leaders/students and 4-H leaders/students in to meet Sec. Perdue and Adm. Pruitt first and others will follow. Anticipate 20-30 minutes to get everyone in the pavilion and Sec. Perdue/Adm. Pruitt time to speak to guests in small groups or individually. All those invited are supportive leaders and we expect a good turnout (between 75-100)

Refreshments available during this transition time.

12:45-1:15 Earl introduces Sec. Perdue and Sec. Perdue introduces Adm. Pruitt

Sec. Perdue and Adm. Pruitt address the group

1:15-1:30 Q&A

1:30-1:45 Any closing comments from Sec. Perdue and Adm. Pruitt

Group disassembles

Troy,

We appreciate this draft run of show. Certainly we're hoping for a little more time for our guests. Have key prospective forestry invitees from as far as CA, FL, and D.C. Working on invitees list at this moment. Will ask each guest to provide complete contact info with one paragraph of organization /bio info.

Will provide more info along with logistic details including coordinates/address upon preparing.

Best regards,

Wanda Barrs

You all are so kind. Thank you for your hospitality and for hosting this event.

Do you know the organizations the secretary and administrator will deliver remarks to?

Thanks Millan. Arrangements for the Administrator's trip are coming along nicely. We look forward providing him and the Secretary an informative and educational trip as well as introducing him to some really great folks. Wanda and I know a thing or two about providing "Good ole Southern Hospitality" for our guest at Gully Branch. We also look forward to welcoming the advance team on July 6th and showing Forrest around our forest.

Thank you Troy.

Good morning Lauren. Yes, we will be seeding Forrest McMurray on our team to lead the advance for this trip. He will arrive in Atlanta the morning of July 6th with an agent from the Administrator s security team and will then travel down to Macon and Cochran.

If possible, we would very much appreciate the opportunity to visit Gully Branch Tree Farm on Thursday to prepare for the Administrator's visit.

Forrest -- please work with with Lauren, et al to coordinate the advance for this visit.

Warm regards,

Millan Hupp

Troy,

We appreciate this draft run of show. Certainly we're hoping for a little more time for our guests. Have key prospective forestry invitees from as far as CA, FL, and D.C. Working on invitees list at this moment. Will ask each guest to provide complete contact info with one paragraph of organization /bio info.

Will provide more info along with logistic details including coordinates/address upon preparing.

Best regards,

Wanda Barrs

Importance: High

Troy,

We are looking forward to Administrator Pruitt's visit to Gully Branch Tree Farm, Friday, July 7th. To ensure Adm. Pruitt meets his objectives for the visit Earl and I would like to schedule a call to discuss:

- **Time Frame**: we discussed a farm tour/discussion, lunch, small group discussion

- **Topic**: ee360 Grants GA received in partnership with EPA Education and Outreach/AFF Project Learning Tree. Implementation of education and outreach programs at Gully Branch Tree Farm and throughout GA

- **Topic:** Effectively making the connection for clean air, clean water and sustainable working forests; Developing partnerships for the work

- **Topic:** Forestry Issues, markets, value of forestry in GA and US, challenges we could address with EPA as a partner

- **Guest List:** Sec. of Ag, Sonny Perdue, Others?

Please provide a time we could discuss the above. We are available today, Tuesday, June 13th (9:30-12:00) and Thursday, June 15th (9:30-2:00).

Thank you for working with us to make this a meaningful event for Adm. Pruitt and your team.

Regards,

Subject: Re: Administrator Pruitt's visit Gully Branch Tree Farm, Cochran, GA, Friday, July 7th, 2017

Thank you Troy.

Good morning Lauren. Yes, we will be seeding Forrest McMurray on our team to lead the advance for this trip. He will arrive in Atlanta the morning of July 6th with an agent from the Administrator s security team and will then travel down to Macon and Cochran.

If possible, we would very much appreciate the opportunity to visit Gully Branch Tree Farm on Thursday to prepare for the Administrator's visit.

Forrest -- please work with with Lauren, et al to coordinate the advance for this visit.

Warm regards,

Millan Hupp

Office of the Administrator - Advance

One final modification on run of schedule-I promise.

We can start 11 with a hard stop at 1:45. Does this work for the group?

Troy,

We appreciate this draft run of show. Certainly we're hoping for a little more time for our guests. Have key prospective forestry invitees from as far as CA, FL, and D.C. Working on invitees list at this moment. Will ask each guest to provide complete contact info with one paragraph of organization /bio info.

Will provide more info along with logistic details including coordinates/address upon preparing.

Best regards,

Wanda Barrs

Thank you all for the call earlier this week. We are excited about this opportunity to visit.

Last time we chatted, we discussed a run of show with the program starting around 10:30 and lasting until about 12:30. How does the draft run of show look?

10:30-11:00 Ride Around Farm

- Wanda and Earl lead Sec. Perdue and Administrator Pruitt on a driving tour of farm

11:00-11:30 Small Group Sit Down

- Topic: Forestry Issues in Georgia, Partnering with USDA and EPA to achieve shared goals
- Participants: ?

11:40 Remarks

- Sec. Perdue and Administrator Pruitt deliver brief remarks to a larger crowd
- Earl and Wanda introduce Sec. Perdue
- Sec. Perdue introduces Administrator Pruitt

Audience (around 100):

- Dean of Forestry, UGA
- Head of GA Forestry
- GA Forestry Members
- 4H
- FFA
- Local Businesses
- Local Chamber of Commerce
- Anyone else?

12:15 **Event Concludes**

Importance: High

Troy,

We are looking forward to Administrator Pruitt's visit to Gully Branch Tree Farm, Friday, July 7th. To ensure Adm. Pruitt meets his objectives for the visit Earl and I would like to schedule a call to discuss:

- **Time Frame**: we discussed a farm tour/discussion, lunch, small group discussion

- **Topic**: ee360 Grants GA received in partnership with EPA Education and Outreach/AFF Project Learning Tree. Implementation of education and outreach programs at Gully Branch Tree Farm and throughout GA

- **Topic:** Effectively making the connection for clean air, clean water and sustainable working forests; Developing partnerships for the work

- **Topic:** Forestry Issues, markets, value of forestry in GA and US, challenges we could address with EPA as a partner

- **Guest List:** Sec. of Ag, Sonny Perdue, Others?

Please provide a time we could discuss the above. We are available today, Tuesday, June 13th (9:30-12:00) and Thursday, June 15th (9:30-2:00).

Thank you for working with us to make this a meaningful event for Adm. Pruitt and your team.

Regards,

Hi Millan,

I would like to close the loop on a few items for the upcoming event with Administrator Pruitt on June 21.

Director of Security at the Harvard Club is Tom Hovagim, his direct number is 212-827-1266 and email is thovagim@hcny.com. I will also cc you on email with him and our banquet manager in case you have additional questions.

We have confirmed a holding room at the Harvard Club from 9 am – 3 pm in case. Let me know if you need anything in this room. The luncheon will take place in the North & Biddle rooms. All rooms are located on the 3rd floor of the club.

I have include Michele on this email as promise to sort out the media invites.

Let me know if you need anything else at this time.

Best,

Subject: Pruitt MO Visit

Date: April 12, 2017 at 10:02:06 AM CDT

To: Crystal Drwenski <cdrwenski@me.com>

Secretary Ashcroft asked me if there was a chance he could have a few minutes with Administrator Pruitt when he's in Missouri on April 20. I wasn't sure what the schedule looks like or the feasibility of meeting but I told him I'd ask. Any help you could provide would be great!

Subject: Associated Electric Cooperative Overview
Invitation THEC tour with EPA.PDF
Fact sheets for tour at THEC.pdf

We're honored to host the EPA April 20 at Thomas Hill Energy Center. You'll find Associated Electric Cooperative and its member systems are proud of their environmental stewardship, which is balanced with our mission of providing an affordable, reliable power supply to rural electric cooperatives.

Invitation

Attached you'll find the invitation we've developed to use after you have made an announcement of the upcoming visit. The second page contains a map to the plant and information regarding the tour.

Information about Associated

Attached fact sheets provide information on what we do, why and how, and features our proactive and innovative record of environmental compliance.

Why our mission is to keep electricity affordable and reliable:

•□□□□□□□ What we do

•□□□□□□□ A recent survey shows that 41% of the members we serve make less than $40,000 a year, and 16% of those make less than $25,000 a year. You'll find these demographics in the fact sheet "Members score co-op system among best utilities."

•□□□□□□□ Also included is a service map of the cooperatives and region we serve

How we produce that electricity:

•□□□□□□□ Associated uses a mix of resources to keep electricity clean, affordable and reliable

A number of fact sheets show how we balance mission with environmental stewardship:

•□□□□□□□ Environmental commitment

•□□□□□□□ AECI reduces emissions and meets energy needs

•□□□□□□□ Carbon costs

•□□□□□□□ AECI moves head on CCR rule for coal ash

•□□□□□□□ Putting ash to good use

•□□□□□□□ AECI reduces mercury emissions years ahead of time

•□□□□□□□ Another piece of the past erased and replaced (tells of our award-winning mining land reclamation)

•□□□□□□□ Co-ops protect members and mammals (partnership helps ensure transmission reliability while meeting regulations)

You can find more about Associated on our website, www.aeci.org, which also includes a "Clean" section about our stewardship and our 2016 annual report.

Finally, we're preparing information specific to Thomas Hill Energy Center that we will send later today.

Security Requirements

I would like to know if the EPA has a protocol for security that you'd like us to follow. Our plans are to use our internal security staff in addition to a contracted firm that provides security at the plant. We are also in contact with Missouri Highway Patrol and the Randolph County Sheriff. But we want to make sure that we follow any protocol you have.

Advance Meeting

I also want to confirm an advance meeting at Thomas Hill Energy Center at 3:00 pm on April 19. We are assuming that this is 3:00 central, please let me know if that's not the case. I'd also like to know who will be attending the walkthrough and if there are particular things you'd like

to discuss or see during the walkthrough. From Associated, I will be in attendance in addition to my Communications Manager, the plant manager at Thomas Hill and our head of security.

Thank you for the opportunity to work with you. Please let me know what I can do to make this event a success.

What we do

Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative

Power supply facts

Generating Clean, Affordable, Reliable Electricity for members is what we're about at Associated Electric Cooperative. Associated is owned by and provides wholesale power to six regional and 51 local electric cooperative systems in Missouri, southeast Iowa and northeast Oklahoma that serve about 875,000 members.

AECI's mission:

Associated's mission is to provide an economical and reliable power supply and support services to its members.

AECI's vision:

Associated Electric Cooperative will be the lowest-cost wholesale power supplier.

AECI's core values:

Safety – We work as a team and look out for each other. We continually strive to improve safety performance and take immediate action when a safety issue is identified.

Integrity – We act with honesty, respect, accountability and commitment in all functions and interactions. This strengthens our relationships within Associated and our three-tiered system, as well as with our strategic business partners.

Member focused – We never forget for whom we work and why we exist. We are committed to supplying reliable electricity and being the low-cost provider for our member-owners.

Employee value – We have confidence in ourselves and the organization and we trust and respect each other. We leverage the talents and contributions of every individual, and encourage individual responsibility and quick action.

Performance excellence – We value, recognize and reward high performance. Through innovation, teamwork and continuous improvement we achieve efficiencies and meet our members' expectations.

Community citizenship – We partner with our local communities to improve the quality of life. This begins with providing economical and reliable power and continues as we represent Associated in the community.

Business strategy

Focus on core business

Commitment to financial strength and flexibility

Proactive and conservative management of risk

Development and management of strategic alliances

Informed and involved member-owners

AECI facts:

About 650 full-time employees work at three main locations: Headquarters, New Madrid Power Plant and Thomas Hill Energy Center.

Total generating capacity: 5,700 MW (including contracted coal, wind and hydropower sources)

Miles of high-voltage transmission lines owned by AECI and its six owner G&Ts: more than 9,900

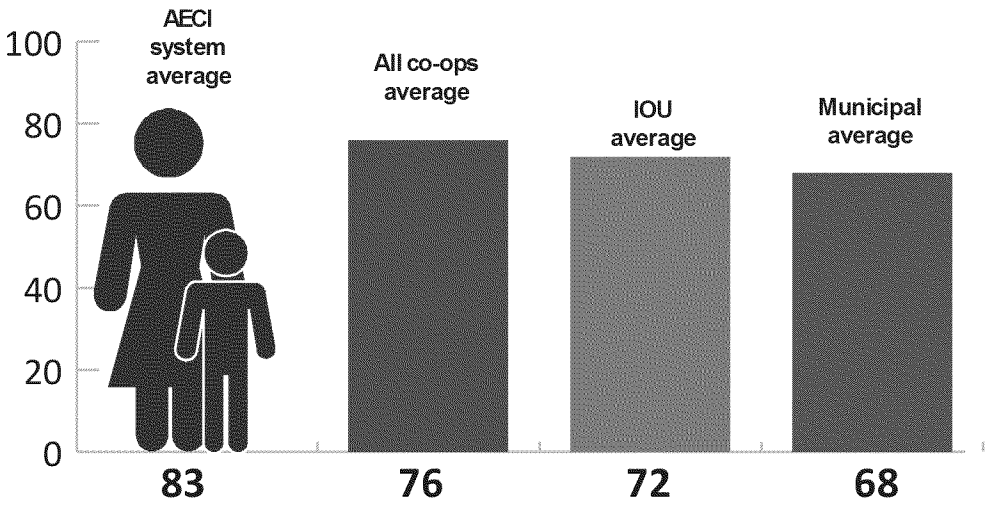
Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative

Power supply facts

Collective responses from a member survey gave the three-tiered system served by Associated Electric Cooperative among the highest American Customer Satisfaction Index score among energy providers in the U.S. and higher than the national benchmark for the industry. The ACSI, by the way, is considered the gold standard of consumer satisfaction measurement.

The high score indicates members are generally well satisfied with the services of their local cooperatives. In fact, the longer a member is with the co-op, the higher the satisfaction score.



That's good news for member cooperatives, which use the survey as a tool to ensure they are meeting the needs of their members.

The telephone survey collected demographic data, customer satisfaction levels and opinions about energy issues from members of 49 cooperatives in Iowa, Missouri and Oklahoma.

The survey of 12,284 members showed they want clean, affordable, reliable electricity, and they are highly satisfied with their cooperatives.

Member co-ops outrank other utilities

Source: ACSI, June 2016

At the end of the line, members need affordable electricity

Older, middle-income households living in older homes and paying modest monthly electric bills represent the core population of electric cooperatives. These survey results show Associated Electric Cooperative's mission to provide an economical, reliable power supply and support services to its members remains important.

- 41 percent of member households have income of less than $50,000 a year.
- 16 percent have income of less than $25,000 a year.
- High-income households (more than $150,000) are 6 percent of households.
- Nearly two-thirds of surveyed members indicated they are age 55 or older.
  - 39 percent of members are age 65 or older, and many of those are on limited or fixed incomes.
  - 51 percent of senior-member households make less than $50,000 a year.
  - 22 percent of members age 65 and older reported income of less than $25,000.
- The highest wage earners are found in households age 35 to 54.
- The youngest age group, ages 18 to 34, is 6 percent of membership. In this age group, 4 out of 10 earned less than $50,000.
- Two-thirds of AECI system households include only one or two individuals. Conversely, one-third of households hold three or more members.
- 44 percent of surveyed members are employed; 40 percent is retired or on a pension; and 3 percent is unemployed.

© 2016 Associated Electric Cooperative Inc. All rights reserved.

B24-4-07-2017

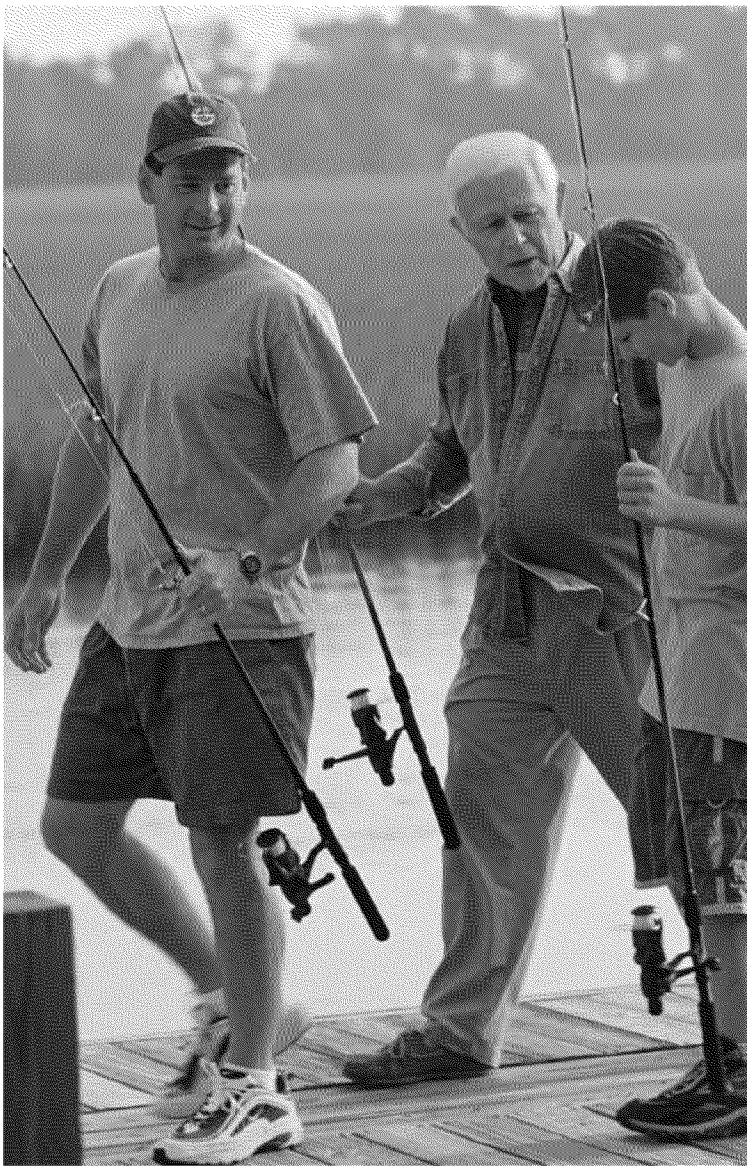
Age, tenure and income affect member satisfaction

Member satisfaction varies significantly with the age of respondent and length of their co-op membership. Older members who have been with the cooperative a while provide the highest satisfaction ratings. The highest ratings come from senior members with lower incomes.

- More than half said they've been members of their electric cooperative more than 20 years (longer than the national benchmark).
- Members 65 years and older exceed younger members' satisfaction scores by as many as nine points.
- Members are more satisfied when they identify as members, and not just as utility customers. That's one reason why members are encouraged to find out the difference at www.MembersFirst.coop.
- Member identity is highest among senior members and lowest among those under age 45.
- More than half of respondents had some degree of member identity, a slight improvement over the 2013 survey.
- Younger members with higher incomes consistently provide lower satisfaction ratings than lower-income senior members.
- Satisfaction scores dip for middle-aged households (age 35-44), who are likely strained by growing family and financial demands. Larger households tend to have lower satisfaction levels.

Environment, community and costs matter

On carbon limits, surveyed members expressed modest concern. Those who are the least able to pay more (senior members and low-income households) expressed the most concern over planned regulations.



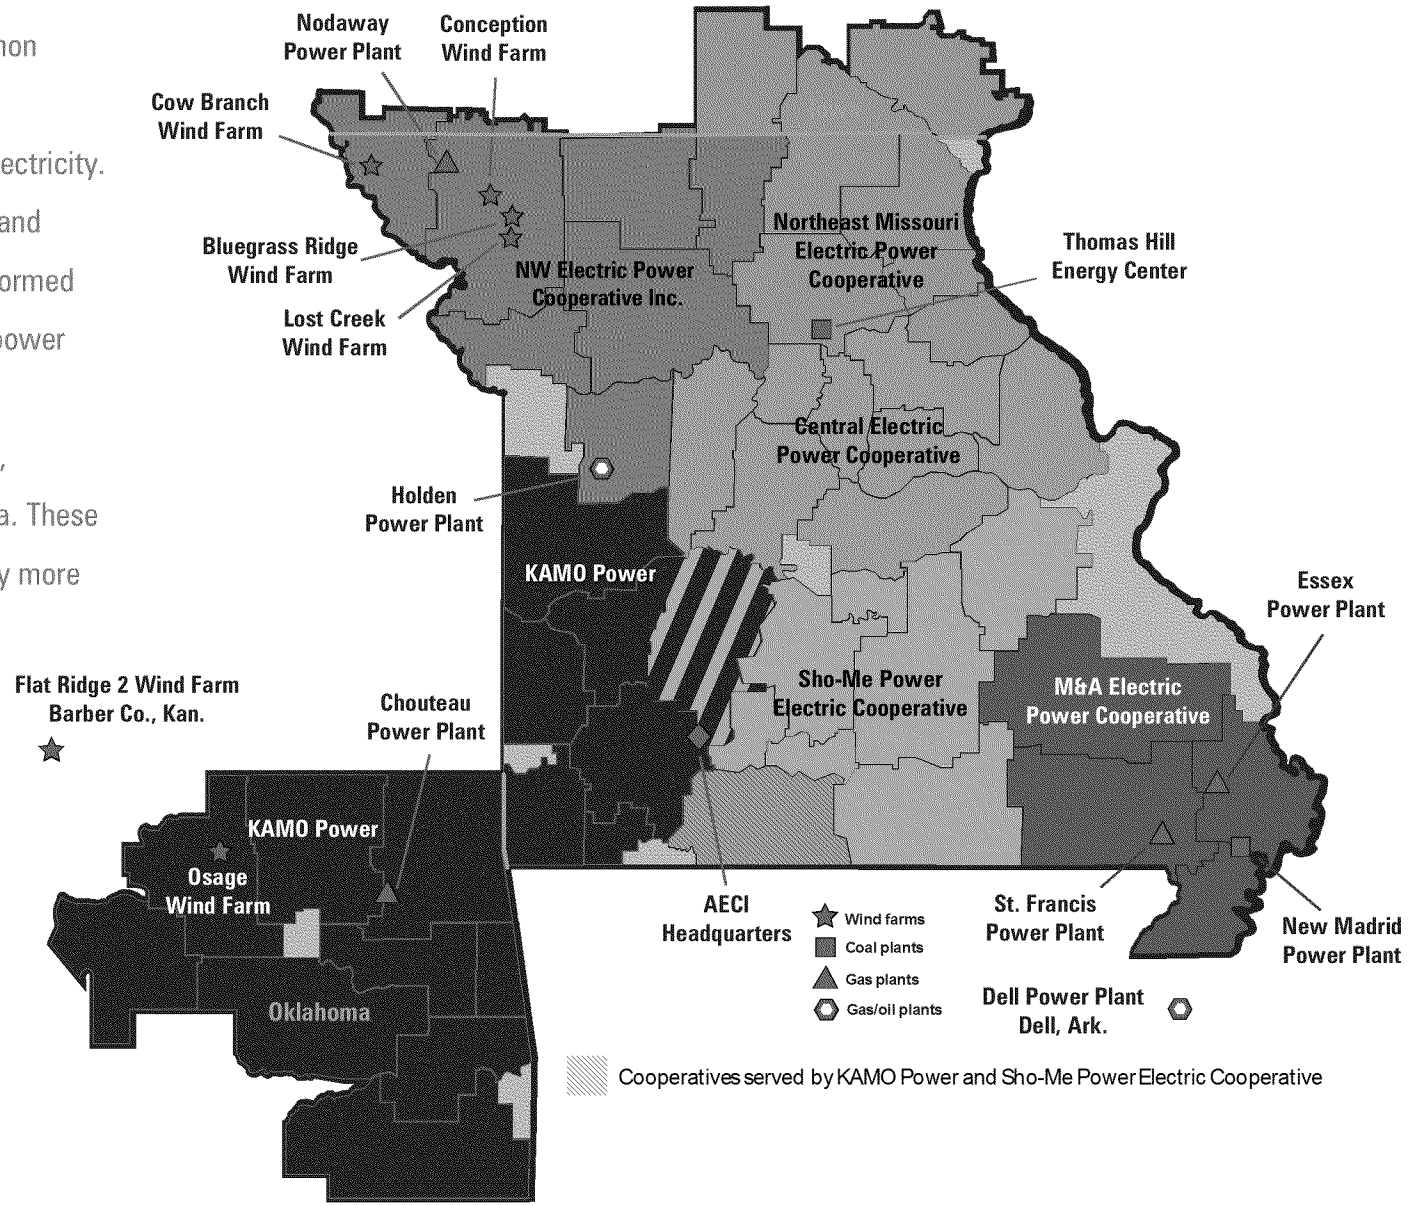
- Most members – 96 percent – are not willing to pay more than 10 percent to address climate change. One-third said they're willing to pay some to support the effort to reduce carbon emissions.
- Interest in renewable energy options is growing, and 40 percent of respondents of all ages support community solar; however, most are not willing to pay more for it or to subsidize it for others.
- Members want their cooperatives to inform them about their work to attract and retain businesses and create jobs, the co-op's concern for community and the fact that their cooperative is member-owned.

Electricity powers lives

Most members own their homes, with most of these homes at least 25 years old. New homes (less than five years old) account for only about 4 percent of the homes surveyed.

Weather in the Midwest means members need heating and cooling systems for their homes.

- Electricity is the primary energy source for heat in the home and has gained market share with newer homes.
- 68 percent of surveyed members use central air conditioning. Senior and low-income households have highest concentration of window units.
- Most members (70 percent) use electricity to heat water.
- About one in six members live in a manufactured, modular or pre-fabricated home.
- Energy consumption increases dramatically with larger households. A two-person household uses about 17,800 kilowatt-hours a year. A household of five or more uses 26,000 kWh per year.



Survey results of more than 12,000 members are accurate at the national benchmark of 95 percent with a confidence level of +/- 1 percent. To minimize bias, distribution of member age groups is gathered from publicly available data and used to establish age quotas for each cooperative sample.

Associated Electric Cooperative generates clean, affordable, reliable electricity for co-ops in three states

Associated Electric Cooperative is part of a three-tiered system united by the common purpose of serving electric cooperative members with affordable and reliable electricity. Associated is owned by six generation and transmission cooperatives (G&Ts) that formed it in 1961 to provide them a wholesale power supply. These six G&Ts are owned by 51 distribution cooperatives in Missouri, southeast Iowa and northeast Oklahoma. These local electric cooperatives are owned by more than 875,000 member-consumers.

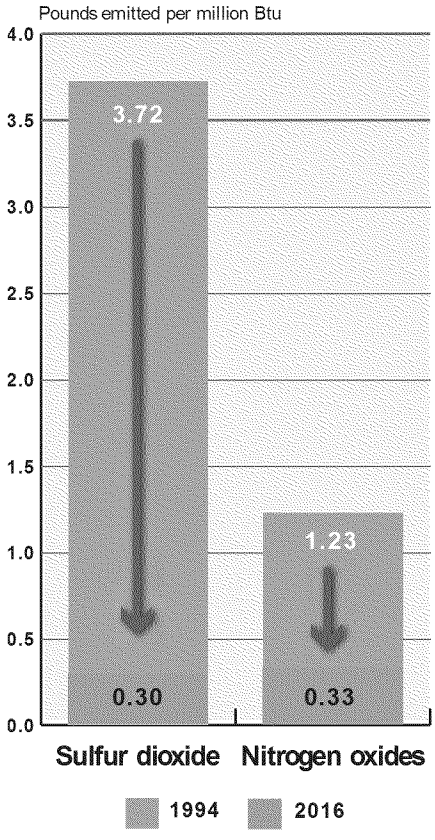
Environmental commitment

Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative



Power supply facts

AECI has history of environmental stewardship

Associated Electric Cooperative and its members have spent more than $1.1 billion to reduce emissions since 1994, and we're proud of the tremendous improvements in air quality we have achieved. Our focus on serving members drives us to be good stewards of the environment and of our members' resources. Balancing these responsibilities will be even more important, as well as more difficult, in the future.

Associated improves air quality

Associated Electric Cooperative has improved air quality with signifi cant investments and innovative research – and kept members' electricity reliable and affordable. Chart shows 1994 emissions from fl eet comprised of coal units. 2016 refl ects reductions achieved due to fl eet diversity (coal and gas units) and investments in environmental controls.

1993-1995 – $552 million to reduce SO_2 90 percent

AECI spent $552 million to close its Missouri mine and switch to cleaner, low-sulfur coal at its New Madrid and Thomas Hill power plants. This conversion reduced sulfur dioxide emissions (SO_2) nearly 90 percent to more than fulfi ll the requirements of the 1990 Clean Air Act Amendments.

2000-2007 – $122 million to reduce NO_x emissions

- AECI installed selective catalytic reduction (SCR) equipment at its New Madrid Power Plant, at a cost of nearly $100 million, that is designed to reduce nitrogen oxides emissions 90 percent.
- At both coal plants, AECI added a technology known as "over-fire air" on all units from 2004-2006 to further reduce NO_x emissions for a cost of $15.5 million.
- Replacement low-NO_x burners were installed in 2006 on Thomas Hill Unit 3 to reduce NO_x emissions and lower operating costs on SCR equipment. The project, including burners and coal-fl ow measurement instrumentation, cost $7.6 million.

2006-2009 – $423 million to reduce NO_x 90 percent

AECI constructed environmental controls at its Thomas Hill Energy Center to further reduce NO_x emissions and fulfi ll air quality requirements. The $423 million project included construction of SCRs on all three units; refurbishing Unit 3 equipment that captures tiny ash particles from emissions; and higher effi ciency Unit 3 air heaters, needed with the SCR, that require less coal be burned to meet member demand for electricity.

The project was completed by Jan. 1, 2009, to enable AECI to achieve systemwide NO_x emissions reductions and comply with EPA requirements.

2009 to present

Associated broke ground as the fi rst to reduce mercury emissions up to 80 percent with use of CyClean refined coal at its two coal plants, beginning in 2010. Associated invested another $35 million to further reduce mercury emissions by improving equipment that captures fi ne particulates, installing activated carbon injection systems and air monitoring systems for mercury. The reductions, as well as Associated's conversion to low-sulfur coal, are part of Associated's proactive work to meet EPA's mercury rule, effective in 2016.

In addition to investing in environmental controls, Associated provides an energy effi ciency program to members, is a leader in Missouri wind energy and has researched lower-cost technologies to reduce emissions and keep electricity affordable for its members.

Environmental controls increase costs, not MW

Environmental control measures to improve air quality costs Associated Electric and its members about $45 million a year, including fixed and operating costs.

AECI reduces emissions & meets energy needs

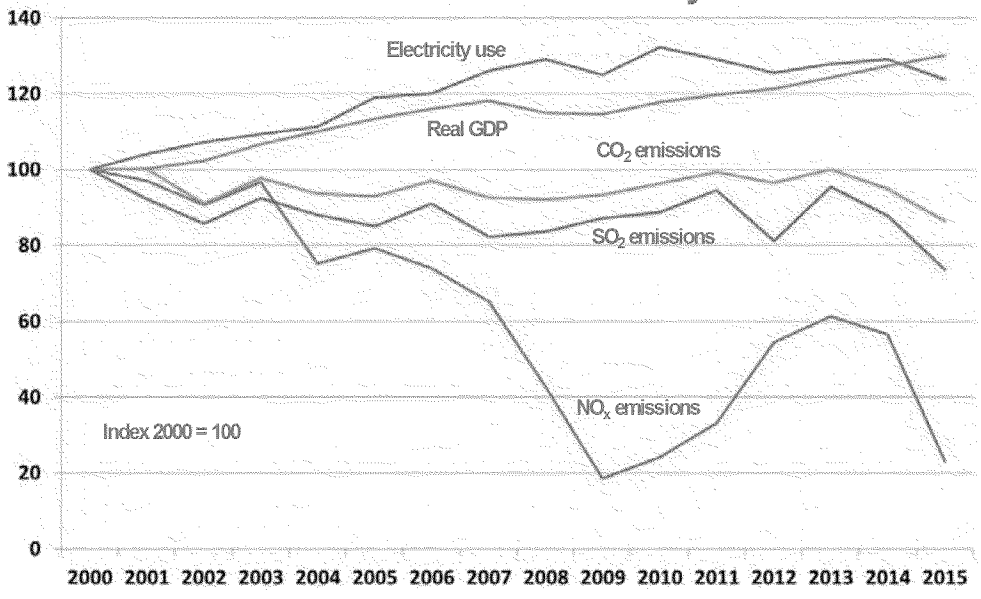
Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative

Power supply facts

Associated Electric Cooperative has diversified its resources, invested in environmental controls and taken innovative, proactive steps to research technology to comply with environmental regulations at the lowest cost possible for our members.

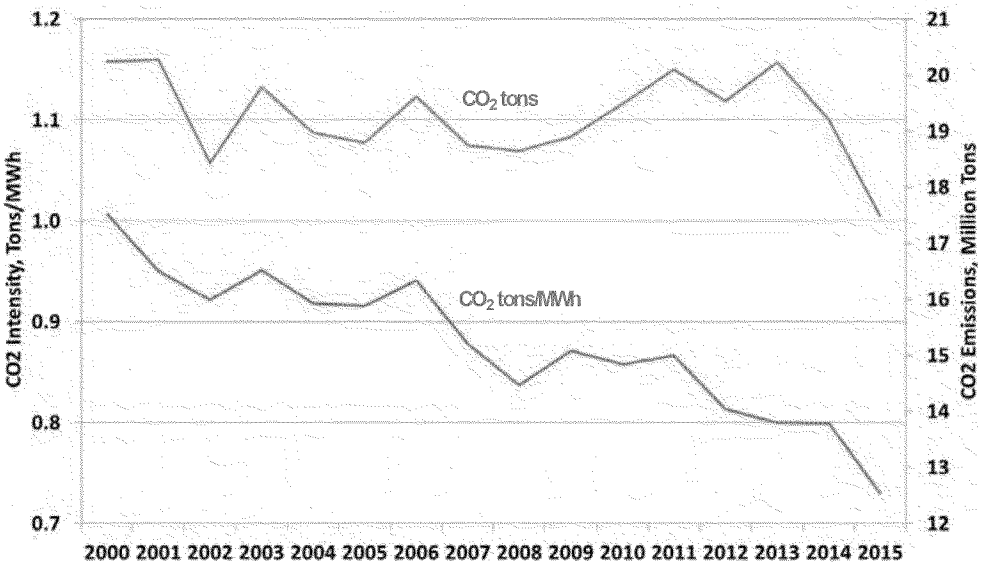
Members' investments have reduced emissions significantly, including 65 percent to 90 percent reductions in sulfur dioxide, nitrogen oxides and mercury emissions since 1994, despite increasing electricity demand.



Associated Electric also has proactively managed its carbon footprint.

It has voluntarily added low-emissions natural gas plants, carbon-free wind power and energy efficiency to its coal, gas and hydropower resources, while keeping electricity affordable and reliable for member cooperatives.

As a result, Associated Electric's emissions rate for carbon dioxide has significantly and steadily declined in the last 15 years. Associated Electric now has 750 megawatts of contracted wind energy, including the addition of two large wind farms that significantly decreased Associated's amount of CO_2 emissions in the last five years.



We've balanced our responsibilities to produce clean, affordable, reliable electricity, which has never been easy or inexpensive, and our commitment to environmental stewardship has never wavered.

AECI emissions down while electricity use increases

AECI's emissions have declined over the last 15 years despite increasing electricity demand and a growing economy. In this chart: 2000 represents the base year. Graph depicts increases or decreases from base year. Electricity use represents member load only. 2009 electricity use drop due to recession. Emissions represent coal and gas totals. GDP source: statista.com

AECI CO_2 emissions tonnage & intensity decrease

CO_2 tons represent the coal and gas fleet total emissions. CO_2 tons/MWh represent coal and gas fleet total emissions compared to the total generation mix of fossil fuel, wind energy and hydropower.

Visit www.aeci.org 4-11-2017

AECI has impressive record of improving air quality

Our focus on serving members drives us to be good stewards of the environment and of our members' resources. As retired rancher and former Associated board president O.B. Clark said, "Not to care for that upon which we depend for our living, for the resources entrusted to us, is simply ridiculous. The best environmentalists are the people out there depending on that land."

Our members have lived up to their responsibilities, investing more than $1.1 billion since 1994 to improve air quality and care for our land and water resources. We spend about $45 million a year on environmental control measures and their operations.

- Associated Electric was one of the first utilities to convert to 100 percent low-sulfur coal to reduce sulfur dioxide emissions 90 percent.
- We were was one of the first to install equipment on large coal units to reduce nitrogen oxides emissions.
- Associated was nationally recognized by the U.S. Department of Interior for innovative and successful mine reclamation and restoration – twice earning this prestigious award.
- The co-op voluntarily began reducing mercury emissions years ahead of the 2016 compliance date by using a treated coal.

Associated Electric's switch to cleaner, low-sulfur coal at its New Madrid and Thomas Hill power plants in 1994 continues to position Associated well to meet additional regulations.

Despite Associated's excellent environmental record and innovative use of technology to control emissions at lower cost, more mandates from the Environmental Protection Agency on carbon and other air emissions, water quality and coal ash storage and handling threaten to significantly increase the cost of producing electricity for rural electric cooperatives.

Environmental regulatory challenges continue, 2016 and beyond

Air	Climate	Water	Land & Natural Resources	Waste & Chemical Management

Carbon costs

Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative

Power supply facts

Controlling carbon will increase your cost of electricity

Associated Electric Cooperative, our wholesale power supplier, has invested in environmental controls and researched lower-cost technologies to achieve up to 90 percent reductions in nitrogen oxides and sulfur dioxide emissions, as well as reduced mercury emissions. Environmental control measures to improve air quality costs Associated Electric about $45 million a year, including fixed and operating costs.

Those costs will increase as your wholesale power generator works to meet additional environmental regulations on air emissions, water quality and coal ash handling and storage – as well as new rules to reduce carbon emissions.

The Environmental Protection Agency issued its final carbon rule, the Clean Power Plan, Aug. 3, 2015, calling for a 32 percent reduction in carbon emissions nationwide by 2030.

States that rely on coal for affordable, reliable electricity were hit especially hard. Missouri must meet a 37 percent reduction target; Iowa, 42 percent reduction; and Oklahoma, 31 percent below 2012 levels.

Ultimately, the rule will reduce use of coal – which generated 63 percent of members' energy in 2016, and shift generation to natural gas plants and new renewable energy projects.

As expected, the Clean Power Plant plan was challenged.

More than 20 states – including Missouri, Iowa, Oklahoma and Arkansas – filed suit against the plan. The National Rural Electric Cooperative Association also filed suit.

Reprieve came Feb. 9, 2016, when the U.S. Supreme Court issued an unprecedented stay of the regulation until legal challenges are resolved. In September 2016, the U.S. Court of Appeals for the District of Columbia Circuit heard nearly seven hours of oral arguments but has not yet issued a ruling.

The case is expected to end up before the Supreme Court, but with the new administration, cabinet and Supreme Court appointment to come in 2017, uncertainty continues on carbon restraints for power plants. With all that in mind, Associated's work to comply with the Clean Power Plan slowed in 2016; however, Associated staff participated in state planning meetings.

Associated and member systems have good working relationships with state agencies in Missouri, Oklahoma, Arkansas and

▼ *Missouri Department of Natural Resources geologist John Pate examines cuttings near Thomas Hill Energy Center to determine what bedrock the drilling has reached. Part of the carbon storage research project, supported by AECI and other ultilities, was conducted at Thomas Hill Energy Center in north-central Missouri.*

© 2017 Associated Electric Cooperative Inc. All rights reserved.

Core carbon points

The threat of greenhouse gas regulations has long produced uncertainty for the utility industry. In 1997, the Kyoto Protocol was adopted, calling on industrialized nations to reduce greenhouse gas emissions. The American Clean Energy and Security Act of 2009, also known as the Waxman-Markey Bill, would have established a CO_2 emissions trading program. It was approved by the House of Representatives on June 26, 2009, but never brought to the Senate floor for discussion or vote.

Finally, in June 2014, EPA issued its proposed rule, followed a year later with itsfinal "Clean Power Plan" published Oct. 23, 2015.

The final plan:

- Gives option of rate-based program (emissions of CO_2 per MWh) or a mass-based (tons of CO_2 per year) cap-and-trade program
- Encourages replacement of existing coal plants with new renewable energy sources
- Drives creation of an emissions trading program among states – similar to past cap-and-trade legislation that failed to receive congressional approval
- Does not fully address reliability concerns due to lack of time to plan, site, permit and build generation and transmission facilities to meet nation's new generation mix
- Gives no relief for stranded investments
- Provides incentives for helping low-income households implement energy efficiency measures that may benefit member-consumers.

Kansas, where it has generating assets. Associated will continue to advocate for keeping electricity affordable and reliable for members as legal challenges progress.

Reducing our carbon footprint

Associated has a long history of proactively managing its environmental responsibilities in balance with its mission to provide an economical, reliable power supply to member systems.

In the last 20 years, Associated Electric and its members have invested more than $1.1 billion to improve air quality and care for land and water resources – and achieved tremendous results.

Associated also has worked to manage its carbon footprint. It has diversified its generating mix, adding lower-emissions natural gas plants, carbon-free wind power and energy efficiency to its coal, gas and hydropower resources, and it has participated in research like the carbon capture and storage project at Thomas Hill.

Take Control & Save energy efficiency program

The Take Control & Save energy efficiency program is seeing results since its launch in 2008. To date, Associated and participating cooperatives have invested more than $49 million in the program that will achieve an estimated cumulative lifetime savings of 1.4 billion kilowatt-hours – enough electricity to run more than 86,000 member households for a year.

While the program helps members reduce their electric bills, it reduces generation, which reduces carbon emissions.

Wind generation

Associated and rural electric cooperatives took the lead in carbon-free wind power when they teamed up to bring the first utility-scale wind farms to Missouri, totaling 300,000 kilowatts.

Associated then signed long-term power purchase agreements for 300,000 kilowatts from the Flat Ridge 2 Wind Farm in Kansas and for 150,000 kW from a farm in Oklahoma. The contracts lock in fixed wind power costs while adding geographic diversity to AECI's wind power resources. Total wind capacity is now 750,000 kW.

Renewable hydropower

Hydropower from federal dams in Missouri, Oklahoma and Arkansas is another major renewable generating resource. While hydropower is one of our lowest-cost resources, it is a limited commodity dependent on rainfall and the capacity of lakes and dams to store the water.

Carbon capture and storage research

Associated has participated in research to find ways of reducing the amount of carbon dioxide reaching the atmosphere.

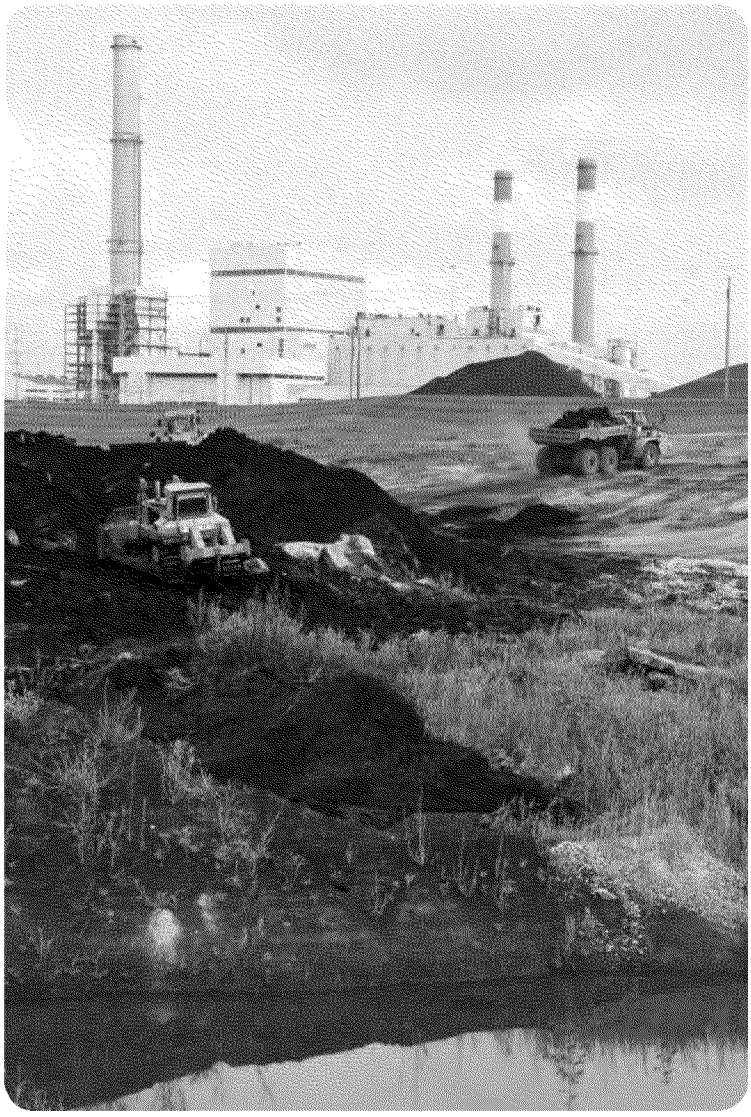
Associated partnered with other Missouri utilities and the U.S. Department of Energy in a three-year project to determine the feasibility of storing CO_2 in a saline aquifer in Missouri. Testing at Thomas Hill Energy Center showed it was a viable site for storage. More testing and funding are needed to continue the research.

© 2017 Associated Electric Cooperative Inc. All rights reserved.

AECI moves ahead on CCR rule for coal ash

While further improving air quality in 2016, Associated Electric Cooperative also accomplished a number of projects related to EPA's Coal Combustion Residuals rule that regulates handling of fly ash and bottom ash. EPA's final CCR rule was effective Oct. 19, 2015, and overall is much stricter than the 2010 draft.

Closely tied to the CCR rule is the Clean Water Act Effluent Limitation Guidelines, issued in fall 2015. This further regulates water discharged from power plants, adding monitoring for additional metals and toxics, and includes Thomas Hill units 1 and 2, previously excluded due to their smaller size. Associated will comply with the effluent guidelines between 2018 and 2023, when it renews discharge water permits at the coal plants.



Combined, these two regulations will significantly increase ash-handling costs.

Associated prepared for these regulations and converted both coal plants from wet to dry fly ash handling systems, started development of groundwater monitoring programs and researched options for compliance on its ash ponds.

In 2016 staff completed construction of a second cell at Associated's permitted utility waste landfill near New Madrid Power Plant.

Staff met the October 2016 CCR deadline to document the history of ash pond construction and develop closure and post-closure plans for ash ponds and the landfill. All of this information was posted on its public-facing CCR website, as required.

Associated installed additional groundwater wells at both coal plants in 2016. Associated historically has monitored groundwater around its reclaimed mine and at the New Madrid landfill; however, the CCR rule requires more wells and parameters specifically for monitoring around ash ponds and the landfill. Baseline data from the wells will be analyzed in 2017 to determine background concentrations for required parameters.

At Associated's Thomas Hill Energy Center, coal yard crews removed about 74,000 tons of bottom ash in 2016 from an inactive ash pond, preparing it for closure and doing the work in-house to reduce costs.

Associated Electric Cooperative Inc. is owned by and provides wholesale power to six regional and 51 local electric cooperative systems in Missouri, southeast Iowa and northeast Oklahoma that serve more than 875,000 customers. AECI's mission is to provide an economical and reliable power supply and support services to its members, including the "Take Control & Save" energy efficiency program, www.TakeControlAndSave.coop. AECI is a Touchstone Energy Cooperative; an Equal Opportunity Employer and provider/disability/veteran. *Associated Electric Cooperative, © 2017, all rights reserved.*

Putting ash to good use & safe disposal

Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative

Power supply facts

Associated works to meet new ash regulations, reduce costs

The Environmental Protection Agency finalized its coal combustion residual rule Dec. 19, 2014, governing coal ash handling and disposal at coal plants.

There was good news in the new rule: Coal ash remained categorized as a nonhazardous waste, enabling Associated Electric to continue to recycle both fly ash and bottom ash, which it's done for 20 years. Recycling ash reduces landfill use – benefiting the environment – and brings in revenue to help keep members costs affordable.

This was a big win for cooperatives, which had advocated for keeping coal designated as nonhazardous. Cooperatives continue to work with legislators to make this designation a certainty, which the law did not provide.

However, the final rule also includes stricter seismic zone requirements that were not present in the 2010 proposed rule, and those requirements could cost millions of dollars due to retrofits or closure of ash retention ponds at New Madrid Power Plant, as well as result in significant cost increases for transporting the ash for disposal.

The New Madrid Power Plant is about the only plant in the country affected by the new seismic requirements, which increased requirements from a 500-year earthquake event to the much stricter 2,500-year earthquake event. Associated is working with [illegible] and legislators to address

The seismic requirements also may affect Associated's ability to use its fairly new utility landfill at New Madrid, which was built in 2008 and permitted for 10 cells. One cell is being used. Opening a second cell designed to meet the new criteria will cost about $[illegible] million. Operating a [illegible] landfill costs [illegible] about off site.

Seismic zone requirements are part of several new criteria in the rule that will increase ash-handling costs, as well as the cost

more information on back

Associated gets high marks

EPA inspected Associated's facilities in 2010, and Thomas Hill Energy Center earned EPA's highest safety rating. New Madrid Power Plant received EPA's second highest rating and is implementing recommendations for improving erosion control and vegetation management.

Associated uses coal ash for mine reclamation and sells it for other uses, including cement substitute, reducing the amount disposed.

Visit www.aeci.org B19-10-26-2015

© 2015 Associated Electric Cooperative Inc. All rights reserved.

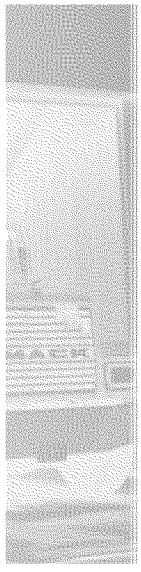
of constructing new ash facilities. The rule affects all ash ponds, used mostly for processing the coarser bottom ash from the coal units at Associated.

Associated staff continues to develop its compliance plan. At New Madrid Power Plant, options include retrofitting two unlined ash ponds; closure of those ash ponds; or converting to a dry system for bottom ash.

Working ahead to ensure compliance

At New Madrid, Associated proactively converted to a dry system for handling fly ash and increased groundwater monitoring. Additional groundwater monitoring wells will be needed at both plants.

Converting to a dry system for handling bottom ash at New Madrid Power Plant will cost about $30 million. The rule has less impact at Thomas Hill Energy Center, which also proactively converted to a dry fly ash-handling system and is closing its ash retention pond. Associated also built a pad for bottom-ash handling to comply with the new rules.



The rule allows for continued beneficial use of ash for mine reclamation, which is done at Thomas Hill.

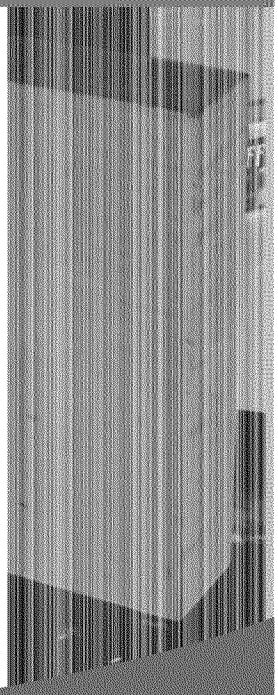
Groundwater monitoring was expected and is required for all ash ponds and landfills under the new rule. Associated will install additional groundwater monitoring wells at both plants, analyze the data and report findings regularly.

The CCR rule is tied to Clean Water Act Effluent Limitation Guidelines, finalized in September 2015, that will affect water discharged from power plants. A 2013 draft added pollutants that may require more water treatment or modifications to ash handling.

Staff continues to review the 745-page CCR rule, as well as the new effluent guidelines, conduct more detailed seismic analysis at New Madrid and research lowest-cost options for compliance.

The final rule was published April 17, 2015, in the Federal Register. Compliance starts six months to 48 months from April 17, depending on the criteria. Legal and legislative action also is expected, so some uncertainty will continue as it has since 2008, when the large coal ash spill at TVA's Kingston facility prompted EPA to develop the rule.

Closed trucks take dry fly ash from the plant.



Co-ops recycle ash for 20 years

Associated manages coal ash byproducts at its plants by using a combination of "beneficial use" mine reclamation, recycling and reselling, and long-term storage using permitted lined ash ponds and utility waste landfills.

Associated has sold bottom ash, a heavier material from the bottom of the cyclones, from both Thomas Hill and New Madrid plants since 1994 for use as an aggregate in roof shingles. From 2002 through 2014, it recycled about 983,000 tons of bottom ash to bring in $1.25 million in revenue.

Since 1998, it has sold fly ash from Thomas Hill Unit3, a pulverized unit that produces ash lower in carbon, for use in making concrete. It's also partnered with a University of Missouri scientist to create a super-strong "green" brick now licensed for manufacturing.

From 1998 through 2014, Associated sold about 825,000 tons of fly ash, bringing in about $6 million in revenue. Recycling the ash reduces landfill disposal also.

AECI reduces mercury emissions years ahead of time

Stewardship has always been part of the culture at Associated Electric Cooperative, which prides itself on producing affordable, reliable electricity balanced with protecting the natural resources that our members depend on for their livelihoods and quality of life.

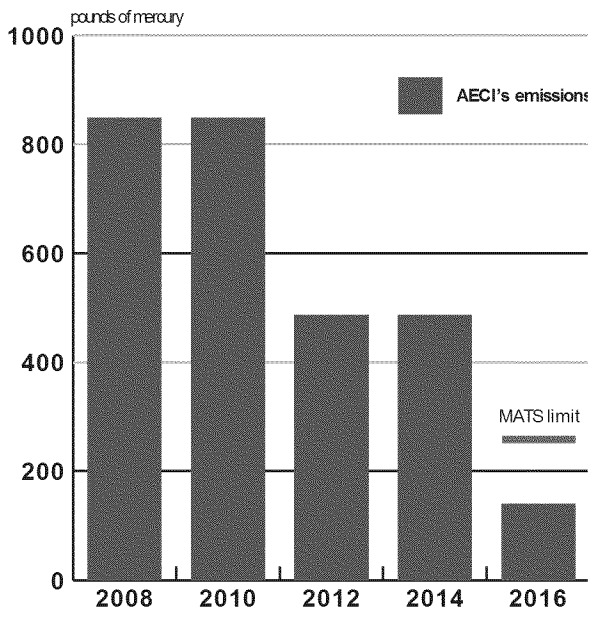
Often, Associated Electric has taken the lead with innovative, cost-effective and proactive solutions. It did the same thing when it came to meeting the Mercury Air Toxics Standards, effective in April 2016 for the cooperative.

Staff started early to craft its compliance plan, and the parts worked together to put Associated's emissions of mercury, particulate and hydrogen chloride well below the new requirements set by the Environmental Protection Agency.

In 2016 Associated finished $35 million in projects and met two important MATS deadlines. First, it was compliant when the rule took effect. It then met the 180-day deadline in October 2016 to demonstrate that compliance, which required submitting scores of testing data and certifications.

Meeting MATS requirements took a concentrated effort from staff throughout the cooperative, particularly by the environmental, health and safety department, laboratory and instrument controls teams at each of the coal plants.

AECI started reducing mercury 20 years ago



Associated began reducing mercury emissions long before the Environmental Protection Agency proposed its first mercury rule in 2005.

In 1995, Associated converted all five coal units to low-sulfur coal – one of the first in the country to do so – and reduced sulfur dioxide emissions 90 percent. Lower in mercury and hydrogen chloride too, this coal forms the foundation for Associated's air quality compliance.

In 2011, Associated reduced mercury emissions another 40 percent from its cyclone units when employees led the nation with implementation of refined coal technology. This was added in 2014 on Thomas Hill Unit 3, a pulverized unit, also decreasing its mercury emissions 40 percent. The technology also reduces costs, amounting to fuel savings of $7.8 million in 2016, through contracts for use of refined coal related to a President George W. Bush-era stimulus package.

After MATS was published in 2012, Associated invested in and completed construction of activated carbon injection systems on all five coal units; completed maintenance on three coal units' electrostatic precipitators to improve capture of particulate matter, reducing these emissions to one-half of the MATS standard; and installed sorbent trap monitoring systems on the three largest coal units. However, Associated's smaller Thomas Hill units 1 and 2 are very low-emitting units and only require periodic emissions testing, which reduces costs.

AECI reduces mercury 85 percent

Overall, Associated has reduced its mercury emissions about 85 percent compared to baseline emissions in 2010, before any refined coal or activated carbon injection emission controls, and is below the MATS requirements today.

Associated Electric Cooperative Inc. is owned by and provides wholesale power to six regional and 51 local electric cooperative systems in Missouri, southeast Iowa and northeast Oklahoma that serve more than 875,000 customers. AECI's mission is to provide an economical and reliable power supply and support services to its members, including the "Take Control & Save" energy efficiency program, www.TakeControlAndSave.coop. AECI is a Touchstone Energy Cooperative; an Equal Opportunity Employer and provider/disability/veteran. *Associated Electric Cooperative, © 2017, all rights reserved.*

Another piece of the past erased and replaced

A recent bond release on 26 acres at Thomas Hill Energy Center was another step in the return of land once used in Associated Electric Cooperative's past mining operations. The released acreage surrounds the site of the preparation plant, built in the early 1980s to wash high-sulfur coal mined nearby, said land agent Kevin Murphy.

The 26 acres by the power plant is now leased to nearby farmers for hay production. Kevin said it's been productive for more than five years – the time period needed before released by the state agency regulating reclamation.

With this release, all that remains of the once 16,442 acres under bond is 807.3 acres that Associated uses for permitted ash disposal as part of its solid waste plan. This land consists of three former mine pits, which provide a safe and efficient method for ash disposal in close proximity to the power plant, a soil borrow area and top soil stored for reclamation.

Better than before

Associated was in the mining business from 1980 to 1993, when it shut down its mine and converted its coal units to burn low-sulfur western coal – reducing sulfur dioxide emissions 90 percent – to meet 1990 Clean Air Act Amendments.

In 1993, Associated had 16,442 acres under bond. For the most part, bonded land was mined or disturbed in some way, Kevin explained, and could include mined land, haul roads, coal preparation areas, soil borrow areas or stockpiles.

Subject to the Surface Mine Reclamation Act, Associated was required to post a reclamation bond for each acre disturbed. Bonds act as insurance in case a company goes out of business and cannot finish reclamation.

Portions of the bond liability were released as mined areas were graded to approximate original contours, topsoil replaced and vegetation established to control erosion.

For acreage to be released, Associated must complete three phases of reclamation:

Phase I: Backfilling and rough grading, replacement of topsoil and initial seeding.

Phase II: Establish vegetation to control erosion.

Phase III: Begin the minimum five-year productivity demonstration.

Most reclamation work was completed in 1998 with a $1.8 million bond release on 1,377 acres of mine property. This was followed by 59 more bond releases through 2011, totaling 7,362 acres and $6.8 million in bond liability.

Since completion of the many reclamation projects, overall land management has become a focus for Associated, Kevin said. Resources are now more available to maintain or improve more than 30,000 acres owned around and near the Thomas Hill plant. That acreage includes the Thomas Hill Lake and surrounding land leased and managed by the Missouri Department of Conservation.

Associated's stewardship and return of land resources to original or better condition has been recognized nationally. The cooperative twice received the U.S. Department of Interior's highest honor for its innovative, successful reclamation that improved water quality and transformed acres mined by a previous owner into productive pasture, wetlands and forest.

The Interstate Mining Compact Commission recognized Associated as a national leader in mine reclamation with its 2007 Kenes C. Bowling National Mine Reclamation Award.

Learn more at www.aeci.org

Today on formerly mined land at Thomas Hill Energy Center, as well as on land never mined, are ponds that provide fishing and wildlife habitat, woodlands that give shelter to many species, land leased to neighboring farmers for pasture and hay, and acres for crop and wildlife research underway.

Co-ops protect members and mammals

Associated Electric Cooperative Inc.

A Touchstone Energy® Cooperative

Power supply facts

Working together, Associated Electric Cooperative and the Association of Missouri Electric Cooperatives developed an agreement with the U.S. Fish and Wildlife Service that protects habitat for endangered species, like the Indiana bat, and ensures reliable transmission for members.

The innovative agreement was noted by the Conservation Federation of Missouri, which presented the association with its esteemed Conservation Organization of the Year award.

Member cooperatives also received recognition with the Outstanding Achievement Award in environmental stewardship from the Missouri Waste Control Coalition for cooperatives' environmental work, including the habitat preservation agreement.

Associated Electric and its member systems have a history of balancing members' needs for affordable, reliable electricity with environmental stewardship.

The integrated high-voltage transmission system owned by Associated Electric Cooperative and its six owner generation and transmission cooperatives is vital to providing reliable power to member cooperatives.

While much of the news on environmental issues centers on air quality, Associated and its six owner G&Ts also face environmental challenges when it comes to transmission line construction and maintenance.

But, like many other aspects of the utility industry, the planning, construction and maintenance of that transmission system faces increasing challenges.

When a G&T's planned transmission line met a roadblock, the one-quarter ounce Indiana bat, cooperatives went to bat for members and the mammal.

Co-ops go to bat for members and mammals

Summer is a sensitive phase in the migrating Indiana bat's life cycle. In the past the U.S. Fish and Wildlife Service prohibited any brush or tree clearing from April 1 to Oct. 31, when bats could be present.

Associated and the G&Ts abided by this requirement, but when one of its G&T owners proposed to clear for a transmission line in winter on land where no bats had been located, it was told the rules had changed. Clearing would not be allowed unless mitigation, in the form of a monetary payment, was provided.

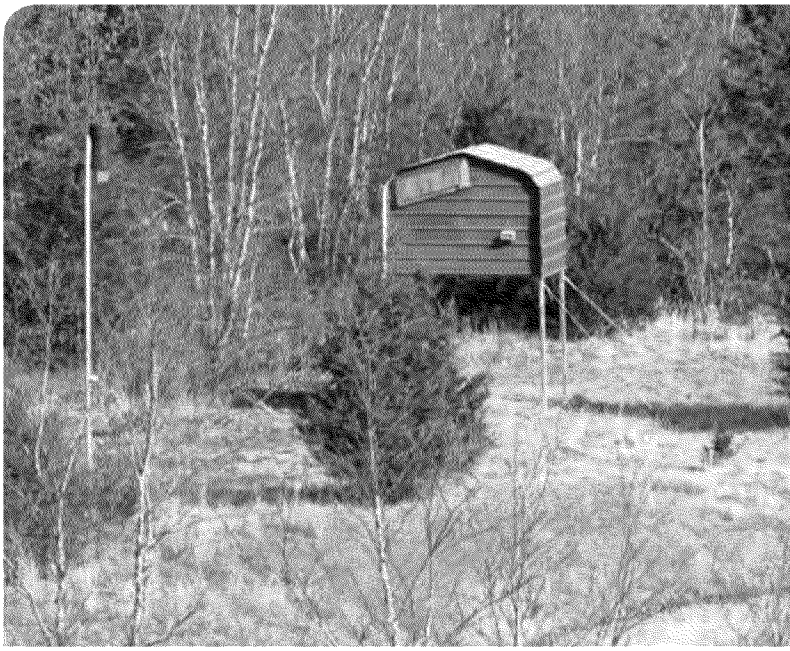
Matters for members

The member-owned integrated high-voltage transmission system is vital to providing reliable power to member cooperatives. Like many other aspects of the utility industry, the planning, construction and maintenance of that transmission system faces increasing challenges.

Visit www.aeci.org 5-05-2014

© 2014 Associated Electric Cooperative Inc. All rights reserved.

The potential impact of the new requirement on costs and reliability prompted Associated, AMEC and the six G&Ts to contact the U.S. Fish and Wildlife Service and propose an agreement that would keep power reliable and affordable for members and protect the Indiana bat.



Under the approved agreement, Associated and its member systems continue to implement voluntary measures to avoid and minimize impacts to the bat and its habitat. Instead of cooperatives' paying into a fund, cooperatives will continue to provide many benefits to the bat through conservation measures, including following historic, recommended tree clearing guidelines, restoring habitat to natural conditions and conducting educational activities about preserving bats and their habitat.

The Indiana bat is getting more attention due to growth in the wind power industry, deaths of bats from white nose syndrome disease and the species' continuing decline.

The Indiana bat was added to the endangered species list in 1973. It lives in the Midwest to eastern U.S., as well as parts of southeastern Canada. In Missouri, it hibernates in caves in the Ozarks and southeastern part of the state.

In summer, pregnant bats migrate north to have their pups under the bark of exfoliating trees, often returning to the same area each year.

Transmission rights of way also may provide beneficial habitat for the bats, including better sun exposure to suitable roost trees, new "edge" habitat beneficial for foraging and open flight paths that are connected to forests.

This bat mansion is located on property in the Thomas Hill mine area. Below, a university student, holds a bat "rocket house."

Bats and Robbins

Associated Electric Cooperative also is working with Missouri State University professor Lynn Robbins to develop artificial habitat for the Indiana bat.

Robbins has placed 10 structures, including four utility poles (wrapped with artificial bark) provided and installed by Northeast Missouri Electric Power Cooperative, at Thomas Hill Energy Center. An initial habitat assessment of the Thomas Hill area showed it has the necessary characteristics for the Indiana bat to be present.

The project started in early spring 2012, when bats were migrating north in search of summer roosts under the bark of trees. Studies have shown man-made structures have been used by the Indiana bat, although it's not common.

The structures are located at Bee Veer and Prairie Hill mines, and researchers are evaluating evidence of their use.

For your safety and comfort

Thomas Hill Energy Center is an industrial environment with special precautions and protective equipment to ensure the safety of employees and visitors.

At the conclusion of the event (time permitting), tours may be offered.

Please note:

- Tours require walking and climbing open-grate stairs.
- Visitors must wear closed-toed shoes. Sandals and high heels are not allowed. Shorts and dresses are not appropriate.
- Plant personnel will provide safety equipment, including hard hats, safety glasses and hearing protection.
- Photographs are not allowed inside the plant, including use of phones and video recorders.

THE ATLANTIC DIALOGUES

Africa in the Atlantic: Time for Action

La Mamounia Hotel, Marrakesh, Morocco

December 13 - 15, 2017

Draft Agenda

As of 25 October 2017

All times are subject to change

Wednesday, December 13

11:00 – 12:15 Youth in changing global demographics: What roles for and which ideas from the new generation (joint session with the EL program, TBC)

12:30 – 13:00 Side-Event (TBC): Atlantic Currents Launch (Open to Press)

13:00 – 14:15 Side-Event (TBC): Networking Lunch/Africa-Latin America Dialogue

14:30– 15:15 AD Connect

15:15 – 15:30 Welcome Remarks

- TBD

15:30 – 15:45 Opening Conversation: What Core Values for Africa's Development? (*Title to be reviewed*)

- TBD

15:45 – 17:00 Plenary I: Rethinking partnerships between Africa and Atlantic Superpowers

17:00 – 17:30 Coffee Break

17:30 – 18:45 Plenary II: Unleashing the potential of Southern Atlantic corridors in the Global Economy

19:00 – 19:30 AD Talk: Incentivizing Private Initiatives through Sound Public Policies

19:30 – 21:30 Transfer to Breakout Dinners

1. Leveraging on Africa's informal economies
2. Rethinking financial aid paradigms
3. Building resilient paths to climate change
4. Water Energy Food Nexus
5. 1 billion Youth by 2050 in Africa: Time for action
6. Doing business in Sub Saharan Africa: Strengthening confidence
7. Is migration still shaping identities?
8. Regional partnerships to better position the South Atlantic in global value chains
9. Jobless growth in times of automation
10. The role of academia, media and civil society in shaping narratives
11. Conflict resolution of African maritime borders?
12. Low commodity price environment: shifting growth models (natural resources)
13. Transnational Crime and Violent Extremism

21:45 AD Evening Sessions

1. Gender and Social Inequalities: local solutions to a global issue
2. Walking the Talk of entrepreneurial policies in Africa
3. African political systems in transition: Building stronger institutions

Thursday, December 14

7:30 – 8:45 **Side Event (TBC): Malabo Panel on Agriculture**

9:00 – 10:15 **Plenary III: Framing a Modern Map of the Transatlantic Security Dialogue**

10:15 – 10:45 **AD Talk:** Quelles Issues pour le Populisme ?

10:45 – 11:15 Coffee Break

11:15 – 12:30 **Plenary Session IV: Military tendencies: Are states still sole guarantor of peace and security?**

13:00 – 14:30 Networking Lunch/Atlantic Think Thank Summit – AD Board

14:30 – 14:45 Introduction by an Emerging Leader

14:45 – 16:00 **Plenary V: Financing infrastructures: Time for a big push in Africa**

16:00– 16:30 Coffee Break

16:30– 17:45 **Plenary VI: Bridging Africa's financing gap: new actors, longstanding challenges**

17:45 – 19:00 **Plenary VII: Energy-mix to accelerate Africa's development potential**

21:45 AD Evening Sessions

1. Asia's new African horizons
2. Africa in the Atlantic: from shared history to contemporary ties
3. Islam in Africa from the 7th century to the present

Friday, December 15

07:45 – 09:15 **Side-Event TBC: Climate Change Breakfast**

09:30 – 10:45 **Plenary VIII: Food security in the Southern Atlantic**

10:45 – 11:15 **AD Talk:** Re-Designing education systems: what skillsets for the jobs of tomorrow?

11:15– 11:45 Coffee Break

11:45 – 13:00 **Plenary IX: Local natural resource transformation: Long road ahead for Africa?**

13:00 – 14:00 **Closing Plenary –** AD Emerging Leaders (TBD)

NMA Board Meeting Registration -- as of March 31 2017.xls

Millan:

Apologies for not getting the list of attendees to you sooner. It is as of today – March 31. We are expecting approx. 100 people.

NMA"s Chairman is Kevin Crutchfield, CEO, Contura Energy

NMA's Vice Chairman is Phillips Baker, Jr., President and CEO Hecla Mining

As information Joe and Kelly Craft, Alliance Resource Partners , will be at the meeting.

Please let me know if you need additional details.

Subject: RE: Administrator Pruitt Visit

Millan:

We can certainly get you the two and even three rooms in our block for Sunday night. Do you want to make the reservations or are you o.k with us making the reservations and letting the hotel know that payment information will be provided at check-in.

The meeting with the Executive Committee is very flexible and we can make it work for your schedule. Regarding the remarks to the Board, before lunch is fine but is there any possibility to make it 11:30 or Noon. It is not unusual for us to have a speaker address the board, leave immediately after and then we serve lunch.

Do you have a few minutes to get on the phone? It may be easier just to talk it through. I am in the office by 7:30 or if this evening is better, please feel free to call my cell – 202-731-1110. My office number is 202-463-2639.

Thank you very much.

Moya,

Given our flight options and the fact that he will be coming from Tulsa, would it be possible to do the proposed meeting at maybe 10AM then he speak at 11AM before their lunch gets started? We may choose to fly him into Naples on Sunday evening so we are just thinking to maximize his time on the ground in FL. If we push everything up just a little bit, we can get him back to DC sooner.

Look forward to hearing from you! Thank you so much.

EPA Administrator Pruitt Speaker Request Form - NMA spring board meeting....docx

Sydney:

Good morning! I know you want to come in and out on the same day. We can make the 1:30 or 2 p.m. work…we will just start lunch a little later. Is that time arrival at the hotel or is a buffer built in?

I have the timing for the General Session on hold until the timing for Administrator Pruitt is worked. Please let me know once you have the flights worked out.

Also, attached is the form with the contact information for security at the Ritz Carlton.

Thank you.

Hi Moya,

Looking at flights we might not be able to make the lunch time frame. To play it safe, would it be possible for us to speak closer to 1:30 or 2?

Thank you!

Sydney

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be

provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is 202-731-1110.

I look forward to working with both of you.

Best regards,

Moya

Hi again Moya,

Thank you for your time on the phone earlier. I am attaching an event request form with some basic questions that will help us out in the planning of this trip. Would you mind filling it out for us please? Also copying Millan Hupp on this email (my sister) who handles the advance work for Administrator Pruitt. She will likely be making the trip down there as well.

We look forward to Florida!

Thank you!

Sydney Hupp

ADMINISTRATOR PRUITT SPEAKER REQUEST FORM
U.S. Environmental Protection Agency

National Mining Association Executive Committee.docx

Millan:

Kevin Crutchfield, CEO of Contura Energy and NMA's Chairman will introduce Administrator Pruitt.

The attached list that I sent earlier is NMA's Executive Committee. Everyone should be at the meeting but Mr. Goldberg and Mr. McMullen who will call into the meeting.

Regarding the meeting on Sunday, April 23 at Noon for the walk-thru, we should meet in the lobby. The following individuals will be participating from the hotel:

Taylor Svoboda

Meetings and Special Events Manager

The Ritz-Carlton Golf Resort, Naples

Matthew Murphy

Loss Prevention Supervisor

The Ritz-Carlton Golf Resort, Naples

I will be at the meeting as well.

Please let me know if you have any further questions or need anything.

Thank you.

Millan:

The lunch will be in Tiberon #3 and the meeting with the Executive Committee will be in Anhinga. Our office will be available should you need a holding space. It is Sabal Palm. A map of the meeting room space is attached.

A list of NMA's Executive Committee is attached. If you need additional information on the companies, please let me know.

We are confirmed for a walk through on Sunday, April 23 at Noon. I will let you know where we will meet.

Good morning. Thank you for the information below. Thanks for providing the information regarding Lincoln Ferguson and JP Freire.

Derek Burke

Office: 239-254-3396

We will be meeting this afternoon and I will let you know who will be introducing Administrator Pruitt. I will send you a list of the Executive Committee members by the end of the day.

We will contact the hotel regarding a walk-through at Noon on Sunday and get back to you.

Let me know if there is anything further.

Moya,

May we schedule a walk-through on Sunday, April 23rd at 12PM?

Traveling with him will likely be Lincoln Ferguson and JP Freire.

Do you have a phone number for Derek Burke?

The Administrator will not eat and he will probably only request coffee for the meeting with the Executive Committee. Also, could you please send me the names of those on the Exec. Committee that he should expect to meet?

Thank you so much,

Millan

Millan:

Thank you for the schedule and we appreciate the time from his schedule to speak with the Board of Directors. When you know who will be accompanying Administrator Pruitt, please let me know.

I will be arriving on Saturday and can meet with you on Sunday at any time that works for you and the security team. I know the security team will be in contact with Derek Burke at the Ritz Carlton but please let me know if you need anything from NMA.

Given the schedule, we thought we would serve lunch and then Administrator Pruitt will speak. Will he want to have lunch? If not, would you like us to have something for him when he meets with the Executive Committee?

Enjoy the day.

Moya,

Good morning to you! I will be there a day before to advance the event with a member of his security team. He will definitely have one, maybe two staff members traveling with him.

He will arrive into Ft. Myers at 12:35PM on Monday so we have him arriving at the hotel at 1:20. Speech at 1:30PM and meeting with Executive Board members at 2:15PM. He will have to depart by 3PM for his 5PM flight back to DC. Unfortunately, I don't think there will be any extra time for additional meetings. I'm so sorry!

Thank you very much,

Millan

Moya – I'm so glad we could get this worked out!

I think that a 1:30 or 1:45 speech then meet with the Executive Committee might be a little better. If he gets in a 12:35 and it is a 30 minute drive, that would put him there just after one and I would want to add a little bit of buffer time in there as well.

On the hotel rooms, I am going to do an email intro for you to our travel coordinator. She will want to be the one to work with you to arrange the accommodations.

Thank you!

Sydney:

Thank you to both you and Millan for working so hard to get this to work! Does this work for your schedule:

1-2 p.m. lunch – Speak at the lunch

After lunch – meet with Executive Committee

Millan:

I assume you will need two rooms on Sunday night for you and an agent from the security team. Do you want to make the reservations or are you o.k. with us making the reservations and letting the hotel know that payment information will be provided at check-in. I am not sure how long you will be at the hotel but do you need a meeting room or space for the Administrator to use?

I am sure there will be additional details and look forward to working with you. Please do not hesitate to contact me at any time.

Thank you Moya! It will be wonderful to see the Crafts. So, good news-- we were able to get the flight we wanted. We will land at Ft. Myer at 12:35PM and the security detail will be there ready to transport him, which puts us back to the original request of doing things in the early afternoon. Being much more familiar than we are, does that arrival time help in the planning process, I hope? My apologies for it taking a while to work out on our end.

Thank you!

Millan:

We can certainly get you the two and even three rooms in our block for Sunday night. Do you want to make the reservations or are you o.k with us making the reservations and letting the hotel know that payment information will be provided at check-in.

The meeting with the Executive Committee is very flexible and we can make it work for your schedule. Regarding the remarks to the Board, before lunch is fine but is there any possibility to make it 11:30 or Noon. It is not unusual for us to have a speaker address the board, leave immediately after and then we serve lunch.

Do you have a few minutes to get on the phone? It may be easier just to talk it through. I am in the office by 7:30 or if this evening is better, please feel free to call my cell – 202-731-1110. My office number is 202-463-2639.

Thank you very much.

Moya,

Given our flight options and the fact that he will be coming from Tulsa, would it be possible to do the proposed meeting at maybe 10AM then he speak at 11AM before their lunch gets started? We may choose to fly him into Naples on Sunday evening so we are just thinking to maximize his time on the ground in FL. If we push everything up just a little bit, we can get him back to DC sooner.

Look forward to hearing from you! Thank you so much.

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is 202-731-1110.

I look forward to working with both of you.

Hi again Moya,

Thank you for your time on the phone earlier. I am attaching an event request form with some basic questions that will help us out in the planning of this trip. Would you mind filling it out for us please? Also copying Millan Hupp on this email (my sister) who handles the advance work for Administrator Pruitt. She will likely be making the trip down there as well.

We look forward to Florida!

Thank you!

Moya,

May we schedule a walk-through on Sunday, April 23rd at 12PM?

Traveling with him will likely be Lincoln Ferguson and JP Freire.

Do you have a phone number for Derek Burke?

The Administrator will not eat and he will probably only request coffee for the meeting with the Executive Committee. Also, could you please send me the names of those on the Exec. Committee that he should expect to meet?

Thank you so much,

Millan

Moya,

Good morning to you! I will be there a day before to advance the event with a member of his security team. He will definitely have one, maybe two staff members traveling with him.

He will arrive into Ft. Myers at 12:35PM on Monday so we have him arriving at the hotel at 1:20. Speech at 1:30PM and meeting with Executive Board members at 2:15PM. He will have to depart by 3PM for his 5PM flight back to DC. Unfortunately, I don't think there will be any extra time for additional meetings. I'm so sorry!

Thank you very much,

Millan

Moya – I'm so glad we could get this worked out!

I think that a 1:30 or 1:45 speech then meet with the Executive Committee might be a little better. If he gets in a 12:35 and it is a 30 minute drive, that would put him there just after one and I would want to add a little bit of buffer time in there as well.

On the hotel rooms, I am going to do an email intro for you to our travel coordinator. She will want to be the one to work with you to arrange the accommodations.

Thank you!

Millan:

We can certainly get you the two and even three rooms in our block for Sunday night. Do you want to make the reservations or are you o.k with us making the reservations and letting the hotel know that payment information will be provided at check-in.

The meeting with the Executive Committee is very flexible and we can make it work for your schedule. Regarding the remarks to the Board, before lunch is fine but is there any possibility to make it 11:30 or Noon. It is not unusual for us to have a speaker address the board, leave immediately after and then we serve lunch.

Do you have a few minutes to get on the phone? It may be easier just to talk it through. I am in the office by 7:30 or if this evening is better, please feel free to call my cell – 202-731-1110. My office number is 202-463-2639.

Thank you very much.

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is 202-731-1110.

I look forward to working with both of you.

Best regards,

Moya

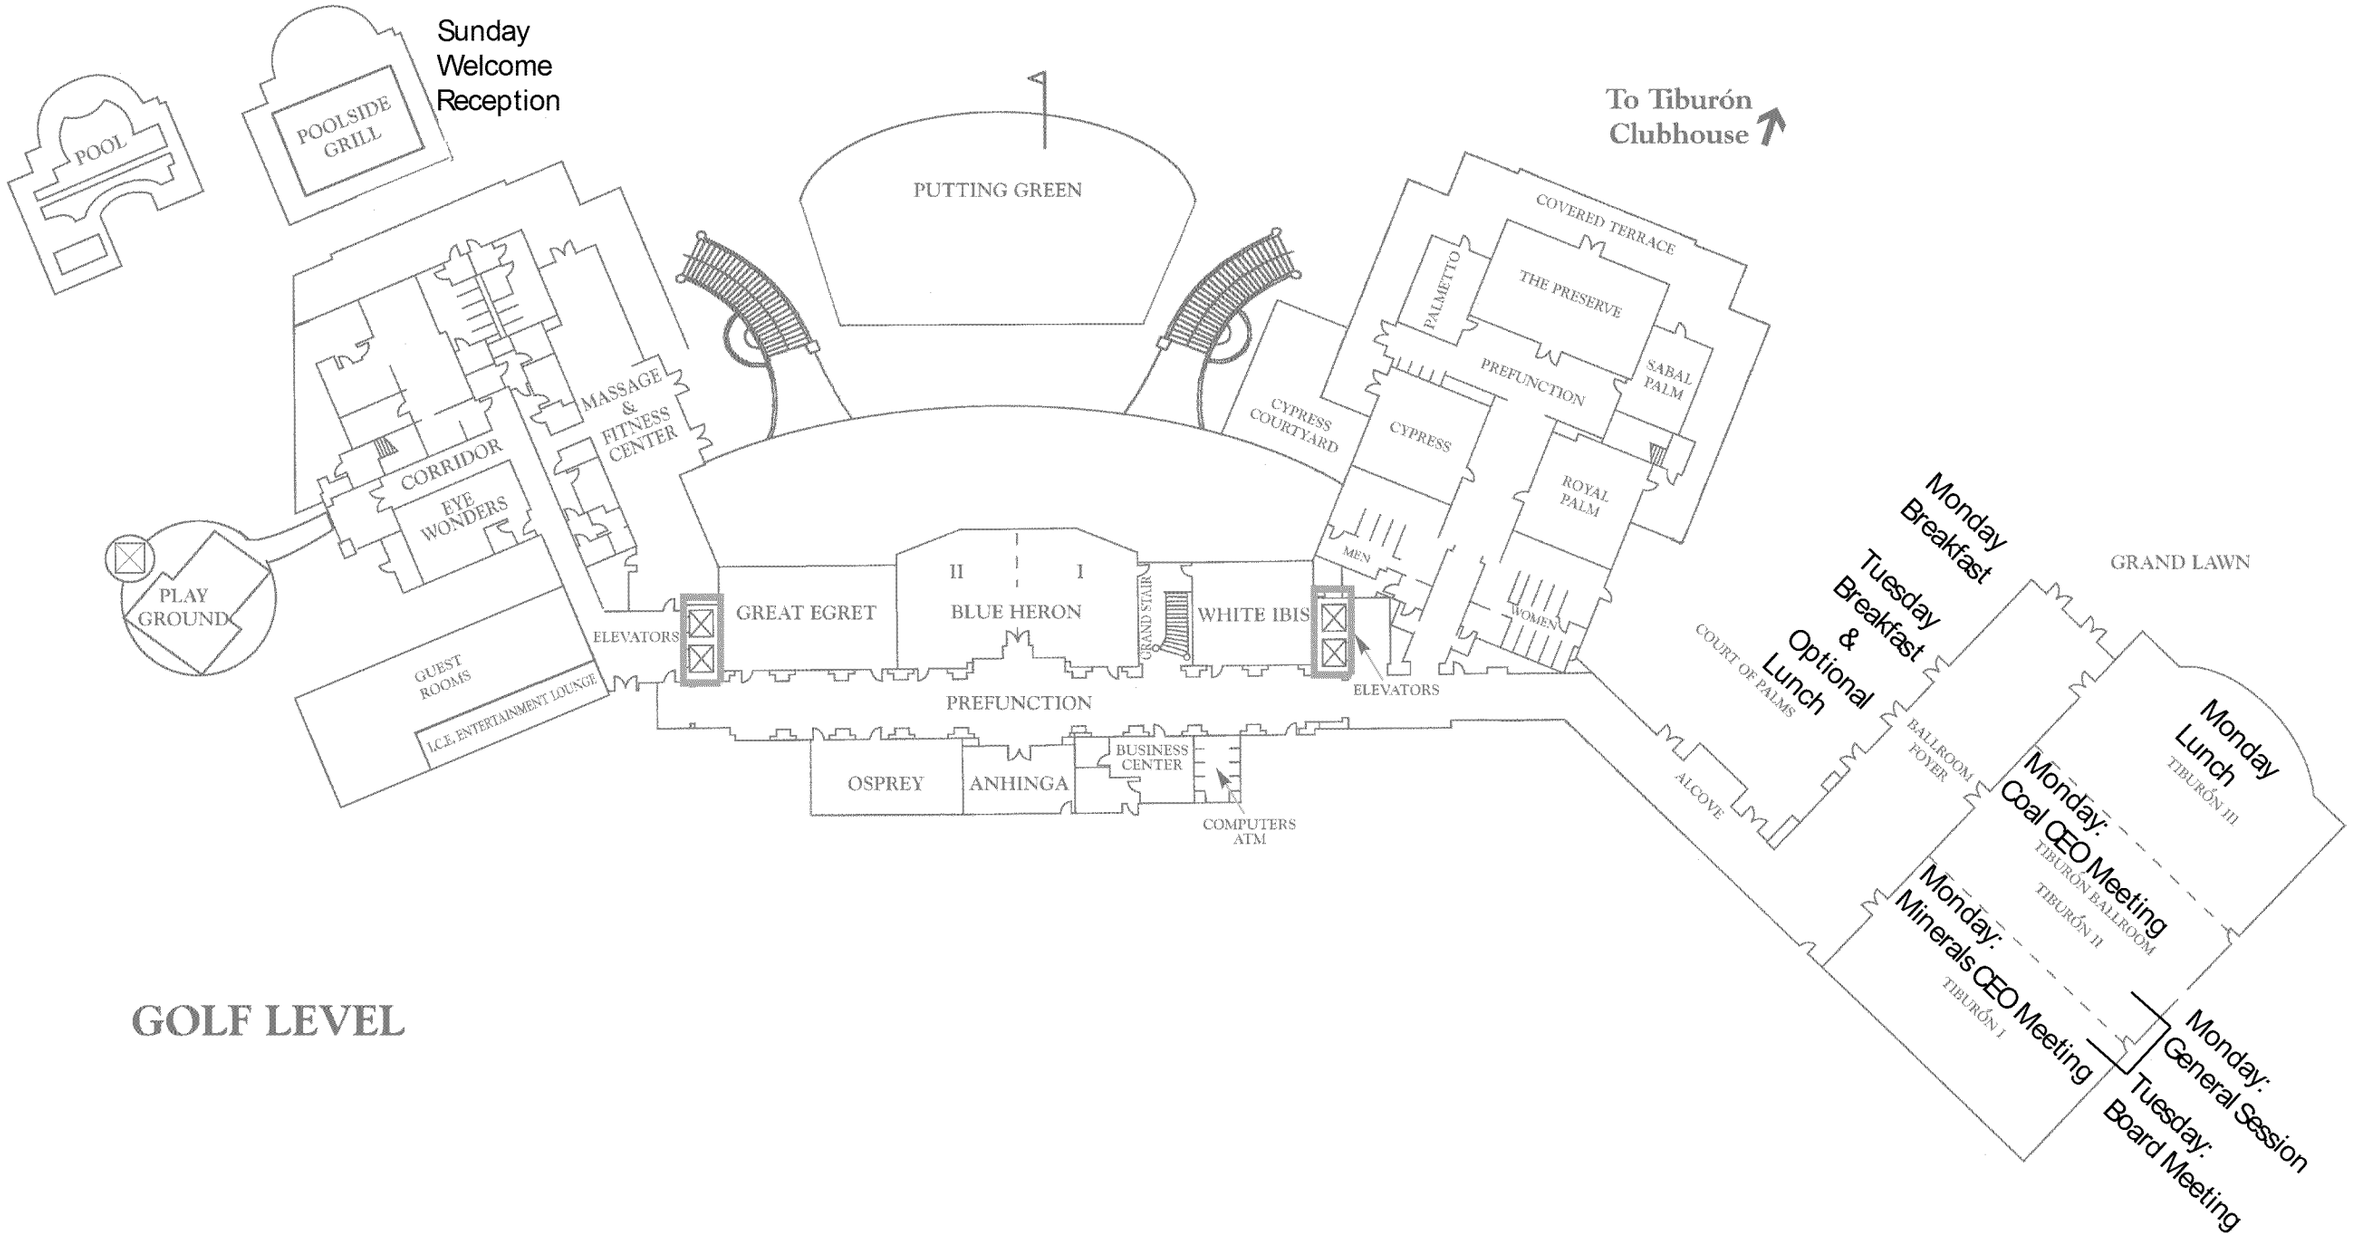
Subject: Administrator Pruitt Visit

Hi again Moya,



Thank you for your time on the phone earlier. I am attaching an event request form with some basic questions that will help us out in the planning of this trip. Would you mind filling it out for us please? Also copying Millan Hupp on this email (my sister) who handles the advance work for Administrator Pruitt. She will likely be making the trip down there as well.

We look forward to Florida!

Thank you!

Morning Rusty!

Since I work with Duane often (and just had him lend his signature to a letter to the General Assembly yesterday re: our strict 1mg/l Mn standard) I don't think it would be appropriate for me to attend without Duane having the opportunity. I will of course defer to you and understand the need to keep it small. I've already been given the opportunity to participate in a roundtable with the Administrator, so I'd be happy to not attend if you'd like to keep the invite list as is. Complicated, I know, but professionally I'd be stepping on toes and our working relationship.

Also, I spoke with Stefanko yesterday and looped him in so that he knows the contact is Lehigh and not Anthracite Council.

Supportive and flexible either way.

Best,

Rachel

One more change highlighted below in yellow –

Also, I have spoken to Duane Fegley, PA Anthracite Council, and he understand the need to keep this group small BUT, Rachel or Tate, if you want Duane to attend I will invite him.

Subject: RE: Administrator Pruitt Visit

Let's go ahead and add John Stefanko and Bill Plassio both from the PaDEP. So now the list looks like this:

1. Scott Kroh – President, Robindale Energy
2. Doug Topkis – Director, Lehigh Anthracite, LP
3. Walt Kaufman or Jerry Price, Kaufman Engineering
4. Mike Menghini – PaDEP, District Mining Manager, Pottsville office
5. Bill Reichert, Schuylkill Headwaters group
6. Jim Panaro, Executive VP, Seward Generation & Ebensburg Power
7. Jeff Specht – CFO, Lehigh Anthracite
8. Richard (Rusty) Taylor – CEO, Lehigh Anthracite
9. John Hadesty – safety director, Lehigh Anthracite
10. John Stefanko – PaDEP
11. Bill Plassio - PaDEP

Cc: Hupp, Millan <hupp.millan@epa.gov>
Subject: RE: Administrator Pruitt Visit

I think it looks great Rusty.

As for DEP, you could extend an invite to John Stefanko the heads the Active and Abandoned Mine Program or Bill Plassio who manages the District Mining Offices. I know them both rather well. We didn't have anyone from DEP at Consol, but if you have a good relationship with Mike it could be beneficial.

From: Richard Taylor [mailto:rtaylor@lehighanthracite.com]

To: Bennett, Tate <Bennett.Tate@epa.gov>; Rachel Gleason <gleason@pacoal.org>
Cc: Hupp, Millan <hupp.millan@epa.gov>
Subject: RE: Administrator Pruitt Visit

List of potential attendees –

1. Scott Kroh – President, Robindale Energy
2. Doug Topkis – Director, Lehigh Anthracite, LP
3. Walt Kaufman or Jerry Price, Kaufman Engineering
4. Mike Menghini – PaDEP, District Mining Manager, Pottsville office
5. Bill Reichert, Schuylkill Headwaters group
6. Jim Panaro, VP, Robindale Energy
7. Jeff Specht – CFO, Lehigh Anthracite
8. Richard (Rusty) Taylor – CEO, Lehigh Anthracite
9. John Hadesty – safety director, Lehigh Anthracite

I have trimmed my initial list considerably. I have not included anyone from ARIPPA, although Robindale Energy and Lehigh Anthracite are members. I have not included anyone from PA Anthracite Council (Duane Fegley). I have not included any local, State or Federal elected officials. Obviously, if either of you feel that someone should be included, let me know. Not everyone on the above list will be participating in the mine tour but will plan to join for the roundtable discussion.

Subject: RE: Administrator Pruitt Visit

Thanks for putting this together, Rusty. It looks like a strong program. Adding Millan who heads our scheduling and advance teams just for her situational awareness.

You are correct in that we would not have reporters and it would not be open to press. However, we would likely do a press release- or joint release/ statement- alongside Director Mulvaney on the backend and at the end of the day. Thanks for the intel on the outdoor footwear/ specs of the tour too.

Do you two mind shooting me a list of potential attendees once you have a chance to draft? I agree on there not being much of a need to include local elected given that we want to keep this small.

Thanks again in advance for your hard work on this.

Tate

To: Bennett, Tate <Bennett.Tate@epa.gov>; Rachel Gleason <gleason@pacoal.org>
Subject: RE: Administrator Pruitt Visit

Draft itinerary -

1 pm – arrive at Lehigh Anthracite main office, 1233 East Broad Street, Tamaqua, PA 18252

- All attendees meet in conference room, quick round of introductions,
- Anthracite 101 to provide attendees a better understanding of what they will see on tour.
- Bottled water available, recommend use of rest rooms before departing on field trip.

1:30 pm – tour begins with stop at observation area above coal processing plant

- Tour continues by traveling out main haul road to 2nd stop, observation area above active surface mining operation.

2:30 pm – group returns to Lehigh Anthracite main office for round table discussion.

Tentative topics –

- How is anthracite different then bituminous
- Uses of anthracite
- Challenges going forward
- Open discussion
- Closing remarks

Completed by 3:30 pm

The entire tour will be mostly in vehicle, very little walking, no underground mining. Attendees should wear outdoor foot ware, both stops to view coal processing plant and active surface mine will be in unpaved areas. Lehigh can provide hart hats and safety glasses.

Tate,

I have viewed several Youtube videos and read several articles of the recent trip by Administrator Pruitt to Consol in SW PA. My assumption is that this visit will consist of less PR, no reporters and a smaller group of officials? Will Administrator Pruitt want to make a public statement during this visit? Please give me as much incite as possible as to the Administrators objective for this visit so we can be prepared. Right now, I am planning for a very low-key, somewhat informal meeting and tour of our operations.

Subject: RE: Administrator Pruitt Visit

Hey Rusty! Nice speaking with you earlier today! Below is the information you requested and I look forward to receiving your tentative schedule.

The Administrator and Director Mulvaneys' security details would likely do a walk through on October 1, the day prior to the event. They will want to go through the officials' agenda step by step, including the tour, seeing the boardroom and a quick view of any vehicles that may be used to transport the officials on the tour (if not theirs).

On October 2, we would look to do an afternoon tour (1 or 2ish) followed by a 45 min-1 hr roundtable to discuss issues impacting the industry.

If you can include more information on what to expect on the tour as well (lots of walking? Is any part of it underground?), that would be great!

Talk soon.

Ryan and Samantha—I hope you are both well. I am following up on the brief discussion with Administrator Pruitt regarding additive manufacturing in the conversation regarding the ICAO aircraft standards.

Attached is an invitation for Administrator Pruitt and his team to visit GE's industry leading additive manufacturing facility in October. We are confident this will be a valuable educational opportunity and something that transforms the way manufacturing is thought about in the future.

This could be scheduled as a day trip to Cincinnati. We propose October 4 but will be flexible around the Administrator's preferences.

Please let me know if I can answer any questions. We look forward to seeing you then. Thank you -- Roger

> **Hi Matthew**

I've been talking with the team here and I what I'd like to suggest is that the IPA hold a two-hour roundtable/meeting/seminar with Scott in either Sydney or Melbourne - whichever is more convenient.

The participants would be as follows:

Professor Peter Ridd from James Cook University. He is professor at the university's College of Science and Engineering and he's written extensively about the scientific method and public policy. You might care to pass on this article to Scott's team as an example of Peter's arguments -
http://www.onlineopinion.com.au/view.asp?article=11455

Dr Jennifer Marohasy who is a Senior Fellow at the Institute of Public Affairs and the editor of a new book 'Climate Change: The Facts 2017'. Jennifer is Australia's authority of temperature and climate variability.

Dr John Abbot from the University of Tasmania who is researching the use of technology in science policy development

Professor Suri Ratnapla from the University of Queensland. He is a professor of law and an authority on environmental rule-making and federal/state relations.

Professor Aynsley Kellow - Professor of Politics and Policy at the University of Tasmania - author of many works on science and public policy.

All of these people are excellent and I know Scott and his team would learn a great deal from a discussion with them.

Other people who I'd suggest Scott should consider meeting would include Maurice Newman, the former chair of the prime minister's business advisory council, Dr Gary Branks formerly of the Productivity Commission, and Henry Ergas the writer and consultant if Henry happened to be in Australia at the time. I can get you all of these people's details.
I've spoken to Brendan Pearson at the Minerals Council and he mentioned that he's working with the Embassy.

I'm very happy to help in any way possible.
kind regards John

Jayme,

Thank you very much for the follow up. Yes, I did receive your email and I am so sorry to have not let you know. We've been on the road since I spoke to you but this is certainly something in which the Administrator would be interested in participating. I have copied his scheduler, Maddy Morris, on this email as she would be glad to work with you to determine the best fit.

You had mentioned that if we could not make October 2o work then there may be another opportunity to spend time with your folks. Could you kindly let us know what those opportunities might be?

Additionally, we always welcome suggestions with regards to our ongoing outreach to stakeholders and other groups. We are hopeful to spend some time in Texas in the near future.

Thank you,

Millan

Millan,

Thanks for visiting with me about the possibility of getting your boss to Houston for TXOGA's annual meeting! I've forwarded the email below with a link to TXOGA so you can see more of the details. I confirmed that there will be 250-300 at the luncheon, which is the keynote and preferred time slot for him to speak on October 20. Of course, they would happily rearrange the schedule to accommodate him, if another time that day is a better fit. Also, there is a dinner the night before that we could make work; however, that will be a smaller crowd. The attendees are

high level oil/gas folks, including several CEOs and Texas elected officials. Past speakers have included both Presidents and Laura Bush, Rudy Giuliani, Alan Greenspan, to name a few.

Other speakers on this year's program are CEOs of Pioneer and Enterprise Products. Other companies in The Woodlands are Anadarko and Exxon Mobil and I wouldn't be surprised if those CEOs don't also show up, if Scott is on the agenda. I can also get you the heads of government affairs at any of the companies that could schedule private meetings with their CEOs, if he has a desire for any meetings of those kind. I used to work for Shell and I'm happy to facilitate a meeting there with CEO Bruce Culpepper, if he has any interest.

I've attached the original letter from TXOGA CEO Todd Staples, as well. Let me know if you have any questions, or feel free to get in touch with Todd directly. Thanks for your help and I hope to meet you sometime soon!

Scott,

I will be there one taking the lead on this visit. The working agenda that James provided looks great. We likely would not be able to stay for lunch but the morning meeting and then the speaking engagement both are great.

Our travel preparer is currently working with you all to arrange for the Administrator's travel as well.

Kindly let me know what further information you need from us as this time.

Warm regards,

Monday? I'd like to go through some logistical details with our producer, JoAnna Miller (copied on this email) for the conversation itself. This will just be about the Administrator's time in the general session room on stage – we'll go over exactly what he can expect when he enters the room.

Just let me know a time and I'll send a calendar invite for a conference call – JoAnna and I are not based in the same office so have to conference our calls in.

Thanks so much!

Best,

Liz.

September 12
2pm
EPA Administrator Pruitt's Office
Attendees: Gary Knell, CEO National Geographic , Claire Jones (Vice President, Strategic Communications
National Geographic Society) , Jessica Garrison , Phil Anderson (principal of Navigators Global and advisor to National Geographic)

Hi guys. This is the form I filled out for the September 12 meeting. Although the sept 14 salon dinner has been postponed and as we've discussed before Mr. Knell hopes to maintain this appointment as a way to meet Administrator Pruitt and develop a relationship. Mr. Knell has a strong desire to be supportive to the Administrator on behalf of National Geographic. The salon dinner was postponed to Q1 of 2018 so that the Board of Directors for National Geographic can attend the event. Here is a link to nat geo's board: https://www.nationalgeographic.org/leadership/board-advisors/ . I just noticed that Brendan Bechtel is a member. Administrator Pruitt knows the Bechtel family from visits to their San Francisco office while he was AG. Brendan's grandfather Stephen Bechtel jr. was chief executive over he Hoover Dam project while also President of Bechtel. Amazing 119 year old family business . Also Jean Case is chairman. She is a former exec at AOL and her husband Steve Case was a co-founder of AOL. Very good board.

Good afternoon,

Cabinet Affairs will host an important ethics briefing for all Cabinet spouses and significant others on Friday, October 20 from 10:00 a.m. - 12:00 p.m. in the Secretary of War Suite (EEOB 230A). Stefan Passantino with White House Counsel will conduct the briefing and be available for questions.

Following the ethics briefing, we will have a protocol expert give a presentation specifically tailored for Cabinet spouses. Topics will include frequently asked questions, including titles and forms of address, precedence, gifts, seating, official entertaining, and cross-cultural literacy.

Please let me know if your Cabinet member's spouse or significant other will be available to attend.

Thanks,

Emily J. McBride

- **Aug. 1** overnight (the Governor has offered to have the Administrator and his staff stay at the Carriage House, a residence on the property of the Governor's Mansion near downtown. Conversely, the Administrator can stay downtown)

- **Aug. 2** (sometime between 7:45-8:30am)

o 15-Minute Live Segment – WIBC Radio downtown Indy (Administrator and Governor with host Tony Katz)

o 15-Minute sit-down interview with Hoosier Ag Today, a very friendly newspaper that targets Hoosier farmers, at the South Bend Chocolate Co. downtown Indy

o 2 minute walk/travel time to Governor's office

- **Aug. 2** (8:45-9:15am)

o 30-minute meeting at the Governor's office in the Statehouse

- **Aug. 2** (9:20-9:45am)

o Travel via State Police Vehicle to Mike Starkey Farms, Eagle Creek, Indianapolis

- **Aug.2** (9:45-10am)

o Visit Mike Starkey farms – local farmer who has extensive cover crops and is an optimal example of cover crop/water runoff protection that highlights why WOTUS was unnecessary overregulation. Mike's farm the prime example used by our Congressional delegation in our ongoing appeals to retract the rule.

- **Aug.2** (10am-11am)

o WOTUS Roundtable at Starkey Farm (15-20 farmers and Ag leaders including Farm Bureau, the LG/Secretary of Ag, and others)

- **Aug. 2** (11-noon)

o Travel to Liberty Mine via Indiana National Guard Blackhawk Helicopter

- **Aug. 2** (noon-2pm)

- Event with Steve Chancellor at Liberty Mine/Warrick Power Plant

- **Aug. 2** (2-2:45pm)

- Travel via Indiana National Guard Blackhawk Helicopter to Indianapolis

- **Aug. 2** (2:45pm) Administrator Departs

Lauren,

Thank you so much for accommodating us and for your patience. The luncheon address sounds wonderful and he was humbled when he heard that you all had been so kind as to extend an invitation to speak.

FORMAT: He really enjoys the fireside chat format.

Q&A: The notecard option would be best if we can arrange it that way.

Length: The former is great.

Schedule: Your preference works for us. He typically does not eat so we may have him arrive as they are finishing up. Although, if he were seated with folks with whom you would like for him to interact, we can arrange for him to be there in time for the meal.

Press: I will defer to our press team, Amy Graham, copied on this email.

Subject: RE: Follow up to your invitation for Administrator Pruitt

Millan,

Wonderful! Thank you so much.

I think the luncheon address would be perfect for the Administrator.

A few quick logistics items:

•□□□□□□□□ FORMAT: We can do a stand alone speech or interview style- whichever is his preference.

•□□□□□□□□ Q&A: Is this something Mr. Pruitt would be willing to do? We can do live mic Q&A or could run this aspect where guests pen their questions on notecards/text them in and we sort and filter what is asked

•□□□□□□□□ LENGTH: Typically the flow is 15 minutes of remarks/interview and 25 minutes of Q&A or 20 minutes of remarks/interview and 25 minutes of Q&A

•□□□□□□□□ SCHEDULE: Our preference would be to do meal first, then remarks and Q and A. If that does not work with his schedule we can switch and do remarks and Q&A first – we've had to do this with Congressional votes so we can certainly adjust.

•□□□□□□□□ PRESS: Would you like this to be opened to the press or closed? If open, are you comfortable with us utilizing Facebook Live during his remarks?

I look forward to working with you and Administrator Pruitt's team on this!

Hello Milan,

We look forward to Administrator Pruitt's visit. Yes, I can meet you on the farm on Sunday afternoon; 4:30 to 5:00 pm central time works for me.

The address is

1495 Coleman Road

Franklin, TN

I have found that GPS systems often take people just passed the driveway. I have attached three pictures that I think will help you find the farm. I also intend on being there at the road in a silver Nissan Frontier. If you have any questions when you are en-route, please call my cellphone which is listed below.

Thanks,

Kevin Hensley

Millan,

Hope you had a great Independence Day. Cam Savage indicated that you are the best person for me to follow up with regarding a scheduling request for Administrator Pruitt. I've attached the request form I attempted to submit on June 23. There are additional remarks in the body of the email but I believe all the required information is included in the official form. Thank you so much for taking a look at this and letting me know if it may be possible to schedule.

Sincerely,

Jennifer L. Hallowell

From: Hallowell, Jennifer L.
Sent: Friday, June 23, 2017 1:57 PM
To: Hupp, Sydney
Subject: Scheduling request from the Association of Chamber of Commerce Executives

Sydney,

Good afternoon! You may recall I was put in touch with you by Cam Savage. Our last request didn't work out but I'm reaching out now in a different capacity.

I'm contacting you on behalf of The Association of Chamber of Commerce Executives with a request for Administrator Pruitt to speak to their annual convention in Nashville, Tennessee, July 16-18.

(I've included all the necessary details on the Scheduling Request Form attached to this email.)

The Association of Chamber of Commerce Executives would like to invite the Administrator to speak and exchange ideas with Chamber of Commerce presidents who serve on the Board of Directors and Metro Cities Council during the ACCE annual convention. The 2017 Convention is being held at the Nashville Music City Center in downtown Nashville. It is expected to be the largest gathering of North American chambers of commerce in 20 years.

ACCE is the professional organization of chambers and their professional staffs. With a membership of more than 6,000 from more than 1,000 communities, the ACCE members reflect main street America, as well as metropolitan, regions and states. The collective memberships of ACCE's chambers exceeds 900,000 businesses, ranging from small retail shops to Fortune 100 companies. Because of the depth and breadth of its membership, few groups have a deeper insight into

America's business communities and local economies than ACCE.

Within the ACCE, the Metro Cities Council subgroup has a membership limited to chief executives of chambers in cities with 500,000 or more in population. The Board of Directors, in turn, includes many of these regional entities, but also true activists of all sizes in the chamber movement. Because of the stature of your office and the complex policies you are addressing, this combined audience of 75-100 influential leaders is ideal for delivering your messages and garnering insights from "the field." The 30-45 minute session will ensure an exceptional give-and-take for all parties.

We have four speaking time options for you and the Administrator to consider:

- Sunday, July 16 between 3:30p and 5:30p

- Monday, July 17 between 9:30a and 11:00a OR between 2:00p and 4:00p (preferred)

- Tuesday, July 18 between 2:00p and 5:00p

We would propose that the Administrator give remarks for 15-20 minutes and then take questions for another 20 minutes, but we are flexible.

If possible, we would appreciate a response prior to July 7 so that we may finalize our agenda.

Thank you so much for your consideration and for all you do on behalf America's people and businesses.

Sincerely,

Jennifer L. Hallowell

Hello Millan,

Yes, we are confirmed for the walk through on Sunday, October 22 at 3:00 p.m. I have talked with the hotel and I believe they will have their Director, Bill Simmons (I will confirm) at the walk through.

Millan, thank you for letting me know about the sleeping rooms, I will get those cancelled.

Thank you!

Lisa,

Just wanted to confirm the walk through for 3PM on Sunday, October 22. I have copied SA [redacted] from the Administrator's detail, as he will be with me on Sunday.

Could you kindly confirm that someone from

hotel security will be there as well?

Finally, thank you so much for holding the rooms for us at the Hilton. We will not be needing them for this trip but sincerely appreciate your thoughtfulness

From: Hallowell, Jennifer L.
Sent: Friday, June 23, 2017 1:57 PM
To: Hupp, Sydney
Subject: Scheduling request from the Association of Chamber of Commerce Executives

Sydney,

Good afternoon! You may recall I was put in touch with you by Cam Savage. Our last request didn't work out but I'm reaching out now in a different capacity.

I'm contacting you on behalf of The Association of Chamber of Commerce Executives with a request for Administrator Pruitt to speak to their annual convention in Nashville, Tennessee, July 16-18.

(I've included all the necessary details on the Scheduling Request Form attached to this email.)

The Association of Chamber of Commerce Executives would like to invite the Administrator to speak and exchange ideas with Chamber of Commerce presidents who serve on the Board of Directors and Metro Cities Council during the ACCE annual convention. The 2017 Convention is being held at the Nashville Music City Center in downtown Nashville. It is expected to be the largest gathering of North American chambers of commerce in 20 years.

ACCE is the professional organization of chambers and their professional staffs. With a membership of more than 6,000 from more than 1,000 communities, the

ACCE members reflect main street America, as well as metropolitan, regions and states. The collective memberships of ACCE's chambers exceeds 900,000 businesses, ranging from small retail shops to Fortune 100 companies. Because of the depth and breadth of its membership, few groups have a deeper insight into America's business communities and local economies than ACCE.

Within the ACCE, the Metro Cities Council subgroup has a membership limited to chief executives of chambers in cities with 500,000 or more in population. The Board of Directors, in turn, includes many of these regional entities, but also true activists of all sizes in the chamber movement. Because of the stature of your office and the complex policies you are addressing, this combined audience of 75-100 influential leaders is ideal for delivering your messages and garnering insights from "the field." The 30-45 minute session will ensure an exceptional give-and-take for all parties.

We have four speaking time options for you and the Administrator to consider:

- Sunday, July 16 between 3:30p and 5:30p

- Monday, July 17 between 9:30a and 11:00a OR between 2:00p and 4:00p (preferred)

- Tuesday, July 18 between 2:00p and 5:00p

We would propose that the Administrator give remarks for 15-20 minutes and then take questions for another 20 minutes, but we are flexible.

If possible, we would appreciate a response prior to July 7 so that we may finalize our agenda.

Thank you so much for your consideration and for all you do on behalf America's people and businesses.

Sincerely,

Jennifer L. Hallowell

Subject: Run of Show and add'l docs

Tate- Thanks again for your time today. I'm cc'ing Richard Reavey, CPE's Vice President for Public Affairs, who will be point for this with me being away.

Attached is a proposed run of show along with a list of regulatory policies impacting coal producers and the letter Colin Marshall, Cloud Peak Energy's President and CEO, sent to the Administration regarding the Paris agreement. I've pulled a few sections out of that letter for your review below:

"As you know, after eight years of concerted efforts to destroy our businesses, communities, and way of life, the U.S. coal industry is in poor shape. Actions taken by you, and by Congress, have already improved the outlook for coal producers by stopping several pending regulations and reversing regulations and executive orders that were making it increasingly difficult to run our mines. However, we still need your help. Critically, I am not aware of any utilities who have announced they are changing their existing coal plant closure plans since your election. After nearly a decade of being punished on a near daily basis for generating reliable, affordable energy from domestic coal, U.S. utilities are demoralized and avoiding investment in, maintaining, or improving their existing coal fleets, let alone considering building new plants. As the existing coal fleet is retired, so too will the mines that supply them and the jobs that they support, with devastating impacts on the communities that depend on them. To change that path requires utilities be given the regulatory certainly needed to make long-term investment decisions, and the financial incentives to make investments in coal and coal technology that will help maintain low cost reliable energy that supports so much of the U.S. economy. On the domestic front, this will require action by Congress to provide long-term certainty so it cannot be undone by any future administration."

"Create domestic regulatory predictability that allows long-term investment in coal technology so that coal is part of a long-term energy future that ensures prosperity while addressing Americans' concerns about CO2 and climate. We believe this is best achieved by amendments to the Clean Air Act that set meaningful, long-term reductions in CO2 emissions triggered by a technology standard that realistically determines when emissions reduction technologies are viable and commercially deployable. Accompanying such legislation must be an Energy Bill that creates the tools and incentives to achieve technology development and those emissions reductions, tools such as:

•□□□□□□□ Amendment and expansion of the 45Q Tax Credit for carbon capture and Enhanced Oil Recovery;

•□□□□□□□ Creation of Private Activity Bonds that will help markets finance technology innovation and deployment

•□□□□□□□ Extending the tax and equity benefits of Master Limited Partnerships to carbon capture projects

•□□□□□□□ Authorizing the Department of Energy to engage in Price Stabilization Contracts that diminish the volatility impact of oil price fluctuation on carbon capture projects built around Enhanced Oil Recovery

•□□□□□□□ Ensuring robust funding for Department of Energy Research and Development projects aimed at creating and making commercially available the

technology that will allow the capture, use and sequestration of carbon from coal and natural gas powered energy production and manufacturing."

Let us know what else we can do to help.

All the best-

Rick

CLOUD PEAK ENERGY®

Colin Marshall
President and Chief Executive Officer

April 6, 2017

The Honorable Donald J. Trump
President of the United States
The White House
1600 Pennsylvania Ave., NW
Washington, DC 20500

Dear Mr. President,

Last week's Energy Independence Executive Order represented an extremely important delivery on your campaign pledge to help coal miners and coal communities across the country that everyone at Cloud Peak Energy deeply appreciates.

As you know, after eight years of concerted efforts to destroy our businesses, communities, and way of life, the U.S. coal industry is in poor shape. Actions taken by you, and by Congress, have already improved the outlook for coal producers by stopping several pending regulations and reversing regulations and executive orders that were making it increasingly difficult to run our mines. However, we still need your help. Critically, I am not aware of any utilities who have announced they are changing their coal plant closure plans since your election. After nearly a decade of being punished on a near daily basis for generating reliable, affordable energy from domestic coal, utilities are demoralized and avoiding investment in, maintaining, or improving their existing coal fleets, let alone considering building new plants. As the existing coal fleet is retired, so too will the mines that supply them and the jobs that they support, with devastating impacts on the communities that depend on them. To change that path requires that utilities be given the regulatory certainty needed to make long-term investment decisions, and the financial incentives to make investments in coal and coal technology that will help maintain low-cost reliable energy that supports so much of the U.S. economy. On the domestic front, this will require action by Congress to provide long-term certainty so it cannot be undone by any future administration.

As a coal producer, we do not want to ignore the two-thirds of Americans who believe that climate change is happening and that CO_2 emissions play a role. However, these concerns cannot be allowed to condemn this country, and the world, to energy poverty and economic malaise. Technology currently exists that can address climate concerns while allowing us to benefit from reliable, abundant natural resources like coal. With the right framework, this technology can be commercialized and deployed on a large scale. It's time for Republicans and Democrats in Congress to work together, with your guidance, to create such a framework.

We believe that you have the opportunity to not only lead here in the United States, but to also lead the world out of what UN climate policy author Richard Tol described as twenty-five years of climate policies that have been more about "rewarding allies with rents and subsidies rather than emissions reduction ... twenty-five years of climate policy [that] has made most of us a little poorer ... and some of us a little richer." U.S. leadership could take the world into a new era of global economic prosperity that also addresses concerns about climate and emissions. That leadership requires engagement. We have seen a recent letter by North Dakota Congressman Kevin Cramer that urges you to keep the U.S. in the Paris Agreement on climate while reducing the nation's pledge on emissions reductions that would have caused significant economic damage to the U.S. economy. We strongly support the approach outlined in Representative Cramer's letter and believe it promotes a prosperity-focused approach to addressing climate concerns. With last week's Energy Independence Executive Order to begin unwinding the Obama-era Clean Power Plan, you have already fulfilled your campaign pledge to remove the U.S. from the negative economic impact of the Obama administration's unrealistic emissions reductions. By remaining in the Paris Agreement, albeit with a much different pledge on emissions, you can help shape a more rational international approach to climate policy.

Therefore, while recognizing and expressing our deep appreciation for the important steps you have already taken to help the U.S. coal industry, we request that you continue that leadership in the following ways:

Create domestic regulatory predictability that allows long-term investment in coal technology so that coal is part of a long-term energy future that ensures prosperity while addressing Americans' concerns about CO_2 and climate. We believe this is best achieved by amendments to the Clean Air Act that set meaningful, long-term reductions in CO_2 emissions triggered by a technology standard that realistically determines when emissions reduction technologies are viable and commercially deployable. Accompanying such legislation must be an Energy Bill that creates the tools and incentives to achieve technology development and those emissions reductions tools, such as:

- Amendment and expansion of the 45Q Tax Credit for carbon capture and Enhanced Oil Recovery;
- Creation of Private Activity Bonds that will help markets finance technology innovation and deployment;
- Extending the tax and equity benefits of Master Limited Partnerships to carbon capture projects;
- Authorizing the Department of Energy to engage in Price Stabilization Contracts that diminish the volatility impact of oil price fluctuation on carbon capture projects built around Enhanced Oil Recovery;
- Ensuring robust funding for Department of Energy Research and Development projects aimed at creating and making commercially available the technology that will allow the capture, use and sequestration of carbon from coal and natural gas-powered energy production and manufacturing.

Lead international institutions away from the climate policies of the past twenty-five years. Without U.S. leadership, the failed international policies that have characterized the past twenty-five years will continue to predominate. Addressing climate concerns need not be a choice between prosperity or environment. Your leadership can create a global policy approach to energy and climate that allows for economic prosperity and addresses climate concerns by doing the following:

- While amending the U.S. pledge on CO_2 emissions to undo the economic harm it would have imposed, remain in the Paris Agreement and use U.S. influence to ensure that fossil energy remains a driver of global prosperity for the foreseeable future while addressing climate concerns;
- Ensure that OECD, UN, and other institutions adopt climate policies and tools that include the aggressive development and deployment of High Efficiency Low Emissions (HELE) and Carbon Capture Utilization and Storage (CCUS) technology in accordance with the same scientific and economic consensus that they claim demands action on climate;
- Work to amend the policies of the World Bank, and other multilateral development banks, to ensure their support for and financing of coal-powered utility projects that utilize HELE and CCUS technology;
- With the U.S. having already put $1 billion into the Green Climate Fund, the U.S. should stay in the Paris Agreement to ensure that fossil energy projects that advance technology solutions to greenhouse gas emissions are a major focus for the fund.

We are deeply appreciative of your commitment to helping the coal miners of this country and the communities in which they live and work. You have already done much to stop the regulatory and policy onslaught of the Obama administration that was continually making coal mining more difficult. However, for the outlook for U.S. coal to improve, we need your continued leadership, and action by Congress, to create long-term solutions and the predictable regulatory environment that utilities and producers need to ensure fossil energy remains a driver of prosperity and a part of the answer to concerns about climate.

Thank you for all that you have done and for caring about the men and women who are the U.S. coal industry.

Yours sincerely,

Colin Marshall

Run of Show: EPA Administrator Visits Cloud Peak Energy's Broomfield Office

Contact: Richard Reavey, (720) 412-1582, richard.reavey@cldpk.com; Rick Curtsinger, (720) 256-7781, rick.curtsinger@cldpk.com

EPA: Tate Bennett, (202) 329-3948, Bennett.Tate@epa.gov

Location: 385 Interlocken Crescent, Suite 400, Broomfield, Colorado 80021

Thurs, August 3:

9:30amMT – Administrator Pruitt arrives to CPE office, greeted by Colin Marshall, President and CEO, Cloud Peak Energy, Bryan Pechersky, General Counsel and Executive Vice President, and Richard Reavey, Vice President Public Affairs; group moves to CPE Training Room for remarks and Q&A

9:35amMT – Colin Marshall introduces Administrator Pruitt for his remarks to CPE office employees, followed by limited Q&A

9:55amMT – After Q&A concludes, Administrator Pruitt, Colin Marshall and Bryan Pechersky move to Marshall's office for high-level discussion

10:25amMT – Administrator Pruitt departs CPE office

Additional Notes:

We anticipate 20-30 employees will attend the Administrator's remarks. Cloud Peak Energy is headquartered in Gillette, Wyo., and maintains a corporate office in Broomfield where much of the company's finance and sales teams are located. These departments will make up the majority of those attending.

While Cloud Peak Energy's mine sites are almost solely regulated by the Department of the Interior, the company's customers, large-scale U.S. utilities, fall under EPA purview. The Clean Power Plan and Regional Haze issues have a significant impact on demand for Cloud Peak Energy's coal, most of which is federally leased.

Cloud Peak Energy produced 59 million tons of coal from its three mines in 2016. Electricity generated from that coal was the equivalent of nearly one hour of electricity each day for the United States last year.

Cloud Peak Energy Input on Regulatory Reforms for Coal Industry

IMPACT	Law/Rule	Impact	Status	Comment
Indirect				
	Clean Power Plan NSPS – CO2	Power plants shut down/new plants not constructed	CO2 Final rules have been published, these set CO2 emission standards for new and existing power plants. For existing plants - Supreme Court has granted emergency stay which will remain in effect until the case reaches the Supreme Court. For new power plants – this standard is set to be heard in *State of North Dakota v. Environmental Protection Agency,* No. 15-1381 (D.C. Cir.). **Oppose CPP (litigant). Seek NSR Reform**	The D.C. Circuit on Aug. 30, 2016 issued an order setting an amended briefing schedule. Oral argument scheduled for April 7, 2017.
	Federal Reserve Environmental Risk Rule	Decreased liquidity in commodities markets	Proposed rule: "Regulations Q and Y; Risk-Based Capital and Other Regulatory Requirements for Activities of Financial Holding Companies Related to Physical Commodities and Risk-Based Capital Requirements for Merchant Banking Investments" **Oppose Rule**: NMA Comments Attached	Requires banks to put up billions of dollars in extra capital for investments such as coal to protect against purported legal, reputational and financial risks posed by an environmental accident
	Regional Haze Rule and FIPS for States	Used to pursue early closure of coal power plants	The expansion of the Regional Haze Rules under the Obama administration has gone far beyond protection of visibility and air quality, as do FIPs imposed on states. **These rules need review**.	EPA FIPs need to be curtailed and findings imposing FIPs rescinded.
Direct				
	Ozone Standards	Significant increase in non-attainment areas	EPA published a final rule on Oct. 26, 2015 that reduced the ozone NAAQS from 75 to 70 ppb. challenge to the final rule in the D.C. Circuit. *Murray Energy v. Environmental Protection Agency,* No. 15-1385 (D.C. Cir.). **Oppose Rule – want rescinded**	Other industry and state petitioners have filed challenges as have several environmental groups
	MSHA Overreach	Bloated bureaucracy with shrinking industry leads to over-zealous agency	MSHA requires a substantial right-sizing to match budget and staffing to a smaller industry. **Support Budget and Staffing Reform**	In looking for agency/budget cuts for defense and infrastructure spending, MSHA should be in the cross-hairs.
	OSMRE NOx Blasting Regs	Huge cost increases and	While OSMRE announced it would explore rule-making 80 Fed. Reg. 9,256 (Feb. 20, 2015), it does	

Cloud Peak Energy Input on Regulatory Reforms for Coal Industry

		diminished efficiency	not appear to have completed new regs. **Oppose new regs on blasting.**	
	OSM NEPA Reviews	+ 2 yr delay in permit approvals, additional NGO exposure	Supplementary NEPA reviews have become standard practice to obtain mine plan approvals. **Pursue OSM Reform on NEPA**	Not a result of rule-making, de facto result of WEG litigation. OSM must fully engage in the BLM federal coal leasing NEPA process at the front end of mine development as opposed to adding an additional NEPA process at the end that unnecessarily adds time and uncertainty to the process.

Mr. Leach,

Good morning to you. Our advance and security team will be arriving in Charleston on the morning of Sunday, the 23rd. May we schedule a time to set up a walk-through of events for late that morning?

The address I have is 4460 Five Chop Road, Cameron, SC 29115. Is that correct?

Thank you so much,

Millan Hupp

Subject: Introduction

Liz,

Please meet Forrest McMurray, he will be the lead Advance for this visit and will be able to answer most any of your questions moving forward.

We are in a good place right now. We will await your briefing on the logistics for the day as well as the talking points you are working on.

Thank you,
Millan

Good afternoon,

I am the advance lead for the Administrator's trip to Tulsa this upcoming week. We are working to get you the names of the EPA visitors that will be attending the tour on Wednesday. As for the advance walkthrough it will be myself as well as one agent Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F

We are planning to fly into Tulsa around 12:30 on Tuesday. Could you all do a 2:00PM or 2:30PM walkthrough of the facility on Tuesday afternoon? Also, if you all wouldn't mind shooting over a physical address of the facility I would greatly appreciate it. If you have any questions feel free to email or call my cell. Thank you all for your help.

Forrest McMurray

Lisa,

If you could kindly just provide us with the list of folks that will actually be attending the meeting, that would be all we need. We don't need to know who all has been invited.

Thank you for asking!

> For the reception at 2pm that Wednesday – do you need a list of who exactly has been invited? I know you have the two boards (SIGMA and NATSO) but there are a handful of folks that our CEO would like to personally invite if he's able. Example, Ron Fulenchek is the Senior Director of Environmental for 7-11 and a very active member on SIGMA's Legislative Committee and Ryan would like to extend the invite to him. Would you need a list of folks in the room? It wouldn't be a huge amount added on top of the boards – just a few. Happy to provide the list once it's finalized for your security people.

Lisa,

Good afternoon. Looking forward to meeting you on Sunday. We are getting in earlier that we originally thought and wanted to inquire whether you might be available to move the walk-through up to 11:30AM?

At your convenience, please let us know if Mr. Houston and yourself would be available at the earlier time.

Warm regards,
Millan

Hello Millan,

Yes, we are confirmed for the walk through on Sunday, October 22 at 3:00 p.m. I have talked with the hotel and I believe they will have their Director, Bill Simmons (I will confirm) at the walk through.

Millan, thank you for letting me know about the sleeping rooms, I will get those cancelled.

Thank you!

Lisa,

Just wanted to confirm the walk through for 3PM on Sunday, October 22. I have copied SA [redacted] from the Administrator's detail, as he will be with me on Sunday.

Could you kindly confirm that someone from

hotel security will be there as well?

Finally, thank you so much for holding the rooms for us at the Hilton. We will not be needing them for this trip but sincerely appreciate your thoughtfulness

NOTIONAL ITINERARY FOR EPA ADMINISTRATOR SCOTT PRUITT
August 30-September 8, 2017
Canberra – Sydney - Melbourne

Wednesday, August 30, 2017

Evening Depart Washington ERT Sydney

Friday, September 1, 2017

6:50 AM Arrive Sydney (DL 41)

RON TBD

Saturday, September 2, 2017

TBD **TBD Activities**

TBD **Visit to Taronga Zoo**
Location: Taronga Zoo, Sydney

Notes:

- Program similar to VPOTUS Biden trip
- To include visit with koalas

RON TBD

Sunday, September 3, 2017

TBD **TBD Activities**

TBD **Visit to Gladstone LNG Plant**
Location: Gladstone – Curtis Island

Notes:

- Wendy King, Australian President for ConocoPhillips would like to bring Administrator Pruitt and members of his delegation to visit the LNG Plant in Gladstone
- Visit would showcase the US-Australia relationship in developing gas as an export to the region/world
- This would be a long day trip, and could be accommodated on the weekend.

RON TBD

Monday, September 4, 2017

TBD **Roundtable with NSW Government on Cooperative Federalism**

Last updated 7/12/2017 5:36:43 PM

Location: *TBD*

Notes:

- Closed-door roundtable meeting format
- Focus on federal vs. state relationship and "push-pull" including on environmental issues
- Suggested participants:
    - Minister Gabrielle Upton, NSW Minister for the Environment, Minister for Heritage, and Minister for Local Government
    - Minister Don Harwin MLC, Minsiter for Resources, Minister for Energy and Utiltiies and Minister for the Arts.
    - Vic McGrath (from Thursday Island in the Torres Strait) has held several positions on ministerial advisory committees to the Australian and Queensland Governments including Indigenous Protected Areas, the Arts and a range of Environmental Management issues. He is highly regarded at the community level as well as within government and scientific circles for his unique ability to effortlessly transverse cultural, scientific and governance domains.
    - Christine Covington, solicitor of the Supreme Court of NSW and on the board of the NSW EPA. She is currently the National Practice Group Leader of the Environment and Planning Group at the law firm, Corrs Chambers Westgarth. She has served as a NSW Government appointee to the Central Sydney Planning Committee. She has extensive experience in the NSW Land and Environment Court and the Supreme Court in planning appeals and environmental prosecutions.
    - Julie Savet Ward, on the board of the NSW EPA and is a Fellow of the Australian Institute of Company Directors. Ms Savet Ward has particular expertise in the regulatory environment for sustainability and a deep understanding of the planning, approval, design, construction and delivery of infrastructure, property and natural resource projects. She has particular skills in brokering and managing relationships between government and the community.
    - Dr. Diana Day, non-executive Director of Sydney Water and Adjunct Professor at the University of NSW Global Water Institute. Dr. Day is a company director of federal and state statutory authorities, businesses, universities and not for-profit boards. As a physical and social scientist and educator, she has held senior academic and public sector roles in water and environmental management. In these roles she worked on addressing water quality and security challenges in power development, mining, rural, riverine and metropolitan contexts.

TBD **Green Innovation Site Visit**

Location: *TBD*

Notes:

- Possible location:
    - Frasers Broadway Precinct: tour led by Professor Stuart White, Director of the Institute for Sustainable Futures where he leads a team of researchers who create change towards sustainable futures through independent, project-based research. Professor White's work focuses on achieving sustainability outcomes at least cost for a range of government, industry and community clients across Australia and

internationally. This includes both the design and evaluation of programs for improving resource use efficiency and an assessment of their impact. Professor White has written and presented widely on sustainable futures and is a regular commentator on sustainability issues in the media. The $2bn redevelopment of the Old Kent Brewery site on Broadway in Sydney is one of Australia's most successful examples of green urban regeneration. The University of Technology Sydney ISF was a key partner of Frasers Property in identifying sustainability opportunities for the site. ISF assisted in developing the Frasers Broadway Precinct Water Cycle Strategy to plan significant reductions in overall energy use, water use and solid waste.

TBD **Sydney Harbour Site Visit**
Location: *Sydney Harbour*

Notes:

- Meeting with NSW government and public/private entities on how Australia keeps Sydney Harbour clean and "trash-free"
- To include tour of harbor
- No media but PAS and EPA Press Team will likely take photo spray and engage in social media
- Suggested participants:
    - Ian Kiernan, Clean Up: Ian competed in the solo around-the-world yacht race in 1987 and after seeing littered harbors he was inspired to start an NGO and was the inspiration for "Clean Up Australia Day." Ian gained traction with the United Nations Environment Programme (UNEP), and Clean Up the World was launched in 1993 and has inspired approximately 35 million people from 120 countries annually.
    - Kim McKay AO, Clean Up Sydney Harbour: McKay is the Director and CEO of the Australian Museum, prior Senior Vice President of Global Marketing & Communications for the Discovery Channel and National Geographic in the United States, co-founded the iconic Clean Up Australia and Clean Up the World campaigns, was named one of Australia's 100 Women of Influence by the Australian Financial Review, and co-author of five books.
    - Dr. Peter Steinberg, Sydney Institute of Marine Science (SIMS): SIMS is home to the World Harbour Project, which facilitates research projects across major urban harbors around the world. There are two U.S. partners, Chesapeake Bay and New York Harbor. The New York Harbor has a program linking high school students in the United States and Australia through a "Virtual Environmental Partnership" investigating the sustainability of each school's local water cycle, sponsored by the State Department and the Australian Department of Education.

TBD **Innovative and Responsible Development of Shale Gas Resources Roundtable**
Location: *TBD*

Notes:

- Dialogue that the Administrator would hold with the private sector on hydro-fracking, potentially with the AmCham and member energy companies

- No media
- Suggested participants:
    - AmCham Energy and Resources Committee and member energy companies

TBD **Bilateral Meeting with Federal Courts Judge The Hon John Griffiths**
Location: *TBD*

Notes:

- To discuss judicial environmental regulatory issues
- The Hon John Griffiths: Justice Griffiths' tertiary qualifications include a BA and LLB (First Class Hons and University Medal) from the Australian National University, an LLM from Harvard University and a PhD from Cambridge University. Prior to returning to Australia in 1983 he was a Fellow and Director of Studies in Law at Emmanuel College, Cambridge University and lectured in law at that University. After working for 3 years as the Director of Research of the Federal Administrative Review Council, he joined Dawson Waldron in 1986, where he became a partner. In 1994 he was admitted to the Bar of New South Wales. He was appointed Senior Counsel in 2001. Immediately prior to his appointment Justice Griffiths was also a member of the Judicial Commission of New South Wales and Chairman of the Human Rights Committee of the New South Wales Bar Association.

RON TBD

Tuesday, September 5, 2017

09:55 AM Depart Sydney ERT Canberra

10:50 AM Arrive Canberra

12:00 PM Lunch

TBD **Courtesy Call with Chargé d'Affaires a.i. James Carouso**
Location: *Embassy*

Notes:

- One-on-one format
- To discuss issues that EPA Administrator will raise with Australian interlocutors

TBD **Roundtable with GoA on Environmental Regulatory Reform**
Location: *TBD*

Notes:

- Closed-door roundtable meeting format
- Department of the Environment and Energy suggests they lead the meeting under the following format:

1. The challenges of the whole of government regulatory reform
2. The challenges of environmental regulatory reform

a. Federalism – The role of the Commonwealth, state and territories.
    i. How Australia gives effect to international treaties/conventions
    ii. Judicial issues associated with environmental and energy laws
b. Streamlining regulatory approaches between the Commonwealth and state/territory governments
    i. Regulatory approaches to streamlining environmental regulation - OSS reforms (bilateral agreements, strategic assessments);
    ii. Department's approach to improving regulatory maturity - focus on becoming a becoming a more engaged, risk-based, and transparent regulator, leading to improved experiences for industry and reducing regulatory burden.
    iii. Risk based approach to compliance and monitoring

TBD **Meeting with Minister Frydenberg**
Location: Parliament House

Notes:

- Likely to take place after Question Time in Parliament (i.e., post 3:30 PM)
- Request has been submitted to Minister's Office
- Potentially could include signing of MOU

TBD **Meeting with Deputy Prime Minister Barnaby Joyce**
Location: Parliament House

Notes:

- Likely to take place after Question Time in Parliament (i.e., post 3:30 PM)
- Request has been submitted to Deputy Prime Minister's Office

8:30-9:15 PM **Dinner i.h.o. EPA Administrator Pruitt hosted by Chargé d'Affaires**
Location: CMR

Notes:

- Chargé has agreed to host dinner i.h.o. Administrator
- Diarists for Minister Frydenberg and Minister Canavan aware of dinner and expecting invitations
- Dinner will start late because of Parliament sitting hours (8:15 PM) and Ministers not guaranteed because of business of politics
- Dinner ends at 9:30 PM
- Current guest list:
    1. CDA Carouso
    2. A/DCM Heath
    3. Minister Frydenberg
    4. Minister Canavan
    5. Vanessa Guthrie, Chair, Minerals Council of Australia
    6. Peter Freyberg. Senior Vice Chair, Minerals Council of Australia and Head of Coal Assets, Glencore.
    7. Mike Henry, Vice Chair, Minerals Council of Australia and President Operations, Minerals Australia, BHP.

17cv01906 Sierra Club v. EPA ED_001523B_00002993-00005

8. Paul Flynn, Chair, MCA Coal Forum, Chief Executive and Managing Director, Whitehaven Coal.
9. George Schuller. President – Australia, Peabody Energy
10. Brendan Pearson, Chief Executive, Minerals Council of Australia
11. Administrator Pruitt (EPA)
12. Ryan Jackson (EPA)
13. Jane Nishida (EPA)
14. Sarah Greenwalt (EPA)
15. Samantha Dravis (EPA)

RON TBD

Wednesday, September 6, 2017

TBD **Weston Creek Park Site Visit**
Location: Weston Creek Park

Notes:
- Provides delegation opportunity to see Australian wildlife
- Visit should only last 30-45 minutes at most

TBD **Meeting with ACT Courts**
Location: TBD

Notes:
- Discussion to focus on rule of law and energy/environmental issues, at state/territory level
- Participants could include court justices, public sector interlocutors who work on environmental cases

TBD **Gallery Viewing and Question Time Acknowledgement**
Location: Parliament House

Notes:
- Similar to Sen. McCain visit to Parliament House
- Potential for protests, negative reaction

TBD **"Minerals Week" Speaking Opportunity at Parliament House**
Location: Parliament House

Notes:
- Minerals Council of Australia is running "Minerals Week" at Parliament House the week of September 4-8, and has offered the Administrator a speaking role.
- Audience would be composed of MPs and resources/commodities industry leaders.
- Media would be present
- Speech would take place in public section of Parliament House, thereby raising possibility of protests

TBD **Meeting with Minerals Council of Australia Board of Directors**

17cv01906 Sierra Club v. EPA ED_001523B_00002993-00006

Location: *Hyatt Hotel*

Notes:

- Minerals Council of Australia has offered to host a closed-door, private meeting between the EPA Administrator and the 13-member Board of Directors.
- No media
- No public

6:25 PM Depart Canberra ERT Melbourne

7:35 PM Arrive Melbourne

RON TBD

Thursday, September 7, 2017

TBD **Roundtable with VIC Government on Cooperative Federalism**

Location: *TBD*

Notes:

- Closed-door roundtable meeting format
- Focus on federal vs. state relationship and "push-pull" including on environmental issues
- Suggested participants"
  - Minister for Energy, Environment & Climate Change Lily D'Ambrosio
  - Minister for Water Lisa Neville
  - EPA Victoria Chairman Cheryl Batagol
  - EPA CEO Nial Finegan
  - Additional participants from the Department of Premier and Cabinet

TBD **Roundtable with Think Tank on Free Market Approaches to Environmental Protection**

Location: *Institute of Public Affairs*

Notes:

- Closed-door roundtable meeting format
- Chatham House rules
- CG MEL will reach out to determine availability

TBD **Meeting/Event with Sports and Environment Alliance on Green Sports Alliance**

Location: *TBD*

Notes:

- No large public functions but staged to allow for some public exposure
- To discuss "greening of sports"
- If held, the U.S. Green Sports Alliance would fly to Australia for this meeting to discuss potential collaboration and the economic advantages to greening sports.
- CG MEL will reach out to determine availability
- CG MEL suggests an event with the Sports Environment Alliance Chair and Executive

Director along with individuals from the Melbourne Cricket Ground, AFL, Netball, or other associations to discuss sustainable sports operations within Australia

John,

Good evening to you. Hope you are well and looking forward to a wonderful Thanksgiving holiday. I'd like to determine a good date for the follow up call that we discussed when we spoke a few weeks ago. On this call, I will anticipate including a member of our communications/press team as well as our head of Public Engagement and then likely the appropriate member of our policy team.

May we look at Monday morning, November 28th or Wednesday, November 30th ? Might one of those days work for you and your team?

We look forward to talking with you.

Warm regards,

Millan Hupp

Lauren,

It is very kind of you to bring this to our attention. As you all have made it known that this is a closed press, off the record lunch I see no issue in your allowing him to attend and of course know that it is ultimately your call.

Warm regards,
Millan

Lauren,

Norm Bouton requested bringing his friend and former Fox news contributor Jim Angle as a guest to tomorrow's lunch. Norm says Jim has been retired for two years and currently working on a movie about wine making.

Let me know and thanks,

Randy

Alex,

Good morning to you. It was wonderful to meet you last week and to spend time with you all at Plant Gaston. I wanted to get a few names from you of those who were so helpful to us in preparing for the day. Would you kindly help me to recall those folks?

Probably the people that took the tour with us is who I am trying to remember. I have contact info for you and Houston but I don't recall Jay's last name or the plant manager. Contact info for Jim Heilbron would also be so helpful. There were a couple other gentlemen that were with us the whole time as well whose names I cannot recall. My apologies for the vague descriptors.

Any help you can offer would be wonderful. Thank you.

Hello Millan and Tate:

Per the previous email, I would be happy to have a private conversation to discuss the Administrator's presentation at ACC's upcoming board meeting. Also happy to provide whatever materials you believe would be useful.

I have cc'd my assistant, Holly Halsey who can help arrange a time to chat. I will be out of the office and in the middle of nowhere next week, with very limited access to phone and email. Accordingly, perhaps we arrange something for the following week, which is still a week prior to the speech?

Let me know whatever works for you two. Best, Bryan

Hello Millan and Tate:

Per the previous email, I would be happy to have a private conversation to discuss the Administrator's presentation at ACC's upcoming board meeting. Also happy to provide whatever materials you believe would be useful.

I have cc'd my assistant, Holly Halsey who can help arrange a time to chat. I will be out of the office and in the middle of nowhere next week, with very limited access to phone and email. Accordingly, perhaps we arrange something for the following week, which is still a week prior to the speech?

Let me know whatever works for you two. Best, Bryan

Hi there. See below. Really awesome stuff. Do you want to set a call?

Date: Friday, September 1, 2017 at 8:53 AM
To: Jessica Garrison <Jessica@mdm27.com>
Subject: Pruitt visit

If a potential Pruitt visit seems real, it may be best for us to get on an initial call with eileen, Pruitt's scheduler/advance team and one of Mosaic's key on-the-ground staffers to walk through all the potential permutations we can offer them:

· Mine/dragline tour – a tour of our mining operations. We don't generally allow this, but we could probably get him on to the actual dragline as it is operating. Pretty cool experience.

· Manufacturing/concentrates tour – a driving tour through one of our manufacturing facilities (basically a large, complex chemical plant)

· Reclaimed land tour – either driving or potentially a helicopter tour of our reclaimed lands; heli is the best way to get a sense of the vastness of our landholdings

· Vendor/industry roundtable – We could easily arrange a sit-down with 10-15 of our most key vendors and they could discuss the critical significance of the phosphate industry to jobs, the local/regional economy and the important role they play in that

- Streamsong visit/stay – prime example of innovative reclamation and the economic viability of post-mined land

Sure. Can do.

Also, the site has asked me for boot sizes for the visitors.

Can let me know as soon as you can – how many people will be coming, Mr. Pruitt, his staff, his security, and their boot sizes? US sizing is fine. I realise this might take some time.

Everyone on site including security will need to wear PPE (metatarsal boots, vests, safety glasses and carry gloves), we will have all these for them but will take a few days to order the boots so that they are here in a week.

Lastly, they will also need to wear long sleeve shirts and pants. Most folks were jeans, but khakis are fine as well.

Many thanks

Subject: Metro Visit Options

Millan--

Here is a draft Metropolitan mine tour itinerary for Mr. Pruitt. We project five hours including travel from Sydney -- leaving at 8:30 and returning by 1:00 pm.

This involves a surface tour only and a brief presentation highlighting the story about a mine in the outskirts of Sydney that coexists with the local community. We think it will be an interesting perspective to show Mr Pruitt.

If Mr Pruitt is interested in an underground visit, it can be accomplished but will add considerable time (3 hours). We are happy to accommodate an underground visit if this is important to Mr Pruitt.

Let me know what you think. Many thanks

-Ray

Hi, everyone…. After chatting with some of you today, here's the latest draft. Can everyone put eyes on this and let me know if we're there?

- 11am-11:30am (EST)

o Meeting at the Statehouse – Governor Holcomb, Administrator Pruitt, select officials (still working on this)

- 11:30am-11:55am (EST)

o Travel to Mike Starkey's farm

- 11:55am-12:15am (EST)

o Tour Starkey farm, sit-down with Gary Truitt of Hoosier Ag Today (will include the LG)

- 12:15pm-1:15pm (EST)

o Waters of the United States Roundtable (working with Ted to compile the list, but won't be large. Also, we'll bring in sandwiches.)

- 1:15pm-1:30pm (EST)

o Travel to Eagle Creek Airport

- 1:30pm-2:45pm (EST)

o Travel via BLACKHAWK to Liberty Mine, Booneville

- 1:45pm-2pm (CST)

o Travel to Liberty Mine

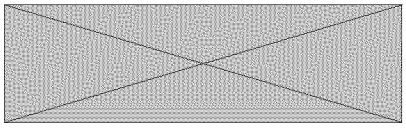
- 2pm-3:20pm (CST)

o Liberty Mine event with Steve Chancellor

- 3:20pm-3:35pm (CST)

o Phone-in TAPED interview with Tony Katz, WIBC, Indianapolis

- 3:40pm (CST)



o Administrator Pruitt will depart from Evansville Airport, Governor Holcomb will depart via BLACKHAWK to Indianapolis

Maddy and Millan,

I understand there's still a possibility the Administrator may be able to join us at our event on Friday, October 20th. Is this accurate?

As you likely know, Texas has worked very closely with the EPA during the ongoing storm and aftermath. The help of the EPA has been instrumental to many of our member companies and their operations. The timing of our event and the attendance of the Administrator would be a perfect time to express our appreciation.

As a reminder, we do still have some availability on our agenda during our dinner the evening of Thursday, October 19th but Friday, October 20th would be ideal.

Thank you,

Neal Carlton

Subject: FW: [External] Join us for the 2017 TXOGA Lone Star Energy Forum

Thank you, Jayme and Maddy.

I am forwarding the form to Neal Carlton, TXOGA's Director of Membership, and have cc'd Mari Ruckel, our VP for Government Affairs, and Kristen Fuchs. Neal will ensure the form is completed and returned today. We previously sent a letter with all the details and I suggest Neal attach with this document of yours.

TXOGA is the state's oldest and largest trade association representing every facet of oil and gas including upstream, midstream and downstream. All sectors would benefit greatly from Administrator Pruitt being able to attend and are hopeful it aligns with his schedule. Our nation's largest operators will be in attendance along with smaller regional and Texas companies. It is really a good mix and is an important gathering worthy of the Administrator's time.

We are needing to finalize our agenda for printing purposes. Do you think it possible we could get a decision this week?

This is the largest of our annual events and really the best one to attend. Should the Administrator need a different venue, we can certainly arrange one to fit his schedule and build attendance associated with it but this one is the most prominent.

Thanks for your consideration.

Liz,

You are very kind to send such a thoughtful note. We truly enjoyed working with you and were incredibly grateful for your attentional to detail and the effort you put into ensuring it was a successful event. It was a true pleasure to work with you and we look forward to hopefully doing so again in the future.

Additionally, I want to offer my deep appreciation to both you and Mr. McNutt for your patience, understanding, and willingness to work with us during our false alarm the day before. You all were wonderful and I appreciate your ability to take it all in stride.

Finally, just wanted to share that the Administrator had nothing but great things to say about the opportunity to participate in your conference. He was grateful for the platform, the invitation, and the hospitality.

If you are hopeful to get a note to the Administrator, it is probably going to be easiest to send it to me via email. I'll be able to ensure he sees it.

Thank you so much,

Millan Hupp

Subject: Thank you!

Hi Millan,

I wanted to reach out to say thank you for everything for the event last week with Administrator Pruitt! Our membership was just thrilled to hear from him and get his insights on the EPA. The A dministrator attending the small reception to meet our board and the board of NATSO was a welcomed opportunity for people to thank him for his work on behalf of the industry after the hurricanes this year. We've gotten nothing but compliments since the talk last Wednesday and I do hope he enjoyed his time with the SIGMA members. While I'm sure the trip was a quick one for him, I do know that SIGMA members will remember the event for a long time.

I can't say enough about Forrest and his team onsite! He was fantastic to work with and was great about working with the hotel and our folks to make sure that everything went off without a hitch. He kept me updated as the Administrator's scheduling came together and was quick to help with problem solving as we moved through the afternoon. I know he and his team work hard to make sure that there is no room for error in the visits and they are top notch.

And thank YOU for all of your help in the weeks leading up to the event! I can imagine that the A dministrator's schedule is not easy to manage and your willingness to work with our team was very appreciated.

Brad Puryear, our 1st Vice President and the one who was on stage with the Administrator, would like to forward a personal thank you to him and I wondered what the best way to do that is. Does the Administrator have an email for thank yous or even mailing address that I could provide to Brad for a note? He really enjoyed getting to chat with Mr. Pruitt and wants to express his thanks.

Thanks again Millan and hopefully we can work together in the future!

Best,

Liz.

Isam,

Hope you are well. Unfortunately, it looks like we will have to bring the Administrator back to D.C. on the 13th which means we may have to cut our day in Marrakech.

We are still hopeful to capture time with Mr. Terrab. Do you think we might be able to do so in Rabat?

Also, did you have any pending meeting requests that eliminating Marrakech might affect?

I welcome your thoughts and guidance.

Thank you,
Millan Hupp

Hi Millan,

Do you have about 30 minutes of availability for a phone call either tomorrow or Monday? I'd like to go through some logistical details with our producer, JoAnna Miller (copied on this email) for the conversation itself. This will just be about the Administrator's time in the general session room on stage – we'll go over exactly what he can expect when he enters the room.

Just let me know a time and I'll send a calendar invite for a conference call – JoAnna and I are not based in the same office so have to conference our calls in.

Thanks so much!

Best,

Liz.

Mike

Date - Friday, October 20, 2017
Time - 3:30 p.m.
Place - Union Pacific Headquarters - 1400 Douglas Street - Omaha, Nebraska

We have made arrangements to use the garage in the headquarters' building. It is on N 15th Street between Douglas and Dodge Streets. Douglas street is a one way street as is 15th. They will come down Douglas and make a left onto 15th. (15th is a short street) Our garage is on the right across from the Residence Inn

Union Pacific Police contact

Tony Paulsen - 402-544-4818 - cell - 402-669-2603 - email - tlpaulse@up.com

Attendees

Lance Fritz - Chairman, President, and CEO - Union Pacific
Cameron Scott - Executive Vice President and Chief Operating Officer - Union Pacific
Scott Moore - Senior Vice President Corporate Relations - Union Pacific
Mike Rock - Vice President External Relations - Union Pacific

Our folks will be coming back from a field visit so they won't be in coat and tie - just FYI.

Mike Rock contact information - 202-662-0130 cell - 202-262-6472 - email - marock@up.com

Items of Discussion

Clean Power Plan
Waters of the U.S.
Railroad Tie Combustion Rule (burning them vs. landfill)
Overall permit reform

==========
Mike Rock
Vice President, External Relations
Union Pacific

Needless to say, this ROCKS!

Please find out when we can announce or if his office would prefer to announce. From communications perspective we'd like to get something out ASAP and preferably from us.

I can write from here, not a problem.

From my POV I'd prefer to have him speak either in the morning or at lunch. While it is true there is from one perspective no news cycle any more, it would be best if we could keep this out of the mid-to-late afternoon. Not critical, but vastly preferable.

Of course, my lips are sealed until you get details worked out with the Administrator's office. If you need me on the call on Monday, just say the word.

Chris

Thank you for your below invitation to Administrator Pruitt. He would be happy to accept and looks forward to this event! I do want to accept with one caveat – we have some pending international travel in January for which the dates have not yet been finalized. However, I think it's flexible to his schedule and so we are confident that we can work them around this. But did want to raise that, in the event it changes. We will know with certainty in the next month or so but we feel comfortable accepting.

I understand that you offered either the breakfast or lunch address spot. We're happy to have a further conversation with you regarding format, timing, etc. We can either have that now if you need to nail down those details or as the event approaches. Additionally, if you could complete the attached speaking request form, this is very helpful to our team in planning.

Let us know if you have any other questions and we look forward to it!

Subject: Invitation to be Keynote Speaker of 2018 Washington DC Auto Show, MobilityTalks International

Dear Administrator Pruitt:

On behalf of the 2018 Washington Auto Show, *MobilityTalks International*® and the Washington Area New Automobile Dealers Association, I'd like to invite you to be the **federal government keynote speaker** at the Washington Auto Show in January.

With your recent arrival in Washington, you may not be familiar with the show. For the last several years it has been the largest event held in the Walter E. Washington Convention Center and attracts a wide variety of media covering both public policy and the auto industry. In the past several high ranking government officials have used the show as a policy platform, including President Obama, Vice President Biden, the EPA Administrator, Secretary of the Department of Transportation, Secretary of the Department of Energy, Secretary of the Department of Labor and many other senior Washington officials.

We would be honored to have you as the Keynote Speaker on **Thursday, January 25**, which is Press Day at the show. We'd recommend either a breakfast or luncheon speech, but understand that you have a very challenging schedule, and are open to any time that meets your needs on that Thursday. Should you wish to attend on consumer days, the show dates are January 26 – February 4.

We can provide varying levels of access for the press depending on the needs of you and your communications team.

I'd be happy to discuss this further with you or a member of your team, at your convenience.

The show offers a unique opportunity to speak to senior executives of the automakers, suppliers and engineers, as well as the press, from a location that is just a few minutes from your office. My team is very familiar with the needs of cabinet level officials and I'm confident we can meet any requirements you have. The timing of the show, at the beginning of the year, I believe is an excellent time for a major policy speech.

We'll contact your scheduler's office to see what next steps might be.

John O'Donnell

EPA NOTIONAL AGENDA FOR JAPAN_ 062917.docx
ATT00001.txt

NOTIONAL ITINERARY FOR JAPAN

Sunday, July 16
Depart Washington: Morning

Monday, July 17
Arrive Tokyo: Late Afternoon

Tuesday, July 18

Coffee with U.S. Chamber of Commerce Energy Committee
Representatives of American companies involved in LNG, nuclear power, energy efficiency, and solar/wind power would be interested in coffee with Administrator Pruitt to discuss issues they face in Japan.

Meeting with Minister of Environment
Follow up on your conversations with Minister Yamomoto at the G-7, including three areas of MOEJ-EPA regional cooperation: 1) air quality; 2) mercury and 3) environmental education.

Meeting with Minister of Economy, Trade, and Industry
METI Minister Seko recently met with Secretary Perry. METI would likely be interested in talking about clean coal and LNG; METI also covers nuclear power. Australia has a geographical advantage over the U.S. in terms of exporting coal to Japan, as transport costs from the East Coast are 3-4 times what they are from Australia. METI would likely emphasize the importance of research and development on USC/IGCC/CCUS technology and exporting it to the rest of the world.

Wednesday, July 19

Morning Bullet Train to Fukushima (1.5-2 hours)

Site Visit: Nakoso High Efficiency/Low Emissions Coal Fired Power Plant
This plant is more advanced than the Isogo plant in Yokhama (outside Tokyo).

Fukushima Renewable Energy Institute (FREA)
Discussion of energy/environment policy changes facing Japan.

Evening Bullet Train to Tokyo (1.5-2 hours)

Thursday, July 20

TEPCO's cutting edge LNG power station (More Advanced Combined Cycle MACC) in Kawasaki http://www.tepco.co.jp/fp/thermal-power/list/kawasaki.html

Potential Air Quality Site Visit

Friday, July 21
Depart Tokyo: Afternoon
Arrive Washington: Late Afternoon

Potential Cultural Visits
If there are gaps in the calendar, ideas for potential cultural visits like Akasaka Temple or a Japanese baseball game would be considered.

Hello Milan,

We look forward to Administrator Pruitt's visit. Yes, I can meet you on the farm on Sunday afternoon; 4:30 to 5:00 pm central time works for me.

The address is

1495 Coleman Road

Franklin, TN

I have found that GPS systems often take people just passed the driveway. I have attached three pictures that I think will help you find the farm. I also intend on being there at the road in a silver Nissan Frontier. If you have any questions when you are en-route, please call my cellphone which is listed below.

Thanks,

Kevin Hensley

Hi Lisa-

Tate Bennett with EPA Public Engagement and Environmental Education here. I handle some of the Administrator's proactive agenda and site visits.

Just gave you a buzz, Lisa, but I wanted to follow up about a potential meeting for Administrator with your NYC Chapter or Chapter Leadership next Thursday the 28th of September(?). Administrator Pruitt will be in the area and would love to get together.

This could be a small or large gathering, and it would not preclude a future visit. Give me a shout when you can?

Matthew,

Thank you. Always appreciate your thoughts. We had a productive call this morning and are waiting on an updated agenda. We are traveling the next couple days but would like to catch up on Friday whenever you are available.

> A few additional thoughts.
>
> I think that the trip will be more hostile than what the Administrator may be expecting. While we have discussed the differences in policies between the Turnbull Administration and the Trump Administration the outright hostility may come to the surface more frequently than you might expect. He needs to be prepared for a more confused and angry group of Aussies.
>
> I also think that having one single meeting with the Victorian Government may be useful politically, but the outcome may be no different than if the Administrator met with Bernie Sanders. That is, the Victorian Government will be hostile to any Trump appointee and when you mix in climate change issues and the Paris Accord - I think the Administrator will not find the local government meeting particularly useful or insightful for him. So if a Vic meeting is important (not to me, tho) I would limit it to one single meeting, check the box, and move on.
>
> I have been in contact with the ExDir of the Institute for Public Affairs, the conservative/dereg think tank, and I believe that they can provide very useful discussions related to the topics of the science of climate change (something that the Aussies are also looking into) and other issues given the work they have done. They are aligned with the Trump vision on various issues, including coal, the challenge to businesses given the environmental approvals required, the unprecedented gov???t control related to gas exploration/development, gas/fracking challenges. These are the inputs/meetings that he should be focused on.

In the next few days I???ll have developed a list of some additional events or people that he should meet, through the IPA vehicle. They also can do an event in Sydney, Canberra and/or Melb - so we are not limited to the Melb.

There are also a few right-leaning Labor Party leaders that it might be worth the Administrator to meet, and I???ll pass along those names as well. I???m also thinking about having him meet privately with the Labor Party Leader, who is likely to become the next Prime Minister, Bill Shorten, who is also a good friend.

Would be interested in the latest outcomes from your call with the Embassy.

On Jul 15, 2017, at 6:05 AM, Matthew Freedman <mfreedman@globalimpact-inc.com> wrote:

Millan:
Great call yesterday. I'm wheels up now but anytime this weekend at 5pm Saturday would be good to followup.

A few items we discussed.

1. A trip to the Outback. The classic is Ayers Rock, locally called Uluru. It will require 24 hours - maybe the weekend eg Sunday works but that would conflict with the visit to the LNG plant. You can google it - www.uluru-australia.com and see. Flights from Sydney are easiest. Usually in the morning, and then stay over one night and take the next morning flight back. Sunset and sunrise are just amazing. In a 100,000 acre national park. Quite an experience. It might change Monday a bit but that would also work out since it seems that the Monday events can be truncated if required and wouldn't impact Canberra or the rest of the schedule.

2. Meetings in Canberra:
Foreign Minister Julie Bishop
Trade and Investment Minister Steven Chiobo
Minister of Resources Matt Canavan
Prime Minister Malcomb Turnbull
Senator and Minister for Agriculture and Water Barnaby Joyce
Senator and Minister for Innovation Industry and Science Arthur Sinodinos

3. Would like to get a formal invitation from the American Australian Council, the dominant US-based NGO to cohost with other NGOs in Aus - like Institute for Public Affairs to discuss deregulation. Can get from Embassy the contact point for IPA if you don't have one with the organization. But would be good to get a US organization extending invitations along with other NGOs, in addition to the formal Aus government invitation.

4. Messaging:

I believe that having a thematic approach would be most beneficial in the future. Innovation Deregulation and Federal/State relations would be the talking points in each meeting, and in any pre- or post-press that is sought. I would identify something EPA is currently doing or will likely be doing to address the issue of innovation as it impacts smaller

staffing, budgets etc. This doesn't lessen the commitment to protecting the environment just an implicit notion that the USG has, in the past, been taking more and more authority and through innovation (agility, speed new public/private partnerships using technology) EPA can meet and further it's core mission.

Innovation can also be related to private sector business (to highlight what they are doing.) Deregulation would be focused on the how foreign governments and partners are untying regulations in order to foster economic growth and job creation. Federal/State relations would be to better understand how others approach the appropriate balance between federal responsibilities and those left to the States. In the end it could be a statement issued by EPA alone, or, ideally, with Minister Frydenberg. We can discuss this idea now and get some closure on a joint statement that can be pre-cooked. If the Adm meets with the PM it will certainly need to be done so both sides have something that they can reference is building a stronger Aus-US partners (see AUSMIN comminque that outlines our overall relationship with US).
dfat.gov.au/geo/united-states-of-america/ausmin
https://www.state.gov/r/pa/prs/ps/2017/06/271560.htm
1.

Each of these three areas allow for a positive dialogue, and followup on a quarterly basis. It may require identifying some things EPA is currently doing now in each of these areas that could contribute to a dialogue, not just in Aus but other countries as well.

You should also seek a State/DOD brief on the destruction of coral reefs by the Chinese, more destruction in the past two years than in the history of man- which is also a good talking point when the Great Barrier Reef protection comes up Aus officials.

Matthew

On Jul 10, 2017, at 11:09 AM, Hupp, Millan wrote:

Thank you, Matthew. Will review these items with our team this morning and report back. Very much appreciate your efforts and look forward to catching up on next steps.

On Jul 10, 2017, at 5:36 AM, Matthew Freedman <mfreedman@globalimpact-inc.com> wrote:

Millan:
Wanted to followup my previous communication.

1. Having thought thru various ideas I like the idea of going to Melbourne and meeting with the Labor Government of the Victorian Government. It allows the Administrator to say that he met both sides, and discussed issues. And they are doing very creative things and the Vic government is 'open for business' so many US companies in the high tech arena are making Melbourne their new corporate HQ home. Maybe we can identify a few of them to connect with the EPA Administrator.

While climate change will not be on the agenda expect it come up and we need to be able to say that we 'agree to disagree' as good friends. I suggested to the Embassy that the Victorian Minister for Innovation and Trade (Philip Dalidakis) be included on their side since having him at the table would be good.

2. Had a long conversation with James Shea, the Embassy lead. He, Cosi (Minister Frydenberg office) and your Advance lead in the International Affairs office will be speaking Tuesday morning to coordinate. The Embassy was not aware of some of the potential requests for meetings so this next call (which is weekly between the parties) should clarify that you, indeed, want to move forward with a formal request to see the Foreign Minister, Minister of Trade and Investment (Steven Chiobo), Prime Minister, and others.

3. The trip might have a theme related to environmental cooperation focused on the topic of innovation - one that both sides can rally around - since both countries are focused on innovation at a national level. And doing more with less requires being smarter and more strategic. Hence, it is useful for the EPA Adm and the Aus counterparts to learn about how each country thinks about protecting the environment in the context of smaller staffs and budgets. The US press has made it sound like less money equals less commitment so changing the dynamic would be useful. Using innovation is a bridge in this regard, and having several EPA activities in this area to

put on the table would be useful. Some of the past EPA/NASA activities might qualify but my information is a little dated.

4. Great Barrier Reef and Tasmania I would agree at this point is a bridge too far for this visit.

Rick and I will attend and will be present but will not be listed as members of the delegation. Also, I will make all arrangements for us; we do not want to utilize any USG assets for our involvement. Friday/Sat/Sun when we arrive will be easy, but we will not likely participate in the official meetings.

Matthew

On Jul 6, 2017, at 9:49 AM, Matthew Freedman wrote:

Millan:
Greetings from Marrakech. Sorry for the delay in followup. I am still collecting inputs from friends but wanted to give you some additional thoughts on scheduling.

I think it is important to play both offense and defense. Offense to move forward the Agenda from the Administrator and defense in terms of a 'risk mitigation' strategy to address in a proactive manner critics from whatever perspective. That is why I urge consideration of some type of deliverable - a Comminique, Statement of Principles, Memorandum of Understanding - something that codifies the goals and objectives of the trip but also the larger issues. This will blunt any criticism in the future and allows the Administrator for focus on the positive outcomes.

The trip will undoubtedly turn to issues where the Administration differs from the current Aus government - climate change is but one issue, but there is no reason not to have an informed and thoughtful discussion. It allows both parties to address critics, and to move on. With a document that can be readied - several paragraphs only - it would frame the meetings and the

agenda that is being put together. That would, by definition, make some meetings more important and others less. For example, State of Victoria meetings might be more important if part of a Communique talked about future discussions on Federal vs State environment issues/deregulation etc. and the Administrator wanted to have a parallel dialogue between EPA and the States in the US.

You also asked about the initial days. Here is an update

Arrival Friday.

-- Since you will arrive around 6:30 am you will either need to get an early check in or have the booked the rooms the previous evening so that they are available. The Embassy will handle but just wanted you to be aware. Walking around Sydney Harbor, the Rocks (where the early boats came in with British prisoners arrived) is fascinating. You will need some down time, too. In the afternoon you might consider taking the ferry from Circular Quay to either the Zoo (15 min). There is a great Chinese/Asian rest, WOO about 7 min walk from the hotel. In fact, Circular Quay, Rocks etc are all within 3 blocks of the hotel so easy logistics. The best single book to understand the foundation and history of Aus is The Fatal Shores which gives the context of how and why the British would round up undesireables and send them to Aus for being petty criminals etc (and no London police force then)

-- Saturday : A morning water taxi ride from Circular Quay to The Boathouse for breakfast would be great. It is owned by the (former) Minister of Trade Andrew Robb, a good friend, and the breakfast food is special. With good weather you can sit outside at picnic tables with umbrellas and enjoy Saturday morning with locals. Also, you can take a15 minute ride to Bondi Beach from Circular Quay and walk as long as you want on a long and winding paved walking trail along the sea at a high level with runners, surfers etc and watch the surfers. I can send some photos if useful to visualize. Definitely a memorable experience. Dinner? Could be at a traditional German place in The Rock, if the Administrator likes German but I'll come up with other options. There are several along on the pier at Woogamalloo - steak, Indian,

Chinese - first rate which is about a 7 min drive from the hotel.

-- Sunday: It would be nice to see if part of the schedule tied to Sydney Harbor clean up that is being proposed for Monday might be shifted even though it may be inconvenient for some. Otherwise, we might think of one or two individual meetings, and then a small CEO roundtable in the hotel in the afternoon. Maybe a visit from the US Consul General to give an overview. I am getting specific suggestions on invitees etc.

I think it may be useful to meet someone in the Labor Party opposition, but will get informal guidance from Josh's office. Again, so the Administrator can say that he heard all sides on environmental issues.

I've received an updated/more detailed draft schedule from the Embassy but reminded them that I'm simply providing input to you and that all the normal decision-making processes and communications need to remain in place, and that my only role is to provide informal input and suggestions to decision-makers.

Would be pleased

Daisy – random question I'm hoping you can point me in the right direction to someone who can answer.

One of our association members, the Aluminum Association, asked if we could do a quick status check on their invitation to Administrator Pruitt to keynote their board meeting Oct. 4 in DC. Their original request is below. They're just looking for a status check – is this still in the hopper and possible, or is the Administrator unable to make it.

It looks like it might conflict with your Sector Strategies rollout, which is why I figured I'd check with you first.

The Honorable Scott Pruitt

Administrator

U.S. Environmental Protection Agency

1200 Pennsylvania Ave., N.W.

Washington, DC 20460

Dear Administrator Pruitt,

On behalf of the Aluminum Association, I would like to invite you to be a key note speaker at our 2017 Annual Meeting in Washington, D.C., October 2-4th at the Loews Madison hotel (15th and M St. NW). Specifically we wonder if you are available to speak at 10 a.m. on Wednesday, October 4.

The Aluminum Association represents the United States aluminum value chain – from primary producers, to recyclers, to fabricators, and their suppliers – as well as the vast majority of U.S. aluminum production and 161,000 direct U.S. aluminum jobs at facilities in 35 states. Aluminum is a key element of the nation's manufacturing base, supporting 713,000 total jobs, and $186 billion in economic output -- approximately 1% of GDP. Our industry is seeing historic domestic demand for aluminum-- particularly in the transportation sector, and investing in manufacturing jobs to meet the demand.

Your unique perspective on the Administration's approach to strategic policies that both ensure environmental protection and promote economic growth will provide great insight to our industry leadership. At our meeting, we anticipate an audience of approximately 125 senior executives of the aluminum industry.

In addition, in the months leading up to the Annual Meeting in October, we respectfully request a meeting with you so that we may bring in some of our industry leaders to discuss the industry, and how we can work together on policy priorities of mutual interest. For instance, we share your priorities for economic growth and environmental regulatory reform and have an interest in the automotive emissions regulations under review.

We would be honored if you would consider our invitation to speak. Please let me know if you would be willing to consider this invitation. If so, we can discuss logistics and other particulars with your team and identify a date for an industry leadership briefing in advance. Again, thank you for your consideration.

Kind Regards,

Heidi Brock

Matt,

Good afternoon to you. I will be advancing Administrator Pruitt's visit on Friday and was hopeful I could set up a time on Thursday to come by the Governor's Residence for a quick walk-through of where the Administrator will be for the day? I will have two members of his security team, SA [redacted] and SA [redacted], with me as well. Kindly let us know if early afternoon might work for you.

Thank you so much,

Event Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Group:

Name of Event:

Date of Event:

Type of Event (banquet, lecture, panel discussion, etc.):

Role of the Administrator:

Approximate time will the Administrator's Remarks Begin (example 9:00 am):

Expected length of the Administrator's remarks:

Will there be Q&A? If so, for how long and who from? Ex: press, attendees:

Event begins (example 9:00 am):

Event ends (example 9:00 am):

Event address (*please include room name or number if applicable*):

Will there be a hold room for the Administrator? (please include room name and/or number):

Please list the name and title of the individual who will introduce the Administrator:

Approximate size of the audience. Please also include a brief description of the makeup of the audience (*attorneys, business owners, veterans, students etc.*):

Please indicate your request for the topic of the Administrator's remarks, if applicable:

Please list any special guests, elected officials, or other dignitaries who are invited or are expected to attend:

Please list any other speakers at this event:

Is this event open to the media?:

Please list a point of contact for the day of the event, including a cell phone number and e-mail address for the contact:

If applicable, please list the name(s) and contact information of the person(s) who will greet the Administrator upon arrival, including a cell phone number and e-mail address for each contact:

Please list any special information or directions, such as ongoing construction, specific points of entry, or parking instructions, about the event or location:

Please list below any other relevant information such as agendas, background information or other relevant information about the event. (*Information may also be attached and submitted with this form.*)

Please include a contact number for the event location:

Please indicate whether this event is held weekly, monthly or annually:

Please indicate the attire for this event (*business, formal, casual, etc.*):

Please list any agencies, businesses, schools or universities, or other organizations that may be sponsoring or co-sponsoring this event:

Please provide the security contact if contracted or head of security for event location:

Catherine,

Good morning to you. SA Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F and myself will be traveling into Nashville in advance of Administrator Pruitt's 2PM meeting with Governor Haslam on Monday, October 23. If possible, we are hopeful to find a good time to come by the Capitol on Sunday, October 22 for a quick walk-through. We could do early afternoon, maybe 1PM or 2PM, if that might work for you?

I look forward to hearing from you.

Thank you so much,

Maddy and Millan,

I understand there's still a possibility the Administrator may be able to join us at our event on Friday, October 20th. Is this accurate?

As you likely know, Texas has worked very closely with the EPA during the ongoing storm and aftermath. The help of the EPA has been instrumental to many of our member companies and their operations. The timing of our event and the attendance of the Administrator would be a perfect time to express our appreciation.

As a reminder, we do still have some availability on our agenda during our dinner the evening of Thursday, October 19th but Friday, October 20th would be ideal.

Thank you,

Neal Carlton

Maddy:

Just to add to this, with every industry sector actively participating in this event, we do think it would be greatly beneficial to both the Administrator's goals for the Agency and industry if he is able to make it to the event. Let us know if we need to work on anything to make this possible.

Thank you!

Thank you, Jayme and Maddy.

I am forwarding the form to Neal Carlton, TXOGA's Director of Membership, and have cc'd Mari Ruckel, our VP for Government Affairs, and Kristen Fuchs. Neal will ensure the form is completed and returned today. We previously sent a letter with all the details and I suggest Neal attach with this document of yours.

TXOGA is the state's oldest and largest trade association representing every facet of oil and gas including upstream, midstream and downstream. All sectors would benefit greatly from Administrator Pruitt being able to attend and are hopeful it aligns with his schedule. Our nation's largest operators will be in attendance along with smaller regional and Texas companies. It is really a good mix and is an important gathering worthy of the Administrator's time.

We are needing to finalize our agenda for printing purposes. Do you think it possible we could get a decision this week?

This is the largest of our annual events and really the best one to attend. Should the Administrator need a different venue, we can certainly arrange one to fit his schedule and build attendance associated with it but this one is the most prominent.

Thanks for your consideration.

Tate- Thanks again for your time today. I'm cc'ing Richard Reavey, CPE's Vice President for Public Affairs, who will be point for this with me being away.

Attached is a proposed run of show along with a list of regulatory policies impacting coal producers and the letter Colin Marshall, Cloud Peak Energy's President and CEO, sent to the Administration regarding the Paris agreement. I've pulled a few sections out of that letter for your review below:

"As you know, after eight years of concerted efforts to destroy our businesses, communities, and way of life, the U.S. coal industry is in poor shape. Actions taken by you, and by Congress, have already improved the outlook for coal producers by stopping several pending regulations and reversing regulations and executive orders that were making it increasingly difficult to run our mines. However, we still need your help. Critically, I am not aware of any utilities who have announced they are changing their existing coal plant closure plans since your election. After nearly a decade of being punished on a near daily basis for generating reliable, affordable energy from domestic coal, U.S. utilities are demoralized and avoiding investment in, maintaining, or improving their existing coal fleets, let alone considering building new plants. As the existing coal fleet is retired, so too will the mines that supply them and the jobs that they support, with devastating impacts on the communities that depend on them. To change that path requires utilities be given the regulatory certainly needed to make long-term investment decisions, and the financial incentives to make investments in coal and coal technology that will help maintain low cost reliable energy that supports so much of the U.S. economy. On the domestic front, this will require action by Congress to provide long-term certainty so it cannot be undone by any future administration."

"Create domestic regulatory predictability that allows long-term investment in coal technology so that coal is part of a long-term energy future that ensures prosperity while addressing Americans' concerns about CO2 and climate. We believe this is best achieved by amendments to the Clean Air Act that set meaningful, long-term reductions in CO2 emissions triggered by a technology standard that realistically determines when emissions reduction technologies are viable and commercially deployable. Accompanying such legislation must be an Energy Bill that creates the tools and incentives to achieve technology development and those emissions reductions, tools such as:

•□□□□□□□□ Amendment and expansion of the 45Q Tax Credit for carbon capture and Enhanced Oil Recovery;

•□□□□□□□□ Creation of Private Activity Bonds that will help markets finance technology innovation and deployment

•□□□□□□□□ Extending the tax and equity benefits of Master Limited Partnerships to carbon capture projects

•□□□□□□□ Authorizing the Department of Energy to engage in Price Stabilization Contracts that diminish the volatility impact of oil price fluctuation on carbon capture projects built around Enhanced Oil Recovery

•□□□□□□□ Ensuring robust funding for Department of Energy Research and Development projects aimed at creating and making commercially available the technology that will allow the capture, use and sequestration of carbon from coal and natural gas powered energy production and manufacturing."

Let us know what else we can do to help.

All the best-

Rick

John Negroponte? We don't have him scheduled anywhere.

We also have scheduled a separate meeting at 1PM. We have been assured we will be able to use the same meeting room and that we will be responsible for escorting this person up to our room.

Thank you so much,
Millan

Kevin,

I am so sorry, could we please push to 130 tomorrow? The Administrator has a meeting at the Capitol on Monday as well, and with it being Sunday we just got word that they need to do that walk-through with us at 1230.

Many apologies for the multiple changes.

Hello Milan,

We look forward to Administrator Pruitt's visit. Yes, I can meet you on the farm on Sunday afternoon; 4:30 to 5:00 pm central time works for me.

The address is

1495 Coleman Road

Franklin, TN

I have found that GPS systems often take people just passed the driveway. I have attached three pictures that I think will help you find the farm. I also intend on being there at the road in a silver Nissan Frontier. If you have any questions when you are en-route, please call my cellphone which is listed below.

Thanks,

Kevin Hensley

Kevin,

Good morning to you. SA [redacted] and myself will be traveling into Nashville in advance of Administrator Pruitt's participation in the 3:30PM event at Eddie Sanders' farm on Monday, October 23. If possible, we are hopeful to find a good time to come by the Farm on Sunday, October 22 for a quick walk-through. We could do late afternoon, maybe 430 or 5PM, if that might work for you?

I look forward to hearing from you.

Thank you so much,

Subject: Metro Visit Options

Millan--

Here is a draft Metropolitan mine tour itinerary for Mr. Pruitt. We project five hours including travel from Sydney -- leaving at 8:30 and returning by 1:00 pm.

This involves a surface tour only and a brief presentation highlighting the story about a mine in the outskirts of Sydney that coexists with the local community. We think it will be an interesting perspective to show Mr Pruitt.

If Mr Pruitt is interested in an underground visit, it can be accomplished but will add

considerable time (3 hours). We are happy to accommodate an underground visit if this is important to Mr Pruitt.

Let me know what you think. Many thanks

-Ray

Hi Millan,

We have adjusted our program slightly to fit in the Administrator at 6pm on Thursday, October 19th at The Woodlands Resort and Conference Center. We have a reception starting at 5:30pm in the Grand Ballroom Foyer and our Distinguished Service Awards dinner (honoring Concho CEO Tim Leach) at 6:30pm in the Grand Ballroom. Regarding format, our preference is 15-20 minutes of remarks with 5-10 min of Q&A. Given the 6pm timing, his remarks would be via podium mic or handheld mic in the Foyer to the reception attendees. Depending on where his 8:40pm flight is departing, would it be possible to push the Administrator's remarks to 6:30pm so we can have everyone in the Grand Ballroom and seated and we'll have him out the door by 7pm? We'll certainly make 6pm work but I wanted to see if there is any flexibility so we can have everyone in

a more private setting.

Thank you,

Neal Carlton

Maddy and Millan,

I understand there's still a possibility the Administrator may be able to join us at our event on Friday, October 20th. Is this accurate?

As you likely know, Texas has worked very closely with the EPA during the ongoing storm and aftermath. The help of the EPA has been instrumental to many of our member companies and their operations. The timing of our event and the attendance of the Administrator would be a perfect time to express our appreciation.

As a reminder, we do still have some availability on our agenda during our dinner the evening of Thursday, October 19th but Friday, October 20th would be ideal.

Thank you,

Neal Carlton

Subject: FW: [External] Join us for the 2017 TXOGA Lone Star Energy Forum

Thank you, Jayme and Maddy.

I am forwarding the form to Neal Carlton, TXOGA's Director of Membership, and have cc'd Mari Ruckel, our VP for Government Affairs, and Kristen Fuchs. Neal will ensure the form is completed and returned today. We previously sent a letter with all the details and I suggest Neal attach with this document of yours.

TXOGA is the state's oldest and largest trade association representing every facet of oil and gas including upstream,

midstream and downstream. All sectors would benefit greatly from Administrator Pruitt being able to attend and are hopeful it aligns with his schedule. Our nation's largest operators will be in attendance along with smaller regional and Texas companies. It is really a good mix and is an important gathering worthy of the Administrator's time.

We are needing to finalize our agenda for printing purposes. Do you think it possible we could get a decision this week?

This is the largest of our annual events and really the best one to attend. Should the Administrator need a different venue, we can certainly arrange one to fit his schedule and build attendance associated with it but this one is the most prominent.

Thanks for your consideration.

Subject: RE: Nebraska schedule

No bother at all. That meeting is at 3:30.

It is very kind of you to offer to set up lunch. Although I am unsure if anyone will have the availability to partake as any staff traveling with him will be in the meeting.

We certainly would love suggestions as we likely will want to find a place for him to eat in Lincoln before heading to Omaha.

Thank you.

Two other quick questions, and then I'll stop bothering you:

What time is the UP event Friday afternoon?

And, how many staff will you be traveling with? I'll line up lunch for everyone on Friday, for those that aren't directly involved with the meeting.

Thanks,

Matt

Brian,

Just for my clarification, I noticed on the itinerary, there is a 07:40 KFAB interview prior to the 08:00 stop in Lincoln. Is the radio interview via phone, or is that an actual stop at the station, which is in Omaha?

Thanks,

Matt

Mr. Martella,

Good afternoon to you. Yes, we have you held on the calendar for Wednesday, October 4. We currently have a commitment that morning in DC but expect to be able to get the Administrator into Cincinnati by 1130AM. Additionally, he must travel to Colorado Springs that evening on a 4:50PM flight. Kindly let me know if a timeframe of 1230PM – 330PM might work for what you are envisioning.

Thank you so much for your consideration and I look forward to hearing from you. I have copied Hayley Ford on this email as well as she is assisting us in Scheduling and is likely with whom you will be working.

Warm regards,

Millan Hupp

> > **Subject:** Follow up regarding Administrator Pruitt additive manufacturing site visit
> >
> > Ryan and Samantha—I hope you are both well. I am following up on the brief discussion with Administrator Pruitt regarding additive manufacturing in the

conversation regarding the ICAO aircraft standards.

Attached is an invitation for Administrator Pruitt and his team to visit GE's industry leading additive manufacturing facility in October. We are confident this will be a valuable educational opportunity and something that transforms the way manufacturing is thought about in the future.

This could be scheduled as a day trip to Cincinnati. We propose October 4 but will be flexible around the Administrator's preferences.

Please let me know if I can answer any questions. We look forward to seeing you then. Thank you -- Roger

Danny,

Looks like Sarah Greenwalt is no long going to be on the Blackhawk. With just 4 people traveling, do you think they would each be able to bring one carry on or should we still work on alternate arrangements for their luggage?

Thank you so much,

Millan

45 minutes from Sydney. However, there is no above ground option there.

Also, our head of Australian operations is part of the dinner on Monday. So, I think he will have the opportunity to talk and meet with the Administrator.

Thanks

There's a nice wine vineyard in the area so another idea is to have the Administrator come out Sunday afternoon to tour, stay overnight, and then head back to Sydney early on Monday morning. Thoughts?

Thanks

Kevin,

I am so sorry, could we please push to 130 tomorrow? The Administrator has a meeting at the Capitol on Monday as well, and with it being Sunday we just got word that they need to do that walk-through with us at 1230.

Many apologies for the multiple changes.

Hello Milan,

We look forward to Administrator Pruitt's visit. Yes, I can meet you on the farm on Sunday afternoon; 4:30 to 5:00 pm central time works for me.

The address is

1495 Coleman Road

Franklin, TN

I have found that GPS systems often take people just passed the driveway. I have attached three pictures that I think will help you find the farm. I also intend on being there at the road in a silver Nissan Frontier. If you have any questions when you are en-route, please call my cellphone which is listed below.

Thanks,

Kevin Hensley

Kevin,

Good morning to you. SA[redacted] and myself will be traveling into Nashville in advance of Administrator Pruitt's participation in the 3:30PM event at Eddie Sanders' farm on Monday, October 23. If possible, we are hopeful to find a good time to come by the Farm on Sunday, October 22 for a quick walk-through. We could do late afternoon, maybe 430 or 5PM, if that might work for you?

I look forward to hearing from you.

Thank you so much,

Millan Hupp

I've been in contact with Alcoa, BHPBilliton and ConocoPhilips. I think we need more private sector inputs to the schedule. Can discuss in more detail.

You should have received last week the justification for the meeting with the FM and the letter from AAC to host meetings. You can ask your GC for approval so everything that is done is approved which is an important protection.

Hi there. See below. Really awesome stuff. Do you want to set a call?

Date: Friday, September 1, 2017 at 8:53 AM
To: Jessica Garrison <Jessica@mdm27.com>
Subject: Pruitt visit

If a potential Pruitt visit seems real, it may be best for us to get on an initial call with eileen, Pruitt's scheduler/advance team and one of Mosaic's key on-the-ground staffers to walk through all the potential permutations we can offer them:

- Mine/dragline tour – a tour of our mining operations. We don't generally allow this, but we could probably get him on to the actual dragline as it is operating. Pretty cool experience.

- Manufacturing/concentrates tour – a driving tour through one of our manufacturing facilities (basically a large, complex chemical plant)

- Reclaimed land tour – either driving or potentially a helicopter tour of our reclaimed lands; heli is the best way to get a sense of the vastness of our landholdings

- Vendor/industry roundtable – We could easily arrange a sit-down with 10-15 of our most key vendors and they could discuss the critical significance of the phosphate industry to jobs, the local/regional economy and the important role they play in that

- Streamsong visit/stay – prime example of innovative reclamation and the economic viability of post-mined land

Subject: RE: Louisiana Chemical Association Annual Meeting

Hayley,

I would imagine they are interested in the current EPA regulations, as well as any future regulations that may come out.

Thoughts?

Lisa,

Can you suggest what your members would like to hear about and potential titles for the speech? I can then bring to our team to confirm.

Thank you for offering a hotel room for the night before. Let me send through our Ethics office to confirm if we are able to accept and get back to you if that's ok.

Thank you!

Hayley,

I hope you are doing well!!

I realize we are still a few weeks out, but do you by chance have a title in mind for the A dministrator's speech? Also, would you know if the Administrator will need a room for Thursday night? We have some speaker rooms set aside at the Hotel if needed.

Thanks!

Hi Greg,

It would be most helpful if you could first complete the attached form with all details you have at this time. I will then look at requested times and we can determine what would work best. Our advance and public affairs team then may want to discuss logistical details and/or message/press.

Thanks!

You should have received last week the justification for the meeting with the FM and the letter from AAC to host meetings. You can ask your GC for approval so everything that is done is approved which is an important protection.

Thank you so much for providing this info, Kevin. I have copied the lead advance agent, SA Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F as he will likely find this information helpful as well.

One question.

1. Could we please secure the green room/hold room exclusively for the Administrator? I see we have a couple other potential meetings in there but, if possible, if would be ideal to have it available should he need privacy. Might we secure the Plaza Boardroom for that purpose?

Most everything else we should be able to hammer out during our walk-through on the 30th.

Thank you so much Kevin.

Erin – please meet Jahan Wilcox, copied here, from our press team.

Jahan – Erin had a few press related questions. We are speaking to their group on Friday morning, December 1st in Des Moines. At this time, this event is closed press but their magazine would like to do a quick interview of the Administrator. I shared with them that it would be best for you and Erin to connect. I also indicated that any media we might want to invite, we would do so a couple days in advance.

We are working on a second stop after this one which might present a better opportunity to include press. Overall, Erin and Kevin are just hopeful to remain up to speed.

Please let me know how I may assist further.

Thank you all,

Levi,

It was great to catch up with you.

I will look for the following items from you.

1. Address of Governor's condo.
2. Times for walk-throughs.
    a. Could we actually start the morning in Grand Forks then finish the day in Fargo? An 8AM or 9AM appointment in Grand Forks would be great. I understand you would not be able to attend.
3. How many folks on the plane. Just the Administrator and his one security detail? Kindly let me know if there is room for his body guy as well.
4. FBOs for the airports.
5. Information on the additional stop.

Thank you so much,

Millan

Thanks Milan. Hello Morgan,

As requested, attached is a table with a sample program for the Council Session and venue/room needs. For this scoping visit, the first table is a good summary of needs.

The additional tables detail the set up and specific requirements that our Secretariat would look when they visit to secure a venue .

We are looking forward to our visit.

With Warm Regards,

Luis Troche

Morgan,

It was so good to talk with you. Attached you will find the proposed agenda Luis has prepared for our scoping mission next week. Hopefully this will assist you all in preparing for our meeting on Wednesday, October 25th. We will be coming in the night before so a 9AM meeting would work well for us if at your convenience, you could kindly confirm on your end.

Those attending will be the following…

Mark Kasman – Director, Office of International and Tribal Affairs

Luis Troche – Senior Advisor for North American Affairs/ Serves on CEC General Standing Committee

Sarah Greenwalt – Senior Advisor to the Administrator for Water and Cross-Cutting Issues (she's a fellow Okie!)

Myself

Luis – Morgan requested the reference table that you provided to Sarah and myself so that she may begin anticipating what our needs will be. Could you please share with her?

Looking forward to next week.

Thank you so much,

To: Matthew Freedman <mfreedman@globalimpact-inc.com>

Hi Matthew
I've been talking with the team here and I what I'd like to suggest is that the IPA hold a two-hour roundtable/meeting/seminar with Scott in either Sydney or Melbourne - whichever is more convenient.

The participants would be as follows:

Professor Peter Ridd from James Cook University. He is professor at the university's College of Science and Engineering and he's written extensively about the scientific method and public policy. You might care to pass on this article to Scott's team as an example of Peter's arguments - http://www.onlineopinion.com.au/view.asp?article=11455

Dr Jennifer Marohasy who is a Senior Fellow at the Institute of Public Affairs and the editor of a new book 'Climate Change: The Facts 2017'. Jennifer is Australia's authority of temperature and climate variability.

Dr John Abbot from the University of Tasmania who is researching the use of technology in science policy development

Professor Suri Ratnapla from the University of Queensland. He is a professor of law and an authority on environmental rule-making and federal/state relations.

Professor Aynsley Kellow - Professor of Politics and Policy at the University of Tasmania - author of many works on science and public policy.

All of these people are excellent and I know Scott and his team would learn a great deal from a discussion with them.

Other people who I'd suggest Scott should consider meeting would include Maurice Newman, the former chair of the prime minister's business advisory council, Dr Gary Branks formerly of the Productivity Commission, and Henry Ergas the writer and consultant if Henry happened to be in Australia at the time. I can get you all of these people's details.
I've spoken to Brendan Pearson at the Minerals Council and he mentioned that he's working with the Embassy.

I'm very happy to help in any way possible.

kind regards John

Kevin,

Good morning. Might it be possible to move our walk-through to earlier in the day on Thursday? Possibly 8AM?

Thank you,

Millan

Millan,

We regret that the Administrator was not able to visit our Mercedes facility during his recent trip to Alabama with Senator Strange. On September 21, we are celebrating our 20th year of production in Alabama and would like to invite the Administrator to participate. In addition to celebrating the past, we plan to announce a significant expansion of the facility including production of environmentally friendly products and the supporting components. We have also extend an invitation to Vice President Pence and would love to have the Administrator there as well.

Please do not hesitate to contact me or Joanna Foust with questions or requests for additional information. Thank you in advance for considering the request.

Thank you, Danny.

Tate -- please see Danny's question regarding who all should be in the Administrator's meeting with Governor Holcomb.

Sent from my iPhone

On Jul 30, 2017, at 1:57 PM, Lopez, Danny <DaLopez@gov.IN.gov> wrote:

Thanks, Millan.

Address for the farm is:

10132 East County Road 700 N.

Brownsburg, IN 46112

Amy… I'm copying Courtney and Stephanie Wilson, the Gov's press secretary, here. As I mentioned to Millan last night, a sit-down with Gary Truitt and Hoosier Ag Today would not only be easy but could be accommodated at the Farm. Given the timing of his arrival, a live spot on radio on Wednesday won't work but we could think about taping a segment Tuesday sometime if the Administrator would be up for that. It would be WIBC radio here in Indianapolis.

This may be a Tate question, but what's your vision for who ought to be in the meeting at the Statehouse? Also, we are working on a list of participants for the WOTUS roundtable and we'll share that with you as soon as we have it.

Finally, the Blackhawk can depart from Eagle Creek Airport, which is just 10 minutes from Starkey's.

Danny -- as you can see in the agenda below, we may be including a private coffee upon arrival into Indianapolis so if we may, could we please keep the current meeting with Governor Holcomb at the Statehouse? I know this is contrary to what we discussed last night and I apologize for the change. Kindly let me know if the rest looks good. I think the only thing I am waiting on from you would be the address of Starkey Farms.

Copying Amy on our press team who will work with your folks to determine how we

want to loop in press on this visit.

Thank you so much,

Millan

Subject: Gaston Plant

Alex,

Good morning to you. It was wonderful to meet you last week and to spend time with you all at Plant Gaston. I wanted to get a few names from you of those who were so helpful to us in preparing for the day. Would you kindly help me to recall those folks?

Probably the people that took the tour with us is who I am trying to remember. I have contact info for you and Houston but I don't recall Jay's last name or the plant manager. Contact info for Jim Heilbron would also be so helpful. There were a couple other gentlemen that were with us the whole time as well whose names I cannot recall. My apologies for the vague descriptors.

Any help you can offer would be wonderful. Thank you.

To: Hupp, Millan <hupp.millan@epa.gov>
Subject: Re: March 31st Federalist Society Lunch

Hi Millan,

Sam is the manager who I work with at Tony Cheng's to coordinate logistics at the restaurant.

Leonard is attending; I have not heard back from Jonathan Bunch, so I am not sure he will attend.

We begin eating at 12:05 - 12:10, we will eat until about 12:35 - 12:40, which is when the address begins. Most of the eating is done by the time the address begins.

If he arrives at 12:30, the attendees will be eating, but most will be done when he begins speaking at about 12:40.

Can you please let me know what staff will be attending with Administrator Pruitt. We can usually accommodate 1 staff member at the head table with the speaker. It would also be very helpful to have the cell phone number of someone who will be traveling with Mr. Pruit, could you please send me a number. My cell phone number is Personal Phone/Ex. 6

Thanks,

To: Hupp, Millan <hupp.millan@epa.gov>
Subject: March 31st Federalist Society Lunch

Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address. Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me; I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at 5[Personal Phone/Ex. 6] which is my cell.

Best,

Juli

Moya – I'm so glad we could get this worked out!

I think that a 1:30 or 1:45 speech then meet with the Executive Committee might be a little better. If he gets in a 12:35 and it is a 30 minute drive, that would put him there just after one and I would want to add a little bit of buffer time in there as well.

On the hotel rooms, I am going to do an email intro for you to our travel coordinator. She will want to be the one to work with you to arrange the accommodations.

Thank you!

Hi Moya,

Looking at flights we might not be able to make the lunch time frame. To play it safe, would it be possible for us to speak closer to 1:30 or 2?

Thank you!

Sydney

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is Personal Phone/Ex. 6

I look forward to working with both of you.

Best regards,

Moya

Hi again Moya,

Thank you for your time on the phone earlier. I am attaching an event request form with some basic questions that will help us out in the planning of this trip. Would you mind filling it out for us please? Also copying Millan Hupp on this email (my sister) who handles the advance work for Administrator Pruitt. She will likely be making the trip down there as well.

We look forward to Florida!

Thank you!

Subject: RE: [External] Join us for the 2017 TXOGA Lone Star Energy Forum

Hi Millan,

We have adjusted our program slightly to fit in the Administrator at 6pm on Thursday, October 19th at The Woodlands Resort and Conference Center. We have a reception starting at 5:30pm in the Grand Ballroom Foyer and our Distinguished Service Awards dinner (honoring Concho CEO Tim Leach) at 6:30pm in the Grand Ballroom. Regarding format, our preference is 15-20 minutes of remarks with 5-10 min of Q&A. Given the 6pm timing, his remarks would be via podium mic or handheld mic in the Foyer to the reception attendees. Depending on where his 8:40pm flight is departing, would it be possible to push the Administrator's remarks to 6:30pm so we can have everyone in the Grand Ballroom and seated and we'll have him out the door by 7pm? We'll certainly make 6pm work but I wanted to see if there is any flexibility so we can have everyone in a more private setting.

Thank you,

Maddy and Millan,

I understand there's still a possibility the Administrator may be able to join us at our event on Friday, October 20th. Is this accurate?

As you likely know, Texas has worked very closely with the EPA during the ongoing storm and aftermath. The help of the EPA has been instrumental to many of our member companies and their operations. The timing of our event and the attendance of the Administrator would be a perfect time to express our appreciation.

As a reminder, we do still have some availability on our agenda during our dinner the evening of Thursday, October 19th but Friday, October 20th would be ideal.

Thank you,

Subject: FW: [External] Join us for the 2017 TXOGA Lone Star Energy Forum

Thank you, Jayme and Maddy.

I am forwarding the form to Neal Carlton, TXOGA's Director of Membership, and have cc'd Mari Ruckel, our VP for Government Affairs, and Kristen Fuchs. Neal will ensure the form is completed and returned today. We previously sent a letter with all the details and I suggest Neal attach with this document of yours.

TXOGA is the state's oldest and largest trade association representing every facet of oil and gas including upstream, midstream and downstream. All sectors would benefit greatly from Administrator Pruitt being able to attend and are hopeful it aligns with his schedule. Our nation's largest operators will be in attendance along with smaller regional and Texas companies. It is really a good mix and is an important gathering worthy of the Administrator's time.

We are needing to finalize our agenda for printing purposes. Do you think it possible we could get a decision this week?

This is the largest of our annual events and really the

best one to attend. Should the Administrator need a different venue, we can certainly arrange one to fit his schedule and build attendance associated with it but this one is the most prominent.

Thanks for your consideration.

Commissioner Murphey,

Good evening to you. Your request for the Administrator to deliver remarks at MARC in June has been forwarded along to me. Could you kindly complete the attached form and return as soon as possible? Once we have this form, we will review in our Scheduling meeting and get an answer to you asap.

I came over from Tulsa so I'm sorry we've yet to have the opportunity to meet but I look forward to doing so in the near future!

Thank you so much,

Millan Hupp

Moya,

Good morning! I'm so sorry, I'm am on the road all this week and am a little slow responding to email.

Regarding the hard hat, I am so sorry but our ethics counsel tells us he cannot accept the gift. We truly wish he could but he would have the purchase it himself in order to accept it.

Staff will include myself and either Lincoln Ferguson or JP Freire. Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F

Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F

Yes, he can do 10 minutes of questions immediately following the remarks. Who will moderate the questions, please?

Thank you! Looking forward to meeting you Sunday.

Regarding the meeting on Sunday, April 23 at Noon for the walk-thru, we should meet in the lobby. The following individuals will be participating from the hotel:

Taylor Svoboda

Meetings and Special Events Manager

The Ritz-Carlton Golf Resort, Naples

Matthew Murphy

Loss Prevention Supervisor

The Ritz-Carlton Golf Resort, Naples

I will be at the meeting as well.

Please let me know if you have any further questions or need anything.

Thank you.

Millan:

The lunch will be in Tiberon #3 and the meeting with the Executive Committee will be in Anhinga. Our office will be available should you need a holding space. It is Sabal Palm. A map of the meeting room space is attached.

A list of NMA's Executive Committee is attached. If you need additional information on the companies, please let me know.

We are confirmed for a walk through on Sunday, April 23 at Noon. I will let you know where we will meet.

Best regards,

Moya

Moya – I'm so glad we could get this worked out!

I think that a 1:30 or 1:45 speech then meet with the Executive Committee might be a little better. If he gets in a 12:35 and it is a 30 minute drive, that would put him there just after one and I would want to add a little bit of buffer time in there as well.

On the hotel rooms, I am going to do an email intro for you to our travel coordinator. She will want to be the one to work with you to arrange the accommodations.

Thank you!

Moya,

Given our flight options and the fact that he will be coming from Tulsa, would it be possible to do the proposed meeting at maybe 10AM then he speak at 11AM before their lunch gets started? We may choose to fly him into Naples on Sunday evening so we are just thinking to maximize his time on the ground in FL. If we push everything up just a little bit, we can get him back to DC sooner.

Look forward to hearing from you! Thank you so much.

Sydney:

I just got out of a meeting on the board meeting and wanted to get to you ASAP. It would be great if Administrator Pruitt would have time for a short meeting with NMA's Executive Committee in addition to his lunch remarks. I can work that meeting around his schedule but I am hoping that the travel will permit it. It would be a meeting with 10-15 people.

Thanks very much!

Moya

Sydney:

Good morning! I know you want to come in and out on the same day. We can make the 1:30 or 2 p.m. work…we will just start lunch a little later. Is that time arrival at the hotel or is a buffer built in?

I have the timing for the General Session on hold until the timing for Administrator Pruitt is worked. Please let me know once you have the flights worked out.

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is Personal Phone/Ex. 6

I look forward to working with both of you.

Best regards,

Moya

Hi again Moya,

Thank you for your time on the phone earlier. I am attaching an event request form with some basic questions that will help us out in the planning of this trip. Would you mind filling it out for us please? Also copying Millan Hupp on this email (my sister) who handles the advance work for Administrator Pruitt. She will likely be making the trip down there as well.

We look forward to Florida!

Thank you!

To: Hupp, Millan <hupp.millan@epa.gov>; Ferguson, Lincoln <ferguson.lincoln@epa.gov>
Subject: Draft questions for Pruitt - NCBA Legislative Conference

Craig Uden (NCBA President) will introduce Administrator Pruitt and then moderate a short Q&A after his speech to the group. A few of the questions that might be asked during the Q&A include –

•□□□□□□□ Role of compliance assistance versus enforcement and need for EPA to provide compliance before enforcement so cattle producers understand the law and how to comply

•□□□□□□□ Value of partnership/collaborative efforts

•□□□□□□□ Cooperative federalism – states being in driver's seat of running their environmental programs

Draft questions for Cattlemen to Cattlemen interview after his speech to NCBA --

1) Cattle producers across the country supported your nomination to lead the EPA and they now look to your leadership to bring common sense back to the EPA, an agency many view as the embodiment of government regulation run amok. What are your guiding principles in leading this agency?

2) The President signed an Executive Order to rescind and replace the Obama Administration's WOTUS Rule, a regulation that cattle producers strongly opposed due to the regulatory overreach and ambiguity. So the EO was a very welcome action to producers. What can we expect to happen next, and what can we do to make sure the cattle industry's voice is heard on a replacement?

3) Administrator Pruitt, we appreciate your understanding that this country's cattle producers are the best stewards of their natural resources. What message would you share with them as environmental sustainability will continue to be a big issue?

4) Administrator Pruitt, the most important question for last: we heard that you might be a big fan of beef. Can you confirm or deny, and if so, what's your favorite cut of steak?

Subject: Re: Invitation to speak at MI

(Ralf, will move you to BCC)

Millian,

The video would be screened at our Hamilton Award Dinner on May 4; attendees would include the Manhattan Institute's board of trustees and other supporters, and high-level figures from media, government, and the non-profit sector. We would of course give your office final approval over his portion of the video. We also might seek to screen it publicly after that, on social media and our website, but would again only do so with your approval.

We are willing to be as flexible as possible to Administrator Pruitt's schedule, with the only constraint being that we'd need to do the filming before April 7 in order to have the video ready in time. We will have a film crew in DC on one of the following days: March 28, March 30, April 4, April 5, and April 7. If any of those dates works on your end, we would prefer to schedule it on those days. But as I said, we'll gladly accommodate whatever time within that range is ideal for you.

The questions we would ask are copied below. Of course, if there are any questions, for whatever reason, that he would prefer not to discuss, we can change this list.

1) How has MI changed American lives for the better?

2) In your opinion, what is the **single-most influential contribution** MI has made to foster greater economic choice and individual responsibility?

2b) And/or, what has been its most significant intellectual contribution? What is the "big idea" from MI that has mattered most?

3) What do you hope the "**next 40 years**" look like for MI?

3b) How might America (or its cities?) look different 40 years from now if MI's ideas are more broadly understood and implemented?

4) What is MI's unique contribution? What differentiates MI from others?

5) Who are your favorite fellow(s) and why?

6) Make any comment that you (the toaster) would like to make (you never know what you get from them)

7) Do you have any thoughts or comments about Larry Mone (MI's President) or Paul Singer (MI's Chairman)?

8) Do you remember your first interaction with MI, its scholars, or their ideas?

9) What wishes do you have for MI for the next 40 years?

10) Would you say that MI's scholars or their work have changed your thinking significantly, on a personal level? Why did you find these ideas compelling or how did they help you see policy/culture differently?

Thank you,

Dean

Hi Millan!

Just thought I'd check in to make sure everything was okay with the request form I submitted last week. As always, feel free to let me know if you need anything further on my part.

I also wanted to introduce my colleague Dean Ball (Cc'd), who is putting together a short 40th Anniversary video to be shown at our annual Hamilton Awards Dinner (to which the Administrator has also been invited). The video would feature interviews with several of our country's most prominent political and intellectual figures discussing their thoughts on MI's past, present, and future; and we'd be honored to include Administrator Pruitt. It would only require about 30 minutes of his time, and we would be more than happy to send someone down to his office to film. If that's something you guys are open to, please feel free to coordinate with Dean.

I look forward to hearing back from you soon.

Kind regards,

-Ralf

Good afternoon, Michelle!

My name is Ralf Mangual, and I manage legal policy projects here at the Manhattan Institute. I just got off the phone with Millan Hupp who kindly returned my call in regards to an invite our President would like to extend to Administrator Pruitt. She asked me to send an e-copy of the letter (see attached) your way. We're thinking late May but are very flexible in terms of timing.

Please don't hesitate to reach out to me at any time if you have any questions or need more information. Thanks in advance for your time, and I hope we'll have the pleasure of hosting Administrator Pruitt again soon.

Kind regards,

-Ralf

Ralf,

Thank you so much for following up. He definitely wants to participate here. If lunch on June 21st is still available then that will work for us!

I apologize that it took us this long to get you an answer.

Hi Millan,

Hope you had a great weekend. I just wanted to follow up to see if your team has had a chance to think about possible dates yet. As you can imagine, our program calendar is pretty robust, so we try to be as strategic as possible in calendaring our smaller events around appearances by high-level speakers such as Admin. Pruitt. That said, if you can give us an idea of what week(s) Admin. Pruitt might prefer (even if not an exact date yet)—or if he's leaning toward speaking at our private board meeting next month in lieu of a public event—that information would be helpful to our event staff in their planning of the broader program calendar.

Best,

-Ralf

Ralf,

Yes, everything was perfect with the request form. The Administrator very much wants to participate here so we are just working on determining the best date.

Dean - it is a pleasure to meet you via email. This sounds like a wonderful opportunity. It is very kind of you all to want to include him! Would you be willing to share what questions you would have of him for this video, who all will be seeing it, and when you would like to do the filming?

Thank you very much,

Millan

Jay,

Good afternoon to you. Just want to ensure we are all set for tomorrow. The Administrator will arrive at roughly 12:15 and will proceed to head table to sit with the other speakers (Sen. Lankford, Rep. Cole, and of course Mrs. Freede). The staff he will have with him will include Lincoln Ferguson and Sarah Greenwalt.

At 12:30, you will get up on stage to introduce him and he will deliver 10 minutes of remarks. There will be no Q&A.

You said there will be press by invitee only. Is that still just the Oklahoman and Journal Record along with the two radio shows?

After delivering him remarks, he will depart the hotel.

Please let me know if there is anything else we should consider or expect that we have not discussed.

Thank you so much,

Millan

Thanks you!

Two more questions:

1.) Who should I connect with in the Administrator's office regarding logistics?

2.) May I connect you with Ericka Andersen who runs *NR*'s social media? She would like to coordinate social media promotion with you.

> On February 17, 2017, the United States Senate

confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Hi Millan –

Great minds think alike…we were just talking about this. Yes – let's talk on Monday the **27th.** How is 10:00 a.m.?

Best, John

Subject: WANADA Follow up call with Admin. Pruitt's team

John,

Good evening to you. Hope you are well and looking forward to a wonderful Thanksgiving holiday. I'd like to determine a good date for the follow up call that we discussed when we

spoke a few weeks ago. On this call, I will anticipate including a member of our communications/press team as well as our head of Public Engagement and then likely the appropriate member of our policy team.

May we look at Monday morning, November 28th or Wednesday, November 30th ? Might one of those days work for you and your team?

We look forward to talking with you.

Warm regards,

Millan Hupp

Director of Scheduling and Advance

Office of the Administrator

Subject: Re: Invitation to speak at MI

(Ralf, will move you to BCC)

Millian,

The video would be screened at our Hamilton Award Dinner on May 4; attendees would include the Manhattan Institute's board of trustees and other supporters, and high-level figures from media, government, and the non-profit sector. We would of course give your office final approval over his portion of the video. We also might seek to screen it publicly after that, on social media and our website, but would again only do so with your approval.

We are willing to be as flexible as possible to Administrator Pruitt's schedule, with the only constraint being that we'd need to do the filming before April 7 in order to have the video ready in time. We will have a film crew in DC on one of the following days: March 28, March 30, April 4, April 5, and April 7. If any of those dates works on your end, we would prefer to schedule it on those days. But as I said, we'll gladly accommodate whatever time within that range is ideal for you.

The questions we would ask are copied below. Of course, if there are any questions, for whatever reason, that he would prefer not to discuss, we can change this list.

1) How has MI changed American lives for the better?

2) In your opinion, what is the **single-most influential contribution** MI has made to foster greater economic choice and individual responsibility?

2b) And/or, what has been its most significant intellectual contribution? What is the "big idea" from MI that has mattered most?

3) What do you hope the "**next 40 years**" look like for MI?

3b) How might America (or its cities?) look different 40 years from now if MI's ideas

are more broadly understood and implemented?

4) What is MI's unique contribution? What differentiates MI from others?

5) Who are your favorite fellow(s) and why?

6) Make any comment that you (the toaster) would like to make (you never know what you get from them)

7) Do you have any thoughts or comments about Larry Mone (MI's President) or Paul Singer (MI's Chairman)?

8) Do you remember your first interaction with MI, its scholars, or their ideas?

9) What wishes do you have for MI for the next 40 years?

10) Would you say that MI's scholars or their work have changed your thinking significantly, on a personal level? Why did you find these ideas compelling or how did they help you see policy/culture differently?

Thank you,

Dean

Ralf,

Yes, everything was perfect with the request form. The Administrator very much wants to participate here so we are just working on determining the best date.

Dean - it is a pleasure to meet you via email. This sounds like a wonderful opportunity. It is very kind of you all to want to include him! Would you be willing to share what questions you would have of him for this video, who all will be seeing it, and when you would like to do the filming?

Thank you very much,

Millan

Hi Millan!

Just thought I'd check in to make sure everything was okay with the request form I submitted last week. As always, feel free to let me know if you need anything further on my part.

I also wanted to introduce my colleague Dean Ball (Cc'd), who is putting together a short 40th Anniversary video to be shown at our annual Hamilton Awards Dinner (to which the Administrator has also been invited). The video would feature interviews with several of our country's most prominent political and intellectual figures discussing their thoughts on MI's past, present, and future; and we'd be honored to include Administrator Pruitt. It would only require about 30 minutes of his time, and we would be more than happy to send someone down to his office to film. If that's something you guys are open to, please feel free to coordinate with Dean.

I look forward to hearing back from you soon.

Kind regards,

-Ralf

Good afternoon, Michelle!

My name is Ralf Mangual, and I manage legal policy projects here at the Manhattan Institute. I just got off the phone with Millan Hupp who kindly returned my call in regards to an invite our President would like to extend to Administrator Pruitt. She asked me to send an e-copy of the letter (see attached) your way. We're thinking late May but are very flexible in terms of timing.

Please don't hesitate to reach out to me at any time if you have any questions or need more information. Thanks in advance for your time, and I hope we'll have the pleasure of hosting Administrator Pruitt again soon.

Kind regards,

-Ralf

From: Hupp, Millan
Sent: Mon 4/10/2017 5:35:31 PM
Subject: Italy

Marlyn,

Italy travel dates and info below.

Flights:

Depart US Sunday, June 4th

Arrive Rome Monday, June 5th

**The flight that might work well for the whole family is a DL 64 departing ATL on June 4th at 6:48PM and arriving in Rome on June 5th at 10:38AM.

Depart Rome for Bologna on Saturday, June 10th (We will be taking the train here as it is much cheaper than flying.)

Depart Bologna for US Tuesday, June 13th

Arrive US on June 13

**Not sure yet on a return flight yet.

Schedule:

Monday: rest day

Tuesday: Mostly rest day – he will likely have one meeting today.

Wednesday: Meetings/speech. Evening will be open for family. They are also looking at

scheduling a Clean Up event with an NGO in Rome called Re-take Rome. This would be an outdoor clean up and would last around an hour. This group has a huge social media following and is really taking the initiative on environmental innovation in Rome. Would be wonderful for you to do as a family. Please let me know if this interests you.

Thursday: Meetings and possibly tour of a green sports stadium. Family could probably meet him to take this tour as well. Evening will be free.

Friday: Meetings and a tour of Sisteen Chapel. Family can meet him to take this tour. Evening will be free.

Saturday: Depart in the morning for Bologna. If family stayed, you could join him in Bologna.

Sunday: Closed door meetings all day. Reception in the evening.

Monday: Closed door meetings all day. Evening might be open.

Tuesday: Depart for US.

***You do not have to participate in any of the tours but if they interest you, please let me know so I can share with the team.

We thought about having him travel back to Rome to fly out but the expense incurred to do that would be too high.

Hotel in Rome:

They have to book him at a per diem rate so excluding Marriotts, the hotel they will book him in is the Hotel Regina Baglioni which is also a 5 star hotel. There are no two bedroom suites so you would have to secure one additional room for Cade and McKenna.

Hotel in Bologna:

Savoia Hotel Regency. You would just need to secure a room for Cade and McKenna

Transportation:

It shouldn't be an issue for you all to ride with him in most instances but I don't believe that they can transport you without him in the car.

The biggest question I need answered is flights. Scott indicated he and McKenna might leave from an airport up here in the NE so would you and Cade meet them out here using miles then you all fly together to Rome or would you and Cade fly completely separately from he and McKenna? How can I help you here?

Thank you!

We are so incredibly grateful to everyone. It's was a great day. You all truly put us at ease and made our job so much easier. The Administrator was very pleased with the day, enjoyed the visit, and was very glad to have had the opportunity to meet so many wonderful people. It seems a few action items came from the last meeting as well which is good.

The state troopers were also an absolute pleasure to work with and went over the top to be accommodating. We would love to send them a thank you note if you have a good contact?

Please don't hesitate to reach out at any time. Thank you again for everything.

Please also share our gratitude with the rest of the team.

Two more questions:

1.) Who should I connect with in the Administrator's office regarding logistics?

2.) May I connect you with Ericka Andersen who runs *NR*'s social media? She would like to coordinate social media promotion with you.

We trimmed down the Administrator's bio. Can we use the version below on our website? Thank you!

On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where

he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Thank you so much, Tate.

Very nice to meet you both via email. Barry – could you kindly send me an agenda for the day in MO? We have the Administrator arriving into Columbia on the evening of Wednesday, April 19.

We are unsure yet if he will have an early morning breakfast in Jeff City but regardless, we have him scheduled to be at Thomas Hill at 10AM. The address I have is 5693 Highway F, Clifton Hill, MO 65244 which appears to be an hour from Columbia.

He has a 2:30PM flight back out of Columbia that afternoon so I believe that we will have to have him back on the road by 12:15. Given the fact that he has such an early flight out, we can definitely arrange to be at the facility earlier than 10AM if you feel that won't be enough time.

I'm available at 202.380.7561 if you want to chat by phone.

Thank you,

Millan

Barry—

Tried you back earlier. Millan, cc'd, who does advance for the Administrator might have a question for you r.e. rough scheduling outline. Millan, Barry is our event guru for the MO event and will have most of the answers, as will Joe who is also cc'd whose on the ground at Thomas Hill.

Good morning Ray,

I am so sorry but will have to reschedule Mr. Kellow's meeting with Administrator Pruitt originally scheduled for tomorrow, October 3. He now has to travel with the President and will be gone for the day. I am sincerely sorry for this last minute cancellation and hope we can find a time to reschedule over the coming weeks.

Thank you so much,

Hello Ray,

I am currently the Administrator's scheduler and wanted to confirm that the Administrator would be happy to meet with Mr. Kellow on 10/3 at 5:30PM. I will have someone follow up with arrival details and directions to the EPA Headquarters. For your planning, it is located at 1200 Pennsylvania Ave NW.

He looks forward to the meeting and let us know if you have any questions before then!

On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Dann,

I am so sorry to just now be responding to you on this! Would you be so kind as to complete the request form I have attached to this email? We are getting so many speaking requests that we are really trying to come up with a system that will make vetting and confirming much faster.

Please let me know if you have any questions and thank you so much for the invitation.

Warm regards,

Millan

Aaron: Washington Policy Center (WPC), a non-partisan, state-based think tank in Washington state, would like to invite Administrator Pruitt to be the keynote speaker at our upcoming Solutions Summit policy conference on Tuesday, May 16th in Spokane.

Our official invitation is attached and below.

Please let me know if you have any questions. We appreciate his consideration of our invitation and we look forward to hearing back at your earliest convenience.

Thank you,

Dann

Dann Mead Smith, President

Washington Policy Center

March 8, 2017

Administrator Scott Pruitt

Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

sent via email: dickerson.aaron@epa.gov

Dear Administrator Pruitt:

The Northwest's leading independent, free-market think tank, Washington Policy Center (WPC), would like to invite you to be the keynote speaker for our statewide 2017 Solutions Summit policy conference in Washington state. The event will be held on Tuesday, May 16, 2017 in Spokane. We hope this date will work with your schedule.

Washington Policy Center will be honored to host you and cover all first-class travel costs for you and a staff member or guest.

The statewide event encompasses two half-day conferences that are designed to provide insight and solutions for our region's top policy challenges. Each conference will feature panels on: the environment, agriculture, education, transportation, budget and taxes, health care, and business & labor reform issues. They will bring together prominent local and national speakers on each of these important issues to help shape the public debate by educating policymakers and informing citizens.

This is our state's largest policy event that will be attended by over 700 people including lawmakers, business and community leaders, media, and civic-minded citizens from across the state. We would be honored to have you join us as the keynote speaker at lunch for the event in Spokane.

Washington Policy Center is a non-profit think tank, similar to The Heritage Foundation and the American Enterprise Institute, and one of the largest and most impactful members of State Policy Network. Our research and education advance the public debate and develop innovative policy solutions.

Year-in and year-out, WPC's events are some of the best-attended in our state, and are a must-attend for some of the nation's top policy leaders including Defense Secretary Gen. Jim Mattis, Dr. Charles Krauthammer, Gov. Susana Martinez, former Defense Secretary Robert Gates, Dr. Ben Carson, Governor Scott Walker, Governor Bobby Jindal, and Governor Mitch Daniels.

Over the past few years, dozens of our ideas have been passed by voters and the legislature and signed into law. Citizens depend on our analysis to make decisions on our state's pressing public policy matters. Our work is featured in the media an average of over seven times a day and has been covered by national media including *USA Today*, CBS News, Fox News, and *The Wall Street Journal*.

Thank you for your consideration of our request. I hope to hear from you at your earliest convenience so we can begin planning your visit.

Sincerely,

Dann Mead Smith

President

Washington Policy Center

Friday is full bore showtime with Sec Perry here and General Petraeus and many others.

I can do it from 5:30-6:15 max I am hosting a dinner for many out of town guests at 6:45 downtown.
Is there any way you could catch an earlier plane? bf

Great! 1pm it is.

I'd recommend watching the video prior.. I think it's about 15mins. That way we just do the breathing portion and have you sign.. you will not have to go through training again on Wednesday, then.

Thanks for the sizes and Eric's, I'll get this over to our team at the mine.

I'm sure you have it mapped but I've attached directions (there is a bridge out on the other side by Rt 18/Patterson creek road so what I've attached is the best way to go).

Thanks,

Zach

Zach,

We can certainly do 1PM.

I have the training video you sent over. Should we do that before we meet you on Tuesday or should we wait until we get there?

Myself: Shoe size 9 and coveralls would probably be a medium.

Chris Smith: Shoe size 12 and coveralls size XXL

Lynnette Horner: Shoe size 8 and coverall size medium

Amy Graham: Will not be going underground.

Thank you!

Millan-

Sounds good, other than timing. We have an operations meeting until noon at our HQ, so myself and our superintendent won't be at the mine until 1... is there anyway we can push so you can arrive around that time?

We can do the walk through, safety training and get everyone underground.. no problem.

Just need names and sizes for equipment (coveralls and boots) for everyone going underground Tuesday.

No cameras/phones will be allowed underground on Tuesday, since we'll need Msha approval.

Give me a ring if you have any questions.

Thanks!

Zach

> On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In

addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Friday is full bore showtime with Sec Perry here and General Petraeus and many others.

I can do it from 5:30-6:15 max I am hosting a dinner for many out of town guests at 6:45 downtown.
Is there any way you could catch an earlier plane? bf

Great! 1pm it is.

I'd recommend watching the video prior.. I think it's about 15mins. That way we just do the breathing portion and have you sign.. you will not have to go through training again on Wednesday, then.

Thanks for the sizes and Eric's, I'll get this over to our team at the mine.

I'm sure you have it mapped but I've attached directions (there is a bridge out on the other side by Rt 18/Patterson creek road so what I've attached is the best way to go).

Thanks,

Zach

Zach,

We can certainly do 1PM.

I have the training video you sent over. Should we do that before we meet you on Tuesday or should we wait until we get there?

Myself: Shoe size 9 and coveralls would probably be a medium.

Chris Smith: Shoe size 12 and coveralls size XXL

Lynnette Horner: Shoe size 8 and coverall size medium

Amy Graham: Will not be going underground.

Thank you!

Millan-

Sounds good, other than timing. We have an operations meeting until noon at our HQ, so myself and our superintendent won't be at the mine until 1... is there anyway we can push so you can arrive around that time?

We can do the walk through, safety training and get everyone underground.. no problem.

Just need names and sizes for equipment (coveralls and boots) for everyone going underground Tuesday.

No cameras/phones will be allowed underground on Tuesday, since we'll need Msha approval.

Give me a ring if you have any questions.

Thanks!

Zach

Two more questions:

1.) Who should I connect with in the Administrator's office regarding logistics?

2.) May I connect you with Ericka Andersen who runs *NR*'s social media? She would like to coordinate social media promotion with you.

We trimmed down the Administrator's bio. Can we use the version below on our website? Thank you!

On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency. As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws. Most recently, Pruitt served as the Attorney General for Oklahoma. Pruitt became a national leader through a career of advocating to keep power in the hands of hard-working Americans. As Attorney General for Oklahoma, he led the state's legal challenges against property rights intrusion, while protecting Oklahoma's natural resources and environment. He is recognized as a national leader in the cause to restore the proper balance between the states and federal government, and he established Oklahoma's first federalism unit to combat unwarranted regulation and overreach by the federal government. Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility. In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales. Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa.

Zach,

We can certainly do 1PM.

I have the training video you sent over. Should we do that before we meet you on Tuesday or should we wait until we get there?

Myself: Shoe size 9 and coveralls would probably be a medium.

Chris Smith: Shoe size 12 and coveralls size XXL

Lynnette Horner: Shoe size 8 and coverall size medium

Amy Graham: Will not be going underground.

Thank you!

Millan-

Sounds good, other than timing. We have an operations meeting until noon at our HQ, so myself and our superintendent won't be at the mine until 1... is there anyway we can push so you can arrive around that time?

We can do the walk through, safety training and get everyone underground.. no problem.

Just need names and sizes for equipment (coveralls and boots) for everyone going underground Tuesday.

No cameras/phones will be allowed underground on Tuesday, since we'll need Msha approval.

Give me a ring if you have any questions.

Thanks!

Zach

Personal Security Detail/Ex. 6/Ex. 7C/Ex. 7E/Ex. 7F

likely check in to our hotel first. I know that Harvey Mine is an hour from the airport. 12PM would probably be best for us to come over. Would that work for you?

Again, thank you.

Millan
